SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the Quarterly Period ended June 30, 2016

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For transition period from                      to

Commission File Number 1-34403

TERRITORIAL BANCORP INC.

(Exact Name of Registrant as Specified in Charter)

Edgar Filing: Territorial Bancorp Inc. - Form 10-Q

Maryland 26-4674701  
(State or Other Jurisdiction of Incorporation) (I.R.S. Employer Identification No.)

1132 Bishop Street, Suite 2200, Honolulu, Hawaii 96813  
(Address of Principal Executive Offices) (Zip Code)

(808) 946-1400

(Registrant's telephone number, including area code)

Not Applicable

(Former name or former address, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No .

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No .

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer  
Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No .

Edgar Filing: Territorial Bancorp Inc. - Form 10-Q

Indicate the number of shares outstanding of each of the issuer's classes of common stock as of the latest practicable date: 9,663,122 shares of Common Stock, par value \$0.01 per share, were issued and outstanding as of July 31, 2016.

TERRITORIAL BANCORP INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Unaudited)

(1) Basis of Presentation

The accompanying unaudited consolidated financial statements of Territorial Bancorp Inc. (the Company) have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations. These interim condensed consolidated financial statements and notes should be read in conjunction with the Company’s consolidated financial statements and notes thereto filed as part of the Annual Report on Form 10-K for the year ended December 31, 2015. In the opinion of management, all adjustments necessary for a fair presentation have been made and consist only of normal recurring adjustments. Interim results of operations are not necessarily indicative of results to be expected for the year.

(2) Organization

On November 4, 2008, the Board of Directors of Territorial Mutual Holding Company (MHC) approved a plan of conversion and reorganization under which the MHC would convert from a mutual holding company to a stock holding company. The conversion to a stock holding company was approved by the depositors and borrowers of Territorial Savings Bank and the Office of Thrift Supervision (OTS) and included the filing of a registration statement with the U.S. Securities and Exchange Commission. Upon the completion of the conversion and reorganization on July 10, 2009, Territorial Mutual Holding Company and Territorial Savings Group, Inc. ceased to exist as separate legal entities and Territorial Bancorp Inc. became the holding company for Territorial Savings Bank.

Upon completion of the conversion and reorganization, a special “liquidation account” was established in an amount equal to the total equity of Territorial Mutual Holding Company as of December 31, 2008. The liquidation account is to provide eligible account holders and supplemental eligible account holders who maintain their deposit accounts with Territorial Savings Bank after the conversion with a liquidation interest in the unlikely event of the complete liquidation of Territorial Savings Bank after the conversion. The balance of the liquidation account at December 31, 2015 was \$13.5 million.

On June 25, 2014, Territorial Savings Bank converted from a federal savings bank to a Hawaii state-chartered savings bank. On July 10, 2014, Territorial Savings Bank became a member of the Federal Reserve System.

(3) Recently Issued Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (FASB) amended the Revenue Recognition topic of the FASB Accounting Standards Codification (ASC). The amendment seeks to clarify the principles for recognizing revenue as well as to develop common revenue standards for U.S. generally accepted accounting principles and International Financial Reporting Standards. The amendment is effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. Early application is not permitted. In August 2015, the FASB deferred the effective date of the amendment by one year. However, entities may still choose to adopt the amendment as of the original effective date. The Company does not expect the adoption of this amendment to have a material effect on its consolidated financial statements.

In April 2015, the FASB amended the Intangibles – Goodwill and Other topic of the FASB ASC. The amendment adds guidance to help entities evaluate the accounting for fees paid in cloud computing arrangements. The amendment is effective for annual periods, including interim periods within those annual periods, beginning after December 15, 2015. The Company adopted this amendment on January 1, 2016, and the adoption did not have a material effect on its consolidated financial statements.

Table of Contents

In January 2016, the FASB amended the Financial Instruments – Overall topic of the FASB ASC. The amendment addresses several aspects of recognition, measurement, presentation and disclosure of financial instruments. Included are: (a) a requirement to measure equity investments at fair value, with changes in fair value recognized in net income, (b) a simplification of the impairment assessment of equity investments without readily determinable fair values, (c) the elimination of the requirement to disclose the methods and significant assumptions used to estimate the fair value for financial instruments measured at amortized cost on the balance sheet, and (d) a requirement to use the exit price notion when measuring the fair value of financial instruments for disclosure purposes. The amendment is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. The Company does not expect the adoption of this amendment to have a material effect on its consolidated financial statements.

In February 2016, the FASB amended the Leases topic of the FASB ASC. The primary effects of the amendment will be to recognize lease assets and lease liabilities on the balance sheet and to disclose certain information about leasing arrangements. The amendment is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. The Company is currently evaluating the effects that the adoption of this amendment will have on its consolidated financial statements.

In March 2016, the FASB amended the Compensation – Stock Compensation topic of the FASB ASC. The amendment seeks to simplify several areas of accounting for share-based payment transactions, including income tax consequences, classification of awards as either equity or liabilities, and classification of transactions on the statement of cash flows. The amendment is effective for annual periods beginning after December 15, 2016, including interim periods within those annual periods. The Company does not expect the adoption of this amendment to have a material effect on its consolidated financial statements.

In June 2016, the FASB amended various sections of the FASB ASC related to the accounting for credit losses on financial instruments. The primary area affecting the Company will be in the accounting for loans receivable. The amendment changes the threshold for recognizing losses from “probable” to “expected” and may result in an increase in the Company’s allowance for loan losses. The amendment is effective for fiscal years beginning after December 15, 2019, including interim periods within those fiscal years. The Company is currently evaluating the effects that the adoption of this amendment will have on its consolidated financial statements.

(4) Cash and Cash Equivalents

The table below presents the balances of cash and cash equivalents:

	December
June 30,	31,

Edgar Filing: Territorial Bancorp Inc. - Form 10-Q

(Dollars in thousands)	2016	2015
Cash and due from banks	\$ 9,579	\$ 10,318
Interest-earning deposits in other banks	54,299	55,601
Cash and cash equivalents	\$ 63,878	\$ 65,919

Interest-earning deposits in other banks consist primarily of deposits at the Federal Reserve Bank.

Table of Contents

(5) Investment Securities

The amortized cost and fair values of investment securities are as follows:

(Dollars in thousands)	Amortized Cost	Gross Unrealized Gains	Losses	Estimated Fair Value
June 30, 2016:				
Held to maturity:				
U.S. government-sponsored mortgage-backed securities	\$ 454,999	\$ 18,313	\$ (246)	\$ 473,066
Trust preferred securities	992	—	—	992
Total	\$ 455,991	\$ 18,313	\$ (246)	\$ 474,058
December 31, 2015:				
Held to maturity:				
U.S. government-sponsored mortgage-backed securities	\$ 492,143	\$ 11,092	\$ (6,169)	\$ 497,066
Trust preferred securities	916	—	—	916
Total	\$ 493,059	\$ 11,092	\$ (6,169)	\$ 497,982

The amortized cost and estimated fair value of investment securities at June 30, 2016 are shown below. Incorporated in the maturity schedule are mortgage-backed and trust preferred securities, which are allocated using the contractual maturity as a basis. Expected maturities may differ from contractual maturities because issuers may have the right to call or prepay obligations with or without call or prepayment penalties.

(Dollars in thousands)	Amortized Cost	Estimated Fair Value
Held to maturity:		
Due within 5 years	\$ 30	\$ 31
Due after 5 years through 10 years	—	—
Due after 10 years	455,961	474,027
Total	\$ 455,991	\$ 474,058

Realized gains and losses and the proceeds from sales of securities held to maturity and trading are shown in the table below. All sales of securities were U.S. government-sponsored mortgage-backed securities.

Three Months Ended	Six Months Ended
-----------------------	---------------------

Edgar Filing: Territorial Bancorp Inc. - Form 10-Q

(Dollars in thousands)	June 30,		June 30,	
	2016	2015	2016	2015
Proceeds from sales	\$ 3,122	\$ 2,503	\$ 3,122	\$ 5,083
Gross gains	190	240	190	476
Gross losses	—	—	—	—

During the three months ended June 30, 2016 and 2015, the Company received proceeds of \$3.1 million and \$2.4 million, respectively, from the sale of \$2.9 million and \$2.3 million, respectively, of held-to-maturity mortgage-backed securities, resulting in gross realized gains of \$190,000 and \$179,000, respectively. During the six months ended June 30, 2016 and 2015, the Company received proceeds of \$3.1 million and \$5.0 million, respectively, from the sale of \$2.9 million and \$4.6 million, respectively, of held-to-maturity mortgage-backed securities, resulting in gross realized gains of \$190,000 and \$415,000, respectively. The sale of these mortgage-backed securities, for which the Company had already collected a substantial portion of the outstanding purchased principal (at least 85%), is in accordance with the Investments – Debt and Equity Securities topic of the FASB ASC and does not taint management’s assertion of intent to hold remaining securities in the held-to-maturity portfolio to maturity.

During the three months ended June 30, 2015, the Company received proceeds of \$61,000 from the sale of one of the trust preferred securities the Company owned, PreTSL XXIV. The Company previously wrote off the entire book value of this security when it incurred an other-than-temporary impairment charge in prior years. The trust preferred security sold was classified in the held-to-maturity portfolio. Since the credit rating of this security was downgraded, in

Table of Contents

accordance with the Investments – Debt and Equity Securities topic of the FASB ASC, the sale of this security does not taint management’s assertion of intent to hold remaining securities in the held-to-maturity portfolio to maturity.

Investment securities with amortized costs of \$235.2 million and \$241.4 million at June 30, 2016 and December 31, 2015, respectively, were pledged to secure public deposits, securities sold under agreements to repurchase and transaction clearing accounts.

Provided below is a summary of investment securities which were in an unrealized loss position at June 30, 2016 and December 31, 2015. The Company does not intend to sell these securities until such time as the value recovers or the securities mature and it is not more likely than not that the Company will be required to sell the securities prior to recovery of value or the securities mature.

	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses			
June 30, 2016							
Mortgage-backed securities	\$ 1,421	\$ 1	\$ 33,499	\$ 245	13	\$ 34,920	\$ 246
December 31, 2015							
Mortgage-backed securities	\$ 142,810	\$ 3,939	\$ 53,142	\$ 2,230	43	\$ 195,952	\$ 6,169

**Mortgage-Backed Securities.** The unrealized losses on the Company’s investment in mortgage-backed securities were caused by increases in market interest rates subsequent to purchase. All of the mortgage-backed securities are guaranteed by Freddie Mac or Fannie Mae, which are U.S. government-sponsored enterprises, or Ginnie Mae, which is a U.S. government agency. Since the decline in market value is attributable to changes in interest rates and not credit quality, and the Company does not intend to sell these investments until maturity and it is not more likely than not that the Company will be required to sell such investments prior to recovery of its cost basis, the Company does not consider these investments to be other-than-temporarily impaired as of June 30, 2016 and December 31, 2015.

**Trust Preferred Securities.** At June 30, 2016, the Company owned one trust preferred security, PreTSL XXIII. The trust preferred security represents an investment in a pool of debt obligations issued primarily by holding companies for Federal Deposit Insurance Corporation-insured financial institutions. This security is classified in the Company’s held-to-maturity investment portfolio.

## Edgar Filing: Territorial Bancorp Inc. - Form 10-Q

The trust preferred securities market is considered to be inactive as only six transactions have occurred over the past 54 months in the same tranche of securities that we own and no new issues of pooled trust preferred securities have occurred since 2007. We used a discounted cash flow model to determine whether this security is other-than-temporarily impaired. The assumptions used in preparing the discounted cash flow model include the following: estimated discount rates, estimated deferral and default rates on collateral, and estimated cash flows.

Based on the Company's review, the Company's investment in PreTSL XXIII did not incur additional impairment during the six months ended June 30, 2016.

PreTSL XXIII has an amortized cost of \$992,000 at June 30, 2016. The difference between the amortized cost of \$992,000 and the remaining cost basis of \$1.1 million is reported as accumulated other comprehensive loss and is related to noncredit factors.

It is reasonably possible that the fair value of the trust preferred security could decline in the near term if the overall economy and the financial condition of some of the issuers deteriorate further and the liquidity of this security remains low. As a result, there is a risk that the Company's remaining cost basis of \$1.1 million on the trust preferred security could be credit-related other-than-temporarily impaired in the near term. The impairment, if any, could be material to the Company's consolidated statements of income.

Table of Contents

The table below provides a cumulative roll forward of credit losses recognized in earnings for debt securities held and not intended to be sold:

(Dollars in thousands)	2016	2015
Balance at January 1,	\$ 2,403	\$ 5,885
Credit losses on debt securities for which other-than-temporary impairment was not previously recognized	—	—
Credit losses on debt securities which were sold	—	(3,482)
Balance at June 30,	\$ 2,403	\$ 2,403

The table below shows the components of accumulated other comprehensive loss, net of taxes, resulting from other-than-temporarily impaired securities:

(Dollars in thousands)	June 30,	
	2016	2015
Noncredit losses on other-than-temporarily impaired securities, net of taxes	\$ 101	\$ 176

(6) Loans Receivable and Allowance for Loan Losses

The components of loans receivable are as follows:

(Dollars in thousands)	June 30, 2016	December 31, 2015
Real estate loans:		
First mortgages:		
One- to four-family residential	\$ 1,209,594	\$ 1,145,904

Balance, end of period	\$ 1,243	\$ 407	\$ 3	\$ 101	\$ 240	\$ 1,994

During the six months ended June 30, 2016, the Company increased the loan loss provisions for residential mortgage loans based on the growth of this segment of the loan portfolio and the concentration of loans in Hawaii. The Company also increased the loan loss provisions on construction, commercial and other mortgage loans based on the growth of this segment of the loan portfolio. The loan loss provision on consumer and other loans declined because of a continued limited loss experience in this segment of the loan portfolio. The allocation of a portion of the allowance from one category of loans does not preclude its availability to absorb losses in other loan categories.

Table of Contents

Management considers the allowance for loan losses at June 30, 2016 to be at an appropriate level to provide for probable losses that can be reasonably estimated based on general and specific conditions at that date. While the Company uses the best information it has available to make evaluations, future adjustments to the allowance may be necessary if conditions differ substantially from the information used in making the evaluations. To the extent actual outcomes differ from the estimates, additional provisions for credit losses may be required that would reduce future earnings. In addition, as an integral part of their examination process, the bank regulators periodically review the allowance for loan losses and may require the Company to increase the allowance based on their analysis of information available at the time of their examination.

The table below presents the balance in the allowance for loan losses and the recorded investment in loans by portfolio segment and based on impairment method:

(Dollars in thousands)	Residential Mortgage	Construction, Commercial and Other Mortgage Loans	Home Equity Loans and Lines of Credit	Consumer and Other	Unallocated	Totals

Table of Contents

The table below presents the balance of impaired loans individually evaluated for impairment by class of loans:

(Dollars in thousands)	Recorded Investment	Unpaid Principal Balance
June 30, 2016:		
With no related allowance recorded:		
One- to four-family residential mortgages	\$ 6,089	\$ 6,991
Home equity loans and lines of credit	163	206
Total	\$ 6,252	\$ 7,197
December 31, 2015:		
With no related allowance recorded:		
One- to four-family residential mortgages	\$ 6,486	\$ 7,307
Home equity loans and lines of credit	124	163
Consumer and other	9	9
Total	\$ 6,619	\$ 7,479

The table below presents the average recorded investment and interest income recognized on impaired loans by class of loans:

(Dollars in thousands)	For the Three Months Ended June 30, Average Recorded Investment		For the Six Months Ended June 30, Average Recorded Investment	
	Interest Income Recognized	Interest Income Recognized	Interest Income Recognized	Interest Income Recognized
2016:				
With no related allowance recorded:				
One- to four-family residential mortgages	\$ 6,123	\$ 18	\$ 6,157	\$ 38
Home equity loans and lines of credit	165	—	165	—
Total	\$ 6,288	\$ 18	\$ 6,322	\$ 38
2015:				
With no related allowance recorded:				
One- to four-family residential mortgages	\$ 6,331	\$ 17	\$ 6,366	\$ 36
Home equity loans and lines of credit	131	—	132	—
Total	\$ 6,462	\$ 17	\$ 6,498	\$ 36

There were no loans individually evaluated for impairment with a related allowance for loan loss as of June 30, 2016 or December 31, 2015. Loans individually evaluated for impairment do not have an allocated allowance for loan loss because they were written down to fair value at the time of impairment.

The Company primarily uses the aging of loans and accrual status to monitor the credit quality of its loan portfolio. When a mortgage loan becomes seriously delinquent (90 days or more contractually past due), it displays weaknesses that may result in a loss. As a loan becomes more delinquent, the likelihood of the borrower repaying the loan decreases and the loan becomes more collateral-dependent. A mortgage loan becomes collateral-dependent when the proceeds for repayment can be expected to come only from the sale or operation of the collateral and not from

borrower repayments. Generally, appraisals are obtained after a loan becomes collateral-dependent or is four months delinquent. The carrying value of collateral-dependent loans is adjusted to the fair value of the collateral less selling costs. Any commercial real estate, commercial, construction or equity loan that has a loan balance in excess of a specified amount is also periodically reviewed to determine whether the loan exhibits any weaknesses and is performing in accordance with its contractual terms.

The Company had 22 nonaccrual loans with a book value of \$5.1 million at June 30, 2016 and 23 nonaccrual loans with a book value of \$5.4 million as of December 31, 2015. The Company collected interest on nonaccrual loans of \$106,000 and \$105,000 during the six months ended June 30, 2016 and 2015, respectively, but due to regulatory requirements, the Company recorded the interest as a reduction of principal. The Company would have recognized additional interest income of \$151,000 during each of the six months ended June 30, 2016 and 2015, had the loans been accruing interest. The Company did not have any loans more than 90 days past due and still accruing interest as of June 30, 2016 and December 31, 2015.

There were no loans modified in a troubled debt restructuring during the six months ended June 30, 2016 or 2015. There were no new troubled debt restructurings within the past 12 months that subsequently defaulted.

The Company had 15 troubled debt restructurings totaling \$3.3 million as of June 30, 2016 that were considered to be impaired. This total included 14 one- to four-family residential mortgage loans totaling \$3.2 million and one home equity loan for \$114,000. Five of the loans, totaling \$1.2 million, are performing in accordance with their restructured terms and accruing interest at June 30, 2016. Nine of the loans, totaling \$2.0 million, are performing in accordance with their restructured terms but not accruing interest at June 30, 2016. One of the loans, for \$149,000, was more than 149 days delinquent and not accruing interest as of June 30, 2016. The Company had 15 troubled debt restructurings totaling \$3.4 million as of December 31, 2015 that were considered to be impaired. This total included 14 one- to four-family residential mortgage loans totaling \$3.3 million and one home equity loan for \$120,000. Four of the loans, totaling

Table of Contents

\$885,000, were performing in accordance with their restructured terms and accruing interest at December 31, 2015. Nine of the loans, totaling \$2.0 million, were performing in accordance with their restructured terms but not accruing interest at December 31, 2015. One of the loans, for \$318,000, was 59 days delinquent and accruing interest at December 31, 2015. One of the loans, for \$149,000, was more than 149 days delinquent and not accruing interest as of December 31, 2015. Restructurings include deferrals of interest and/or principal payments and temporary or permanent reductions in interest rates due to the financial difficulties of the borrowers. At June 30, 2016, we had no commitments to lend any additional funds to these borrowers.

The Company had no real estate owned as of June 30, 2016 or December 31, 2015. There were five one- to four-family residential mortgage loans totaling \$1.1 million in the process of foreclosure as of June 30, 2016, and four one- to four-family residential mortgage loans totaling \$747,000 in the process of foreclosure as of December 31, 2015.

Nearly all of our real estate loans are collateralized by real estate located in the State of Hawaii. Loan-to-value ratios on these real estate loans generally do not exceed 80% at the time of origination.

During the six months ended June 30, 2016 and 2015, the Company sold \$24.1 million and \$28.6 million, respectively, of mortgage loans held for sale and recognized gains of \$190,000 and \$239,000, respectively. The Company had one loan held for sale of \$353,000 at June 30, 2016 and six loans held for sale totaling \$2.1 million at December 31, 2015.

The Company serviced loans for others of \$46.8 million at June 30, 2016 and \$51.8 million at December 31, 2015. Of these amounts, \$2.7 million and \$2.8 million relate to securitizations for which the Company continues to hold the related mortgage-backed securities at June 30, 2016 and December 31, 2015, respectively. The amount of contractually specified servicing fees earned for the six-month periods ended June 30, 2016 and 2015 was \$67,000 and \$80,000, respectively. The amount of contractually specified servicing fees earned for the three-month periods ended June 30, 2016 and 2015 was \$33,000 and \$39,000, respectively. The fees are reported in service fees on loan and deposit accounts in the consolidated statements of income.

(7) Securities Sold Under Agreements to Repurchase

Securities sold under agreements to repurchase are treated as financings and the obligations to repurchase the identical securities sold are reflected as a liability with the securities collateralizing the agreements classified as an asset. Securities sold under agreements to repurchase are summarized as follows:

(Dollars in thousands)	June 30, 2016		December 31, 2015	
	Repurchase Liability	Weighted Average Rate	Repurchase Liability	Weighted Average Rate
Maturing:				
1 year or less	\$ —	— %	\$ —	— %
Over 1 year to 2 years	25,000	1.46	25,000	1.46
Over 2 years to 3 years	20,000	1.66	—	—
Over 3 years to 4 years	10,000	1.65	25,000	1.66
Over 4 years to 5 years	—	—	5,000	1.65
Total	\$ 55,000	1.57 %	\$ 55,000	1.57 %

Below is a summary comparing the carrying value and fair value of securities pledged to secure repurchase agreements, the repurchase liability, and the amount at risk at June 30, 2016. The amount at risk is the greater of the carrying value or fair value over the repurchase liability and refers to the potential loss to the Company if the secured lender fails to return the security at the maturity date of the agreement. All the agreements to repurchase are with JP Morgan Securities and the securities pledged are mortgage-backed securities issued and guaranteed by U.S. government-sponsored enterprises. The repurchase liability cannot exceed 90% of the fair value of securities pledged. In the event

Table of Contents

of a decline in the fair value of securities pledged to less than the required amount due to market conditions or principal repayments, the Company is obligated to pledge additional securities or other suitable collateral to cure the deficiency.

(Dollars in thousands)	Carrying Value of Securities	Fair Value of Securities	Repurchase Liability	Amount at Risk	Weighted Average Months to Maturity
Maturing:					
Over 90 days	\$ 61,983	\$ 63,914	\$ 55,000	\$ 8,914	26

(8) Offsetting of Financial Liabilities

Securities sold under agreements to repurchase are subject to a right of offset in the event of default. See note 7, Securities Sold Under Agreements to Repurchase, for additional information.

(Dollars in thousands)	Gross Amount of Recognized Liabilities	Gross Amount Offset in the Balance Sheet	Liabilities Presented in the Balance Sheet	Net Amount of Gross Amount Not Offset in the Balance Sheet	Cash Collateral Pledged	Net Amount
June 30, 2016:						
Securities sold under agreements to repurchase	\$ 55,000	\$ —	\$ 55,000	\$ 55,000	\$ —	\$ —
December 31, 2015:						
Securities sold under agreements to repurchase	\$ 55,000	\$ —	\$ 55,000	\$ 55,000	\$ —	\$ —

(9) Employee Benefit Plans

The Company has a noncontributory defined benefit pension plan (Pension Plan) that covers most employees with at least one year of service. Effective December 31, 2008, under approved changes to the Pension Plan, there were no

further accruals of benefits for any participants and benefits will not increase with any additional years of service. Net periodic benefit cost, subsequent to December 31, 2008, has not been significant and is not disclosed in the table below.

The Company also sponsors a Supplemental Employee Retirement Plan (SERP), a noncontributory supplemental retirement benefit plan, which covers certain current and former employees of the Company for amounts in addition to those provided under the Pension Plan.

The components of net periodic benefit cost were as follows:

	SERP Three Months Ended June 30, 2016		SERP Six Months Ended June 30, 2015	
(Dollars in thousands)				
Net periodic benefit cost for the period:				
Service cost	\$ 15	\$ 21	\$ 29	\$ 42
Interest cost	33	31	66	62
Expected return on plan assets	—	—	—	—
Amortization of prior service cost	—	—	—	—
Recognized actuarial loss	—	—	—	—
Recognized curtailment loss	—	—	—	—
Net periodic benefit cost	\$ 48	\$ 52	\$ 95	\$ 104

Table of Contents

## (10) Employee Stock Ownership Plan

Effective January 1, 2009, Territorial Savings Bank adopted an Employee Stock Ownership Plan (ESOP) for eligible employees. The ESOP borrowed \$9.8 million from the Company and used those funds to acquire 978,650 shares, or 8%, of the total number of shares issued by the Company in its initial public offering. The shares were acquired at a price of \$10.00 per share.

The loan is secured by the shares purchased with the loan proceeds and will be repaid by the ESOP over the 20-year term of the loan with funds from Territorial Savings Bank's contributions to the ESOP and dividends payable on the shares. The interest rate on the ESOP loan is an adjustable rate equal to the prime rate, as published in The Wall Street Journal. The interest rate adjusts annually and will be the prime rate on the first business day of the calendar year.

Shares purchased by the ESOP are held by a trustee in an unallocated suspense account, and shares are released annually from the suspense account on a pro-rata basis as principal and interest payments are made by the ESOP to the Company. The trustee allocates the shares released among participants on the basis of each participant's proportional share of compensation relative to all participants. As shares are committed to be released from the suspense account, Territorial Savings Bank reports compensation expense based on the average fair value of shares released with a corresponding credit to stockholders' equity. The shares committed to be released are considered outstanding for earnings per share computations. Compensation expense recognized for the three months ended June 30, 2016 and 2015 amounted to \$259,000 and \$241,000, respectively. Compensation expense recognized for the six months ended June 30, 2016 and 2015 amounted to \$521,000 and \$463,000, respectively.

Shares held by the ESOP trust were as follows:

	June 30, 2016	December 31, 2015
Allocated shares	348,828	325,677
Unearned shares	611,659	636,125
Total ESOP shares	960,487	961,802
Fair value of unearned shares, in thousands	\$ 16,191	\$ 17,646

The ESOP restoration plan is a nonqualified plan that provides supplemental benefits to certain executives who are prevented from receiving the full benefits contemplated by the ESOP's benefit formula. The supplemental cash payments consist of payments representing shares that cannot be allocated to the participants under the ESOP due to IRS limitations imposed on tax-qualified plans. We accrue for these benefits over the period during which employees

provide services to earn these benefits. For the three months ended June 30, 2016 and 2015, we accrued \$45,000 and \$40,000, respectively, for the ESOP restoration plan. For the six months ended June 30, 2016 and 2015, we accrued \$121,000 and \$104,000, respectively, for the ESOP restoration plan.

(11) Share-Based Compensation

On August 19, 2010, Territorial Bancorp Inc. adopted the 2010 Equity Incentive Plan, which provides for awards of stock options and restricted stock to key officers and outside directors. In accordance with the Compensation – Stock Compensation topic of the FASB ASC, the cost of the 2010 Equity Incentive Plan is based on the fair value of the awards on the grant date. The fair value of restricted stock is based on the closing price of the Company’s stock on the grant date. The fair value of stock options is estimated using a Black-Scholes option pricing model using assumptions for dividend yield, stock price volatility, risk-free interest rate and option term. These assumptions are based on our judgments regarding future events, are subjective in nature, and cannot be determined with precision. The cost of the awards will be recognized on a straight-line basis over the three, five- or six-year vesting period during which participants are required to provide services in exchange for the awards.

The Company recognized compensation expense, measured as the fair value of the share-based award on the date of grant, on a straight-line basis over the vesting period. Share-based compensation is recorded in the statement of

Table of Contents

income as a component of salaries and employee benefits with a corresponding increase in shareholders' equity. The table below presents information on compensation expense and the related tax benefit for all share-based awards:

	For the Three		For the Six	
	Months Ended		Months Ended	
(In thousands)	June 30,	June 30,	June 30,	June 30,
	2016	2015	2016	2015
Compensation expense	\$ 661	\$ 667	\$ 1,323	\$ 1,328
Income tax benefit	266	268	531	533

Shares of our common stock issued under the 2010 Equity Incentive Plan shall be authorized but unissued shares. On May 26, 2016, the shareholders approved an amendment to the 2010 Equity Incentive Plan increasing the maximum number of shares which can be awarded under the plan by 150,000 shares to 1,862,637 shares.

## Stock Options

The table below presents the stock option activity for the six months ended June 30, 2016 and 2015:

	Options	Weighted Average Exercise Price	Remaining Contractual Life (years)	Aggregate Intrinsic Value (in thousands)
Options outstanding at December 31, 2015	832,300	\$ 17.42	4.70	\$ 8,588
Granted	—	—	—	—
Exercised	61,340	17.36	4.24	539
Forfeited	—	—	—	—
Expired	—	—	—	—
Options outstanding at June 30, 2016	770,960	\$ 17.43	4.20	\$ 6,972
Options outstanding at December 31, 2014	832,954	\$ 17.38	5.68	\$ 3,471
Granted	—	—	—	—
Exercised	—	—	—	—
Forfeited	—	—	—	—
Expired	—	—	—	—
Options outstanding at June 30, 2015	832,954	\$ 17.38	5.18	\$ 5,728
Options vested and exercisable at June 30, 2016	631,686	\$ 17.38	4.18	\$ 5,739

There were 45,070 stock options exercised during the three months ended June 30, 2016 and 61,340 stock options exercised during the six months ended June 30, 2016. There were no stock options exercised during the three or six months ended June 30, 2015.

The following summarizes certain stock option activity of the Company:

(In thousands)	For the Three		For the Six	
	Months	Months	Months	Months
	Ended	Ended	Ended	Ended
	June 30,	June 30,	June 30,	June 30,
	2016	2015	2016	2015
Intrinsic value of stock options exercised	\$ 400	\$ —	\$ 539	\$ —
Proceeds received from stock options exercised	782	—	1,065	—
Tax benefits realized from stock options exercised	57	—	95	—
Total fair value of stock options that vested	—	—	—	—

During the six months ended June 30, 2016, we issued 9,797 shares of common stock in exchange for 28,800 stock options and 19,003 common shares. Pursuant to the provisions of our equity incentive plan, optionees are

Table of Contents

permitted to use the value of our common stock they own in a stock swap transaction to pay the exercise price of stock options.

No stock options vested during the six months ended June 30, 2016 or 2015.

As of June 30, 2016, the Company had \$128,000 of unrecognized compensation costs related to the stock option plan. The cost of the stock option plan is being amortized over the three-, five- or six-year vesting period.

Restricted Stock Awards

Restricted stock awards are accounted for as fixed grants using the fair value of the Company's stock at the time of grant. Unvested restricted stock awards may not be disposed of or transferred during the vesting period. Restricted stock awards carry with them the right to receive dividends.

The table below presents the restricted stock award activity:

	Restricted Stock Awards	Weighted Average Grant Date Fair Value
Nonvested at December 31, 2015	114,542	\$ 17.67
Granted	—	—
Vested	—	—
Forfeited	—	—
Nonvested at June 30, 2016	114,542	\$ 17.67
Nonvested at December 31, 2014	226,733	\$ 17.39
Granted	—	—
Vested	—	—
Forfeited	—	—
Nonvested at June 30, 2015	226,733	\$ 17.39

As of June 30, 2016, the Company had \$396,000 of unrecognized compensation costs related to restricted stock awards. The cost of the restricted stock awards is being amortized over the three-, five- or six-year vesting period.

(12) Earnings Per Share

The table below presents the information used to compute basic and diluted earnings per share:

(Dollars in thousands, except per share data)	Three Months Ended		Six Months Ended	
	June 30, 2016	2015	June 30, 2016	2015
Net income	\$ 4,037	\$ 3,837	\$ 7,821	\$ 7,363
Weighted-average number of shares used in:				
Basic earnings per share	9,059,515	9,053,383	9,047,217	9,086,865
Dilutive common stock equivalents:				
Stock options and restricted stock units	285,747	254,605	276,215	227,911
Diluted earnings per share	9,345,262	9,307,988	9,323,432	9,314,776
Net income per common share, basic	\$ 0.45	\$ 0.42	\$ 0.86	\$ 0.81
Net income per common share, diluted	\$ 0.43	\$ 0.41	\$ 0.84	\$ 0.79

We have two forms of our outstanding common stock: common stock and unvested restricted stock awards. Holders of unvested restricted stock awards receive nonforfeitable dividends at the same rate as common shareholders

Table of Contents

and they both share equally in undistributed earnings. The computed basic and diluted earnings per share presented are substantially equivalent using both the two-class and the treasury stock methods of calculating earnings per share.

(13) Other Comprehensive Loss

The table below presents the changes in the components of accumulated other comprehensive loss, net of taxes:

	Noncredit Related Loss on Trust Preferred	Unrealized Loss on
Unfunded Pension

## (14) Fair Value of Financial Instruments

In accordance with the Fair Value Measurements and Disclosures topic of the FASB ASC, the Company groups its financial assets and liabilities valued at fair value into three levels based on the markets in which the financial assets and liabilities are traded and the reliability of the assumptions used to determine fair value as follows:

- Level 1 — Valuation is based upon quoted prices (unadjusted) for identical assets or liabilities traded in active markets. A quoted price in an active market provides the most reliable evidence of fair value and shall be used to measure fair value whenever available.
- Level 2 — Valuation is based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market.
- Level 3 — Valuation is generated from model-based techniques that use significant assumptions not observable in the market. These unobservable assumptions reflect management's own estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques include use of discounted cash flow models and similar techniques that require the use of significant judgment or estimation.

In accordance with the Fair Value Measurements and Disclosures topic, the Company bases its fair values on the price that it would expect to receive if an asset were sold or the price that it would expect to pay to transfer a liability in an orderly transaction between market participants at the measurement date. Also as required, the Company maximizes the use of observable inputs and minimizes the use of unobservable inputs when developing fair value measurements.

The Company uses fair value measurements to determine fair value disclosures. Investment securities held for sale and derivatives are recorded at fair value on a recurring basis. From time to time, the Company may be required to

record other financial assets at fair value on a nonrecurring basis, such as loans held for sale, impaired loans and investments, and mortgage servicing assets. These nonrecurring fair value adjustments typically involve application of the lower of cost or fair value accounting or write-downs of individual assets.

Cash and Cash Equivalents, Accrued Interest Receivable and Accrued Interest Payable. The carrying amount approximates fair value because of the short maturity of these instruments.

Investment Securities. The estimated fair values of U.S. government-sponsored mortgage-backed securities are considered Level 2 inputs because the valuation for investment securities utilized pricing models that varied based on asset class and included trade, bid and other observable market information.

The trust preferred securities represent investments in a pool of debt obligations issued primarily by holding companies for Federal Deposit Insurance Corporation-insured financial institutions. The trust preferred securities market is considered to be inactive as only six transactions have occurred over the past 54 months in the same tranche of securities we own and no new issues of pooled trust preferred securities have occurred since 2007. The fair value of our trust preferred securities was determined using a discounted cash flow model. Our model used a discount rate equal to three-month LIBOR plus 20.00%.

Table of Contents

The discounted cash flow analysis includes a review of all issuers within the pool. The fair value of the trust preferred securities are classified as Level 3 inputs because they are based on discounted cash flow models.

FHLB Stock. FHLB stock, which is redeemable for cash at par value, is reported at its par value.

FRB Stock. FRB stock, which is redeemable for cash at par value, is reported at its par value.

Loans. The fair value of loans is estimated by discounting the future cash flows using the current rates at which similar loans would be made to borrowers with similar credit ratings and for the same remaining maturities. The fair value of loans is not based on the concept of exit price.

Loans Held for Sale. The fair value of loans held for sale is determined based on the prices quoted in the secondary market for similar loans.

Deposits. The fair value of checking and Super NOW savings accounts, passbook accounts, and certain money market deposits is the amount payable on demand at the reporting date. The fair value of fixed-maturity certificates of deposit is estimated by discounting future cash flows using the rates currently offered for deposits with similar remaining maturities.

Advances From the FHLB and Securities Sold Under Agreements to Repurchase. Fair value is estimated by discounting future cash flows using the rates currently offered to the Company for debt with similar remaining maturities.

Interest Rate Contracts. The Company may enter into interest rate lock commitments with borrowers on loans intended to be sold. To manage interest rate risk on the lock commitments, the Company may also enter into forward loan sale commitments. The interest rate lock commitments and forward loan sale commitments are treated as derivatives and are recorded at their fair value determined by referring to prices quoted in the secondary market for similar contracts. Interest rate contracts that are classified as assets are included with prepaid expenses and other assets on the consolidated balance sheet while interest rate contracts that are classified as liabilities are included with accounts payable and accrued expenses.

Table of Contents

The estimated fair values of the Company's financial instruments are as follows:

(Dollars in thousands)	Carrying Amount	Fair Value	Fair Value Measurements Using		
			Level 1	Level 2	Level 3
June 30, 2016

Securities sold under agreements to repurchase	55,000	55,280	—	55,280	—
Accrued interest payable	237	237	—	—	237
Interest rate contracts	77	77	—	77	—

Edgar Filing: Territorial Bancorp Inc. - Form 10-Q

At June 30, 2016 and December 31, 2015, neither the commitment fees received on commitments to extend credit nor the fair value thereof was material to the consolidated financial statements of the Company.

Table of Contents

The table below presents the balance of assets and liabilities measured at fair value on a recurring basis:

(Dollars in thousands)	Level 1	Level 2	Level 3	Total
June 30, 2016				
Interest rate contracts — assets	\$ —	\$ 142	\$ —	\$ 142
Interest rate contracts — liabilities	—	(111)	—	(111)
December 31, 2015				
Interest rate contracts — assets	\$ —	\$ 71	\$ —	\$ 71
Interest rate contracts — liabilities	—	(77)	—	(77)

The fair value of interest rate contracts was determined by referring to prices quoted in the secondary market for similar contracts.

The table below presents the balance of assets measured at fair value on a nonrecurring basis as of June 30, 2016 and December 31, 2015 and the related gains and losses for the six months ended June 30, 2016 and the year ended December 31, 2015:

(Dollars in thousands)	Level 1	Level 2	Level 3	Total	Total Gains (Losses)
June 30, 2016					
Trust preferred securities	\$ —	\$ —	\$ 992	\$ 992	\$ 76
Mortgage servicing assets	—	—	341	341	(49)
December 31, 2015					
Trust preferred securities	\$ —	\$ —	\$ 916	\$ 916	\$ 226

The fair value of trust preferred securities is determined using a discounted cash flow model. The assumptions used in the discounted cash flow model are discussed above. Gains and losses on trust preferred securities that are credit related are included in net other-than-temporary impairment losses in the consolidated statements of income. Gains and losses on trust preferred securities that are not credit related are included in other comprehensive income in the consolidated statements of comprehensive income. Mortgage servicing assets are valued using a discounted cash flow model. Assumptions used in the model include mortgage prepayment speeds, discount rates and cost of servicing. Losses on mortgage servicing assets are included in service fees on loan and deposit accounts in the consolidated statements of income.

Edgar Filing: Territorial Bancorp Inc. - Form 10-Q

The table below presents the significant unobservable inputs for Level 3 nonrecurring fair value measurements:

(Dollars in thousands)	Fair Value	Valuation Technique	Unobservable	
			Input	Value
June 30, 2016:				
Trust preferred securities	\$ 992	Discounted cash flow	Discount rate	Three-month LIBOR plus 20.00%
Mortgage servicing assets	341	Discounted cash flow	Discount rate	10.50%
			Prepayment speed (PSA)	166.3 – 361.3
			Annual cost to service (per loan, in dollars)	\$ 65
December 31, 2015:				
Trust preferred securities	\$ 916	Discounted cash flow	Discount rate	Three-month LIBOR plus 20.00%

(15) Subsequent Events

On July 29, 2016, the Board of Directors of Territorial Bancorp Inc. declared a quarterly cash dividend of \$0.18 per share of common stock. The dividend is expected to be paid on August 26, 2016 to stockholders of record as of August 12, 2016.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Cautionary Statement Regarding Forward-Looking Information

This Quarterly Report contains forward-looking statements, which can be identified by the use of words such as "estimate," "project," "believe," "intend," "anticipate," "plan," "seek," "expect," "will," "may" and words of similar meaning. forward-looking statements include, but are not limited to:

- statements of our goals, intentions and expectations;
- statements regarding our business plans, prospects, growth and operating strategies;
- statements regarding the asset quality of our loan and investment portfolios; and
- estimates of our risks and future costs and benefits.

These forward-looking statements are based on our current beliefs and expectations and are inherently subject to significant business, economic and competitive uncertainties and contingencies, many of which are beyond our control. In addition, these forward-looking statements are subject to assumptions with respect to future business strategies and decisions that are subject to change. We are under no duty to and do not take any obligation to update any forward-looking statements after the date of this Quarterly Report.

The following factors, among others, could cause actual results to differ materially from the anticipated results or other expectations expressed in the forward-looking statements:

- general economic conditions, either internationally, nationally or in our market areas, that are worse than expected;
- competition among depository and other financial institutions;
- inflation and changes in the interest rate environment that reduce our margins or reduce the fair value of financial instruments;

Edgar Filing: Territorial Bancorp Inc. - Form 10-Q

- adverse changes in the securities markets;
- changes in laws or government regulations or policies affecting financial institutions, including changes in regulatory fees and capital requirements;
- our ability to enter new markets successfully and capitalize on growth opportunities;
- our ability to successfully integrate acquired entities, if any;
- changes in consumer spending, borrowing and savings habits;
- changes in accounting policies and practices, as may be adopted by the bank regulatory agencies, the Financial Accounting Standards Board, the Securities and Exchange Commission and the Public Company Accounting Oversight Board;
- changes in our organization, compensation and benefit plans;
- changes in our financial condition or results of operations that reduce capital available to pay dividends; and
- changes in the financial condition or future prospects of issuers of securities that we own.

Table of Contents

Because of these and a wide variety of other uncertainties, our actual future results may be materially different from the results indicated by these forward-looking statements.

Overview

We have historically operated as a traditional thrift institution. The significant majority of our assets consist of long-term, fixed-rate residential mortgage loans and mortgage-backed securities, which we have funded primarily with deposit accounts, securities sold under agreements to repurchase and Federal Home Loan Bank advances. This has resulted in our being particularly vulnerable to increases in interest rates, as our interest-bearing liabilities mature or reprice more quickly than our interest-earning assets.

We have continued our focus on originating one- to four-family residential real estate loans. Our emphasis on conservative loan underwriting has resulted in continued low levels of nonperforming assets. Our nonperforming assets totaled \$5.1 million, or 0.27% of total assets at June 30, 2016, compared to \$5.4 million, or 0.30% of total assets at December 31, 2015. As of June 30, 2016, nonperforming assets consisted primarily of 20 mortgage loans totaling \$5.1 million. Our nonperforming loans and loss experience has enabled us to maintain a relatively low allowance for loan losses in relation to other peer institutions and correspondingly resulted in low levels of provisions for loan losses. Our provisions for loan losses were \$112,000 and \$295,000 for the six months ended June 30, 2016 and 2015, respectively.

Other than our loans for the construction of one- to four-family residential homes, we do not offer “interest only” mortgage loans (where the borrower pays interest for an initial period, after which the loan converts to a fully amortizing loan) on one- to four-family residential properties. We also do not offer loans that provide for negative amortization of principal, such as “Option ARM” loans, where the borrower can pay less than the interest owed on their loan, resulting in an increased principal balance during the life of the loan. We do not offer “subprime loans” (loans that generally target borrowers with weakened credit histories typically characterized by payment delinquencies, previous charge-offs, judgments, bankruptcies, or borrowers with questionable repayment capacity as evidenced by low credit scores or high debt-burden ratios) or Alt-A loans (traditionally defined as nonconforming loans having less than full documentation). We also do not own any private label mortgage-backed securities that are collateralized by Alt-A, low or no documentation or subprime mortgage loans.

Our operations in recent years have been affected by our efforts to manage our interest rate risk position. For the six months ended June 30, 2016, we sold \$24.1 million of fixed-rate mortgage loans while long-term, fixed-rate borrowings remained constant. For the six months ended June 30, 2015, we sold \$28.6 million of fixed rate mortgage loans and obtained \$30 million of long-tem, fixed-rate borrowings.

## Edgar Filing: Territorial Bancorp Inc. - Form 10-Q

Our investments in mortgage-backed securities and collateralized mortgage obligations have been issued by Freddie Mac or Fannie Mae, which are U.S. government-sponsored enterprises, or Ginnie Mae, which is a U.S. government agency. These agencies guarantee the payment of principal and interest on our mortgage-backed securities. We do not own any preferred stock issued by Fannie Mae or Freddie Mac. As of June 30, 2016, our borrowing capacity at the Federal Home Loan Bank was \$578.5 million compared to \$555.1 million at December 31, 2015.

### Critical Accounting Policies

There are no material changes to the critical accounting policies disclosed in Territorial Bancorp Inc.'s Annual Report on Form 10-K for the year ended December 31, 2015.

### Comparison of Financial Condition at June 30, 2016 and December 31, 2015

**Assets.** At June 30, 2016, our assets were \$1.851 billion, an increase of \$29.8 million, or 1.6%, from \$1.821 billion at December 31, 2015. The increase in assets was primarily the result of a \$68.9 million increase in loans receivable and loans held for sale, which was partially offset by a \$37.1 million decrease in investment securities.

**Cash and Cash Equivalents.** Cash and cash equivalents were \$63.9 million at June 30, 2016, a decrease of \$2.0 million since December 31, 2015. The decrease in cash and cash equivalents was primarily caused by funding a \$68.9

Table of Contents

million increase in total loans and the payment of \$3.3 million of common stock dividends. These decreases were offset by a \$24.7 million increase in deposits, a \$37.1 million decrease in investment securities and \$7.8 million of net income.

**Loans.** Total loans, including \$353,000 of loans held for sale, were \$1.260 billion at June 30, 2016, or 68.1% of total assets. During the six months ended June 30, 2016, the loan portfolio, including loans held for sale, increased by \$68.9 million, or 5.8%. The increase in the loan portfolio primarily occurred as the production of new one- to four-family residential loans exceeded principal repayments and loan sales.

**Securities.** At June 30, 2016, our securities portfolio totaled \$456.0 million, or 24.6% of total assets. During the six months ended June 30, 2016, the securities portfolio decreased by \$37.1 million, or 7.5%. The decrease in the securities portfolio occurred as repayments and sales exceeded the amount of securities purchased.

At June 30, 2016, all of such securities were classified as held-to-maturity and none of the underlying collateral consisted of subprime or Alt-A (traditionally defined as nonconforming loans having less than full documentation) loans.

At June 30, 2016, we owned a trust preferred security with an amortized cost of \$992,000. This security represents an investment in a pool of debt obligations primarily issued by holding companies of Federal Deposit Insurance Corporation-insured financial institutions.

The trust preferred securities market is considered to be inactive as only six transactions have occurred over the past 54 months in the same tranche of securities we own and no new issues of pooled trust preferred securities have occurred since 2007. We use a discounted cash flow model to determine whether this security is other-than-temporarily impaired. The assumptions used in preparing the discounted cash flow model include the following: estimated discount rates, estimated deferral and default rates on collateral, and estimated cash flows.

Based on our review, our investment in the trust preferred security did not incur additional impairment during the six months ended June 30, 2016.

It is reasonably possible that the fair value of the trust preferred security could decline in the near term if the overall economy and the financial condition of some of the issuers deteriorate further and the liquidity of this security remains low. As a result, there is a risk that our remaining cost basis of \$1.1 million on the trust preferred security could be credit-related other-than-temporarily impaired in the near term. The impairment, if any, could be material to our consolidated statements of income.

Deposits. Deposits were \$1.470 billion at June 30, 2016, an increase of \$24.7 million, or 1.7%, since December 31, 2015. The growth in deposits was primarily due to increases of \$16.5 million in savings accounts and \$4.4 million in non-interest bearing checking accounts during the six months ended June 30, 2016.

Borrowings. Our borrowings consist of advances from the Federal Home Loan Bank and funds borrowed under securities sold under agreements to repurchase. During the six months ended June 30, 2016, total borrowings remained constant at \$124.0 million. We have not required any other borrowings to fund our operations. Instead, we have primarily funded our operations with additional deposits, proceeds from loan sales and principal repayments on loans and mortgage-backed securities.

#### Average Balances and Yields

The following tables set forth average balance sheets, average yields and rates, and certain other information at and for the periods indicated. No tax-equivalent yield adjustments were made, as the effect thereof was not material. All average balances are daily average balances. Nonaccrual loans were included in the computation of average balances, but have been reflected in the table as loans carrying a zero yield. The yields set forth below include the effect of net deferred costs, discounts and premiums that are amortized or accreted to interest income.

Table of Contents

Comparison of Operating Results for the Three Months Ended June 30, 2016 and 2015

General. Net income increased by \$200,000, or 5.2%, from \$3.8 million for the three months ended June 30, 2015 to \$4.0 million for the three months ended June 30, 2016. The increase in net income was primarily due to a \$933,000 increase in interest and dividend income. This was partially offset by a \$390,000 increase in interest expense, a \$145,000 increase in noninterest expense, a \$114,000 decrease in noninterest income and a \$101,000 increase in income taxes.

Net Interest Income. Net interest income increased by \$543,000, or 3.9%, to \$14.6 million for the three months ended June 30, 2016 compared to \$14.1 million for the three months ended June 30, 2015. Interest and dividend income increased by \$933,000, or 6.0%, due to a \$119.9 million increase in the average balance of interest-earning assets. This was offset by a five basis point decrease in the average yield on interest-earning assets. Interest expense increased by \$390,000, or 25.1%, due to a \$111.9 million increase in the average balance of interest-bearing liabilities and a seven basis point increase in the average cost of interest-bearing liabilities. The interest rate spread and net interest margin were 3.20% and 3.27%, respectively, for the three months ended June 30, 2016, compared to 3.32% and 3.37%, respectively, for the three months ended June 30, 2015. The decrease in the interest rate spread and in the net interest margin can be attributed to a five basis point decrease in the yield on interest-earning assets and a seven basis point increase in the cost of interest-bearing liabilities. The decrease in the yield on interest-earning assets is primarily due to the payoff of higher-yielding mortgage loans and the addition of new loans with lower interest rates to the loan portfolio. The increase in the cost of interest-bearing liabilities is primarily due to a four basis point increase in savings accounts and a 27 basis point increase in the cost of certificates of deposits as new deposits with higher interest rates were acquired.

Interest and Dividend Income. Interest and dividend income increased by \$933,000, or 6.0%, to \$16.5 million for the three months ended June 30, 2016 from \$15.6 million for the three months ended June 30, 2015. Interest income on loans increased by \$1.4 million, or 12.3%, to \$12.6 million for the three months ended June 30, 2016 from \$11.3 million for the three months ended June 30, 2015. The increase in interest income on loans occurred because the average balance of loans grew by \$169.4 million, or 15.8%, as new loan originations exceeded loan repayments and loan sales. The increase in interest income that occurred because of growth in the loan portfolio was partially offset by a 13 basis point decline in the average loan yield to 4.07% for the three months ended June 30, 2016. The decline in the average yield on loans occurred because of repayments on higher-yielding loans and additions of new loans with lower yields to the loan portfolio. Interest income on investment securities decreased by \$524,000, or 12.3%, to \$3.8 million for the three months ended June 30, 2016 from \$4.3 million for the three months ended June 30, 2015. The decrease in interest income on securities occurred because of a \$70.6 million decrease in the average securities balance, which was offset by a three basis point increase in the average securities yield.

Interest Expense. Interest expense increased by \$390,000, or 25.1%, to \$1.9 million for the three months ended June 30, 2016. Interest expense on deposits increased by \$316,000, or 27.4%, from \$1.2 million for the three months ended June 30, 2015 to \$1.5 million for the three months ended June 30, 2016. The increase in interest expense on deposits is due to an increase in the average outstanding balance and the average rate paid on deposits. The average outstanding balance of deposits increased by \$89.5 million, or 6.7%, to \$1.423 billion for the three months ended June 30, 2016

compared to \$1.334 billion for the three months ended June 30, 2015. The average interest rate on deposits increased to 0.41% from 0.35% for the three months ended June 30, 2016 compared to the three months ended June 30, 2015. Interest expense on FHLB advances increased by \$99,000, or 63.1%, during the three months ended June 30, 2016 compared to the three months ended June 30, 2015. The increase was primarily due to a \$27.4 million, or 65.8%, increase in the average balance of FHLB advances. This was partially offset by a three basis point decrease in the average interest rate to 1.48% for the three months ended June 30, 2016 compared to 1.51% for the three months ended June 30, 2015. Additional advances were obtained to extend the maturity of liabilities and reduce interest rate risk. Interest expense on securities sold under agreements to repurchase decreased by \$25,000, or 10.3%, for the three months ended June 30, 2016 compared to the three months ended June 30, 2015. The decrease was caused by a \$5.0 million, or 8.3%, decrease in the average outstanding balance of securities sold under agreements to repurchase. The decrease in the average balance was augmented by a three basis point decrease in the average interest rate to 1.59% for the three months ended June 30, 2016 from 1.62% for the three months ended June 30, 2015. The decline in the average balance

Table of Contents

and interest rate of securities sold under agreements to repurchase occurred as we paid off matured borrowings with higher interest rates.

**Provision for Loan Losses.** We recorded provisions for loan losses of \$84,000 and \$101,000 for the three months ended June 30, 2016 and 2015, respectively. The provisions for loan losses included net recoveries of \$9,000 and \$21,000 for the three months ended June 30, 2016 and 2015, respectively. The provisions recorded resulted in ratios of the allowance for loan losses to total loans of 0.18% at June 30, 2016 and 2015. Nonaccrual loans totaled \$5.1 million at June 30, 2016, or 0.40% of total loans at that date, compared to \$5.2 million of nonaccrual loans at June 30, 2015, or 0.47% of total loans at that date. Nonaccrual loans as of June 30, 2016 and 2015 consisted primarily of one-to-four-family residential real estate loans. To the best of our knowledge, we have provided for all losses that are both probable and reasonable to estimate at June 30, 2016 and 2015. For additional information see note (6), “Loans Receivable and Allowance for Loan Losses” in our Notes to Consolidated Financial Statements.

**Noninterest Income.** The following table summarizes changes in noninterest income between the three months ended June 30, 2016 and 2015.

	Three Months Ended June 30,		Change		
	2016	2015	\$ Change	% Change	
					(Dollars in thousands)
Service fees on loan and deposit accounts	\$ 473	\$ 527	\$ (54)	(10.2)	%
Income on bank-owned life insurance	240	256	(16)	(6.3)	%
Gain on sale of investment securities	190	240	(50)	(20.8)	%
Gain on sale of loans	129	110	19	17.3	%
Other	102	115	(13)	(11.3)	%
Total	\$ 1,134	\$ 1,248	\$ (114)	(9.1)	%

Noninterest income decreased by \$114,000 for the three months ended June 30, 2016 compared to the three months ended June 30, 2015. During the three months ended June 30, 2016 and 2015, we received proceeds of \$3.1 million and \$2.4 million, respectively, from the sale of \$2.9 million and \$2.3 million, respectively, of held-to-maturity mortgage-backed securities, resulting in gross realized gains of \$190,000 and \$179,000 respectively. The sale of these mortgage-backed securities, for which we had already collected a substantial portion of the original purchased principal (at least 85%), is in accordance with the Investments — Debt and Equity Securities topic of the FASB ASC and does not taint management’s assertion of intent to hold remaining securities in the held-to-maturity portfolio to maturity. In addition, during the three months ended June 30, 2015, we sold a trust preferred security that was previously written off and recognized a gain of \$61,000. During the three months ended June 30, 2016 and 2015, we sold \$13.2 million and \$15.3 million, respectively, of mortgage loans held for sale and recognized gains of \$129,000 and \$110,000, respectively. Service fees decreased by \$54,000 primarily due to a decrease in returned item fees, which was offset by an increase in broker fee income.

Table of Contents

Noninterest Expense. The following table summarizes changes in noninterest expense between the three months ended June 30, 2016 and 2015.

	Three Months Ended		Change		
	June 30, 2016	2015	\$ Change	% Change	
					(Dollars in thousands)
Salaries and employee benefits	\$ 5,256	\$ 5,064	\$ 192	3.8	%
Occupancy	1,433	1,428	5	0.4	%
Equipment	912	953	(41)	(4.3)	%
Federal deposit insurance premiums	227	211	16	7.6	%
Other general and administrative expenses	1,160	1,187	(27)	(2.3)	%
Total	\$ 8,988	\$ 8,843	\$ 145	1.6	%

Noninterest expense rose by \$145,000 for the three months ended June 30, 2016 compared to the three months ended June 30, 2015. Salaries and employee benefits expense increased by \$192,000 to \$5.3 million for the three months ended June 30, 2016 from \$5.1 million for the three months ended June 30, 2015. The increase in salaries and employee benefits was primarily due to a bank-wide budgeted salary increase of approximately 3.0%, which was effective July 1, 2015, the hiring of additional staff to handle the additional workload associated with an increase in regulatory requirements and a decrease in the credit to compensation expense as new loan originations decreased. The Receivables topic of FASB ASC allows financial institutions to take a credit against compensation expense for the direct cost of originating new loans. These increases were partially offset by a decrease in loan officer compensation, primarily because of the decrease in new loan originations. The decrease in equipment expense is primarily due to a decrease in data processing expense.

Income Tax Expense. Income taxes were \$2.6 million for the three months ended June 30, 2016, reflecting an effective tax rate of 39.4%, compared to \$2.5 million for the three months ended June 30, 2015, reflecting an effective tax rate of 39.7%.

#### Comparison of Operating Results for the Six Months Ended June 30, 2016 and 2015

General. Net income increased by \$458,000, or 6.2%, from \$7.4 million for the six months ended June 30, 2015 to \$7.8 million for the six months ended June 30, 2016. The increase in net income was due to a \$2.0 million increase in interest and dividend income and a \$183,000 decrease in loan loss provisions that was partially offset by a \$757,000 increase in interest expense, a \$474,000 decrease in noninterest income, a \$300,000 increase in noninterest expense and a \$219,000 increase in income taxes.

Net Interest Income. Net interest income increased by \$1.3 million, or 4.6%, to \$29.1 million for the six months ended June 30, 2016 compared to \$27.8 million for the six months ended June 30, 2015. Interest and dividend income increased by \$2.0 million, or 6.6%, due to a \$123.3 million increase in the average balance of interest-earning assets. This was offset by a three basis point decrease in the average yield on interest-earning assets. Interest expense increased by \$757,000, or 24.7%, due to a \$114.9 million increase in the average balance of interest-bearing liabilities and a seven basis point increase in the average cost of interest-bearing liabilities. The interest rate spread and net interest margin were 3.21% and 3.28%, respectively, for the six months ended June 30, 2016, compared to 3.31% and 3.37%, respectively, for the six months ended June 30, 2015. The decrease in the interest rate spread and in the net interest margin can be attributed to a three basis point decrease in the yield on interest-earning assets and a seven basis point increase in the cost of interest-bearing liabilities. The decrease in the yield on interest-earning assets is primarily due to the payoff of higher yielding mortgage loans and the addition of new loans with lower interest rates to the loan portfolio. The increase in the cost of interest-bearing liabilities is primarily due to a four basis point increase in the cost of savings accounts and a 23 basis point increase in the cost of certificates of deposit which occurred as new accounts with higher interest rates were acquired.

Interest and Dividend Income. Interest and dividend income increased by \$2.0 million, or 6.6%, to \$32.9 million for the six months ended June 30, 2016 from \$30.9 million for the six months ended June 30, 2015. Interest income on

Table of Contents

loans increased by \$3.1 million, or 13.9%, to \$25.0 million for the six months ended June 30, 2016 from \$22.0 million for the six months ended June 30, 2015. The increase in interest income on loans occurred because the average balance of loans grew by \$186.9 million, or 18.0%, as new loan originations exceeded loan repayments and loan sales. The increase in interest income that occurred because of growth in the loan portfolio was partially offset by a 14 basis point decline in the average loan yield to 4.09% for the six months ended June 30, 2016. The decline in the average yield on loans occurred because of repayments on higher-yielding loans and additions of new loans with lower yields to the loan portfolio. Interest income on investment securities decreased by \$1.2 million, or 13.3%, to \$7.6 million for the six months ended June 30, 2016 from \$8.8 million for the six months ended June 30, 2015. The decrease in interest income on securities occurred because of a \$73.6 million decrease in the average securities balance.

**Interest Expense.** Interest expense increased by \$757,000, or 24.7%, to \$3.8 million for the six months ended June 30, 2016. Interest expense on deposits increased by \$590,000, or 25.8%, from \$2.3 million for the six months ended June 30, 2015 to \$2.9 million for the six months ended June 30, 2016. The increase in interest expense on deposits is due to an increase in the average outstanding balance and the average rate paid on deposits. The average outstanding balance of deposits increased by \$86.0 million, or 6.5%, to \$1.416 billion for the six months ended June 30, 2016 compared to \$1.330 billion for the six months ended June 30, 2015. The average interest rate paid on deposits increased to 0.41% from 0.34% for the six months ended June 30, 2016 compared to the six months ended June 30, 2015. Interest expense on FHLB advances increased by \$286,000, or 126.0%, during the six months ended June 30, 2016 compared to the six months ended June 30, 2015. The increase was primarily due to a \$38.9 million, or 129.2%, increase in the average balance of FHLB advances. This was partially offset by a two basis point decrease in the average interest rate to 1.49% for the six months ended June 30, 2016 compared to 1.51% for the six months ended June 30, 2015. Additional advances were obtained to extend the maturity of liabilities and reduce interest rate risk. Interest expense on securities sold under agreements to repurchase decreased by \$119,000, or 21.4%, for the six months ended June 30, 2016 compared to the six months ended June 30, 2015. The decrease was caused by a \$9.9 million, or 15.3%, decrease in the average outstanding balance of securities sold under agreements to repurchase. The decrease in the average balance was augmented by a 12 basis point decrease in the average interest rate to 1.59% for the six months ended June 30, 2016 from 1.71% for the six months ended June 30, 2015. The decline in the average balance and interest rate of securities sold under agreements to repurchase occurred as matured borrowings with higher interest rates were paid off.

**Provision for Loan Losses.** We recorded provisions for loan losses of \$112,000 and \$295,000 for the six months ended June 30, 2016 and 2015, respectively. The provisions for loan losses included net charge-offs of \$2,000 for the six months ended June 30, 2016 and net recoveries of \$8,000 for the six months ended June 30, 2015. The provisions recorded resulted in ratios of the allowance for loan losses to total loans of 0.18% at June 30, 2016 and 2015. Nonaccrual loans totaled \$5.1 million at June 30, 2016, or 0.40% of total loans at that date, compared to \$5.2 million of nonaccrual loans at June 30, 2015, or 0.47% of total loans at that date. Nonaccrual loans as of June 30, 2016 and 2015 consisted primarily of one- to four-family residential real estate loans. To the best of our knowledge, we have provided for all losses that are both probable and reasonable to estimate at June 30, 2016 and 2015. For additional information see note (6), "Loans Receivable and Allowance for Loan Losses" in our Notes to Consolidated Financial Statements.

**Noninterest Income.** The following table summarizes changes in noninterest income between the six months ended June 30, 2016 and 2015.

Table of Contents

Noninterest income decreased by \$474,000 for the six months ended June 30, 2016 compared to the six months ended June 30, 2015. During the six months ended June 30, 2016 and 2015, we received proceeds of \$3.1 million and \$5.0 million, respectively, from the sale of \$2.9 million and \$4.6 million, respectively, of held-to-maturity mortgage-backed securities, resulting in gross realized gains of \$190,000 and \$415,000 respectively. The sale of these mortgage-backed securities, for which we had already collected a substantial portion of the original purchased principal (at least 85%), is in accordance with the Investments — Debt and Equity Securities topic of the FASB ASC and does not taint management's assertion of intent to hold remaining securities in the held-to-maturity portfolio to maturity. In addition, during the six months ended June 30, 2015, we sold a trust preferred security that was previously written off and recognized a gain of \$61,000. During the six months ended June 30, 2016 and 2015, we sold \$24.1 million and \$28.6 million, respectively, of mortgage loans held for sale and recognized gains of \$190,000 and \$239,000, respectively. Service fees decreased by \$58,000 primarily due to a decrease in returned item fees, which was offset by an increase in broker fee income.

Noninterest Expense. The following table summarizes changes in noninterest expense between the six months ended June 30, 2016 and 2015.

	Six Months Ended		Change \$ Change	% Change	
	June 30, 2016	2015			
					(Dollars in thousands)
Salaries and employee benefits	\$ 10,682	\$ 10,163	\$ 519	5.1	%
Occupancy	2,853	2,865	(12)	(0.4)	%
Equipment	1,818	1,898	(80)	(4.2)	%
Federal deposit insurance premiums	452	420	32	7.6	%
Other general and administrative expenses	2,242	2,401	(159)	(6.6)	%
Total	\$ 18,047	\$ 17,747	\$ 300	1.7	%

Noninterest expense rose by \$300,000 for the six months ended June 30, 2016 compared to the six months ended June 30, 2015. Salaries and employee benefits expense increased by \$519,000 to \$10.7 million for the six months ended June 30, 2016 from \$10.2 million for the six months ended June 30, 2015. The increase in salaries and employee benefits was primarily due to a bank-wide budgeted salary increase of approximately 3.0%, which was effective July 1, 2015, the hiring of additional staff to handle the additional workload associated with an increase in regulatory requirements and a decrease in the credit to compensation expense as new loan originations decreased. The Receivables topic of FASB ASC allows financial institutions to take a credit against compensation expense for the direct cost of originating new loans. These increases were partially offset by a decrease in loan officer compensation, primarily because of the decrease in new loan originations. The decrease in other general and administrative expenses is primarily due to a reduction in accounting and auditing expenses and in the loss provisions for undrawn lines of credit.

Income Tax Expense. Income taxes were \$5.1 million for the six months ended June 30, 2016, reflecting an effective tax rate of 39.6%, compared to \$4.9 million for the six months ended June 30, 2015, reflecting an effective tax rate of 40.0%.

### Liquidity and Capital Resources

Liquidity is the ability to meet current and future financial obligations. Our primary sources of funds consist of deposit inflows, cash balances at the Federal Reserve Bank, loan repayments, advances from the Federal Home Loan Bank, securities sold under agreements to repurchase, proceeds from loan sales and principal repayments on securities. While maturities and scheduled amortization of loans and securities are predictable sources of funds, deposit flows and mortgage prepayments are greatly influenced by general interest rates, economic conditions and competition. We have established an Asset/Liability Management Committee, consisting of our President and Chief Executive Officer, our Vice Chairman and Co-Chief Operating Officer, our Senior Vice President and Chief Financial Officer and our Vice President and Controller, which is responsible for establishing and monitoring our liquidity targets and strategies in order to ensure that sufficient liquidity exists for meeting the borrowing needs and deposit withdrawals of our customers as

Table of Contents

well as unanticipated contingencies. We believe that we have enough sources of liquidity to satisfy our short- and long-term liquidity needs as of June 30, 2016.

We regularly monitor and adjust our investments in liquid assets based upon our assessment of:

- (i) expected loan demand;
- (ii) purchases and sales of investment securities;
- (iii) expected deposit flows and borrowing maturities;
- (iv) yields available on interest-earning deposits and securities; and
- (v) the objectives of our asset/liability management program.

Excess liquid assets are invested generally in interest-earning deposits or securities and may also be used to pay off short-term borrowings.

Our most liquid asset is cash. The amount of this asset is dependent on our operating, financing, lending and investing activities during any given period. At June 30, 2016, our cash and cash equivalents totaled \$63.9 million. On that date, we had \$55.0 million in securities sold under agreements to repurchase outstanding and \$69.0 million of Federal Home Loan Bank advances outstanding, with the ability to borrow an additional \$578.5 million under Federal Home Loan Bank advances.

Our cash flows are derived from operating activities, investing activities and financing activities as reported in our Consolidated Statements of Cash Flows included in our Consolidated Financial Statements.

At June 30, 2016, we had \$34.6 million in loan commitments outstanding, most of which were for fixed-rate loans, and had \$26.6 million in unused lines of credit to borrowers. Certificates of deposit due within one year at June 30, 2016 totaled \$153.9 million, or 10.5% of total deposits. If these deposits do not remain with us, we may be required to seek other sources of funds, including loan sales, brokered deposits, securities sold under agreements to repurchase and Federal Home Loan Bank advances. Depending on market conditions, we may be required to pay higher rates on such deposits or other borrowings than we currently pay on the certificates of deposit due on or before June 30, 2017. We believe, however, based on past experience, that a significant portion of such deposits will remain with

us. We have the ability to attract and retain deposits by adjusting the interest rates offered.

Our primary investing activities are originating loans and purchasing mortgage-backed securities. During the six months ended June 30, 2016 and 2015, we originated \$166.5 million and \$248.9 million of loans, respectively, and purchased \$1.2 million and \$6.7 million of securities, respectively.

Financing activities consist primarily of activity in deposit accounts, Federal Home Loan Bank advances, securities sold under agreements to repurchase, stock repurchases and dividend payments. We experienced net increases in deposits of \$24.7 million and \$13.7 million for the six months ended June 30, 2016 and 2015, respectively. Deposit flows are affected by the overall level of interest rates, the interest rates and products offered by us and our local competitors, and by other factors.

Liquidity management is both a daily and long-term function of business management. If we require funds beyond our ability to generate them internally, borrowing agreements exist with the Federal Home Loan Bank, which provide an additional source of funds. Federal Home Loan Bank advances remained constant at \$69.0 million during the six months ended June 30, 2016. We had the ability to borrow up to an additional \$578.5 million and \$555.1 million from the Federal Home Loan Bank as of June 30, 2016 and December 31, 2015, respectively. We also utilize securities sold under agreements to repurchase as another borrowing source. Securities sold under agreements to repurchase remained constant at \$55.0 million for the six months ended June 30, 2016.

Table of Contents

Territorial Bancorp Inc. is a separate legal entity from Territorial Savings Bank and must provide for its own liquidity to pay dividends, repurchase shares of its common stock and for other corporate purposes. Territorial Bancorp Inc.'s primary source of liquidity is dividend payments from Territorial Savings Bank. The ability of Territorial Savings Bank to pay dividends to Territorial Bancorp Inc. is subject to regulatory requirements. At June 30, 2016, Territorial Bancorp Inc. (on an unconsolidated, stand-alone basis) had liquid assets of \$12.8 million.

Territorial Savings Bank and the Company are subject to various regulatory capital requirements, including a risk-based capital measure. The risk-based capital guidelines include both a definition of capital and a framework for calculating risk-weighted assets by assigning balance sheet assets and off-balance sheet items to broad risk categories. On July 10, 2014, Territorial Savings Bank became a member of the Federal Reserve System. The Federal Reserve requires that Territorial Savings Bank maintain a Tier 1 Leverage Capital ratio of 9.0% for three years as a condition of membership. Effective January 1, 2015, the well capitalized threshold for Tier 1 risk-based capital was increased from 6.0% to 8.0% and a new capital standard, common equity tier 1 risk-based capital, was implemented with a 6.5% ratio requirement for a financial institution to be considered well capitalized. Additionally, effective January 1, 2015, consolidated regulatory capital requirements identical to those applicable to the subsidiary depository institutions became applicable to savings and loan holding companies over \$1.0 billion in assets, such as the Company. The capital requirements become fully-phased in on January 1, 2019. At June 30, 2016, Territorial Savings Bank and the Company exceeded all of the fully-phased in regulatory capital requirements and are considered to be "well capitalized" under regulatory guidelines. The tables below present the fully-phased in capital required to be considered "well-capitalized" as a percentage of total and risk-weighted assets and the percentage and the total amount of capital maintained for Territorial Savings Bank and the Company at June 30, 2016 and December 31, 2015:

Table of Contents

(Dollars in thousands)	Required Ratio		Actual Amount	Actual Ratio	
June 30, 2016:					
Tier 1 Leverage Capital					
Territorial Savings Bank (1)	9.00	%	\$ 217,473	11.75	%
Territorial Bancorp Inc.	5.00	%	\$ 230,922	12.48	%
Common Equity Tier 1 Risk-Based Capital (2)					
Territorial Savings Bank	9.00	%	\$ 217,473	26.06	%
Territorial Bancorp Inc.	9.00	%	\$ 230,922	27.66	%
Tier 1 Risk-Based Capital (2)					
Territorial Savings Bank	10.50	%	\$ 217,473	26.06	%
Territorial Bancorp Inc.	10.50	%	\$ 230,922	27.66	%
Total Risk-Based Capital (2)					
Territorial Savings Bank	12.50	%	\$ 219,840	26.34	%
Territorial Bancorp Inc.	12.50	%	\$ 233,289	27.94	%
December 31, 2015:					
Tier 1 Leverage Capital					
Territorial Savings Bank (1)	9.00	%	\$ 208,009	11.49	%
Territorial Bancorp Inc.	5.00	%	\$ 224,877	12.42	%
Common Equity Tier 1 Risk-Based Capital (2)					
Territorial Savings Bank	9.00	%	\$ 208,009	25.79	%
Territorial Bancorp Inc.	9.00	%	\$ 224,877	27.88	%
Tier 1 Risk-Based Capital (2)					
Territorial Savings Bank	10.50	%	\$ 208,009	25.79	%
Territorial Bancorp Inc.	10.50	%	\$ 224,877	27.88	%
Total Risk-Based Capital (2)					
Territorial Savings Bank	12.50	%	\$ 210,287	26.07	%
Territorial Bancorp Inc.	12.50	%	\$ 227,155	28.16	%

- (1) As a condition of membership in the Federal Reserve System, Territorial Savings Bank is required to maintain a Tier 1 Leverage Capital ratio of 9.00% for three years beginning on July 10, 2014.
- (2) The required Common Equity Tier 1 Risk-Based Capital, Tier 1 Risk-Based Capital and Total Risk-Based Capital ratios are based on the fully-phased in capital ratios in the Basel III capital regulations plus the 2.50% capital conservation buffer that becomes effective on January 1, 2019.

## Off-Balance Sheet Arrangements and Aggregate Contractual Obligations

Commitments. As a financial services provider, we routinely are a party to various financial instruments with off-balance sheet risks, such as commitments to extend credit and unused lines of credit. While these contractual obligations represent our potential future cash requirements, a significant portion of commitments to extend credit may expire without being drawn upon. Such commitments are subject to the same credit policies and approval process accorded to loans we make. In addition, we enter into commitments to sell mortgage loans.

Contractual Obligations. In the ordinary course of our operations, we enter into certain contractual obligations. Such obligations include operating leases for premises and equipment, agreements with respect to borrowed funds and deposit liabilities and agreements with respect to investments. Except for an increase of \$1.1 million in certificates of deposit and an increase of \$8.1 million in loan commitments between December 31, 2015 and June 30, 2016, there have not been any material changes in contractual obligations and funding needs since December 31, 2015.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

General. Our most significant form of market risk is interest rate risk because, as a financial institution, the majority of our assets and liabilities are sensitive to changes in interest rates. Therefore, a principal part of our

Table of Contents

operations is to manage interest rate risk and limit the exposure of our net interest income to changes in market interest rates. Our Board of Directors has established an Asset/Liability Management Committee, which is responsible for evaluating the interest rate risk inherent in our assets and liabilities, for determining the level of risk that is appropriate, given our business strategy, operating environment, capital, liquidity and performance objectives, and for managing this risk consistent with the guidelines approved by the Board of Directors.

Because we have historically operated as a traditional thrift institution, the significant majority of our assets consist of long-term, fixed-rate residential mortgage loans and mortgage-backed securities, which we have funded primarily with deposit accounts, securities sold under agreements to repurchase and Federal Home Loan Bank advances. In addition, there is little demand for adjustable-rate mortgage loans in the Hawaii market area. This has resulted in our being particularly vulnerable to increases in interest rates, as our interest-bearing liabilities mature or reprice more quickly than our interest-earning assets.

Our policies do not permit hedging activities, such as engaging in futures, options or swap transactions, or investing in high-risk mortgage derivatives, such as collateralized mortgage obligation residual interests, real estate mortgage investment conduit residual interests or stripped mortgage-backed securities.

**Economic Value of Equity.** We use an interest rate sensitivity analysis that computes changes in the economic value of equity (EVE) of our cash flows from assets, liabilities and off-balance sheet items in the event of a range of assumed changes in market interest rates. EVE represents the market value of portfolio equity and is equal to the present value of assets minus the present value of liabilities, with adjustments made for off-balance sheet items. This analysis assesses the risk of loss in market-risk-sensitive instruments in the event of an instantaneous and sustained 100 to 400 basis point increase or a 100 basis point decrease in market interest rates with no effect given to any steps that we might take to counter the effect of that interest rate movement. A basis point equals one-hundredth of one percent, and 100 basis points equals one percent. An increase in interest rates from 3% to 4% would mean, for example, a 100 basis point increase in the “Change in Interest Rates” column below. Given the current relatively low level of market interest rates, an EVE calculation for an interest rate decrease of greater than 100 basis points has not been prepared.

The following table presents our internal calculations of the estimated changes in our EVE as of March 31, 2016 that would result from the designated instantaneous changes in the interest rate yield curve.

Change in Interest Rates (bp) (1)	Estimated EVE (2)	Estimated Increase (Decrease) in EVE	Percentage Change in EVE	EVE Ratio as a Percent of Present Value of Assets (3)(4)	Increase (Decrease) in EVE Ratio as a Percent of Present Value of Assets (3)(4)

Edgar Filing: Territorial Bancorp Inc. - Form 10-Q

(Dollars in thousands)

+400	\$ 200,904	\$ (28,406)	(12.39)	% 11.03	% (1.20)	%
+300	\$ 221,290	\$ (8,020)	(3.50)	% 11.97	% (0.26)	%
+200	\$ 238,514	\$ 9,204	4.01	% 12.74	% 0.51	%
+100	\$ 245,573	\$ 16,263	7.09	% 13.03	% 0.80	%
0	\$ 229,310	\$ —	—	% 12.23	% —	%
-100	\$ 173,293	\$ (56,017)	(24.43)	% 9.50	% (2.73)	%

---

- (1) Assumes an instantaneous uniform change in interest rates at all maturities.
- (2) EVE is the difference between the present value of an institution's assets and liabilities.
- (3) Present value of assets represents the discounted present value of incoming cash flows on interest-earning assets.
- (4) EVE Ratio represents EVE divided by the present value of assets.

Interest rates on Freddie Mac mortgage-backed securities declined by approximately 23 basis points between March 31, 2016 and June 30, 2016. The decrease in interest rates has likely increased our EVE. However, we do not believe that the increase in EVE is material.

Table of Contents

Certain shortcomings are inherent in the methodologies used in determining interest rate risk through changes in EVE. Modeling changes in EVE requires making certain assumptions that may or may not reflect the manner in which actual yields and costs respond to changes in market interest rates. In this regard, the EVE table presented assumes that the composition of our interest-sensitive assets and liabilities existing at the beginning of a period remains constant over the period being measured and assumes that a particular change in interest rates is reflected uniformly across the yield curve regardless of the duration or repricing of specific assets and liabilities. Accordingly, although the EVE table provides an indication of our interest rate risk exposure at a particular point in time, such measurements are not intended to and do not provide a precise forecast of the effect of changes in market interest rates on our EVE and net interest income and will differ from actual results.

ITEM 4. CONTROLS AND PROCEDURES

An evaluation was performed under the supervision and with the participation of the Company's management, including the Chairman of the Board, President and Chief Executive Officer and the Senior Vice President and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) promulgated under the Securities and Exchange Act of 1934, as amended) as of June 30, 2016. Based on that evaluation, the Company's management, including the Chairman of the Board, President and Chief Executive Officer and the Senior Vice President and Chief Financial Officer, concluded that the Company's disclosure controls and procedures were effective.

During the quarter ended June 30, 2016, there have been no changes in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Table of Contents

PART II

ITEM 1. LEGAL PROCEEDINGS

The Company and its subsidiaries are subject to various legal actions that are considered ordinary, routine litigation incidental to the business of the Company, and no claim for money damages exceeds ten percent of the Company's consolidated assets. In the opinion of management, based on currently available information, the resolution of these legal actions is not expected to have a material adverse effect on the Company's results of operations.

ITEM 1A. RISK FACTORS

In addition to the other information contained in this Quarterly Report on Form 10-Q, the following risk factor represents material updates and additions to the risk factors previously disclosed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2015 as filed with the Securities and Exchange Commission. Additional risks not presently known to us, or that we currently deem immaterial, may also adversely affect our business, financial condition or results of operations. Further, to the extent that any of the information contained in this Quarterly Report on Form 10-Q constitutes forward-looking statements, the risk factor set forth below also is a cautionary statement identifying important factors that could cause our actual results to differ materially from those expressed in any forward-looking statements made by or on behalf of us.

A new accounting standard may require us to increase our allowance for loan losses and may have a material adverse effect on our financial condition and results of operations

The Financial Accounting Standards Board has adopted a new accounting standard that will be effective for Territorial Bancorp Inc. and Territorial Savings Bank for our first fiscal year after December 15, 2019. This standard, referred to as Current Expected Credit Loss, or CECL, will require financial institutions to determine periodic estimates of lifetime expected credit losses on loans, and recognize the expected credit losses as allowances for loan losses. This will change the current method of providing allowances for loan losses that are probable, which may require us to increase our allowance for loan losses, and to greatly increase the types of data we would need to collect and review to determine the appropriate level of the allowance for loan losses. Any increase in our allowance for loan losses or expenses incurred to determine the appropriate level of the allowance for loan losses may have a material adverse effect on our financial condition and results of operations

## ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

(a) Not applicable.

(b) Not applicable.

(c) Stock Repurchases. The following table sets forth information in connection with repurchases of our shares of common stock during the three months ended June 30, 2016

Period	Total Number of Shares Purchased (1)	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares That May Yet be Purchased Under the Plans or Programs (2)
April 1, 2016 through April 30, 2016	2,000	\$ 25.06	2,000	273,000
May 1, 2016 through May 31, 2016	—	—	—	—
June 1, 2016 through June 30, 2016	55,903	26.11	36,900	225,600
Total	57,903	\$ 26.08	38,900	225,600

(1) Includes shares repurchased by the Company to pay the exercise price in connection with a stock swap transaction related to the exercise of stock options.

(2) On March 7, 2016, our Board of Directors authorized the repurchase of up to 275,000 shares of our common stock. This repurchase authorization expires on August 24, 2016. On June 9, 2016, this repurchase agreement was amended and the new maximum number of shares allowed to be repurchased decreased to 262,500 shares. We have entered into a Rule 10b5-1 plan with respect to our stock repurchase plan.

## ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

None.

ITEM 6. EXHIBITS

The exhibits required by Item 601 of Regulation S-K are included with this Form 10-Q and are listed on the “Index to Exhibits” immediately following the Signatures.
