ITEM 5. OTHER EVENTS

On January 16, 2003, a news release was issued on the subject of fourth quarter consolidated earnings for General Motors Corporation (GM). The news release did not include certain financial statements, related footnotes and certain other financial information that will be filed with the Securities and Exchange Commission as part of GM's Annual Report on Form 10-K. The following is the fourth quarter earnings release for GM, and their subsidiary Hughes Electronics Corporation's (Hughes) earnings release dated January 15, 2003.

- For 2002, GM earned \$1.7 billion, or \$3.35 per share
Excluding Hughes and special items, \$3.9 billion, or \$6.98 per share
- In the fourth quarter, GM earned \$1.0 billion, or \$1.71 per share
Excluding Hughes, \$934 million, or \$1.67 per share
- Record revenue, market share gains in three automotive regions, strong cash generation, and improved cost performance were key highlights in 2002
- GMAC posts eighth straight year of earnings growth

Detroit - General Motors Corp. (NYSE: GM, GMH) today reported record revenues and significantly improved earnings in both the calendar year and fourth quarter of 2002.

CALENDAR YEAR 2002

GM earned \$1.7 billion on record revenue of \$186.8 billion, or \$3.35 diluted earnings per share of GM \$1-2/3 par value common stock, compared with \$601 million, or \$1.77 per share, in 2001.

Excluding special items (see "Highlights") and Hughes, 2002 earnings totaled \$3.9 billion, or \$6.98 per share, nearly double the results in 2001 when GM earned \$2.0 billion, or \$3.60 per share.

FOURTH QUARTER 2002

Earnings totaled \$1.0 billion on record quarterly revenue of \$48.7 billion, or \$1.71 per share. That compares with \$255 million, or \$0.60 per share, in the prior-year period. There were no special items other than those at Hughes in the fourth quarter of 2002.

Excluding Hughes and its special items, earnings in the fourth quarter of 2002 totaled \$934 million, or \$1.67 per share, more than double the \$386 million, or \$0.69 per share, earned in the prior-year period.

YEAR IN REVIEW

"Our strategy to leverage GM's size, and fundamentally improve its operating efficiency continues to pay off," said GM Chairman Jack Smith. "We're a far leaner, more flexible company, offering cars and trucks that are winners in the marketplace, which continues to drive our improved earnings."

"GM delivered strong results despite challenging global economic and market

Edgar Filing: GENERAL MOTORS CORP - Form 8-K

conditions," said GM President and Chief Executive Officer Rick Wagoner. "Strong launches of well-received products, aggressive marketing, improved quality and productivity, and continued cost reductions were the primary drivers of our improved performance. Our performance in 2002 gives us confidence in the strength of our fundamental operating systems, and is an excellent foundation on which we can build.

"General Motors Acceptance Corp. (GMAC) achieved its eighth consecutive year of earnings growth and fourth straight year of record earnings -- truly an outstanding performance, which was achieved despite considerable challenges in the capital markets," Wagoner said.

- 2 -

GM's automotive operations generated approximately \$8 billion in cash flow, as total cash generation was about \$12 billion in 2002, exceeding the target of \$10 billion. "We generated significantly more cash than expected," Wagoner said. "This was achieved despite the fact that the Hughes transaction, which had been a major element of our cash-generation plan, could not be completed. And, we still have a significant store of value in Hughes that we can capitalize on going forward."

The strong cash performance allowed GM to contribute a total of \$4.8 billion to its U.S. pension plans during the year, including a \$2.6 billion cash contribution in the fourth quarter. In addition, GM made a \$1 billion cash contribution to the long-term Voluntary Employees' Beneficiary Association (VEBA) Trust in June of 2002. Even with these contributions, net liquidity of \$2.3 billion at year-end 2002 was up \$1.3 billion from year-end 2001.

Cash, marketable securities, and assets of the VEBA trust invested in short-term fixed-income securities totaled \$17.3 billion at Dec. 31, 2002, excluding GMAC and Hughes, up almost \$6 billion from the end of 2001.

GM financial results described throughout the remainder of this release exclude special items unless otherwise noted (see "Highlights").

GM AUTOMOTIVE OPERATIONS

GM's global automotive operations earned \$563 million in the fourth quarter of 2002, compared with \$66 million in the prior-year period. The increase was fueled by income growth at GM North America (GMNA) and Asia Pacific, and moderating losses in Europe and Latin America. For 2002, GMNA earned \$3.0 billion, double its 2001 performance.

"For the second year in a row, we increased our market share in three of the four automotive regions, and we improved the quality of our share with stronger sales of higher-profit models," Wagoner said.

GM's U.S. market share increased to 28.3 percent for the year, up 0.2 percentage points from 2001. "We've grown market share in the United States for the second consecutive year, thanks to strong core products like our full-size pickups, and mid-size and large SUVs," Wagoner said. "GM set all-time industry records for truck and SUV sales in 2002, becoming the first manufacturer ever to top 1.2 million SUV sales in a calendar year. We're making these gains because we're offering cars and trucks that customers really want to buy, and we're targeting market share gains again in 2003 as we introduce 12 new vehicles in the United States alone this year."

The pricing environment continued to be challenging, with vehicle prices continuing to decline in North America. Net price retention was negative 3.2

Edgar Filing: GENERAL MOTORS CORP - Form 8-K

percent in the fourth quarter of 2002, and negative 2.1 percent for the year. Higher production volume and significant improvements in structural and material costs more than offset the continued pricing pressures, leading to more than a 50 percent improvement in GMNA's fourth-quarter net income compared with the same period in 2001. Year-end dealer inventories were well positioned at slightly more than a million units.

GM Europe (GME) reported a loss of \$129 million in the fourth quarter of 2002, an improvement from the \$240 million loss in the year-ago period. Significant progress in reducing material and structural costs and increased volume were partially offset by higher losses at Saab. For 2002, GME had a loss of \$549 million, compared with a loss of \$767 million in 2001.

"We've made very good progress on the cost side in Europe, and we continue to focus on revenue growth," Wagoner said. "We've mounted a major product offensive and expect the new Opel/Vauxhall and Saab models, along with expanded diesel engine availability, to drive increased sales. We're pleased with the progress we're making in turning around our Opel/Vauxhall operations, and we are intensifying our efforts to cut costs and improve sales at Saab."

- 3 -

GM Asia-Pacific (GMAP) reported a profit of \$66 million in the fourth quarter of 2002 compared with earnings of \$25 million a year ago, led by continued strong performance at GM's Australia-based Holden and Shanghai GM in China. The earnings also reflect better-than-expected results from GM's equity alliances. The fourth-quarter-2002 results included GM's share of start-up related losses at GM Daewoo Auto & Technology Co., which totaled approximately \$50 million. For 2002, GMAP earned \$188 million, compared with \$77 million in 2001.

"We are very pleased with our steady sales and earnings progress in Asia," Wagoner said. "Holden continues to perform very well, and Shanghai GM is aggressively and profitably expanding its capacity and model lineup in China."

GM Latin America/Africa/Mid-East (GMLAAM) reported a loss of \$7 million in the fourth quarter of 2002, a significant improvement versus its loss of \$111 million in the year-ago quarter. Results there were negatively affected by the general economic downturn in the region and turmoil in Venezuela and Argentina. For 2002, GMLAAM had a loss of \$181 million, compared with a loss of \$80 million in 2001.

"Responding to the challenging economic conditions, we continued to reduce our costs and grew market share by nearly one percentage point on the strength of new products, such as the new Corsa and the Chevrolet Meriva. We strengthened our lead as the number-one manufacturer in the region, and we're well positioned to generate solid earnings when the economy recovers," Wagoner said.

GMAC

GMAC earned \$524 million in the fourth quarter of 2002 -- an all-time fourth-quarter record. These results represent an increase of more than 20 percent from fourth-quarter earnings of \$435 million a year ago, with the improvement driven by strong results from automotive finance and mortgage operations. For 2002, GMAC earned an all-time record \$1.9 billion, compared with \$1.8 billion in 2001.

"GMAC continues to be a key contributor to GM's profitability," Wagoner said. "Eight consecutive years of annual income growth demonstrates we have a solid operating strategy and an effective approach to meet the challenges of the difficult capital-funding environment."

Edgar Filing: GENERAL MOTORS CORP - Form 8-K

HUGHES

Hughes had a loss of \$84 million in the fourth quarter of 2002, compared with a loss of \$131 million in the prior-year period. The results primarily reflect continued improvement in the operating performance of DIRECTV U.S. Revenue, led by the growing subscriber base of DIRECTV, totaled \$2.5 billion in the fourth quarter of 2002, up from \$2.3 billion in the same quarter last year. Total DIRECTV subscriptions in the United States increased approximately 256,000 from the third quarter of 2002 to 11.2 million. For 2002, Hughes had a loss of \$467 million, compared with a loss of \$525 million in 2001.

Including special items disclosed by Hughes yesterday, earnings totaled \$86 million in the fourth quarter of 2002. The net effect of the fourth-quarter special items totaled a favorable \$170 million after taxes (see "Highlights").

PROFIT SHARING

General Motors also announced that approximately 130,000 hourly employees in the United States will qualify for profit-sharing payments in 2003. A typical U.S. hourly employee, eligible under the profit-sharing program, will qualify for a payment of approximately \$940.

- 4 -

LOOKING AHEAD

GM expects moderate economic growth in 2003 in the United States, resulting in total U.S. industry vehicle sales of approximately 16.5 million units. In Europe, total industry vehicle sales are expected to be about 19 million units. GM's 2003 first-quarter production forecast for North America is now estimated at 1.43 million units, up nearly 6 percent from the first quarter of 2002. GM estimates that earnings in the first quarter of 2003 will be approximately \$1.50 per share, and the calendar-year earnings target is approximately \$5.00 per share, excluding Hughes and any special items. In the fourth quarter of 2002, GM's effective income-tax rate, excluding financing and insurance operations, was 26 percent, the level expected for GM in each of the next several years.

General Motors, the world's largest vehicle manufacturer, designs, builds and markets cars and trucks worldwide, and has been the global automotive sales leader since 1931. More information on GM can be found at www.gm.com.

#

In this press release and related comments by General Motors management, our use of the words "expect," "anticipate," "estimate," "forecast," "objective," "plan," "goal" and similar expressions is intended to identify forward looking statements. While these statements represent our current judgment on what the future may hold, and we believe these judgments are reasonable, actual results may differ materially due to numerous important factors that are described in GM's most recent report on SEC Form 10-K (at page II-15, 16) which may be revised or supplemented in subsequent reports on SEC Forms 10-Q and 8-K. Such factors include, among others, the following: changes in economic conditions, currency exchange rates or political stability; shortages of fuel, labor strikes or work stoppages; market acceptance of the corporation's new products; significant changes in the competitive environment; changes in laws, regulations and tax rates; and, the ability of the corporation to achieve reductions in cost and employment levels to realize production efficiencies and implement capital

See page 6 for footnotes (A) - (E)

- (A) The Write-down of Fiat Auto Investment relates to GM's investment in Fiat Auto Holdings, B.V. ("Fiat Auto") and reflects completion of an impairment study relating to the carrying value of that investment, which was reduced from \$2.4 billion to \$220 million.
- (B) The GMNA Production Footprint charge primarily relates to costs associated with the transfer of commercial truck production from Janesville, Wisconsin, to Flint, Michigan.
- (C) The Hughes Sale of Equity Interests relates primarily to the investment in the multimedia company Thomson.
- (D) The GME End of Life Vehicle Charge relates to the European Union's directive requiring member states to enact legislation regarding end-of-life vehicles to be the responsibility of manufacturers for dismantling and recycling vehicles they have sold.
- (E) The GME Restructuring Charge relates to the initiative implemented in the first quarter of 2002 to improve the competitiveness of GM's automotive operations in Europe.
- (F) The Hughes Space Shuttle Settlement relates to the favorable resolution of a lawsuit that was filed against the U.S. government on March 22, 1991, based upon the National Aeronautics and Space Administration's (NASA) breach of contract to launch ten satellites on the Space Shuttle.
- (G) The Hughes GECC Contractual Dispute relates to an expected loss associated with a contractual dispute with General Electric Capital Corporation.
- (H) The Hughes Loan Guarantee Charge relates to a loan guarantee for a Hughes Network Systems' affiliate in India.

Footnotes:

(1) Adjusted amounts for all periods represent the reported amounts

Edgar Filing: GENERAL MOTORS CORP - Form 8-K

- excluding the effects of special items as detailed on pages 8 and 9.
- (2) Represents total cash for Automotive, Communications Services, and Other Operations, excluding Hughes, which includes cash and marketable securities, as well as \$3.0 billion invested in short-term fixed income securities of the Corporation's Voluntary Employees' Beneficiary Association Trust.
 - (3) The Q4 2001 and Year-to-Date 2001 amounts exclude the effects of purchase accounting adjustments related to General Motors' acquisition of Hughes in 1985. This purchase accounting adjustment is not recorded in 2002 because the related goodwill is no longer being amortized effective January 1, 2002 in accordance with SFAS No. 142, Goodwill and Other Intangible Assets.
 - (4) Excludes Hughes Series A Preferred Stock dividends paid to General Motors.
 - (5) Latin America excludes the Middle East and Africa.

HUGHES FOURTH QUARTER 2002 RESULTS DRIVEN BY CONTINUED STRONG DIRECTV U.S. FINANCIAL PERFORMANCE

DIRECTV U.S. Revenues Increase Over 19% to \$1.8 Billion;
DIRECTV U.S. EBITDA1 More Than Triples to \$191 Million

El Segundo, Calif., January 15, 2003 -- Hughes Electronics Corporation, a world-leading provider of digital television entertainment, satellite-based private business networks, and global video and data broadcasting, today reported fourth quarter 2002 revenues increased 8.3% to \$2,471.7 million, compared with \$2,281.6 million in the fourth quarter of 2001. EBITDA(1) for the

Edgar Filing: GENERAL MOTORS CORP - Form 8-K

quarter increased to \$171.6 million compared with \$118.2 million in the fourth quarter of last year. EBITDA margin(1) was 6.9% in the quarter compared with an EBITDA margin of 5.2% last year. Included in the 2002 fourth quarter results was a one-time charge of \$111.4 million related to the previously announced shutdown of the DIRECTV Broadband business. Excluding this charge, EBITDA was \$283.0 million and EBITDA margin was 11.4%. The operating loss for the fourth quarter of 2002 was \$105.4 million compared with an operating loss of \$178.6 million in the fourth quarter of 2001.

"The continued improvement in the operating performance of DIRECTV U.S. drove the strong revenue and EBITDA performance of HUGHES in the quarter," said Jack A. Shaw, HUGHES' president and chief executive officer. "The actions we've taken over the last 18 months to lower churn, reduce subscriber acquisition costs and increase monthly revenue per subscriber have resulted in a higher quality subscriber base and have increased the financial returns on our subscriber investment. As a result, DIRECTV U.S. fourth quarter revenues increased by over 19% to about \$1.8 billion and EBITDA more than tripled to \$191 million as compared to the same period in 2001."

Shaw continued, "We also moved quickly to address the issues facing our DIRECTV Broadband and DIRECTV Latin America businesses as soon as the proposed merger with EchoStar was terminated. As a result of our recent announcements to shutdown DIRECTV Broadband and restructure DIRECTV Latin America, we expect to reduce our cash requirements by several hundred million dollars over the next few years."

In the fourth quarter of 2002, HUGHES reported an operating loss of \$105.4 million compared with an operating loss of \$178.6 million in 2001. This lower operating loss was due primarily to the higher EBITDA and the elimination of approximately \$45 million of amortization expense for goodwill and intangible assets in 2002 that resulted from the adoption of Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets" ("SFAS No. 142") on January 1, 2002. These changes were partially offset by higher depreciation expense, mostly at DIRECTV U.S. due to the launch of two new satellites and additional infrastructure expenditures made during the last year.

- 22 -

HUGHES had fourth quarter 2002 net income of \$115.3 million compared to a net loss of \$132.6 million in the same period of 2001. The primary reasons for the improved net income were the lower operating loss and a pre-tax gain of \$600 million related to the settlement with EchoStar Communications Corporation ("EchoStar") in connection with the termination of the proposed merger agreement with HUGHES. These improvements were partially offset by pre-tax charges related to the write-down to market value of equity investments in XM Satellite Radio and Crown Media Holdings of \$103 million and \$44 million, respectively, and a \$52 million pre-tax loss related to the exchange of HUGHES' ownership in HUGHES Tele.com (India) Limited for an equity interest in and long term receivables from Tata Teleservices Limited.

In January of 2002, HUGHES adopted SFAS No. 142, "Goodwill and Other Intangible Assets." In the fourth quarter, step two of the transitional impairment test was completed for DIRECTV Latin America, DIRECTV Broadband and a Hughes Network Systems ("HNS") equity investment. As a result of this analysis, HUGHES wrote-down \$557 million of goodwill related to DIRECTV Latin America, \$108 million of goodwill related to DIRECTV Broadband and \$16 million of goodwill associated with the HNS equity investment. In accordance with SFAS No. 142, these charges are reflected in the first quarter of 2002 results and are recorded in "Cumulative effect of accounting changes, net of taxes."

FULL-YEAR FINANCIAL REVIEW

Edgar Filing: GENERAL MOTORS CORP - Form 8-K

For the full-year 2002, revenues increased 8.1% to \$8,934.9 million compared to \$8,264.0 million in 2001. This increase was primarily due to continued subscriber growth at DIRECTV U.S. partially offset by lower sales in the Carrier businesses of HNS, the devaluation of several foreign currencies in the DIRECTV Latin America businesses and the absence of new sales-type lease contracts at PanAmSat.

EBITDA in 2002 was \$672.4 million and EBITDA margin was 7.5%, compared to EBITDA of \$389.9 million and EBITDA margin of 4.7% in 2001. The 72.5% increase in EBITDA and the increase in EBITDA margin were primarily attributable to additional profit gained from the DIRECTV U.S. revenue growth and lower subscriber acquisition costs, a \$95 million one-time gain from the favorable resolution of litigation with the National Aeronautics and Space Administration ("NASA"), and an \$88 million charge primarily related to severance recorded in 2001. These improvements were partially offset by the devaluation of several foreign currencies and the costs associated with the 2002 World Cup in the DIRECTV Latin America businesses, the \$111 million charge for the shutdown of the DIRECTV Broadband business and a charge of \$48 million related to losses associated with the final settlement of a contractual dispute with General Electric Capital Corporation ("GECC").

HUGHES' operating loss for 2002 was \$394.7 million compared with an operating loss of \$757.8 million in 2001. The improved operating loss was primarily due to the higher EBITDA and the elimination of approximately \$249 million of amortization expense for goodwill and intangible assets in 2002 that resulted from the adoption of SFAS No. 142. These changes were partially offset by higher depreciation expense, particularly at DIRECTV U.S. due to the recent launch of two new satellites and additional infrastructure expenditures made during the last year.

In 2002, net losses totaled \$891.1 million compared to net losses of \$621.6 million in 2001. The higher net loss was primarily due to the goodwill charges, increased net interest expense including a charge of \$74 million related to the GECC settlement in 2002, the write-downs of equity investments to market value and the discontinuation of the minority interest adjustment related to DIRECTV Latin America. Partially offsetting these results were the gain recorded on the EchoStar settlement, the lower operating loss, the write-down of HUGHES' Sky Perfect Communications, Inc. ("Sky Perfect") investment in 2001, and the larger pre-tax gain on the sale of HUGHES' Thomson Multimedia common stock in 2002 compared to 2001.

- 23 -

SEGMENT FINANCIAL REVIEW: FOURTH QUARTER 2002

Direct-To-Home Broadcast

Fourth quarter 2002 revenues for the segment increased 15.1% to \$1,973.7 million from \$1,715.2 million in the fourth quarter of 2001. The segment had EBITDA of \$44.8 million compared with negative EBITDA of \$5.3 million in the fourth quarter of 2001. Operating loss was \$142.3 million in the fourth quarter of 2002 compared with an operating loss of \$176.1 million in the same period last year.

United States: Excluding subscribers in the National Rural Telecommunications Cooperative ("NRTC") territories, DIRECTV's owned and operated gross subscriber additions in the quarter were 711,000 and after accounting for churn, DIRECTV added 292,000 net subscribers. DIRECTV owned and operated subscribers totaled 9.49 million as of December 31, 2002, 12% more than the 8.44 million cumulative subscribers attained as of December 31, 2001. For

Edgar Filing: GENERAL MOTORS CORP - Form 8-K

the fourth quarter of 2002, the total number of subscribers in NRTC territories fell by 36,000, reducing the total number of NRTC subscribers as of December 31, 2002, to 1.69 million. As a result, the DIRECTV platform ended the year with 11.18 million total subscribers.

DIRECTV reported quarterly revenues of \$1,814 million, an increase of over 19% from last year's fourth quarter revenues of \$1,519 million. The increase was due to continued subscriber growth and higher monthly revenue per subscriber.

EBITDA for the fourth quarter of 2002 was \$191 million compared with EBITDA in the same period of 2001 of \$63 million. The increased EBITDA was primarily due to the additional profit gained from DIRECTV's increased revenue and lower marketing costs related to lower gross subscriber additions. Operating profit in the current quarter increased to \$68 million compared with an operating loss of \$46 million in 2001 principally due to the improved EBITDA and reduced amortization expense in accordance with SFAS No. 142. These were partially offset by higher depreciation expense, mostly related to the launch of the DIRECTV 4S satellite in December 2001 and DIRECTV 5 in May 2002, as well as additional infrastructure expenditures made during the last year.

Please refer to the "Selected DIRECTV U.S. Performance Highlights" attachment for additional information on DIRECTV's subscribers and other important financial metrics.

DIRECTV DSL: On December 13, 2002, HUGHES announced that it was shutting down the DIRECTV DSLTM service. DIRECTV Broadband will be transitioning subscribers to alternative service providers during the first quarter of 2003.

In the fourth quarter of 2002, the DIRECTV DSL service added approximately 600 net customers. As of December 31, 2002, DIRECTV DSL had about 151,600 residential broadband customers in the United States compared with about 91,000 customers as of December 31, 2001.

- 24 -

The DIRECTV DSL service had fourth quarter 2002 revenues of \$21 million compared with \$11 million reported in the fourth quarter of 2001. The increase was driven by the larger subscriber base and an increase in monthly revenue per subscriber.

Including a \$111 million charge recorded for the expected costs associated with the planned shutdown of the service, DIRECTV DSL had negative EBITDA of \$134 million in the quarter compared with negative EBITDA of \$32 million in the same period last year. The charge will cover the expected costs to close the business including contract termination payments, write-off of customer premise equipment and severance payments. DIRECTV DSL's operating loss in the fourth quarter of 2002 increased to \$147 million compared with an operating loss of \$41 million in 2001 primarily due to the shutdown charge.

Latin America: On January 8, 2003, DIRECTV Latin America announced that it had initiated discussions with certain programmers, suppliers, lenders and business associates to resolve issues that have affected its financial performance, including excessive fixed costs and a substantial debt burden. DIRECTV Latin America's goal is to implement a plan that is consistent with its overall objectives of enhanced competitiveness and profitable growth.

The DIRECTV service in Latin America lost 22,000 net subscribers in the fourth quarter of 2002. As a result, the total number of subscribers in Latin America as of the end of the quarter was approximately 1,582,000 compared with about 1,610,000 as of December 31, 2001.

Edgar Filing: GENERAL MOTORS CORP - Form 8-K

Revenues for DIRECTV Latin America were \$141 million for the quarter compared with \$186 million in the fourth quarter of 2001. This decline was primarily due to the devaluation of several foreign currencies, the most significant of which was in Argentina, as well as the lower number of subscribers.

DIRECTV Latin America had negative EBITDA of \$13 million in the quarter compared with negative EBITDA of \$36 million in the fourth quarter of 2001. The improvement in EBITDA was primarily due to a \$29 million charge in 2001 related to the Argentinean devaluation as well as reduced operating costs in 2002 due to aggressive cost cutting. These improvements were partially offset by the decline in revenues. DIRECTV Latin America's operating loss decreased to \$64 million in the quarter from an operating loss of \$89 million last year primarily due to the improved EBITDA and reduced amortization expense in accordance with SFAS No. 142, partially offset by higher depreciation expense associated with additional infrastructure expenditures.

Satellite Services

PanAmSat Corporation ("PanAmSat"), which is 81%-owned by HUGHES, generated fourth quarter 2002 revenues of \$196.8 million compared with \$203.7 million in the same period of the prior year. The decrease in revenues was primarily due to reduced occasional video services revenues as compared to fourth quarter 2001, which reflected increased activity due to the events of September 11, 2001.

EBITDA for the quarter was \$144.4 million and EBITDA margin was 73.4%. EBITDA in the fourth quarter of 2001 was \$139.3 million and EBITDA margin was 68.4%. The increase in EBITDA and EBITDA margin was primarily due to the company's continued focus on reducing its operating costs. Operating profit for the quarter was \$71.4 million compared with operating profit of \$29.3 million in the fourth quarter of 2001. The increase was primarily due to the improved EBITDA as well as lower amortization expense in accordance with SFAS No. 142 and lower satellite depreciation expense.

As of December 31, 2002, PanAmSat had contracts for satellite services representing future payments (backlog) of approximately \$5.55 billion compared to approximately \$5.50 billion at the end of the third quarter of 2002.

- 25 -

Network Systems

HNS generated fourth quarter 2002 revenues of \$372.5 million compared with \$435.7 million in the fourth quarter of 2001. The decline was principally due to lower sales in the Carrier businesses primarily related to the substantial completion of the XM Satellite Radio and Thuraya Satellite Telecommunications Company contracts.

HNS shipped 939,000 DIRECTV(R) receiver systems in the fourth quarter of 2002 compared to 814,000 units in the same period last year. Additionally, HNS added approximately 20,000 net DIRECWAY residential and small office/home office (SOHO) broadband customers in the quarter. As of December 31, 2002, DIRECWAY had approximately 158,000 residential and SOHO subscribers in North America compared to 101,000 as of December 31, 2001, a 56% increase.

HNS reported EBITDA of \$1.1 million in the quarter compared to negative EBITDA of \$14.1 million in the fourth quarter of 2001. Improved margins in the Satellite Broadband and Set-Top Box businesses were partially offset by the lower EBITDA associated with the decline in sales in the Carrier businesses. Operating loss was \$18.0 million compared with the prior year's operating loss

Edgar Filing: GENERAL MOTORS CORP - Form 8-K

of \$27.6 million. The decrease in operating loss was attributable to the improved EBITDA partially offset by increased depreciation and amortization expense associated with additional infrastructure expenditures.

BALANCE SHEET

From December 31, 2001 to December 31, 2002, HUGHES' consolidated cash balance increased \$428.5 million to \$1,128.6 million and total debt increased \$470.5 million to \$3,117.8 million. The major uses of cash were \$1,298.1 million for satellite and capital expenditures, the payment of \$180 million to GECC and the final purchase price adjustment payment of \$134 million to the Raytheon Company. Also included in 2002 were cash receipts of \$600 million for the settlement on the terminated merger with EchoStar, \$215 million from an insurance claim on the PAS-7 satellite, \$211 million for the sale of Thomson Multimedia common stock, \$105 million for the sale of Sky Perfect common stock and \$95 million from the resolution of the breach of contract lawsuit with NASA.

Additionally, on December 4, 2002, HUGHES announced that it had refinanced and extended \$1.9 billion of senior credit facilities. The amended facilities mature on August 31, 2003, and include a \$1.28 billion revolving credit facility and a \$650 million term loan.

Hughes Electronics Corporation is a unit of General Motors Corporation. The earnings of Hughes Electronics are used to calculate the earnings attributable to the General Motors Class H common stock (NYSE:GMH).

A live webcast of HUGHES' fourth quarter 2002 earnings call will be available on the company's website at www.hughes.com. The call will begin at 2:00 p.m. ET, today. The dial in number for the call is (913) 981-5517. The webcast will be archived on the Investor Relations portion of the HUGHES website and a replay will be available (dial in number: 719-457-0820, code: 797276) beginning today at 7:00 p.m. ET.

(1) EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization) is defined as operating profit (loss) plus depreciation and amortization. EBITDA margin is calculated by dividing EBITDA by total revenues. EBITDA is not presented as an alternative measure of operating results or cash flow from operations, as determined in accordance with accounting principles generally accepted in the United States of America. HUGHES management uses EBITDA to evaluate the operating performance of HUGHES and its business segments, to allocate resources and capital to its business segments, and as a measure of performance for incentive compensation purposes. HUGHES believes EBITDA is a measure of performance used by some investors, equity analysts and others to make informed investment decisions. EBITDA is used as an analytical indicator of income generated to service debt and fund capital expenditures. In addition, multiples of current or projected EBITDA are used to estimate current or prospective enterprise value. HUGHES management believes that EBITDA is a common measure used to compare HUGHES' operating performance and enterprise value to other communications, entertainment and media service providers. EBITDA does not reflect funds available for investment in the business of HUGHES, dividends or other discretionary uses. EBITDA and EBITDA margin as presented herein may not be comparable to similarly titled measures reported by other companies.

Edgar Filing: GENERAL MOTORS CORP - Form 8-K

=====
(1) EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization) is the sum of operating profit (loss) and depreciation and amortization. EBITDA margin is calculated by dividing EBITDA by total revenues. EBITDA is not presented as an alternative measure of operating results or cash flow from operations, as determined in accordance with accounting principles generally accepted in the United States of America. EBITDA does not reflect the funds available for investment in the business of HUGHES, dividends or other discretionary uses. EBITDA as presented herein may not be comparable to similarly titled measures reported by other companies.
