Notes to Financial Statements
March 31, 2012
(Unaudited)

Note 1. Basis of Presentation

The accompanying unaudited financial statements of CKX Lands, Inc. (“Company”) have been prepared in accordance with United States generally accepted accounting principles for interim financial information. They do not include all information and footnotes required by United States generally accepted accounting principles for complete financial statements. Except as described herein, there has been no material change in the information disclosed in the notes to the financial statements included in our financial statements as of and for the year ended December 31, 2011. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included in the accompanying financial statements.

Interim results are not necessarily indicative of results for a full year. These financial statements and accompanying notes should be read in conjunction with the Company’s Form 10-K for the year ended December 31, 2011 and Form 10-Q for the quarterly period ended March 31, 2011.

Note 2. Recently Adopted Accounting Pronouncements

In 2012, we adopted Accounting Standards Update (ASU) 2011-05 which requires the presentation of the components of net income and other comprehensive income either in a single continuous statement or in two separate but consecutive statements. This update eliminates the option to present the components of other comprehensive income as part of the statement of shareholders’ equity.

Note 3. Disclosures about Fair Value:

Note 4: Income taxes:

In accordance with generally accepted accounting principles, the Company has analyzed its filing positions in federal and state income tax returns for the tax years ending December 31, 2008 through 2011 that remain subject to examination. The Company believes that all filing positions are highly certain and that all income tax filing positions and deductions would be sustained upon a taxing jurisdiction's audit. Therefore, no reserve for uncertain tax positions is required. No interest or penalties have been levied against the Company and none are anticipated.

Note 5: Land Sale

During the first quarter of 2012, the Company sold 80 acres of land for \$160,000 and reported a gain of \$124,000. This transaction was structured as a "deferred exchange using a qualified intermediary" pursuant to Paragraph 1031 of the Internal Revenue Code (1031 Exchange) for income tax purposes. Due to the 1031 exchange, the gain of \$124,000 is deferred for income tax purposes. At March 31, 2012, the 1031 exchange has not been completed and \$159,003 in net proceeds is held by the intermediary and restricted to use by the Company.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of Operations

Revenue

Revenues for the first three months of 2012 increased by \$628,166 from the revenues for the first three months of 2011. This change is presented by revenue source below:

	2012	2011	Increase / (Decrease)
Oil and Gas Revenues			
Oil Royalties	\$ 713,175	\$ 172,791	\$ 540,384
Gas Royalties	101,054	73,387	27,667
Plant Royalties	62,411	8,275	54,136
Lease rentals	28,001	34,229	(6,228)
Geophysical	--	7,097	(7,097)
Timber Revenue	4,935	3,439	1,496
Agriculture Revenue	25,534	7,726	17,808
Total Revenue	\$ 935,110	\$ 306,944	\$ 628,166

Oil and gas revenues are reported to the Company by producers of the oil and gas wells. The Company's determination or calculation of the type, quantity and average prices are based on supporting royalty payment detail provided by the producer of the oil and gas wells. Based on this information, the following schedule summarizes barrels and MCF produced and average price per barrel and per MCF.

	Three Months Ended 03/31/12	Three Months Ended 03/31/11
Net oil produced (Bbl)(2)	6,513	1,903
Average oil sales price (per Bbl)(1,2)	\$ 109.51	\$ 90.79
Net gas produced (MCF)	25,906	17,746
Average gas sales price (per MCF)(1)	\$ 3.90	\$ 4.14

Notes to above schedule:

- (1) Before deduction of production and severance taxes.
(2) Excludes plant products.

Based on the producer provided information, the increase in oil and gas royalty revenues was due to new production being brought online in the quarter and the Company receiving royalty payments of approximately \$426,000 from that new production. The remainder of the increase was due to an increase in oil production of approximately 1,459 barrels (Bbl) from existing production and an increase in the average price per Bbl which was offset by a decline in metric cubic feet (MCF) of gas produced of 2,816 and a decrease in the average gas sales price. Royalty revenue from plants, exclusive of the new production, increased by \$7,820 over 2011 quarter.

Both lease rentals and geophysical revenues decreased from the 2011 amounts. These revenues are not predictable.

7

Management believes that current oil and gas activity is driven by the current and forecasted commodity prices and demand for oil and gas. Management believes that oil and gas activity which includes lease rentals and geophysical as well as oil and gas production will continue to be strong for the next six months.

Generally, timber prices have been depressed for the last several years and the Company has elected to only harvest timber for internal maintenance programs for age class timber and storm protection measures. Timber revenues are generated from these maintenance programs and management does not see the timber market changing within the next 6 months.

Agriculture revenue increased by \$17,808 from 2011. This increase is due to the timing of farm rental payments which are recorded at the time of payment receipt. Management does not expect any significant change to agriculture revenue over the next six months.

Costs and Expenses

Oil and gas production costs, primarily severance taxes, increased by \$42,052 in 2012. This increase is directly related to higher oil and gas revenues.

Timber and agriculture expenses were relatively flat for the quarter.

General and administrative expenses increased by \$9,907 primarily due to legal expenses incurred for routine corporate matters.

Financial Condition

Current assets less restricted cash and non-current certificates of deposit total \$6,128,735 and total liabilities equaled \$714,465 at March 31, 2012. Management believes existing cash and investments together with funds generated from operations should be sufficient to meet operating requirements and provide funds for strategic acquisitions.

The Company declared another seven cents per common share during the quarter ended March 31, 2012. It is anticipated that the Company will be able to continue paying a seven cents per common share dividend each quarter. From time to time, the Company may elect to pay an extra dividend. In determining if an extra dividend will be declared, the Board of Directors will take into consideration the Company's current liquidity and capital resources and the availability of suitable timberland that has mineral potential.

Issues and Uncertainties

This Quarterly Report contains forward-looking statements. These statements are based on current expectations and assumptions that are subject to risks and uncertainties. Actual results could differ materially because of issues and uncertainties such as those discussed below, which, among others, should be considered in evaluating the Company's financial outlook.

Revenues from oil and gas provide most of the Company's income. All of these revenues come from wells operated by other companies from property belonging to CKX Lands, Inc. Consequently, these revenues fluctuate due to changes in oil and gas prices and changes in the operations of the other companies.

Item 3. Not applicable.

Item 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company has evaluated the effectiveness of the design and operation of its disclosure controls and procedures pursuant to Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 as of the period covered by this report. Based on the evaluation, performed under the supervision and with the participation of the Company's management, including the Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), the Company's management, including the CEO and CFO, concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by the report.

Changes in Internal Control Over Financial Reporting

There were no significant changes with respect to the Company's internal control over financial reporting or in other factors that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting during the quarter covered by this report.
