Report of Independent Registered Public Accounting Firm

To the Compensation and Administrative Committee
Key Tronic 401(k) Retirement Savings Plan
Spokane Valley, Washington

We have audited the accompanying statements of net assets available for benefits of the Key Tronic 401(k) Retirement Savings Plan (the "Plan") as of June 30, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of June 30, 2012 and 2011, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplemental schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of June 30, 2012 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Key Tronic
401(k) Retirement Savings Plan

Notes to Financial Statements

Note 1. Plan Description

The following summary description of the Key Tronic 401(k) Retirement Savings Plan (the Plan) provides general information only. Participants should refer to the Plan document for more complete information.

General: The Plan is a defined contribution plan established by Key Tronic Corporation (the Company or the Employer) effective July 1, 1993, as a merger of the Key Tronic Corporation Employee Stock Ownership Plan (ESOP) into the Key Tronic Corporation Variable Investment Plan, which was amended and restated effective July 1, 2009. The Plan, which is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and all subsequent statutory revisions thereto, was created for the benefit of all eligible employees of the Company and subsidiaries. Effective July 1, 2003, the Plan became a Safe Harbor 401(k) Plan. A Safe Harbor 401(k) Plan complies with Code Section 401(k)(12) which permits the Plan to automatically meet the nondiscrimination requirements of the Code, therefore eliminating annual nondiscrimination testing of salary deferral and matching contributions.

Eligibility: Employees that are U.S. residents are eligible to participate after completing one hour of service. Participation in the Plan will then begin on the first day of the month following the date of hire. Leased employees, internship employees and certain employees covered by a collective bargaining agreement are ineligible for Plan participation.

Contributions: Eligible participants may make voluntary pre-tax and after-tax contributions of their base compensation of up to 75% of compensation each pay period, subject to certain statutory limits. Participant contributions made with tax-deferred dollars under Section 401(k) of the Internal Revenue Code (IRC) are excluded from the participant's current wages for federal income tax purposes. No federal income tax is paid on the tax-deferred contributions and growth thereon until the participant makes a withdrawal from the Plan.

Effective July 1, 2010, participants may also choose to make contributions on an after-tax basis through a Roth 401(k) option. Contributions and earnings for the Roth 401(k) option are not subject to taxation at the time of distribution, as long as the distribution is a "qualified distribution" made no earlier than five years after the first Roth 401(k) contribution to the Plan. A qualified distribution is a distribution after separation of service and due to death, disability or after age 59½. The participant's contribution rate may be adjusted at the discretion of the Plan administrator if a reduced rate is necessary to maintain Section 401(k) benefits.

Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans provided that certain conditions are met.

The Company's matching contribution is equal to 100% up to 3% of a participant's contributed compensation and 50% of the next 2% of a participant's contributed compensation, for a total of 4% if a participant contributes at least 5%. The Company made matching contributions of \$489,958 and \$459,381 for the years ended June 30, 2012 and 2011, respectively.

Participant Accounts: Individual accounts are maintained for each participant. Participants may designate that their contributions and account balances be invested in any combination of several available investment alternatives. Each

participant's account is credited with the participant's contribution, the Employer's matching contribution, and Plan earnings of their individual account. Plan earnings are directly credited to participant accounts.

Participant Loans Receivable: Participants may borrow from a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Participants may have only one loan outstanding at a time. Loan terms range from one to five years or up to ten years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates at the loan origination date (which approximate prime plus 1%), as determined by the Plan administrator. Interest rates on loans outstanding at June 30, 2012, range from 4.25% to 9.25%. Principal and interest are paid ratably through payroll deductions. Additional payments may be made at any time by check. At June 30, 2012, loans outstanding mature at various dates through 2022.

Vesting: All participants are immediately 100% vested in both employee and Employer Safe Harbor contributions.

Distribution of Benefits: Participants are eligible to receive benefits upon termination of employment, attaining the age of 59½, or as hardship withdrawals subject to certain requirements. The account balance of a participant who dies, while a participant of the Plan, will be paid to the participant's designated beneficiary. Benefits are paid under various options as defined in the Plan document. Following a hardship withdrawal, a participant's elective deferrals are suspended for a period of at least six months.

Administrative Expenses: Though not required to or guaranteed in the future, the majority of fees and expenses incurred for administration of the Plan are paid by the Company. Participants are charged a fee for certain services such as loan processing and redemption fees on the sale of certain funds prior to a holding period being met.

Administration of the Plan: The Plan is administered by the Compensation and Administrative Committee of the Employer's Board of Directors and an administrative committee consisting of management personnel. JPMorgan Chase Bank (JPMorgan) holds Plan assets in accordance with directions from the Compensation and Administrative Committee. Records of participant account activity are processed and maintained by JPMorgan Retirement Plan Services, an affiliate of JPMorgan, which also performs other administrative support services for the Plan.

Note 2. Summary of Basis of Accounting

Accounting Policies: The financial statements of the Plan are prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition: The Plan's investments in mutual funds, money market funds, participant directed brokerage accounts and Key Tronic Corporation common stock, are stated at fair value, based on quoted market prices, which is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. Shares of registered investment companies (mutual funds) are valued at the net asset value of shares held by the Plan at year end.

Investment assets in common collective trusts (CCT) are stated at fair value as reported by the CCT. The fair value of the CCT is adjusted to contract value, in accordance with Financial Accounting Standards Board (FASB) Accounting Standard Codification (ASC) Topic 946, Financial Services-Investment Companies, and ASC Topic 962, Plan Accounting-Defined Contribution Pension Plans. Contract value represents contributions made plus interest accrued at the contract value, less withdrawals.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income.

Fully Benefit-Responsive Investment Contracts: The Plan follows ASC 946 and ASC 962, which define the circumstances in which an investment contract is considered to be a fully benefit-responsive investment contract in a defined-contribution pension plan.

As required under ASC 946, investments in the accompanying statements of net assets available for benefits include fully benefit-responsive investment contracts recognized at fair value. ASC 962 requires fully benefit-responsive investment contracts to be reported at fair value in the Plan's statements of net assets available for benefits, with a corresponding adjustment to reflect these investments at contract value. The adjustment from fair value to contract value was immaterial to the statement of net assets available for benefits as of June 30, 2011.

At June 30, 2012, the Plan had no unfunded commitments related to common collective fund. The redemption of common collective funds units are subject to the preference of individual Plan participants and contains no restrictions on the timing of redemption. However, participant redemptions may be subject to certain redemption fees.

Participant Loans Receivable: Participant loans receivable are valued at their unpaid principal balance plus accrued interest.

Payment of Benefits: Benefits are recorded when paid.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could materially differ from those estimates.

Risks and Uncertainties: The Plan provides for various investment options in any combination of money market funds, mutual funds, Company common stock and participant directed brokerage accounts. Investment securities of these types are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

The fair value of the Plan's investment in Key Tronic Corporation common stock amounted to \$1,697,089 and \$1,413,683 as of June 30, 2012 and 2011, respectively. Such investments represented 8% and 7% of the Plan's total net assets available for benefits as of June 30, 2012 and 2011, respectively. For risks and uncertainties regarding Key Tronic Corporation, participants should refer to the September 29, 2012, Form 10-Q of Key Tronic Corporation filed with the Securities and Exchange Commission.

The Plan's investment options include funds that invest in securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than securities of comparable U.S. companies.

Reclassification: Certain reclassifications of prior year's information in the financial statements have been made to conform to the current year's presentation. These reclassifications had no effect on net assets available for benefits as previously reported.

New Accounting Pronouncements: In May 2011, the FASB issued Accounting Standards Update 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs

(ASU 2011-04). ASU 2011-04 amends ASC Topic 820, Fair Value Measurements (ASC 820) by: (1) clarifying that the highest-and-best-use and valuation-premise concepts only apply to measuring the fair value of non-financial assets; (2) allowing a reporting entity to measure the fair value of the net asset or net liability position in a manner consistent with how market participants would price the net risk position, if certain criteria are met; (3) providing a framework for considering whether a premium or discount can be applied in a fair value measurement; (4) providing

that the fair value of an instrument classified in a reporting entity's shareholders' equity is estimated from the perspective of a market participant that holds the identical item as an asset; and (5) expanding the qualitative and quantitative fair value disclosure requirements. The expanded disclosures include, for Level 3 items, a description of the valuation process and a narrative description of the sensitivity of the fair value to changes in unobservable inputs and interrelationships between those inputs if a change in those inputs would result in a significantly different fair value measurement. ASU 2011-04 also requires disclosures about the highest-and-best-use of a non-financial asset when this use differs from the asset's current use and the reasons for such a difference. In addition, this ASU amends ASC Topic 820, Fair Value Measurements, to require disclosures to include any transfers between Level 1 and Level 2 of the fair value hierarchy. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Note 3. Investments

The fair value of the following individual investments represents 5 percent or more of the Plan's net assets:

Investments Valued at Fair Value as Determined by Quoted Market Prices	June 30, 2012	June 30, 2011
JPMorgan JPMCB Stable Asset Income Fund	\$3,160,725	*
American Century Value Fund	2,887,023	1,254,337

Harbor International	*	1,343,653
American Century Income & Growth Fund	—	1,683,899
American Century Prime Money Market Fund	—	1,621,517

*Less than 5%

Note 4. Fair Value Measurements

ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer the liability (an exit price) in an orderly transaction between market participants. It also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The fair value hierarchy within ASC 820 distinguishes between three levels of inputs that may be utilized when measuring fair value, consisting of level 1 inputs (using quoted prices in active markets for identical assets or liabilities), level 2 inputs (using inputs other than level 1 prices, such as quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability) and level 3 inputs (unobservable inputs supported by little or no market activity based on the Plan's own assumptions used to measure assets and liabilities). A financial asset's or liability's classification within this hierarchy is determined based on the lowest level input that is significant to the fair value measurement.

The methods described above and in Note 2 may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to

Edgar Filing: KEY TRONIC CORP - Form 11-K

determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The Plan has not made any changes in its valuation techniques used at June 30, 2012 and 2011.

The following table summarizes the Plan's assets measured at fair value on a recurring basis as of June 30, 2012:

	June 30, 2012			Total Fair Value
	Level 1	Level 2	Level 3	
Investments:				
Mutual funds				
Blended funds	\$3,057,333	\$—	\$—	\$3,057,333

Note 5. Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of June 30, 2012:

Net assets available for benefits per the financial statements	\$21,586,277
Plus: adjustment from fair value to contract value for interest in common/collective trust fund	34,760
Net assets available for benefits per the Form 5500	\$21,621,037

The following is a reconciliation of the increase in net assets available for benefits per the financial statements to the Form 5500 for the year ended June 30, 2012:

Increase in net assets available for benefits per the financial statements	\$551,674
Plus: adjustment from fair value to contract value for interest in common/collective trust fund	34,760
Net income per the Form 5500	\$586,434

Note 6. Party-in-Interest

Certain Plan investments are managed by JPMorgan. JPMorgan holds and invests the Plan's assets and therefore, these transactions qualify as party-in-interest transactions. In addition, the investments in the Company's common stock and participant loans receivable are also considered party-in-interest transactions. Additional disclosures on party-in-interest transactions are located on Supplemental Schedule H Part IV, Line 4i, Schedule of Assets (Held at End of Year).

Note 7. Termination of the Plan

Although it has not expressed any intent to do so, the Employer has the right to discontinue contributions and terminate the Plan by action of the Board of Directors, subject to the provisions of ERISA. Upon termination, all assets remaining in the Plan will be distributed to the participants in accordance with participant account values as of the date of termination.

Note 8. Tax Status

The Internal Revenue Service has determined and informed the Employer by a letter dated January 14, 2003, that the Plan was designed in accordance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. A request for an updated IRS determination letter was submitted in January 2011. The Plan has not yet received an updated determination letter. The Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2012 and 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to the Plan year ended June 30, 2008.

Note 9. Subsequent Events

The Plan has evaluated subsequent events through the date these financial statements were available to be issued on December 13, 2012, and determined that there are no subsequent events that require recognition or disclosure in these financial statements.
