FORRESTER RESEARCH, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 1 — Interim Consolidated Financial Statements

Basis of Presentation

The accompanying unaudited interim consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC") for reporting on Form 10-Q. Accordingly, certain information and footnote disclosures required for complete financial statements are not included herein. The year-end balance sheet data was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America. It is recommended that these financial statements be read in conjunction with the consolidated financial statements and related notes that appear in the Forrester Research, Inc. ("Forrester") Annual Report on Form 10-K for the year ended December 31, 2016. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair statement of the financial position, results of operations, comprehensive income and cash flows as of the dates and for the periods presented have been included. The results of operations for the three and six months ended June 30, 2017 may not be indicative of the results for the year ending December 31, 2017, or any other period.

Fair Value Measurements

The carrying amounts reflected in the Consolidated Balance Sheets for cash and cash equivalents, accounts receivable, accounts payable, and accrued expenses approximate fair value due to their short-term maturities. See Note 3 – Marketable Investments - for the fair value of the Company's marketable investments.

Adoption of New Accounting Pronouncements

The Company adopted the guidance in Accounting Standards Update ("ASU") No. 2016-09, Compensation - Stock Compensation - Improvements to Employee Share-Based Payment Accounting, on January 1, 2017. Under this standard, entities are permitted to make an accounting policy election to either estimate forfeitures on share-based payment awards, as previously required, or to recognize forfeitures as they occur. The Company has elected to recognize forfeitures as they occur and the impact of that change in accounting policy has been recorded as a \$0.2 million cumulative effect adjustment to increase retained earnings as of January 1, 2017.

Additionally, ASU No. 2016-09 requires that all income tax effects related to settlements of share-based payment awards be reported in earnings as an increase or decrease to income tax expense. Previously, income tax effects at settlement of an award were reported as an increase (or decrease) to additional paid-in capital to the extent that those benefits were greater than (or less than) the income tax effects reported in earnings during the award's vesting period. The requirement to report those income tax effects in earnings has been applied on a prospective basis to settlements occurring on or after January 1, 2017, and the impact of applying this guidance was not material to the consolidated financial statements for the three and six months ended June 30, 2017. Application of this guidance may result in fluctuations in the Company's effective tax rate depending on how many options are exercised, how many restricted stock units vest and the volatility of the Company's stock price.

ASU 2016-09 also requires that all income tax-related cash flows resulting from share-based payments be reported as operating activities in the statement of cash flows. Previously, income tax benefits at settlement of an award were reported as a reduction to operating cash flows and an increase to financing cash flows to the extent that those benefits exceeded the income tax benefits reported in earnings during the award's vesting period. In addition, the standard requires that cash paid by directly withholding shares for tax withholding purposes be classified as a financing activity in the statement of cash flows. For the six months ended June 30, 2017, the Company reflected \$0.5 million of tax withholding in financing activities. The Company has elected to apply the changes in cash flow classification on a retrospective basis resulting in an increase in operating cash flows, with a corresponding decrease in financing cash flows, of \$0.8 million for the six months ended June 30, 2016, as compared to the amounts previously reported.

The Company elected to early adopt the guidance in ASU No. 2016-16, Accounting for Income Taxes: Intra-Entity Asset Transfers of Assets Other than Inventory, on January 1, 2017. The guidance in this standard eliminates for all intra-entity sales of assets other than inventory, the exception under existing standards that permits the tax effects of intra-entity asset transfers to be deferred until the transferred asset is sold to a third party or otherwise recovered through use. As a result, a reporting entity would recognize the tax

expense from the sale of the asset in the seller's tax jurisdiction when the transfer occurs and any deferred tax asset that arises in the buyer's jurisdiction would also be recognized at the time of the transfer. As a result, the Company has recorded a \$0.5 million cumulative effect adjustment to reduce retained earnings as of January 1, 2017.

Note 2 — Accumulated Other Comprehensive Income (Loss)

The components of accumulated other comprehensive income (loss) are as follows (in thousands):

	Net Unrealized Gain (Loss) on Marketable Investments	Cumulative Translation Adjustment	Total Accumulated Other Comprehensive Income (Loss)
Balance at January 1, 2017	\$ (83)	\$ (7,490)	\$ (7,573)
Foreign currency translation	—	3,304	3,304
Unrealized gain on investments, net of tax of \$15	24	—	24
Balance at June 30, 2017	\$ (59)	\$ (4,186)	\$ (4,245)

	Net Unrealized Gain (Loss) on Marketable Investments	Cumulative Translation Adjustment	Total Accumulated Other Comprehensive Income (Loss)
Balance at April 1, 2017	\$ (66)	\$ (6,700)	\$ (6,766)
Foreign currency translation	—	2,514	2,514
Unrealized gain on investments, net of tax of \$4	7	—	7
Balance at June 30, 2017	\$ (59)	\$ (4,186)	\$ (4,245)

	Net Unrealized Gain (Loss) on Marketable Investments	Cumulative Translation Adjustment	Total Accumulated Other Comprehensive Income (Loss)
Balance at January 1, 2016	\$ (100)	\$ (4,726)	\$ (4,826)
Foreign currency translation	—	52	52
Unrealized gain on investments, net of tax of \$79	120	—	120
Balance at June 30, 2016	\$ 20	\$ (4,674)	\$ (4,654)

	Net Unrealized Gain (Loss) on Marketable Investments	Cumulative Translation Adjustment	Total Accumulated Other Comprehensive Income (Loss)
Balance at April 1, 2016	\$ 17	\$ (3,245)	\$ (3,228)
Foreign currency translation	—	(1,429)	(1,429)
Unrealized gain on investments, net of tax of \$3	3	—	3

The following table summarizes the Company's marketable investments (in thousands):

	As of June 30, 2017			
	Gross Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Market Value
Federal agency obligations	\$1,800	\$ —	\$ (8)) \$1,792
Corporate obligations	56,424	1	(88)) 56,337
Total	\$58,224	\$ 1	\$ (96)) \$58,129

As of December 31, 2016				
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Market Value
Federal agency obligations	\$1,800	\$ —	\$ (7)	\$1,793
Corporate obligations	59,481	2	(129)	59,354
Total	\$61,281	\$ 2	\$ (136)	\$61,147

Realized gains and losses on investments are included in earnings and are determined using the specific identification method. Realized gains or losses on the sale of the Company's marketable investments were not material in the three and six months ended June 30, 2017 and 2016.

The following table summarizes the maturity periods of the marketable investments in the Company's portfolio as of June 30, 2017 (in thousands).

	FY 2017	FY 2018	FY 2019	Total
Federal agency obligations	\$—	\$1,792	\$—	\$1,792
Corporate obligations	8,504	29,913	17,920	56,337
Total	\$8,504	\$31,705	\$17,920	\$58,129

The following table shows the gross unrealized losses and market value of the Company's available-for-sale securities with unrealized losses that are not deemed to be other-than-temporary, aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position (in thousands):

As of June 30, 2017				
	Less Than 12 Months		12 Months or Greater	
	Market Value	Unrealized Losses	Market Value	Unrealized Losses
Federal agency obligations	\$1,792	\$ 8	\$—	\$ —
Corporate obligations	43,897	69	9,219	19
Total	\$45,689	\$ 77	\$9,219	\$ 19

As of December 31, 2016				
	Less Than 12 Months		12 Months or Greater	
	Market Value	Unrealized Losses	Market Value	Unrealized Losses
Federal agency obligations	\$1,793	\$ 7	\$ —	\$ —
Corporate obligations	53,647	129	—	—
Total	\$55,440	\$ 136	\$ —	\$ —

Fair Value

The Company measures certain financial assets at fair value on a recurring basis, including cash equivalents and available-for-sale securities. The fair values of these financial assets have been classified as Level 1, 2 or 3 within the fair value hierarchy as described in the accounting standards for fair value measurements.

Level 1 — Fair value based on quoted prices in active markets for identical assets or liabilities.

Level 2 — Fair value based on inputs other than Level 1 inputs that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 — Fair value based on unobservable inputs that are supported by little or no market activity and such inputs are significant to the fair value of the assets or liabilities.

The following table represents the Company's fair value hierarchy for its financial assets (cash equivalents and investments) measured at fair value on a recurring basis (in thousands):

	As of June 30, 2017			
	Level 1	Level 2	Level 3	Total
Money market funds (1)	\$612	\$—	\$—	\$612
Federal agency obligations	—	1,792	—	1,792
Corporate obligations	—	56,337	—	56,337
Total	\$612	\$58,129	\$—	\$58,741

	As of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Money market funds (1)	\$2,522	\$—	\$—	\$2,522
Federal agency obligations	—	1,793	—	1,793
Corporate obligations	—	59,354	—	59,354
Total	\$2,522	\$61,147	\$—	\$63,669

(1) Included in cash and cash equivalents.

Level 2 assets consist of the Company's entire portfolio of marketable investments. Level 2 assets have been initially valued at the transaction price and subsequently valued, at the end of each reporting period, typically utilizing third party pricing services or other market observable data. The pricing services utilize industry standard valuation methods, including both income and market based approaches and observable market inputs to determine value. These observable market inputs include reportable trades, benchmark yields, credit spreads, broker/dealer quotes, bids, offers, current spot rates and other industry and economic events.

Note 4 — Non-Marketable Investments

At June 30, 2017 and December 31, 2016, the carrying value of the Company's non-marketable investments, which were composed primarily of interests in technology-related private equity funds, was \$2.2 million and \$2.8 million, respectively, and is included in other assets in the Consolidated Balance Sheets.

The Company's investments at June 30, 2017 are being accounted for using the equity method as the investments are limited partnerships and the Company has an ownership interest in excess of 5% and, accordingly, the Company records its share of the investee's operating results each period. Losses from non-marketable investments were \$0.2 million during the six months ended June 30, 2017 and were insignificant during the three months ended June 30, 2017, as well as the three and six months ended June 30, 2016. Losses are included in losses on investments, net in the Consolidated Statements of Income. At December 31, 2016, the Company's investments also included an investment with a book value of \$0.4 million, which was accounted for using the cost method. This investment was fully liquidated during the three months ended March 31, 2017. During the three months ended June 30, 2017, no

distributions were received from the funds. During the six months ended June 30, 2017, distributions of \$0.4 million were received from the funds. During the six months ended June 30, 2016, no distributions were received from the funds.

Note 5 — Reorganization

In the first quarter of 2016, the Company implemented a reduction in its workforce of approximately 2% of its employees across various geographies and functions. The Company recorded \$1.0 million of severance and related costs for this action during the three months ended March 31, 2016. All costs under this plan were paid during 2016.

Note 6 — Net Income Per Common Share

Basic net income per common share is computed by dividing net income by the basic weighted average number of common shares outstanding during the period. Diluted net income per common share is computed by dividing net income by the diluted weighted average number of common shares and common equivalent shares outstanding during the period. The weighted average number of common equivalent shares outstanding has been determined in accordance with the treasury-stock method. Common equivalent shares consist of common stock issuable on the exercise of outstanding options and vesting of restricted stock units when dilutive.

Basic and diluted weighted average common shares are as follows (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2017	2016	2017	2016
Basic weighted average common shares outstanding	17,715	17,863	17,973	17,812
Weighted average common equivalent shares	335	282	320	223
Diluted weighted average common shares outstanding	18,050	18,145	18,293	18,035
Share based awards excluded from diluted weighted average share calculation as effect would have been anti-dilutive	129	911	251	1,324

Note 7 — Stockholders' Equity

Equity Plans

Stock option activity for the six months ended June 30, 2017 is presented below (in thousands, except per share data and contractual term):

	Number of Shares	Weighted - Average Exercise Price Per Share	Weighted - Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value
Outstanding at December 31, 2016	1,540	\$ 34.35		
Granted	—	—		
Exercised	(127)	31.70		
Forfeited	(33)	34.32		
Outstanding at June 30, 2017	1,380	\$ 34.60	6.05	\$ 6,321
Exercisable at June 30, 2017	859	\$ 34.03	5.00	\$ 4,403
Vested and expected to vest at June 30, 2017	1,380	\$ 34.60	6.05	\$ 6,321

Restricted stock unit activity for the six months ended June 30, 2017 is presented below (in thousands, except per share data):

Weighted-

	Number of Shares	Average Grant Date Fair Value
Unvested at December 31, 2016	539	\$ 35.50
Granted	39	38.87
Vested	(56)	34.32
Forfeited	(18)	35.05
Unvested at June 30, 2017	504	\$ 35.91

Stock-Based Compensation

Forrester recognizes the fair value of stock-based compensation in net income over the requisite service period of the individual grantee, which generally equals the vesting period. Stock-based compensation was recorded in the following expense categories (in thousands):

	Three Months Ended June 30, 2017		Six Months Ended June 30, 2017	
	2017	2016	2017	2016
Cost of services and fulfillment	\$1,103	\$870	\$2,299	\$2,064
Selling and marketing	202	109	364	423
General and administrative	891	647	1,582	1,274
Total	\$2,196	\$1,626	\$4,245	\$3,761

Forrester utilizes the Black-Scholes valuation model for estimating the fair value of shares subject to purchase under the employee stock purchase plan, which were valued using the following assumptions:

	Three Months Ended June 30, 2017		Six Months Ended June 30, 2016	
Average risk-free interest rate	0.88 %	0.47 %	0.74 %	0.47 %
Expected dividend yield	1.9 %	2.3 %	1.9 %	2.3 %
Expected life	0.5 Years	0.5 Years	0.5 Years	0.5 Years
Expected volatility	28 %	27 %	26 %	27 %
Weighted average fair value	\$8.49	\$7.06	\$8.21	\$7.06

Dividends

In the six months ended June 30, 2017, the Company declared and paid dividends of \$6.8 million consisting of a \$0.19 per share dividend in each of the first two quarters of 2017. In the six months ended June 30, 2016, the Company declared and paid dividends of \$6.4 million consisting of a \$0.18 per share dividend in each of the first two quarters of 2016. In July 2017, the Company declared a dividend of \$0.19 per share payable on September 20, 2017 to shareholders of record as of September 6, 2017.

Treasury Stock

As of June 30, 2017, Forrester's Board of Directors had authorized an aggregate \$485.0 million to purchase common stock under its stock repurchase program. The shares repurchased may be used, among other things, in connection with Forrester's employee and director equity incentive and purchase plans. In the three and six months ended June 30, 2017, the Company repurchased approximately 0.4 and 1.0 million shares, respectively, of common stock at an aggregate cost of approximately \$15.0 and \$36.5 million, respectively. The Company did not repurchase shares of common stock in the six months ended June 30, 2016. From the inception of the program through June 30, 2017, Forrester repurchased 16.0 million shares of common stock at an aggregate cost of \$461.4 million.

Note 8 — Income Taxes

Forrester provides for income taxes on an interim basis according to management's estimate of the effective tax rate expected to be applicable for the full fiscal year. Certain items such as changes in tax rates and tax benefits or expense related to settlements of share-based payment awards are treated as discrete items and are recorded in the period in which they arise.

Income tax expense for the six months ended June 30, 2017 was \$4.1 million resulting in an effective tax rate of 31.2% for the period. Income tax expense for the six months ended June 30, 2016 was \$5.5 million resulting in an effective tax rate of 38.7% for the period. Income tax expense decreased by \$1.4 million during the six months ended June 30, 2017 compared to the prior year period due primarily to the recognition of a \$1.3 million benefit from the settlement of a tax audit in the first quarter of 2017. For the full year 2017, the Company anticipates that its effective tax rate will be approximately 36%.

Note 9 — Operating Segments

The Research segment includes the costs of the Company's research personnel who are responsible for writing the research and performing the webinars and inquiries for the Company's Research and Connect products. In addition, the research personnel deliver advisory services (such as workshops, speeches and advisory days) and a portion of the Company's project consulting services. Revenue in this segment includes only revenue from advisory services and project consulting services that are delivered by the research personnel in this segment.

The Product segment includes the costs of the product management organization that is responsible for product pricing and packaging and the launch of new products. In addition, this segment includes the costs of the Company's Data, Connect and Events organizations. Revenue in this segment includes all revenue for the Company (including Research and Connect) except for revenue from advisory services and project consulting services that are delivered by personnel in the Research and Project Consulting segments.

The Project Consulting segment includes the costs of the consultants that deliver the majority of the Company's project consulting services. Revenue in this segment includes the project consulting revenue delivered by the consultants in this segment.

The Company evaluates reportable segment performance and allocates resources based on segment revenues and expenses. Segment expenses include the direct expenses of each segment organization and exclude selling and marketing expenses, certain client support expenses, general and administrative expenses, stock-based compensation expense, depreciation expense, adjustments to incentive bonus compensation from target amounts, amortization of intangible assets, reorganization costs, other income (expense), and gains (losses) on investments. The accounting policies used by the segments are the same as those used in the consolidated financial statements.

In the first quarter of 2017, the Company modified its internal reporting for the Research and Project Consulting segments to reflect the transfer of revenue and direct costs related to a small consulting team in Asia Pacific from Research to Project Consulting, and to remove from both Research and Project Consulting certain client support activities that are now included within selling, marketing, administrative and other expenses in the table below. Accordingly, the 2016 amounts have been reclassified to conform to the current presentation.

	Product	Research	Project Consulting	Consolidated
Three Months Ended June 30, 2017				
Research services revenues	\$54,575	\$—	\$ —	\$ 54,575
Advisory services and events revenues	9,860	11,407	13,891	35,158

Amortization of intangible assets				(419)
Reorganization costs				(1,026)
Other income and losses on investments				91
Income before income taxes				\$ 14,275

Note 10 — Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (FASB) issued ASU No. 2014-09, Revenue from Contracts with Customers, which supersedes all existing revenue recognition requirements, including most industry specific guidance. The new standard requires a company to recognize revenue when it transfers goods or services to customers in an amount that reflects the consideration that the company expects to receive for those goods or services. The guidance also includes enhanced disclosure requirements which are intended to help financial statement users better understand the nature, amount, timing and uncertainty of revenue being recognized and the related cash flows. In March 2016, the FASB issued ASU No. 2016-08, Revenue from Contracts with Customers: Principal versus Agent Considerations, which clarifies the implementation guidance on principal versus agent considerations. In April 2016, the FASB issued ASU No. 2016-10, Revenue from Contracts with Customers: Identifying Performance Obligations and Licensing, which clarifies certain aspects of identifying performance obligations and licensing implementation guidance. In May 2016, the FASB issued ASU No. 2016-12, Revenue from Contracts with Customers: Narrow Scope Improvements and Practical Expedients, which relates to disclosures of remaining performance obligations, as well as other amendments to guidance on collectability, noncash consideration and the presentation of sales and other similar taxes collected from customers. In December 2016, the FASB issued ASU 2016-20, Technical Corrections and Improvements: Revenue from Contracts with Customers, which clarifies several topics including, certain types of transactions that are outside the scope of the new standard, disclosure requirements and balance sheet considerations.

In 2016, Forrester established a formal program and cross-functional implementation team to identify, design and implement changes to its accounting systems and policies, business processes and internal controls to support recognition and disclosures under the new standard. The Company estimates it is approximately 75% complete with its adoption analysis and significant completed activities to date include assessments of material, active contracts, performance obligations, standalone selling prices and transaction price allocation, revenue recognition timing, variable consideration and the recording of contract assets and liabilities.

The Company does not anticipate that the standard will have a material impact on its results of operations. The number of performance obligations in the Company's arrangements will not be different under the new standard than under current guidance. Determining standalone selling prices and allocating contract consideration on multiple element arrangements will not be different from the Company's current methodologies of establishing fair value / estimated selling price for our goods and services or allocating total contract consideration under the relative selling price method. Additionally, the timing of revenue recognition will remain substantially unchanged for most products. Subscription based research services revenues will continue to be recognized over time, using the new standard's output method of time elapsed, as Forrester's clients receive and consume the benefits of our services as we transfer control throughout the contract period. Advisory, reprint and events revenues will continue to be recognized at the point in time as control is transferred to the customer, which will generally be when the client has physical possession of the good(s) or upon completion of the service(s). The Company expects that most of its consulting contracts will continue to be recognized over time, while some contracts may be required to be recognized at a point in time upon completion of the project.

Under the standard, the Company will no longer record accounts receivable and deferred revenue on its balance sheet when it issues an invoice to a customer for a contract that is cancellable by the customer. For contracts that are cancellable, the Company will only record accounts receivable up to the amount of revenue earned but not yet collected. This change will have the effect of reducing the amount of accounts receivable and deferred revenue on the balance sheet compared to amounts recorded based on current accounting standards. The majority of the Company's contracts are non-cancellable; however, the Company has not yet determined the effect of this change on its balance sheet.

Key areas still in process include the evaluation of contract costs and disclosure requirements. The adoption program and all remaining activities, including updates to the Company's systems, processes, policies and controls, are expected to be completed in late 2017.

The new standard will be effective for annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period. The two permitted transition methods under the new standard are the full retrospective method, in which case the standard would be applied to each prior reporting period presented, or the modified retrospective method, in which case the cumulative effect of applying the standard would be recognized at the date of initial application. The Company has determined that it will adopt the standard utilizing the modified retrospective method.

Notwithstanding the Company's current conclusions above, certain areas of the standard, as well as implementation issues, continue to be worked through by the various standard setting bodies. The Company's implementation team continues to monitor industry activities and standard updates and will adjust its adoption plans based on any relevant guidance issued by the standard setters and regulators.

In February 2016, the FASB issued ASU No. 2016-02, Leases. The new standard requires that all lessees recognize the assets and liabilities that arise from leases on the balance sheet and disclose qualitative and quantitative information about its leasing arrangements. The new standard will be effective for the Company on January 1, 2019. The adoption of this standard is expected to have a material impact on the Company's financial position as virtually all leases will be recorded on the balance sheets as a right-of-use asset and a lease liability. The Company is currently evaluating the potential impact that this standard may have on its results of operations.

In June 2016, the FASB issued ASU No. 2016-13, Financial Instruments - Credit Losses: Measurement of Credit Losses on Financial Instruments. The new standard amends the current financial instrument impairment model by requiring entities to use a forward-looking approach based on expected losses to estimate credit losses on certain types of financial instruments, including trade receivables. The new standard will be effective for the Company on January 1, 2020. The adoption of this standard is not expected to have a material impact on the Company's financial position or results of operations.

In August 2016, the FASB issued ASU No. 2016-15, Statement of Cash Flows: Classification of Certain Cash Receipts and Cash Payments. The new standard clarifies certain aspects of the statement of cash flows, including contingent consideration payments made after a business combination, proceeds from the settlement of insurance claims, and distributions received from equity method investees, among others. The new standard will be effective for the Company on January 1, 2018. The adoption of this standard is not expected to have a material impact on our statements of cash flows upon adoption.

In January 2017, the FASB issued ASU No. 2017-04, Intangibles-Goodwill and Other: Simplifying the Test for Goodwill Impairment. The new standard simplifies the subsequent measurement of goodwill by eliminating Step 2

from the goodwill impairment test and requires that instead, an entity should perform its goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount. The new standard will be effective for the Company on January 1, 2020. The adoption of this standard is not expected to have a material impact on the Company's financial position or results of operations.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Words such as “expects,” “believes,” “anticipates,” “intends,” “plans,” “estimates,” or similar expressions are intended to identify these forward-looking statements. Reference is made in particular to our statements about our plans for anticipated increases in, and productivity of, our sales force and headcount, future growth rates, future dividends, future share repurchases and the adequacy of our cash, marketable investments and cash flows to satisfy our working capital and capital expenditures. These statements are based on our current plans and expectations and involve risks and uncertainties that could cause actual future activities and results of operations to be materially different from those set forth in the forward-looking statements. Important factors that could cause actual future activities and results to differ include, among others, our ability to retain and enrich memberships for our research, data and leadership board products and services, our ability to fulfill existing or generate new project consulting engagements, the impact of our evolving customer engagement model, technology spending, the risks and challenges inherent in international business activities, our ability to offer new products and services, our dependence on key personnel, our ability to realize anticipated benefits from internal reorganizations, the ability to attract and retain qualified professional staff, our ability to respond to business and economic conditions and market trends, the possibility of network disruptions and security breaches, competition and industry consolidation, our ability to enforce and protect our intellectual property rights, compliance with privacy laws, possible variations in our quarterly operating results, taxation risks, concentration of our stock ownership and any weakness identified in our system of internal controls. These risks are described more completely in our Annual Report on Form 10-K for the year ended December 31, 2016. We undertake no obligation to update publicly any forward-looking statements, whether as a result of new information, future events, or otherwise.

We derive revenues from memberships to, and sales of, our Research, Connect and Data products and services, performing advisory services and consulting projects, and hosting events. We offer contracts for our Research, Connect and Data products that are typically renewable annually and payable in advance. Membership revenues are recognized as revenue ratably over the term of the contract. Accordingly, a substantial portion of our billings are initially recorded as deferred revenue. Clients purchase advisory services independently and/or to supplement their memberships to our subscription-based products. Billings attributable to advisory services and consulting projects are initially recorded as deferred revenue. Advisory service revenues, such as workshops, speeches and advisory days, are recognized when the customer receives the agreed upon deliverable. Consulting project revenues, which generally are short-term in nature and based upon fixed-fee agreements, are recognized as the services are provided. Event billings are also initially recorded as deferred revenue and are recognized as revenue upon completion of each event.

Our primary operating expenses consist of cost of services and fulfillment, selling and marketing expenses and general and administrative expenses. Cost of services and fulfillment represents the costs associated with the production and delivery of our products and services, including salaries, bonuses, employee benefits and stock-based compensation expense for all personnel that produce and deliver our products and services, including all associated editorial, travel, and support services. Selling and marketing expenses include salaries, sales commissions, bonuses, employee benefits, stock-based compensation expense, travel expenses, promotional costs and other costs incurred in marketing and selling our products and services. General and administrative expenses include the costs of the technology, operations, finance, and human resources groups and our other administrative functions, including salaries, bonuses, employee benefits, and stock-based compensation expense. Overhead costs such as facilities and annual fees for cloud-based information technology systems are allocated to these categories according to the number of employees in each group.

Deferred revenue, agreement value, client retention, dollar retention, enrichment and number of clients are metrics that we believe are important to understanding our business. We believe that the amount of deferred revenue, along with the agreement value of contracts to purchase research and advisory services, provide a significant measure of our business activity. We define these metrics as follows:

- **Deferred revenue** — billings in advance of revenue recognition as of the measurement date.
- **Agreement value** — the total revenues recognizable from all contracts in force at a given time (but not including advisory-only contracts), without regard to how much revenue has already been recognized.
- **Client retention** — the percentage of client companies with memberships expiring during the most recent twelve-month period that renewed one or more of those memberships during that same period.
- **Dollar retention** — the total dollar value of client membership contracts expiring during the most recent twelve-month period, which are renewed in whole or in part, as percentage of the dollar value of all expiring client membership contracts during the same period.
- **Enrichment** — the percentage of the dollar value of client membership contracts renewed during the most recent twelve-month period to the dollar value of the corresponding expiring contracts.

◆ Clients — we aggregate the various divisions and subsidiaries of a corporate parent as a single client and we also aggregate separate instrumentalities of the federal, state, and provincial governments as a single client. Client retention, dollar retention, and enrichment are not necessarily indicative of the rate of future retention of our revenue base. A summary of our key metrics is as follows (dollars in millions):

	As of June 30,				Absolute Increase (Decrease)	Percentage Increase (Decrease)
	2017	2016				
Deferred revenue	\$145.4	\$138.6	\$	6.8	5	%
Agreement value	\$236.7	\$241.8	\$	(5.1)	(2)	%
Client retention	75	76	%	(1)	(1)	%
Dollar retention	87	88	%	(1)	(1)	%
Enrichment	94	96	%	(2)	(2)	%
Number of clients	2,417	2,481		(64)	(3)	%

Deferred revenue at June 30, 2017 increased 5% compared to the prior year. The increase in deferred revenue is a result of increased contract billings in excess of revenue recognized due to an increase in contract bookings. Agreement value decreased 2% at June 30, 2017 compared to the prior year and after adjusting for the effect of foreign currency fluctuations, declined 1% compared to the prior year. Client retention rate increased 1% compared to the prior quarter but declined 1% compared to the prior year period. Dollar retention rate and enrichment rate, although essentially consistent with the prior quarter, declined 1% and 2%, respectively, compared to the prior year period.

Management's discussion and analysis of financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP"). The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an ongoing basis, we evaluate our policies and estimates, including but not limited to, those related to our revenue recognition, stock-based compensation, non-marketable investments, goodwill and other intangible assets, and income taxes. Management bases its estimates on historical experience, data available at the time the estimates are made and various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. Our other critical accounting policies and estimates are described in our Annual Report on Form 10-K for the year ended December 31, 2016.

Results of Operations

The following table sets forth our statement of income as a percentage of total revenues for the periods indicated:

	Three Months Ended June 30, 2017		2016		Six Months Ended June 30, 2017		2016	
Revenues:								
Research services	60.8	%	62.7	%	63.7	%	65.5	%
Advisory services and events	39.2		37.3		36.3		34.5	
Total revenues	100.0		100.0		100.0		100.0	
Operating expenses:								
Cost of services and fulfillment	41.1		39.2		40.9		39.6	
Selling and marketing	34.0		33.4		36.6		36.2	
General and administrative	11.6		11.7		12.4		12.3	
Depreciation	1.7		2.4		1.9		2.4	
Amortization of intangible assets	0.2		0.2		0.2		0.3	
Reorganization costs	—		—		—		0.6	
Income from operations	11.4		13.1		8.0		8.6	
Other income, net	0.1		0.4		—		—	
Losses on investments, net	—		—		(0.1)	—	
Income before income taxes	11.5		13.5		7.9		8.6	
Income tax provision	4.7		5.0		2.5		3.3	
Net income	6.8	%	8.5	%	5.4	%	5.3	%

Three and Six Months Ended June 30, 2017 and 2016

Revenues

	Three Months Ended June 30, 2017		2016		Absolute Increase (Decrease)		Percentage Increase (Decrease)	
Revenues	\$89.7		\$87.8		\$ 1.9		2	%
Revenues from research services	\$54.6		\$55.0		\$ (0.4)	(1	%)
Revenues from advisory services and events	\$35.2		\$32.8		\$ 2.4		7	%
Revenues attributable to customers outside of the U.S.	\$19.6		\$20.1		\$ (0.5)	(2	%)
Percentage of revenue attributable to customers								
outside of the U.S.	22	%	23	%	(1)	(4	%)
Number of events	6		7		(1)	(14	%)

	Six Months Ended June 30, 2017				2016	Absolute Increase (Decrease)	Percentage Increase (Decrease)	
	(dollars in millions)							
Revenues	\$166.9		\$165.2		\$ 1.7	1	%	
Revenues from research services	\$106.3		\$108.3		\$ (2.0)	(2	%)	
Revenues from advisory services and events	\$60.6		\$57.0		\$ 3.6	6	%	
Revenues attributable to customers outside of the U.S.	\$36.5		\$38.0		\$ (1.5)	(4	%)	
Percentage of revenue attributable to customers outside of								
the U.S.	22	%	23	%	(1)	(4	%)
Number of events	6		7		(1)	(14	%)

Total revenues increased 2% and 1% during the three and six months ended June 30, 2017, respectively, compared to the prior year periods and increased 3% and 2%, respectively, after adjusting for the effect of foreign currency fluctuations. Revenues from customers outside the U.S. decreased 2% and 4% during the three and six months ended June 30, 2017, respectively, compared to the prior year periods and increased 1% and decreased 1%, respectively, after adjusting for the effects of foreign currency fluctuations. Revenues from customers outside of the U.S. represented 22% of total revenues and decreased 1% as a percent of total revenues during both the three and six months ended June 30, 2017, compared to the prior year periods. The decline in revenue attributable to

customers outside of the U.S. during the six months ended June 30, 2017 was principally due to a decline in revenue in Europe and Canada that was partially offset by growth in the Asia Pacific region.

Research services revenues are recognized as revenue primarily on a ratable basis over the term of the contracts, which are generally twelve-month periods. Research services revenues decreased 1% and 2% during the three and six months ended June 30, 2017, respectively, compared to the prior year periods and were essentially flat for the three months ended June 30, 2017 and decreased 1% for the six months ended June 30, 2017 after adjusting for the effect of foreign currency fluctuations. The decrease was primarily driven by a decline in demand for our Data products.

Revenues from advisory services and events increased 7% and 6% during three and six months ended June 30, 2017, respectively, compared to the prior year periods and increased 8% and 7%, respectively, after adjusting for the effect of foreign currency fluctuations. Both periods during 2017 included strong growth in consulting revenues that was partially offset by a decline in advisory revenues. Events revenues increased 6% and 5% during the three and six months ended June 30, 2017, respectively. The increase in events revenues was due to an increase in sponsorship revenues for the events that offset having held one less event in the current year compared to the prior year.

Please refer to the “Segments Results” section below for a discussion of revenues and expenses by segment.

Cost of Services and Fulfillment

	Three Months		Absolute Increase (Decrease)	Percentage Increase (Decrease)	
	Ended June 30, 2017	2016			
Cost of services and fulfillment (dollars in millions)	\$36.9	\$34.4	\$ 2.5	7	%
Cost of services and fulfillment as a percentage of					
total revenues	41.1 %	39.2 %	1.9	5	%
Service and fulfillment employees					
(at end of period)	605	582	23	4	%
	Six Months		Absolute Increase (Decrease)	Percentage Increase (Decrease)	
	Ended June 30, 2017	2016			
Cost of services and fulfillment (dollars in millions)	\$68.3	\$65.5	\$ 2.8	4	%
Cost of services and fulfillment as a percentage of total					
revenues	40.9 %	39.6 %	1.3	3	%

Cost of services and fulfillment expenses increased 7% during the three months ended June 30, 2017 compared to the prior year period and after adjusting for the effect of foreign currency fluctuations, increased 9%. The increase in dollars was primarily due to (1) a \$1.1 million increase in compensation and benefit costs, resulting principally from an increase in employees compared to the prior year period and annual merit increases, (2) a \$0.7 million increase in event expenses and (3) a \$0.3 million increase in professional services costs.

Cost of services and fulfillment expenses increased 4% during the six months ended June 30, 2017 compared to the prior year period and after adjusting for the effect of foreign currency fluctuations, increased 6%. The increase in dollars was primarily due to (1) a \$1.5 million increase in compensation and benefit costs, resulting principally from an increase in employees compared to the prior year period and annual merit increases, (2) a \$0.7 million increase in event expenses and (3) a \$0.2 million increase in professional services costs.

Selling and Marketing

	Three Months Ended June 30,		Absolute Increase (Decrease)	Percentage Increase (Decrease)	
	2017	2016			
Selling and marketing expenses (dollars in millions)	\$30.5	\$29.3	\$ 1.2	4	%
Selling and marketing expenses as a percentage of					
total revenues	34.0%	33.4%	0.6	2	%
Selling and marketing employees (at end of period)	584	575	9	2	%

	Six Months Ended June 30,		Absolute Increase (Decrease)	Percentage Increase (Decrease)	
	2017	2016			
Selling and marketing expenses (dollars in millions)	\$61.1	\$59.7	\$ 1.4	2	%
Selling and marketing expenses as a percentage of total					
revenues	36.6%	36.2%	0.4	1	%

Selling and marketing expenses increased 4% during the three months ended June 30, 2017 compared to the prior year period and after adjusting for the effect of foreign currency fluctuations, increased 5%. The increase in dollars was primarily due to a \$0.9 million increase in compensation and benefit costs, resulting from an increase in sales employees, annual merit increases, an increase in incentive bonuses and an increase in severance costs compared to the prior year period.

Selling and marketing expenses increased 2% during the six months ended June 30, 2017 compared to the prior year period and after adjusting for the effect of foreign currency fluctuations, increased 4%. The increase in dollars was primarily due to a \$1.9 million increase in compensation and benefit costs, resulting from an increase in sales employees, annual merit increases, an increase in incentive bonuses and an increase in severance costs compared to the prior year period. This increase was partially offset by a \$0.8 million decrease in travel and entertainment expenses primarily resulting from a reduction in expense for our annual sales conference.

Subject to the business environment, we expect our sales headcount to increase by 4% to 7% in 2017 as compared to 2016.

General and Administrative

	Three Months Ended June 30,		Absolute Increase (Decrease)	Percentage Increase (Decrease)	
	2017	2016			
General and administrative expenses (dollars in millions)	\$10.4	\$10.3	\$ 0.1	1	%
General and administrative expenses as a percentage of					
total revenues	11.6%	11.7%	(0.1)	(1	%)
General and administrative employees (at end of period)	192	179	13	7	%

	Six Months Ended June 30,		Absolute Increase (Decrease)	Percentage Increase (Decrease)	
	2017	2016			
General and administrative expenses (dollars in millions)	\$20.6	\$20.3	\$ 0.3	2	%
General and administrative expenses as a percentage of					
total revenues	12.4%	12.3%	0.1	1	%

General and administrative increased 1% during the three months ended June 30, 2017 compared to the prior year period and after adjusting for the effect of foreign currency fluctuations, increased 2%. The increase in dollars was primarily due to (1) a \$0.4 million increase in compensation and benefit costs resulting from an increase in headcount and annual merit increases compared to the prior year period and (2) a \$0.2 million increase in stock compensation costs. These increases were partially offset by a \$0.6 million decrease in professional services expense.

General and administrative expenses increased 2% during the six months ended June 30, 2017 compared to the prior year period and after adjusting for the effect of foreign currency fluctuations, increased 3%. The increase in dollars was primarily due to (1) a \$0.7 million increase in compensation and benefit costs resulting from an increase in headcount and annual merit increases compared to the prior year period, (2) a \$0.3 million increase in stock compensation costs and (3) a \$0.2 million increase in hiring and relocation expense. These increases were partially offset by a \$1.0 million decrease in professional services expense primarily due to a decrease in legal and accounting services fees.

Depreciation

Depreciation expense decreased by \$0.6 million and \$0.9 million during the three and six months ended June 30, 2017, respectively, compared to the prior year period primarily due to certain equipment and software assets becoming fully depreciated.

Amortization of Intangible Assets

Amortization expense remained essentially consistent during the three and six months ended June 30, 2017 compared to the prior year periods.

Reorganization Costs

During the six months ended June 30, 2016, we incurred \$1.0 million of severance and related benefits costs for a reduction in our workforce of approximately 2% of employees across various geographies and functions. All costs under this plan were paid during 2016.

Other Income, Net

Other income, net primarily consists of interest income on our investments as well as gains and losses on foreign currency. The decrease in other income, net during the three months ended June 30, 2017 compared to the prior year period is primarily due to foreign currency losses of approximately \$0.1 million incurred during the current year period versus foreign currency gains of \$0.3 million incurred during the prior year period.

Other income, net was essentially consistent during the six months ended June 30, 2017 and 2016.

Losses on Investments, Net

Losses on investments, net primarily represents our share of equity method investment gains and losses from our technology-related investment funds. Losses on investments, net was essentially consistent during the three months ended June 30, 2017 and 2016.

The increase in investment losses during the six months ended June 30, 2017 was due to an increase in investment losses incurred by the underlying funds as compared to the prior year period.

Provision for Income Taxes

	Three Months Ended June 30,		Absolute Increase (Decrease)	Percentage Increase (Decrease)
	2017	2016		
Provision for income taxes (dollars in millions)	\$4.2	\$4.4	\$ (0.2)	(5 %)
Effective tax rate	41.0 %	37.3 %	3.8	10 %

	Six Months Ended June 30,		Absolute Increase (Decrease)	Percentage Increase (Decrease)
	2017	2016		
Provision for income taxes (dollars in millions)	\$4.1	\$5.5	\$ (1.4)	(25 %)
Effective tax rate	31.2 %	38.7 %	(7.5)	(19 %)

Income tax expense decreased by \$1.4 million during the six months ended June 30, 2017 compared to the prior year period due primarily to the recognition of a \$1.3 million benefit on the settlement of a tax audit in the first quarter of 2017. For the full year 2017, we anticipate that our effective tax rate will be approximately 36%.

Segment Results

The Research segment includes the costs of our research personnel who are responsible for writing the research and performing the webinars and inquiries for our Research and Connect products. In addition, the research personnel deliver advisory services (such as workshops, speeches and advisory days) and a portion of our project consulting services. Revenue in this segment includes only revenue from advisory services and project consulting services that are delivered by the research personnel in this segment.

The Product segment includes the costs of the product management organization that is responsible for pricing, packaging and the launch of new products. In addition, this segment includes the costs of our Data, Connect and Events organizations. Revenue in this segment includes all of our revenue (including Research and Connect) except for revenue from advisory services and project consulting services that are delivered by personnel in the Research and Project Consulting segments.

The Project Consulting segment includes the costs of the consultants that deliver the majority of our project consulting services. Revenue in this segment includes the project consulting revenue delivered by the consultants in this segment.

The Company evaluates reportable segment performance and allocates resources based on segment revenues and expenses. Segment expenses include the direct expenses of each segment organization and exclude selling and marketing expenses, certain client support expenses, general and administrative expenses, stock-based compensation expense, depreciation expense, adjustments to incentive bonus compensation from target amounts, amortization of intangible assets, reorganization costs, other income (expense), and gains

(losses) on investments. The accounting policies used by the segments are the same as those used in the consolidated financial statements.

In the first quarter of 2017, we modified our internal reporting for the Research and Project Consulting segments to reflect the transfer of revenue and direct costs related to a small consulting team in Asia Pacific from Research to Project Consulting, and to remove from both Research and Project Consulting certain client support activities that are now included within selling, marketing, administrative and other expenses in the table below. Accordingly, the 2016 amounts have been reclassified to conform to the current presentation.

	Product	Research	Project Consulting	Consolidated
Three Months Ended June 30, 2017				
Research services revenues	\$54,575	\$—	\$—	\$ 54,575
Advisory services and events revenues	9,860	11,407	13,891	35,158

Edgar Filing: FORRESTER RESEARCH, INC. - Form 10-Q

Advisory services and events revenues	11,858	22,914	22,179	56,951
Total segment revenues	120,129	22,914	22,179	165,222
Segment expenses	21,422	24,440	11,943	57,805
Contribution margin (loss)	98,707	(1,526)	10,236	107,417

Product segment revenues were essentially flat and decreased 1% during the three and six months ended June 30, 2017, respectively, compared to the prior year periods. Research services revenues decreased 1% and 2% during the three and six months ended June 30, 2017, respectively, compared to the prior year periods, principally driven by a decline in our Data products. Advisory services and events revenues, which is comprised of data consulting and events revenues in this segment, increased 8% and 4% during the three and six months ended June 30, 2017, respectively, compared to the prior year periods. The increase in advisory services and events revenues during the three months ended June 30, 2017 was primarily due to a \$0.3 million increase in data consulting revenues and a \$0.4 million increase in Events revenues due to an increase in sponsorship revenues that offset having held one less event in the current year compared to the prior year. The increase in advisory services and events revenues during the six months ended June 30, 2017 was primarily due to a \$0.4 million increase in Events revenues due to an increase in sponsorship revenues. Product segment expenses increased 10% and 7% during the three and six months ended June 30, 2017, respectively, compared to the prior year periods

primarily due to an increase in compensation and benefit costs due to an increase in employees and an increase in events expenses driven by high attendance at the events.

Research segment revenues decreased 9% and 4% during the three and six months ended June 30, 2017, respectively, compared to the prior year periods, reflecting a decrease in both advisory and consulting revenues. Research segment expenses increased 3% during the three months ended June 30, 2017 and were essentially flat during the six months ended June 30, 2017 compared to the prior year periods. The increase in expenses during the three months ended June 30, 2017 was due to a \$0.4 million increase in compensation and benefit costs.

Project Consulting segment revenues increased 25% and 19% during the three and six months ended June 30, 2017, respectively, compared to the prior year periods due primarily to growth in our content marketing group, as well as slower growth in our strategic consulting group, both of which benefitted from delivery of projects in our backlog. We expect revenue growth rates to moderate to a single digit level for the second half of the year. Project Consulting expenses increased 8% and 4% during the three and six months ended June 30, 2017, respectively, compared to the prior year periods. The increase in expenses during the three months and six months ended June 30, 2017 was due to a \$0.4 million increase in compensation and benefit costs.

Liquidity and Capital Resources

We have historically financed our operations primarily through funds generated from operations. Memberships for research services, which constituted approximately 64% of our revenues during the six months ended June 30, 2017, are generally renewable annually and are typically payable in advance. We generated cash from operating activities of \$26.9 million and \$31.5 million during the six months ended June 30, 2017 and 2016, respectively. The \$4.6 million decrease in cash provided from operations for the six months ended June 30, 2017 was primarily attributable to a \$5.5 million decrease in cash generated from working capital which was partially offset by a \$1.0 million increase in net income and the effect of non-cash items. The decrease in cash from working capital was primarily due to a decrease in cash generated by accounts receivable and deferred revenue due to a decrease in cash collections and an increase in cash used for accounts payable.

During the six months ended June 30, 2017, we used \$0.1 million of cash from investing activities, consisting primarily of \$3.2 million of purchases of property and equipment partially offset by \$2.9 million in net proceeds from sales and maturities of marketable investments. Property and equipment purchases during 2017 consisted primarily of computer equipment and software. During the six months ended June 30, 2016, we used \$12.2 million of cash from investing activities, consisting primarily of \$9.9 million in net purchases of marketable investments and \$2.3 million of purchases of property and equipment. Property and equipment purchases during 2016 consisted primarily of computer equipment and software.

We used \$38.9 million of cash from financing activities during the six months ended June 30, 2017, primarily due to \$36.5 million for purchases of our common stock and the payment of dividends totaling \$6.8 million, at \$0.19 per share in each of the first two quarters of 2017, which was partially offset by \$4.9 million of proceeds from the exercise of stock options and our employee stock purchase plan. We used \$3.0 million of cash from financing activities during the six months ended June 30, 2016, primarily for the payment of dividends totaling \$6.4 million, at \$0.18 per share in each of the first two quarters of 2016, which was partially offset by \$4.1 million of proceeds from the exercise of stock options and our employee stock purchase plan.

As of June 30, 2017 our remaining stock repurchase authorization was approximately \$23.6 million. We plan to repurchase our common stock as market conditions warrant.

As of June 30, 2017, we had cash and cash equivalents of \$67.1 million and marketable investments of \$58.1 million. These balances include \$54.4 million held outside of the U.S. If these funds outside of the U.S. are needed for operations in the U.S., we would be required to accrue and pay U.S. taxes to repatriate these funds. However, our intent is to permanently reinvest these funds outside of the U.S. and our current plans do not demonstrate a need to repatriate these funds for our U.S. operations. We do not currently have a line of credit and do not presently anticipate the need to access a line of credit in the foreseeable future except in the case of a significant acquisition. We believe that our current cash balance, marketable investments, and cash flows from operations will satisfy working capital, financing activities, and capital expenditure requirements for the next twelve months.

Contractual Obligations

There have been no material changes to the contractual obligations table as disclosed in our Annual Report on Form 10-K for the year ended December 31, 2016.

Off-Balance Sheet Arrangements

We do not maintain any off-balance sheet financing arrangements.

Recent Accounting Pronouncements

See Note 1 and Note 10 of the Notes to Consolidated Financial Statements for a full description of recent accounting pronouncements including the expected dates of adoption and effects on results of operations and financial condition.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in our assessment of our sensitivity to market risk since our presentation set forth in Item 7A, “Quantitative and Qualitative Disclosures About Market Risk,” in our Annual Report on Form 10-K for the year ended December 31, 2016.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We maintain “disclosure controls and procedures,” as such term is defined under Securities Exchange Act Rule 13a-15(e), that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosures. In designing and evaluating the disclosure controls and procedures, our management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives and our management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Our management, with the participation of our principal executive officer and principal financial officer, has evaluated the effectiveness of our disclosure controls and procedures as of June 30, 2017. Based upon their evaluation and subject to the foregoing, the principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective to provide reasonable assurance as of that date.

Changes in Internal Control Over Financial Reporting

There was no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the quarter ended June 30, 2017 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this Form 10-Q, you should carefully consider the factors discussed in Part I, “Item 1A: Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2016, which could materially affect our business, financial condition or future results. The risk factors described in our Annual Report on Form 10-K remain applicable to our business. The risks described in our Annual Report on Form 10-K are not the only risks that we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Through June 30, 2017, our Board of Directors authorized an aggregate \$485.0 million to purchase common stock under our stock repurchase program. During the quarter ended June 30, 2017, we purchased the following shares of our common stock under the stock repurchase program:

Period	Total Number of Shares Purchased (1)	Average Price Paid per Share	Maximum Dollar Value that May Yet be Purchased Under the Stock Repurchase Program (In thousands)
April 1 - April 30	44,196	\$ 39.10	
May 1 - May 31	281,700	\$ 40.01	
June 1 - June 30	50,424	\$ 39.21	
	376,320		\$ 23,600

(1) All purchases of our common stock were made under the stock repurchase program first announced in 2001.

ITEM 6. EXHIBITS
