METTLER-TOLEDO INTERNATIONAL INC.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

At September 30, 2011 – Unaudited

(In thousands, except share data, unless otherwise stated)

1. BASIS OF PRESENTATION

Mettler-Toledo International Inc. ("Mettler-Toledo" or the "Company") is a leading global supplier of precision instruments and services. The Company manufactures weighing instruments for use in laboratory, industrial, packaging, logistics and food retailing applications. The Company also manufactures several related analytical instruments and provides automated chemistry solutions used in drug and chemical compound discovery and development. In addition, the Company manufactures metal detection and other end-of-line inspection systems used in production and packaging and provides solutions for use in certain process analytics applications. The Company's primary manufacturing facilities are located in China, Germany, Switzerland, the United Kingdom and the United States. The Company's principal executive offices are located in Columbus, Ohio and Greifensee, Switzerland. The accompanying interim consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") and include all entities in which the Company has control, which are its wholly-owned subsidiaries. The interim consolidated financial statements have been prepared without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted pursuant to such rules and regulations. The interim consolidated financial statements as of September 30, 2011 and for the three and nine month periods ended September 30, 2011 and 2010 should be read in conjunction with the consolidated financial statements and the notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2010.

The accompanying interim consolidated financial statements reflect all adjustments which, in the opinion of management, are necessary for a fair statement of the results of the interim periods presented. Operating results for the three and nine months ended September 30, 2011 are not necessarily indicative of the results to be expected for the full year ending December 31, 2011.

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, as well as disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Actual results may differ from those estimates. A discussion of the Company's critical accounting policies is included in Management's Discussion and Analysis of Financial Condition and Results of Operations and the Notes to the Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2010.

All intercompany transactions and balances have been eliminated.

Certain reclassifications have been made to prior year amounts to conform to the current year presentation.

METTLER-TOLEDO INTERNATIONAL INC.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

At September 30, 2011 – Unaudited (Continued)

(In thousands, except share data, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Trade Accounts Receivable

Trade accounts receivable are recorded at the invoiced amount and do not bear interest. The allowance for doubtful accounts represents the Company's best estimate of probable credit losses in its existing trade accounts receivable. The Company determines the allowance based upon a review of both specific accounts for collection and the age of the accounts receivable portfolio.

Inventories

Inventories are valued at the lower of cost or net realizable value. Cost, which includes direct materials, labor and overhead, is generally determined using the first in, first out (FIFO) method. The estimated net realizable value is based on assumptions for future demand and related pricing. Adjustments to the cost basis of the Company's inventory are made for excess and obsolete items based on usage, orders and technological obsolescence. If actual market conditions are less favorable than those projected by management, reductions in the value of inventory may be required.

Inventories consisted of the following:

	September 30, 2011	December 31, 2010
Raw materials and parts	\$111,143	\$101,660
Work-in-progress	50,596	36,615
Finished goods	103,612	78,829
	\$265,351	\$217,104

Goodwill and Other Intangible Assets

Goodwill, representing the excess of purchase price over the net asset value of companies acquired, and indefinite-lived intangible assets are not amortized, but are reviewed for impairment annually in the fourth quarter, or more frequently if events or changes in circumstances indicate that an asset might be impaired. The annual evaluation is based on valuation models that estimate fair value based on expected future cash flows and profitability projections. The adoption of the recently issued goodwill impairment measurement guidance will not have a material impact on the Company's financial statements.

Other intangible assets include indefinite-lived assets and assets subject to amortization. Where applicable, amortization is charged on a straight-line basis over the expected period to be benefited. The straight-line method of amortization reflects an appropriate allocation of the cost of the intangible assets to earnings in proportion to the amount of economic benefits obtained by the Company in each reporting period. The Company assesses the initial acquisition of intangible assets in accordance with the provisions of ASC 805 "Business Combinations" and the continued accounting for previously recognized intangible assets and goodwill in accordance with the provisions of ASC 350 "Intangibles – Goodwill and Other" and ASC 360 "Property, Plant and Equipment."

METTLER-TOLEDO INTERNATIONAL INC.
 NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS
 At September 30, 2011 – Unaudited (Continued)
 (In thousands, except share data, unless otherwise stated)

Other intangible assets consisted of the following:

	September 30, 2011		December 31, 2010	
	Gross Amount	Accumulated Amortization	Gross Amount	Accumulated Amortization
Customer relationships	\$95,673	\$(17,981)	\$80,674	\$(15,968)
Proven technology and patents	42,627	(25,118)	36,262	(22,298)
Tradename (finite life)	4,059	(1,033)	2,420	(760)
Tradename (indefinite life)	25,102	—	23,634	—
Other	769	(191)	510	(102)
	\$168,230	\$(44,323)	\$143,500	\$(39,128)

The Company recognized amortization expense associated with the above intangible assets of \$1.9 million and \$1.5 million for the three months ended September 30, 2011 and 2010, respectively and \$5.1 million and \$4.6 million for the nine months ended September 30, 2011 and 2010, respectively. The annual aggregate amortization expense based on the current balance of other intangible assets is estimated at \$7.0 million for 2011, \$7.4 million for 2012, \$5.9 million for 2013, \$5.8 million for 2014, \$5.1 million for 2015 and \$4.9 million for 2016. Purchased intangible amortization, net of tax was \$1.1 million and \$0.9 million for the three months ended September 30, 2011 and 2010, respectively and \$2.9 million and \$2.7 million for the nine months ended September 30, 2011 and 2010, respectively. In addition to the above amortization, the Company recorded amortization expense associated with capitalized software of \$2.9 million and \$2.1 million for the three months ended September 30, 2011 and 2010, respectively and \$7.6 million and \$6.0 million for the nine months ended September 30, 2011 and 2010, respectively.

Revenue Recognition

Revenue is recognized when title to a product has transferred and any significant customer obligations have been fulfilled. Standard shipping terms are generally FOB shipping point in most countries and, accordingly, title and risk of loss transfers upon shipment. In countries where title cannot legally transfer before delivery, the Company defers revenue recognition until delivery has occurred. The Company generally maintains the right to accept or reject a product return in its terms and conditions and also maintains appropriate accruals for outstanding credits. Shipping and handling costs charged to customers are included in total net sales and the associated expense is recorded in cost of sales for all periods presented. Other than a few small software applications, the Company does not sell software products without the related hardware instrument as the software is embedded in the instrument. The Company's products typically require no significant production, modification or customization of the hardware or software that is essential to the functionality of the products. To the extent the Company's solutions have a post-shipment obligation, such as customer acceptance, revenue is deferred until the obligation has been completed. The Company defers product revenue where installation is required, unless such installation is deemed perfunctory. The Company also sometimes enters into certain arrangements that require the separate delivery of multiple goods and/or services. These deliverables are accounted for separately if the deliverables have standalone value and the performance of undelivered items is probable and within the Company's control. The allocation of revenue between the separate deliverables is typically based on the relative selling price at the time of the sale in accordance with a number of factors including service technician billing rates, time to install and geographic location. The adoption of the recently issued multiple-element arrangement guidance on January 1, 2011, has not and is not expected to have a material impact on the Company's financial statements.

Further, certain products are also sold through indirect distribution channels whereby the distributor assumes any further obligations to the customer upon title transfer. Revenue is recognized on these products upon transfer of title and risk of loss to its distributors. Distributor discounts are offset against revenue at the time such revenue is recognized.

METTLER-TOLEDO INTERNATIONAL INC.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

At September 30, 2011 – Unaudited (Continued)

(In thousands, except share data, unless otherwise stated)

Service revenue not under contract is recognized upon the completion of the service performed. Spare parts sold on a stand-alone basis are recognized upon title and risk of loss transfer which is generally at the time of shipment. Revenues from service contracts are recognized ratably over the contract period. These contracts represent an obligation to perform repair and other services including regulatory compliance qualification, calibration, certification and preventative maintenance on a customer's pre-defined equipment over the contract period. Service contracts are separately priced and payment is typically received from the customer at the beginning of the contract period.

Warranty

The Company generally offers one-year warranties on most of its products. Product warranties are recorded at the time revenue is recognized. While the Company engages in extensive product quality programs and processes, its warranty obligation is affected by product failure rates, material usage and service costs incurred in correcting a product failure. The Company's accrual for product warranties is included in accrued and other liabilities in the consolidated balance sheets. Changes to the Company's accrual for product warranties for the nine months ended September 30 are as follows:

	September 30, 2011	September 30, 2010
Balance at beginning of period	\$15,680	\$15,856
Accruals for warranties	12,164	11,712
Foreign currency translation	291	(196)
Payments / utilizations	(11,399)	(11,984)
Balance at end of period	\$16,736	\$15,388

Employee Termination Benefits

In situations where contractual termination benefits exist, the Company records accruals for employee termination benefits when it is probable that a liability has been incurred and the amount of the liability is reasonably estimable. All other employee termination arrangements are recognized and measured at their fair value at the communication date unless the employee is required to render additional service beyond the legal notification period, in which case the liability is recognized ratably over the future service period.

Share-Based Compensation

The Company recognizes share-based compensation expense within selling, general and administrative in the consolidated statement of operations with a corresponding offset to additional paid-in capital in the consolidated balance sheet. The Company recorded \$3.1 million and \$8.8 million of share-based compensation expense for the three and nine months ended September 30, 2011, respectively, compared to \$3.1 million and \$9.1 million for the corresponding periods in 2010.

Research and Development

Research and development costs primarily consist of salaries, consulting and other costs. The Company expenses these costs as incurred.

3. ACQUISITIONS

In August 2011, the Company acquired a vision inspection solutions business located in Germany for an aggregate purchase price of \$19.4 million that will be integrated into the Company's product inspection product offering. The Company may be required to pay additional cash consideration up to a

METTLER-TOLEDO INTERNATIONAL INC.

(In thousands, except share data, unless otherwise stated)

maximum amount of \$2.4 million related to an earn-out period. Goodwill recorded in connection with this acquisition totaled \$10.9 million, which is included in the Company's Western European Operations segment. The Company also recorded \$13.3 million of identified intangibles primarily pertaining to tradename, customer relationships and technology.

In August 2011, the Company paid additional contingent cash consideration (previously accrued at the time of acquisition) of \$7.8 million related to an earn-out associated with an acquisition in 2009. This payment is included in cash flows from financing activities in the consolidated statement of cash flows.

In March 2011, the Company completed acquisitions totaling \$15.4 million, of which \$12.0 million related to an X-ray inspection solutions business that will be integrated into the Company's product inspection product offering. Goodwill recorded in connection with these acquisitions totaled \$4.4 million, of which \$1.9 million is included in the Company's U.S. Operations segment and \$2.5 million is included in the Company's Swiss Operations segment. The Company also recorded \$9.9 million of identified intangibles pertaining to tradename, customer relationships and technology.

The weighted average amortization periods for the finite-lived intangibles purchased in 2011 are 15 years for tradename, 9 years for technology and 18 years for customer relationships.

In January 2010, the Company acquired a pipette distributor located in the United Kingdom for an aggregate purchase price of approximately \$12.5 million. Goodwill recorded in connection with the acquisition totaled \$7.4 million, which is included in the Company's Western European Operations segment. The Company also recorded \$4.5 million of identified intangibles pertaining to tradename and customer relationships. The weighted average amortization periods are 7 years for tradename and 30 years for customer relationships.

4. FINANCIAL INSTRUMENTS

As more fully described below, the Company enters into certain interest rate swap agreements in order to manage its exposure to changes in interest rates. The amount of the Company's fixed obligation interest payments may change based upon the expiration dates of its interest rate swap agreements and the level and composition of its debt. The Company also enters into certain foreign currency forward contracts to limit the Company's exposure to currency fluctuations on the respective hedged items. The Company does not use derivative financial instruments for trading purposes. For additional disclosures on the fair value of financial instruments, also see Note 5 to the interim consolidated financial statements.

Cash Flow Hedge

The Company has an interest rate swap agreement, designated as a cash flow hedge. The agreement is a forward-starting swap which changed the floating rate LIBOR-based interest payments associated with \$100 million in forecasted borrowings under the Company's credit facility to a fixed obligation of 3.24% beginning in October 2010. During the nine months ended September 30, 2010, the Company settled \$100 million of its original \$200 million arrangement, resulting in expense of \$0.6 million being reclassified from other comprehensive income to interest expense. The swap is recorded in other non-current liabilities in the consolidated balance sheet at its fair value at September 30, 2011 and December 31, 2010 of \$9.5 million and \$5.8 million, respectively. The effective portion of the loss reclassified from accumulated other comprehensive income (loss) to interest expense was \$0.8 million for the three month period ended September 30, 2011 and \$2.3 million and \$0.6 million for the nine month periods ended September 30, 2011 and 2010, respectively. No reclassification occurred for the three month period ended September 30, 2010. The amount recognized in other comprehensive income (loss) during the three month periods ended September 30, 2011 and 2010 was a loss of \$2.7 million and \$3.5 million, respectively, and during the nine

month periods ended September 30, 2011 and 2010 was a loss of \$3.6 million and \$12.2 million, respectively. A net after tax derivative loss of \$1.8 million based upon interest rates at September 30, 2011, is expected to be reclassified from other comprehensive income (loss) to earnings in the next twelve months. Through September 30, 2011 no hedge ineffectiveness has

- 12 -

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS
At September 30, 2011 – Unaudited (Continued)
(In thousands, except share data, unless otherwise stated)

occurred in relation to this hedge.

Other Derivatives

The Company enters into foreign currency forward contracts in order to economically hedge short-term intercompany balances largely denominated in Swiss franc and other major European currencies with its foreign businesses. In accordance with U.S. GAAP, these contracts are considered “derivatives not designated as hedging instruments”. Gains or losses on these instruments are reported in current earnings. The foreign currency forward contracts were reported at their fair value in the consolidated balance sheet at September 30, 2011 and December 31, 2010 in other current assets of \$0.1 million and \$1.8 million, respectively, and other liabilities of \$1.2 million and \$0.3 million, respectively. The Company recognized in other charges (income), net a loss of \$3.2 million during the three month period and a gain of \$1.2 million during the nine month period ended September 30, 2011, respectively. The Company recognized a net gain of \$2.1 million and a net loss of \$2.5 million during the three and nine month periods ended September 30, 2010, respectively. At September 30, 2011 and December 31, 2010, these contracts had a notional value of \$94.4 million and \$99.3 million, respectively.

5. FAIR VALUE MEASUREMENTS

At September 30, 2011 and December 31, 2010, the Company had derivative assets totaling \$0.1 million and \$1.8 million, respectively, and derivative liabilities totaling \$10.6 million and \$6.1 million, respectively. The fair values of the interest rate swap agreement and foreign currency forward contracts that economically hedge short-term intercompany balances are estimated based upon inputs from current valuation information obtained from dealer quotes and priced with observable market assumptions and appropriate valuation adjustments for credit risk. The Company has evaluated the valuation methodologies used to develop the fair values by dealers in order to determine whether such valuations are representative of an exit price in the Company’s principal market. In addition, the Company uses an internally developed model to perform testing on the valuations received from brokers. The Company has also considered both its own credit risk and counterparty credit risk in determining fair value and determined these adjustments were insignificant at September 30, 2011 and December 31, 2010.

At September 30, 2011 and December 31, 2010, the Company had \$11.3 million and \$243.5 million of cash equivalents, respectively, the fair value of which is determined through quoted and corroborated prices in active markets. The fair value of cash equivalents approximates cost.

The difference between the fair value and carrying value of the Company’s long-term debt is not material.

Under U.S. GAAP, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement consists of observable and unobservable inputs that reflect the assumptions that a market participant would use in pricing an asset or liability.

A fair value hierarchy has been established that categorizes these inputs into three levels:

Level 1: Quoted prices in active markets for identical assets and liabilities

Level 2: Observable inputs other than quoted prices in active markets for identical assets and liabilities

Level 3: Unobservable inputs

METTLER-TOLEDO INTERNATIONAL INC.
 NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS
 At September 30, 2011 – Unaudited (Continued)
 (In thousands, except share data, unless otherwise stated)

The following table presents for each of these hierarchy levels, the Company's assets and liabilities that are measured at fair value on a recurring basis at September 30, 2011 and December 31, 2010:

	September 30, 2011				December 31, 2010			
	Total	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3
Assets:								
Cash equivalents	\$11,267	\$—	\$11,267	\$—	\$243,514	\$230,000	\$13,514	\$—
Foreign currency forward contracts	149	—	149	—	1,763	—	1,763	—
Total	\$11,416	\$—	\$11,416	\$—	\$245,277	\$230,000	\$15,277	\$—
Liabilities:								
Interest rate swap agreement	\$9,455	\$—	\$9,455	\$—	\$5,842	\$—	\$5,842	\$—
Foreign currency forward contracts	1,152	—	1,152	—	305	—	305	—
Total	\$10,607	\$—	\$10,607	\$—	\$6,147	\$—	\$6,147	\$—

6. INCOME TAXES

The provision for taxes for both the three and nine month periods ended September 30, 2011 is based upon the Company's projected annual effective rate of 26% before discrete tax items.

During the third quarter of 2011, the Company recorded discrete tax items resulting in a net tax benefit of \$3.8 million primarily related to the favorable resolution of certain prior year tax matters. The impact of these items decreased the effective tax rate to 22% and 24% for the three and nine month periods ended September 30, 2011, respectively.

During the third quarter of 2010, the Company recorded discrete tax items resulting in a net tax benefit of \$5.2 million primarily related to the favorable resolution of certain prior year tax matters. The impact of these items decreased the effective tax rate to 19% and 20% for the three and nine month periods ended September 30, 2010, respectively.

7. DEBT

Debt consisted of the following at September 30, 2011:

	September 30, 2011		
	U.S. Dollar	Other Principal Trading Currencies	Total
6.30% \$100 million Senior Notes	\$100,000	\$—	\$100,000
Credit facility	401,100	49,454	450,554
Other local arrangements	—	31,143	31,143
Total debt	501,100	80,597	581,697
Less: current portion	—	(31,143)	(31,143)
Total long-term debt	\$501,100	\$49,454	\$550,554

As of September 30, 2011, the Company had \$493.0 million of availability remaining under the credit facility.

(In thousands, except share data, unless otherwise stated)

8. SHARE REPURCHASE PROGRAM AND TREASURY STOCK

The Company has a \$2.25 billion share repurchase program, of which there is \$749.4 million remaining to repurchase common shares as of September 30, 2011. The share repurchases are expected to be funded from cash balances, borrowings and cash generated from operating activities. Repurchases will be made through open market transactions, and the amount and timing of purchases will depend on business and market conditions, the stock price, trading restrictions, the level of acquisition activity and other factors. The Company has purchased 18.3 million shares since the inception of the program through September 30, 2011.

During the nine months ended September 30, 2011 and 2010, the Company spent \$171.2 million and \$148.8 million on the repurchase of 1,061,666 shares and 1,310,936 shares at an average price per share of \$161.22 and \$113.48, respectively. The Company reissued 220,463 shares and 281,897 shares held in treasury for the exercise of stock options and restricted stock units during the nine months ended September 30, 2011 and 2010, respectively. The Company also reissued 2,549 shares held in treasury during the nine months ended September 30, 2010, pursuant to its 2007 Share Plan which extends certain eligible employees the option to receive a percentage of their annual cash incentive in shares of the Company's stock. There were no shares reissued related to the 2007 Share Plan during the nine months ended September 30, 2011.

9. EARNINGS PER COMMON SHARE

In accordance with the treasury stock method, the Company has included the following common equivalent shares in the calculation of diluted weighted average number of common shares outstanding for the three and nine month periods ended September 30, solely relating to outstanding stock options and restricted stock units:

	2011	2010
Three months ended	904,212	856,174
Nine months ended	973,762	830,483

Outstanding options and restricted stock units to purchase or receive 161,326 and 515,828 shares of common stock for the three month periods ended September 30, 2011 and 2010, respectively, and options and restricted stock units to purchase or receive 168,390 and 585,426 shares of common stock for the nine month periods ended September 30, 2011 and 2010, respectively, have been excluded from the calculation of diluted weighted average number of common and common equivalent shares as such options and restricted stock units would be anti-dilutive.

10. NET PERIODIC BENEFIT COST

Net periodic pension cost for the Company's defined benefit pension plans and U.S. post-retirement medical plan includes the following components for the three months ended September 30:

	U.S. Pension Benefits		Non-U.S. Pension Benefits		Other U.S. Post-retirement Benefits	
	2011	2010	2011	2010	2011	2010
Service cost, net	\$83	\$66	\$3,746	\$3,055	\$76	\$74
Interest cost on projected benefit obligations	1,606	1,610	6,472	5,592	183	189
Expected return on plan assets	(1,875)	(1,727)	(9,118)	(7,379)	—	—

Recognition of settlement/curtailment losses, net	—	—	—	58	—	—
Net periodic pension cost/(credit)	\$3,268	\$3,820	\$3,124	\$4,220	\$257	\$(266)

As previously disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2010, the Company expects to make employer contributions of approximately \$19.1 million to its non-U.S. pension plans and employer contributions of approximately \$1.4 million to its U.S. post-retirement medical plan during the year ended December 31, 2011. These estimates may change based upon several factors, including fluctuations in currency exchange rates, actual returns on plan assets and changes in legal requirements.

11. RESTRUCTURING CHARGES

During the fourth quarter of 2008, the Company initiated a global cost reduction program which has substantially been completed. Charges under the program primarily comprise severance costs.

A rollforward of the Company's accrual for restructuring activities for the nine months ended September 30, 2011 is as follows:

	Employee Related	Other	Total
Balance at December 31, 2010	\$7,721	\$135	\$7,856
Restructuring charges	2,441	390	2,831
Cash payments	(3,602)	(501)	(4,103)
Impact of foreign currency	101	—	101
Balance at September 30, 2011	\$6,661	\$24	\$6,685

12. OTHER CHARGES (INCOME), NET

Other charges (income), net consists primarily of interest income, (gains) losses from foreign currency transactions and other items.

13. SEGMENT REPORTING

As disclosed in Note 18 to the Company's consolidated financial statements for the year ending December 31, 2010, the Company has determined there are five reportable segments: U.S. Operations, Swiss Operations, Western European Operations, Chinese Operations and Other.

The Company evaluates segment performance based on Segment Profit (gross profit less research and development and selling, general and administrative expenses, before amortization, interest expense,

14. CONTINGENCIES

The Company is party to various legal proceedings, including certain environmental matters, incidental to the normal course of business. Management does not expect that any of such proceedings, either individually or in the aggregate, will have a material adverse effect on the Company's financial condition, results of operations or cash flows.

- 19 -

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the Unaudited Interim Consolidated Financial Statements included herein.

General

Our interim consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. Operating results for the three and nine months ended September 30, 2011 are not necessarily indicative of the results to be expected for the full year ending December 31, 2011. We have enjoyed strong local currency organic sales growth in 2010 and 2011. We expect our local currency organic sales growth to slow in the coming quarters as global economic forecasts indicate economic growth is expected to slow, and we will face more difficult comparisons. If the global economy were to fall into recessionary conditions, we would expect our sales to be adversely impacted and a year on year decline in sales may occur. It is currently difficult to predict the extent to which our results may be adversely affected.

Local currency changes exclude the effect of currency exchange rate fluctuations that result from translating activity outside of the United States into U.S. dollars. Local currency amounts are determined by translating current and previous year consolidated financial information at an index utilizing historical currency exchange rates. Because changes in foreign currency exchange rates have a non-operating impact on our financial results, we believe local currency information provides a helpful assessment of business performance and a useful measure of results between periods. We do not, nor do we suggest that investors should, consider such non-GAAP financial measures in isolation from, or as a substitute for, financial information prepared in accordance with GAAP. We present non-GAAP financial measures in reporting our financial results to provide investors with an additional analytical tool to evaluate our operating results.

Results of Operations – Consolidated

The following tables set forth certain items from our interim consolidated statements of operations for the three and nine month periods ended September 30, 2011 and 2010 (amounts in thousands).

	2011		2010		2011		2010	
	(unaudited)	%	(unaudited)	%	(unaudited)	%	(unaudited)	%
Net sales	\$601,114	100.0	\$490,213	100.0	\$1,660,968	100.0	\$1,375,413	100.0
Cost of sales	286,697	47.7	234,158	47.8	788,853	47.5	654,807	47.6
Gross profit	314,417	52.3	256,055	52.2	872,115	52.5	720,606	52.4
Research and development	30,068	5.0	24,992	5.1	86,024	5.2	70,562	5.1
Selling, general and administrative	185,832	30.9	145,303	29.6	519,264	31.3	423,919	30.8
Amortization	4,795	0.8	3,667	0.7	12,742	0.8	10,613	0.8
Interest expense	5,893	1.0	4,792	1.0	17,296	1.0	14,757	1.1
Restructuring charges	362	—	566	0.1	2,831	0.2	2,476	0.2
Other charges (income), net	409	0.1	(127)	—	2,285	0.1	857	—
Earnings before taxes (a)	87,058	14.5	76,862	15.7	231,673	13.9	197,422	14.4
Provision for taxes (b)	18,862	3.1	14,781	3.0	56,462	3.4	46,126	3.4
Net earnings (a)	\$68,196	11.4	\$62,081	12.7	\$175,211	10.5	\$151,296	11.0

(a) The decrease in earnings before taxes and net earnings as a percentage of sales as compared to the previous year for the three and nine months ended September 30, 2011 is primarily related to the impact of unfavorable currency exchange rate fluctuations.

(b) Discrete tax items for both the three and nine months ended September 30, 2011 and September 30, 2010 include a net tax benefit of \$3.8 million and \$5.2 million, respectively, primarily related to the favorable resolution of certain prior year tax matters.

Net sales

Net sales were \$601.1 million and \$1.7 billion for the three and nine months ended September 30, 2011, respectively, compared to \$490.2 million and \$1.4 billion for the corresponding periods in 2010. This represents an increase in U.S. dollars of 23% and 21% for the three and nine months ended September 30, 2011. Excluding the effect of currency exchange rate fluctuations, or in local currencies, net sales increased 15% and 14%, respectively, for the three and nine months ended September 30, 2011. Acquisitions/divestitures, net contributed approximately 1% to our net sales growth for the three months ended September 30, 2011.

Net sales by geographic destination for the three and nine months ended September 30, 2011, in U.S. dollars increased 11% for both periods in the Americas, 28% and 24% in Europe and 30% and 29% in Asia/Rest of World.

In local currencies, our net sales by geographic destination increased 10% for both periods in the Americas, 16% and 14% in Europe and 21% for both periods in Asia/Rest of World. A discussion of sales by operating segment is included below.

As described in Note 18 to our consolidated financial statements for the year ended December 31, 2010, our net sales comprise product sales of precision instruments and related services. Service revenues are primarily derived from repair and other services, including regulatory compliance qualification, calibration, certification, preventative maintenance and spare parts.

Net sales of products increased in U.S. dollars by 25% and 24% for the three and nine months ended September 30, 2011, respectively, and in local currencies by 18% and 17%, respectively, compared to the corresponding prior periods. Service revenue (including spare parts) in U.S. dollars increased 13% and 11% during the three and nine months ended September 30, 2011, respectively, and increased in local currencies by 6% and 5% during the three and nine months ended September 30, 2011, respectively, compared to the corresponding prior periods.

Net sales of our laboratory-related products, which represented approximately 45% of our total net sales for both the three and nine months ended September 30, 2011, increased 20% and 18% in U.S. dollars and increased 12% and 10% in local currencies during the three and nine months ended September 30, 2011, respectively. The increase for the three and nine months ended September 30, 2011 includes particularly strong results in analytical instruments and process analytics products.

Net sales of our industrial-related products, which represented approximately 45% of our total net sales for both the three and nine months ended September 30, 2011, increased 29% and 27% in U.S. dollars and increased 22% and 21% in local currencies during the three and nine months ended September 30, 2011, respectively. We experienced strong sales growth across most product categories and geographies. Acquisitions contributed approximately 4% and 2% to our net sales growth of industrial-related products for the three and nine months ended September 30, 2011, respectively.

Net sales in our food retailing markets, which represented approximately 10% of our total net sales for both the three and nine months ended September 30, 2011, increased 8% and 6% in U.S. dollars and increased 2% and 1% in local currencies during the three and nine months ended September 30, 2011, respectively, primarily due to growth in Europe related to increased project activity, offset in part by decreased sales in the U.S. Food retailing sales were reduced by approximately 5% and 6% for the three and nine months ended September 30, 2011, respectively, due to product line exits.

Gross profit

Gross profit as a percentage of net sales was 52.3% and 52.5% for the three and nine months ended September 30, 2011, respectively, compared to 52.2% and 52.4% for the corresponding

periods in 2010.

Gross profit as a percentage of net sales for products was 55.1% and 56.2% for the three and nine months ended September 30, 2011, respectively, compared to 55.8% and 56.5% for the corresponding periods in 2010.

Gross profit as a percentage of net sales for services (including spare parts) was 40.7% and 38.8% for the three and nine months ended September 30, 2011, respectively, compared to 39.8% and 38.7% for the corresponding periods in 2010.

The increase in gross profit as a percentage of net sales for the three and nine months ended September 30, 2011 primarily reflects benefits from increased sales volume, pricing and operating efficiencies. These results were partly offset by unfavorable currency rate changes, unfavorable business mix and increased material costs.

Research and development and selling, general and administrative expenses

Research and development expenses as a percentage of net sales were 5.0% and 5.2% for the three and nine months ended September 30, 2011, respectively, compared to 5.1% for both the corresponding periods during 2010. Research and development expenses increased 20% and 22% in U.S. dollars and increased 6% and 9% in local currencies, during the three and nine months ended September 30, 2011, respectively, compared to the corresponding periods in 2010 relating to the timing of research and development project activity.

Selling, general and administrative expenses as a percentage of net sales were 30.9% and 31.3% for the three and nine months ended September 30, 2011, respectively, compared to 29.6% and 30.8% in the corresponding periods during 2010. Selling, general and administrative expenses increased 28% and 22% in U.S. dollars and increased 17% and 14% in local currencies, during the three and nine months ended September 30, 2011, respectively, compared to the corresponding periods in 2010. The increase is primarily due to increased sales and marketing investments (especially in emerging markets), costs related to our Blue Ocean program, a program to globalize our business processes and information technology systems that includes the implementation of a Company-wide enterprise resource planning system, higher variable compensation and acquisition-related expenses.

Interest expense, other charges (income), net and taxes

Interest expense was \$5.9 million and \$17.3 million for the three and nine months ended September 30, 2011, respectively, and \$4.8 million and \$14.8 million for the corresponding periods in 2010. The increase in interest expense for the three and nine month periods ended September 30, 2011 is primarily a result of additional borrowings during the fourth quarter of 2010, in order to facilitate foreign earnings repatriation.

Other charges (income), net consists primarily of interest income, (gains) losses from foreign currency transactions and other items. The increase in other charges (income), net for the three and nine months ended September 30, 2011 of \$0.5 million and \$1.4 million, respectively, compared to the prior year was primarily due to unfavorable foreign currency fluctuations.

The provision for taxes for both the three and nine month periods ended September 30, 2011 is based upon the Company's projected annual effective rate of 26% before discrete tax items. During the third quarter of 2011, we recorded discrete tax items resulting in a net tax benefit of \$3.8 million primarily related to the favorable resolution of certain prior year tax matters. The net impact of these items decreased the effective tax rate to 22% and 24% for the three and nine months ended September 30, 2011. During the third quarter of 2010, we recorded discrete tax items resulting in a net tax benefit of \$5.2 million primarily related to the favorable resolution of certain prior year tax matters. The net impact of these items decreased the effective tax rate to 19% and 20% for the three and nine months ended September 30, 2010. Our consolidated income tax rate is lower than the U.S. statutory rate primarily because of benefits from lower-taxed non-U.S.

operations. The most significant of these lower-taxed operations are in Switzerland and China.

Results of Operations – by Operating Segment

The following is a discussion of the financial results of our operating segments. We currently have five reportable segments: U.S. Operations, Swiss Operations, Western European Operations, Chinese Operations and Other. A more detailed description of these segments is outlined in Note 18 to our consolidated financial statements for the year ended December 31, 2010.

U.S. Operations (amounts in thousands)

	Three months ended September 30			Nine months ended September 30			
	2011	2010	% ¹⁾	2011	2010	% ¹⁾	
Total net sales	\$193,609	\$172,219	12	% \$546,938	\$488,620	12	%
Net sales to external customers	\$173,449	\$158,363	10	% \$488,678	\$445,820	10	%
Segment profit	\$33,139	\$30,860	7	% \$86,303	\$85,343	1	%

1)Represents U.S. dollar (decline) growth for net sales and segment profit.

Total net sales increased 12% for both the three and nine months ended September 30, 2011, respectively, and net sales to external customers increased 10% for both the three and nine months ended September 30, 2011, respectively, compared with the corresponding periods in 2010. The increase in total net sales and net sales to external customers for the three and nine months ended September 30, 2011 reflects strong growth in most categories, especially product inspection, process analytics and core-industrial products, offset in part by reduced sales in food retailing.

Acquisitions/divestitures, net contributed approximately 1% to our segment net sales growth for the three months ended September 30, 2011. The nine months ended September 30, 2011 also reflects particularly strong growth in analytical instruments and laboratory balances.

Segment profit increased \$2.3 million and \$1.0 million for the three and nine months ended September 30, 2011, respectively, compared to the corresponding periods in 2010. The increase in segment profit was primarily due to increased sales volume, partially offset by a product line exit, as well as business transfers to other operating segments, investments in sales and marketing, expenses related to our Blue Ocean program and increased product costs.

Swiss Operations (amounts in thousands)

	Three months ended September 30			Nine months ended September 30			
	2011	2010	% ¹⁾	2011	2010	% ¹⁾	
Total net sales	\$147,960	\$112,454	32	% \$404,535	\$314,487	29	%
Net sales to external customers	\$38,945	\$27,147	43	% \$102,769	\$76,270	35	%
Segment profit	\$29,687	\$22,857	30	% \$80,745	\$61,253	32	%

1)Represents U.S. dollar (decline) growth for net sales and segment profit.

Total net sales increased 32% and 29% in U.S. dollars for the three and nine months ended September 30, 2011, respectively. Total net sales in local currency increased 5% for the three month period ended September 30, 2011 and increased 6% for the nine month period ended September 30, 2011, compared to the corresponding periods in 2010. Net sales to external customers increased 43% and 35% in U.S. dollars and 14% and 10% in local currency during the three and nine months ended September 30, 2011, respectively, compared to the corresponding periods in 2010. The increase in local currency total net sales for the three and nine month periods ended September 30, 2011 includes strong growth in most product categories. The increase in local currency net sales to external customers for the three months ended September 30, 2011 includes strong growth in analytical instruments. The increase in local currency net sales to external customers for the nine months ended September 30, 2011 also reflects particularly strong growth in

process analytics and core-industrial products.

Segment profit increased \$6.8 million and \$19.5 million for the three and nine month periods ended September 30, 2011, respectively, compared to the corresponding periods in 2010. The increase in segment profit is primarily due to increased sales volume, partially offset by unfavorable currency translation fluctuations.

Western European Operations (amounts in thousands)

	Three months ended September 30			Nine months ended September 30			
	2011	2010	% ¹⁾	2011	2010	% ¹⁾	
Total net sales	\$201,060	\$162,114	24	% \$573,016	\$479,836	19	%
Net sales to external customers	\$173,367	\$138,670	25	% \$493,646	\$414,738	19	%
Segment profit	\$26,273	\$17,001	55	% \$65,349	\$51,633	27	%

1)Represents U.S. dollar (decline) growth for net sales and segment profit.

Total net sales increased 24% and 19% in U.S. dollars and 13% and 11% in local currency during the three and nine month periods ended September 30, 2011, respectively, compared to the corresponding periods in 2010. Net sales to external customers increased 25% and 19% in U.S. dollars and increased 14% and 10% in local currency for the same periods versus the prior year comparable periods. The increase in total net sales and net sales to external customers for the three and nine months ended September 30, 2011 reflect strong sales growth across most product categories. Acquisitions contributed approximately 2% and 1% to our segment net sales growth for the three and nine months ended September 30, 2011, respectively.

Segment profit increased \$9.3 million and \$13.7 million for the three and nine month periods ended September 30, 2011, respectively, compared to the corresponding periods in 2010. The increase in segment profit for the three and nine months ended September 30, 2011 resulted primarily from increases in sales volume, pricing and favorable currency translation fluctuations.

Chinese Operations (amounts in thousands)

	Three months ended September 30			Nine months ended September 30			
	2011	2010	% ¹⁾	2011	2010	% ¹⁾	
Total net sales	\$131,919	\$111,449	18	% \$367,247	\$285,869	28	%
Net sales to external customers	\$105,053	\$81,211	29	% \$275,611	\$208,809	32	%
Segment profit	\$27,065	\$26,333	3	% \$82,197	\$65,086	26	%

1)Represents U.S. dollar (decline) growth for net sales and segment profit.

Total net sales increased 18% and 28% in U.S. dollars and increased 12% and 23% in local currency during the three and nine months ended September 30, 2011, respectively, compared to the corresponding periods in 2010. Net sales to external customers increased 29% and 32% in U.S. dollars and increased 23% and 26% in local currency during the three and nine months ended September 30, 2011, respectively, as compared to the corresponding periods in 2010. The increase in total net sales and net sales to external customers for the three and nine month periods ended September 30, 2011 is due to strong sales growth in most product categories.

Segment profit increased \$0.7 million and \$17.1 million for the three and nine month periods ended September 30, 2011, respectively, compared to the corresponding periods in 2010. The increase in segment profit for both the three and nine month periods ended September 30, 2011 includes the benefits of increased sales volume, partially offset by investments in sales and marketing, costs related to our Chinese Blue Ocean implementation, higher inter-segment expenses and increased product costs.

Our Chinese operations went live on our Blue Ocean program during the third quarter of 2011. Our Chinese operations account for approximately 16% of our consolidated net sales to external customers and approximately 30% of our global production with approximately 2,400 users on the system. We could suffer disruptions in operations, customer-facing activities and financial reporting as a result of our continued integration efforts. Such disruptions could harm our reputation and financial condition.

Other (amounts in thousands)

	Three months ended September 30			Nine months ended September 30			
	2011	2010	% ¹⁾	2011	2010	% ¹⁾	
Total net sales	\$112,281	\$86,100	30	% \$304,580	\$232,731	31	%
Net sales to external customers	\$110,300	\$84,822	30	% \$300,264	\$229,776	31	%
Segment profit	\$15,058	\$9,341	61	% \$35,165	\$19,962	76	%

1)Represents U.S. dollar (decline) growth for net sales and segment profit.

Total net sales increased 30% and 31% in US dollars and increased 17% and 22% in local currency during the three and nine month periods ended September 30, 2011, respectively, compared to the corresponding periods in 2010. Net sales to external customers in U.S. dollars increased 30% and 31% and increased 17% and 22% in local currency during the three and nine months ended September 30, 2011, respectively, as compared to the corresponding periods in 2010. The increase in total net sales and net sales to external customers reflects strong sales growth across most product lines and geographies.

Segment profit increased \$5.7 million and \$15.2 million for the three and nine months ended September 30, 2011, respectively, compared to the corresponding periods in 2010. The increase in segment profit is primarily due to increased sales volume.

Liquidity and Capital Resources

Liquidity is our ability to generate sufficient cash flows from operating activities to meet our obligations and commitments. In addition, liquidity includes the ability to obtain appropriate financing. Currently, our financing requirements are primarily driven by working capital requirements, capital expenditures, share repurchases and acquisitions.

Cash provided by operating activities totaled \$177.7 million during the nine months ended September 30, 2011, compared to \$205.3 million in the corresponding period in 2010. The decrease in 2011 resulted principally from increased incentive payments of approximately \$39 million related to previous year performance-related compensation incentives, as well as increased inventory balances and the timing of tax payments, partially offset by increased net earnings.

Capital expenditures are made primarily for investments in information systems and technology, machinery, equipment and the purchase and expansion of facilities. Our capital expenditures totaled \$64.5 million for the nine months ended September 30, 2011 compared to \$38.6 million in the corresponding period in 2010. Our capital expenditures during the nine months ended September 30, 2011 included approximately \$40.6 million of investments related to our Blue Ocean multi-year program of information technology investment, as compared with \$17.4 million during the prior year comparable period.

We continue to explore potential acquisitions. In connection with any acquisition, we may incur additional indebtedness. In August 2011, we acquired a leader in vision inspection technology for end-of-line packaging systems located in Germany that will be integrated into our product inspection product offering for an aggregate purchase price of \$19.4 million. We may be required to pay additional cash consideration up to a maximum amount of \$2.4 million related to an earn-out period. We also paid additional contingent cash consideration (previously accrued at the time of acquisition) of \$7.8 million in the third quarter of 2011 related to an earn-out associated with an acquisition in 2009. This payment is included in cash flows from financing activities in the

consolidated statement of cash flows. During the first quarter of 2011, we completed acquisitions totaling \$15.4 million, of which \$12.0 million related to an X-ray inspection solutions business that will be integrated into our product inspection product offering. We paid approximately \$14.5 million for these acquisitions during the first quarter 2011. During the first quarter 2010 we spent approximately \$12.5 million related to the acquisition of our pipette distributor in the United Kingdom.

We plan to repatriate earnings from China, Switzerland, the United Kingdom and certain other countries in future years and expect the only additional cost associated with the repatriation of such earnings outside the United States will be withholding taxes. All other undistributed earnings are considered to be permanently reinvested. As of September 30, 2011, we have an immaterial amount of cash and cash equivalents outside the United States where undistributed earnings are considered permanently reinvested. Accordingly, we believe the tax impact associated with repatriating our undistributed foreign earnings will not have a material effect on our liquidity.

Senior Notes and Credit Facility Agreement

Our debt consisted of the following at September 30, 2011:

	September 30, 2011		
	U.S. Dollar	Other Principal Trading Currencies	Total
6.30% \$100 million Senior Notes	\$ 100,000	\$—	\$ 100,000
Credit facility	401,100	49,454	450,554
Other local arrangements	—	31,143	31,143
Total debt	501,100	80,597	581,697
Less: current portion	—	(31,143)	(31,143)
Total long-term debt	\$501,100	\$49,454	\$550,554

As of September 30, 2011, approximately \$493.0 million was available under our credit facility. Changes in exchange rates between the currencies in which we generate cash flows and the currencies in which our borrowings are denominated affect our liquidity. In addition, because we borrow in a variety of currencies, our debt balances fluctuate due to changes in exchange rates.

We currently believe that cash flow from operating activities, together with liquidity available under our credit facility and local working capital facilities, will be sufficient to fund currently anticipated working capital needs and capital spending requirements for at least the foreseeable future.

We continue to explore potential acquisitions. In connection with any acquisition, we may incur additional indebtedness.

Share Repurchase Program

We have a \$2.25 billion share repurchase program, of which there is \$749.4 million remaining to repurchase common shares as of September 30, 2011. The share repurchases are expected to be funded from cash balances, borrowings and cash generated from operating activities. Repurchases will be made through open market transactions, and the amount and timing of purchases will depend on business and market conditions, the stock price, trading restrictions, the level of acquisition activity and other factors. We have purchased 18.3 million shares since the inception of the program through September 30, 2011.

During the nine months ended September 30, 2011 and 2010, we spent \$171.2 million and \$148.8 million on the repurchase of 1,061,666 shares and 1,310,936 shares at an average price per share of \$161.22 and \$113.48, respectively. We reissued 220,463 shares and 281,897 shares held in treasury for the exercise of stock options and restricted stock units during the nine months ended

September 30, 2011 and 2010, respectively. We also reissued 2,549 shares held in treasury during the nine months ended September 30, 2010, pursuant to our 2007 Share Plan which extends certain eligible employees the option to receive a percentage of their annual cash incentive in shares of the Company's stock. There were no shares reissued related to the 2007 Share Plan during the nine months ended September 30, 2011.

- 27 -

Effect of Currency on Results of Operations

Because we conduct operations in many countries, our operating income can be significantly affected by fluctuations in currency exchange rates. Swiss franc denominated expenses represent a much greater percentage of our total operating expenses than Swiss franc denominated sales represent of our total net sales. In part, this is because most of our manufacturing costs in Switzerland relate to products that are sold outside Switzerland. In addition, we have a number of corporate functions located in Switzerland. Therefore, if the Swiss franc strengthens against all or most of our major trading currencies (e.g., the U.S. dollar, the euro, other major European currencies, the Chinese yuan and the Japanese yen), our operating profit is reduced. We also have significantly more sales in euro than we have expenses. Therefore, when the euro weakens against the U.S. dollar and the Swiss franc, it also decreases our operating profits. Accordingly, the Swiss franc exchange rate to the euro is an important cross-rate that we monitor. We have seen higher volatility in exchange rates generally than in the past, and recently the Swiss franc has strengthened against the euro. The exchange rate between the Swiss franc and the euro was 1.22 for the nine months ended September 30, 2011 as compared to 1.40 for the prior corresponding period reflecting a 13% strengthening of the Swiss franc against the euro. The current exchange rate for the Swiss franc to the euro is 1.22 as of October 31, 2011, which compares to 1.33 during the period of October 1 to December 31, 2010, reflecting an 8% strengthening of the Swiss franc against the euro. We estimate that a 1% strengthening of the Swiss franc against the euro would result in a decrease in our earnings before tax of \$1.6 million to \$2.2 million on an annual basis. In addition to the Swiss franc and major European currencies, we also conduct business in many geographies throughout the world, including Asia Pacific, the United Kingdom, Eastern Europe, Latin America and Canada. Fluctuations in these currency exchange rates against the U.S. dollar can also affect our operating results. In addition to the effects of exchange rate movements on operating profits, our debt levels can fluctuate due to changes in exchange rates, particularly between the U.S. dollar and the Swiss franc. Based on our outstanding debt at September 30, 2011, we estimate that a 10% weakening of the U.S. dollar against the currencies in which our debt is denominated would result in an increase of approximately \$9.0 million in the reported U.S. dollar value of the debt.

Recent Accounting Pronouncements

In October 2009, the FASB issued authoritative guidance impacting two areas of revenue recognition. First, the guidance revises previous criteria for separating deliverables and allocating consideration to units of accounting in multiple deliverable arrangements. Arrangement consideration under the new guidance is allocated on the basis of “relative selling price” rather than fair value. The guidance establishes a hierarchy for determining relative selling price requiring first the use of vendor-specific objective evidence (“VSOE”) if it exists, then the use of third party evidence. If neither VSOE nor third party evidence exists, estimated selling price may be used. In addition, the guidance no longer permits the use of the residual method of allocation. Secondly, guidance was issued excluding software components essential to the functionality of tangible products from the scope of software revenue recognition. This new authoritative guidance requires expanded disclosures and became effective for the Company on January 1, 2011. The adoption of this guidance has not and is not expected to have a material impact on the Company’s consolidated results of operations or financial position in periods after initial adoption.

In June 2011, the FASB issued authoritative guidance on the presentation of comprehensive income. An entity has the option to present the components and total of net income and the components and total of other comprehensive income in one continuous statement or in two separate but consecutive statements. Regardless of presentation chosen, an entity is required to present reclassification adjustments for items reclassified from other comprehensive income to net income in the statement(s) where the components of net income and the components of other comprehensive income are presented. This guidance becomes effective for the Company on January 1, 2012. The adoption of this guidance will not impact the Company’s consolidated results of operations or financial position.

In September 2011, the FASB issued authoritative guidance on the measurement of goodwill for impairment. An entity has the option to first assess qualitative factors to determine whether the

existence of events or circumstances leads to a determination that it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If, after assessing the totality of events or circumstances, an entity determines that it is more likely than not that the fair value of a reporting unit is less than its carrying amount, then performing the two-step impairment test is unnecessary. The Company elected to adopt this guidance upon issuance. The adoption of this guidance will not impact the Company's consolidated results of operations or financial position.

Forward-Looking Statements Disclaimer

Some of the statements in this quarterly report and in documents incorporated by reference constitute “forward-looking statements” within the meaning of Section 27A of the U.S. Securities Act of 1933 and Section 21E of the U.S. Securities Exchange Act of 1934. These statements relate to future events or our future financial performance, including, but not limited to, the following: projected earnings and sales growth in U.S. dollars and local currencies, projected earnings per share, strategic plans and contingency plans, potential growth opportunities or economic downturns in both developed markets and emerging markets, including China, factors influencing growth in our laboratory, industrial and food retail markets, our expectations in respect of the impact of general economic conditions on our business, our projections for growth in certain markets or industries, our capability to respond to future changes in market conditions, impact of inflation, currency and interest rate fluctuations, our ability to maintain a leading position in our key markets, our expected market share, our ability to leverage our market-leading position and diverse product offering to weather an economic downturn, the effectiveness of our “Spinnaker” initiatives relating to sales and marketing, planned research and development efforts, product introductions and innovation, manufacturing capacity, adequacy of facilities, access to and the costs of raw materials, shipping and supplier costs, expanding our operating margins, anticipated gross margins, anticipated customer spending patterns and levels, expected customer demand, meeting customer expectations, warranty claim levels, anticipated growth in service revenues, anticipated pricing, our ability to realize planned price increases, planned operational changes and productivity improvements, effect of changes in internal control over financial reporting, research and development expenditures, competitors’ product development, levels of competitive pressure, our future position vis-à-vis competitors, expected capital expenditures, the timing, impact, cost, benefits from and effectiveness of our cost reduction programs, future cash sources and requirements, cash flow targets, liquidity, value of inventories, impact of long-term incentive plans, continuation of our stock repurchase program and the related impact on cash flow, expected pension and other benefit contributions and payments, expected tax treatment and assessment, impact of taxes and changes in tax benefits, the need to take additional restructuring charges, expected compliance with laws, changes in laws and regulations, impact of environmental costs, expected trading volume and value of stocks and options, impact of issuance of preferred stock, expected cost savings, impact of legal proceedings, satisfaction of contractual obligations by counterparties, timeliness of payments by our customers, the adequacy of reserves for bad debts against our accounts receivable, benefits and other effects of completed or future acquisitions.

These statements involve known and unknown risks, uncertainties and other factors that may cause our or our businesses’ actual results, levels of activity, performance or achievements to be materially different from those expressed or implied by any forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as “may,” “will,” “could,” “would,” “should,” “expect,” “plan,” “anticipate,” “intend,” “believe,” “estimate,” “potential” or “continue” or the negative of those terms or other comparable terminology. These statements are only predictions. Actual events or results may differ materially because of market conditions in our industries or other factors. Moreover, we do not, nor does any other person, assume responsibility for the accuracy and completeness of those statements. Unless otherwise required by applicable laws, we disclaim any intention or obligation to publicly update or revise any of the forward-looking statements after the date of this quarterly report to conform them to actual results, whether as a result of new information, future events or otherwise. All of the forward-looking statements are qualified in their entirety by reference to the factors discussed under the captions “Factors affecting our future operating results” in the “Business” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in Part I, Item 1A of our annual report on Form 10-K for the fiscal year ended December 31, 2010, which describe risks and factors that could cause results to differ materially from those projected in those forward-looking statements.

We caution the reader that the above list of risks and factors that may affect results addressed in the forward-looking statements may not be exhaustive. Other sections of this quarterly report on Form 10-Q for the period ended September 30, 2011 and other documents incorporated by reference may describe additional risks or factors that could adversely impact our business and financial

performance. We operate in a continually changing business environment, and new risk factors emerge from time to time. Management cannot predict these new risk factors, nor can it assess the impact, if any, of these new risk factors on our businesses or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those projected in any forward-looking statements. Accordingly, forward-looking statements should not be relied upon as a prediction of actual results.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

As of September 30, 2011, there was no material change in the information provided under Item 7A in the Company's Annual Report on Form 10-K for the year ended December 31, 2010.

Item 4. Controls and Procedures

Under the supervision and with the participation of our management, including the Chief Executive Officer and the Chief Financial Officer, we have evaluated the effectiveness of our disclosure controls and procedures as required by Exchange Act Rule 13a-15(b) as of the end of the period covered by this report. Based upon that evaluation, the Chief Executive Officer and the Chief Financial Officer have concluded that these disclosure controls and procedures are effective. There were no changes in our internal control over financial reporting during the quarter ended September 30, 2011 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting, except as described below.

In the third quarter of 2011, our Chinese operations went live on our Blue Ocean program. As a result of the go-live, certain internal controls have changed. Management has taken steps to ensure appropriate controls were designed and operating as part of the go-live process. This initiative is not in response to any identified deficiency or weakness in our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings. None

Item 1A. Risk Factors.

For the nine months ended September 30, 2011 there were no material changes from risk factors disclosed in Part I, Item 1A of the Company's Annual Report on Form 10-K for the year ended December 31, 2010.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Issuer Purchases of Equity Securities

	(a)	(b)	(c)	(d)
	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Approximate Dollar Value (in thousands of Shares that may yet be Purchased under the Program
July 1 to July 31, 2011	90,900	\$ 166.67	90,900	\$791,272
August 1 to August 31, 2011	163,956	\$ 145.66	163,956	\$767,387
September 1 to September 30, 2011	118,731	\$ 151.27	118,731	\$749,424
Total	373,587	\$ 152.55	373,587	\$749,424

We have a share repurchase program, of which there is \$749.4 million remaining to repurchase common shares as of September 30, 2011. We have purchased 18.3 million shares since the inception of the program through September 30, 2011.

During the nine months ended September 30, 2011 and 2010, we spent \$171.2 million and \$148.8 million on the repurchase of 1,061,666 and 1,310,936 shares at an average price per share of \$161.22 and \$113.48, respectively. We reissued 220,463 shares and 281,897 shares held in treasury for the exercise of stock options and restricted stock units for the nine months ended September 30, 2011 and 2010, respectively. We also reissued 2,549 shares held in treasury during the nine months ended September 30, 2010, pursuant to our 2007 Share Plan which extends certain eligible employees the option to receive a percentage of their annual cash incentive in shares of the Company's stock. There were no shares reissued related to the 2007 Share Plan during the nine months ended September 30, 2011.

Item 3. Defaults Upon Senior Securities. None

Item 5. Other information. None

Item 6. Exhibits. See Exhibit Index below.
