PART I

ITEM 1. DESCRIPTION OF BUSINESS

(a) GENERAL DEVELOPMENT OF BUSINESS

The Company, through its subsidiaries, designs, manufactures and markets power electronics, power motion, power protection equipment, teleprotection and specialized communication equipment that is used in a variety of medical, aerospace, computer, datacom, industrial, telecom, transportation and electric power utility equipment applications. Its products are generally incorporated into larger systems to increase operating safety, reliability and efficiency. The Company's products are largely sold to Original Equipment Manufacturers ("OEMs"), the electric power utility industry, and to a lesser extent, to commercial distributors. On March 29, 1956, the Company was incorporated as G-L Electronics Company in the state of New Jersey. Its name was changed to G-L Industries, Inc. in November 1963; SGL Industries, Inc. in November 1970; and then to the present name of SL Industries, Inc. in September 1984.

On May 11, 1999, the Company acquired 100% of the issued and outstanding shares of capital stock of RFL Electronics Inc. ("RFL"). The Company paid \$11,387,000 in cash and issued \$75,000 in promissory notes at closing. In addition, the Company paid a contingent payment of \$1,000,000 in fiscal 1999 based upon the financial performance of RFL for its fiscal year ended March 31, 1999. RFL is a leading supplier of teleprotection and specialized communication equipment primarily sold to the electric power utility industry.

On July 27, 1999, Condor D.C. Power Supplies, Inc. ("Condor"), a wholly-owned subsidiary of the Company, acquired certain net operating assets of Todd Products Corporation and Todd Power Corporation (together "Todd Products"). The Company paid \$7,430,000, comprised of cash of \$3,700,000 and assumption of approximately \$3,730,000 of debt. Condor also entered into a ten-year Consulting Agreement with the chief executive officer of Todd Products for an aggregate fee of \$1,275,000, which was paid in quarterly installments over three years. This agreement was terminated by the Company during 2002. Todd Products was a leading supplier of high quality power supplies to the datacom, telecommunications and computer industries.

On September 6, 2001, the Company sold substantially all of the assets of SL Waber, Inc. ("SL Waber") and all the stock of SL Waber's subsidiary, Waber de Mexico S.A. de C.V. The Company received cash of \$1,053,000 at closing. In addition, the purchaser agreed to assume certain liabilities and ongoing obligations of SL Waber. As a result of the transaction, the Company recorded a pre-tax loss from the sale of discontinued operations of approximately \$2,745,000. The results of operations of SL Waber are presented as discontinued operations for all periods presented in the financial statements set forth herein.

In December 2001, the Company surrendered for cash substantially all of its life insurance policies with a total surrender value of \$11,109,000. Additional policies with a cash surrender value of \$447,000 were surrendered in February 2002. These policies insured the lives of former and present executives and key employees and had been maintained as an internal mechanism to fund the Company's obligations under its capital accumulation plan and deferred compensation plan. Aggregate liabilities under those plans, which are owed to former and current executives and key employees, amount to \$4,230,000 as of December 31, 2003. Proceeds from the life insurance policies were received in

Edgar Filing: SL INDUSTRIES INC - Form 10-K

Page 2

December 2001, January 2002 and March 2002 and were used to pay down bank debt. Beneficiaries under the capital accumulation plan and deferred compensation plan remain general unsecured creditors of the Company.

In December 2001, the Company sold back to the purchaser of a former subsidiary a mortgage note in the outstanding principal amount of \$2,200,000. The mortgage note secured the real property of the former subsidiary. In January 2002, the Company received cash proceeds of \$1,600,000 from the sale of the mortgage note, all of which were used to pay down bank debt.

On January 22, 2002, the Company held its annual meeting of shareholders for the 2001 calendar year. At that annual meeting, all eight members of the Board of Directors stood for election. In addition, five nominees from a committee comprised of representatives of two institutional shareholders (the "RORID Committee"), stood for election to the Board of Directors. Upon the certification of the election results on January 24, 2002, the five nominees of the RORID Committee were elected (James Henderson, Glen Kassan, Warren Lichtenstein, Mark Schwarz and Steven Wolosky), and three incumbent directors were reelected (J. Dwane Baumgardner, Charles T. Hopkins and J. Edward Odegaard). Shortly after the annual meeting, Messrs. Hopkins and Odegaard resigned from the Board of Directors. Upon the election of the five RORID Committee nominees, each of the executive officers of the Company, Owen Farren, David Nuzzo, and Jacob Cherian, was entitled to payment under his respective change-in-control agreement. As a result, in January 2002, the Company paid Messrs. Farren, Nuzzo, and Cherian, respectively, \$877,565, \$352,556, and \$250,000 under such agreements.

At the initial meeting of the new Board of Directors on January 24, 2002, Warren Lichtenstein was elected Chairman of the Board. On February 4, 2002, Warren Lichtenstein was elected Chief Executive Officer and Glen Kassan was elected President of the Company. Additionally, David Nuzzo was reelected Vice President-Finance and Administration, Treasurer and Secretary. Owen Farren was terminated as Chairman, Chief Executive Officer and President effective February 4, 2002. All senior management teams are continuing in their positions, other than Jacob Cherian, who resigned, as Controller of the Company, effective April 26, 2002.

On March 8, 2002, Richard Smith was elected to the Board of Directors, filling one of the two vacant directorships. On June 6, 2002, Avrum Gray was elected to the Board of Directors to fill the last vacancy. In May 2003 Richard Smith resigned from the Board of Directors. On May 29, 2003 James Risher was elected to the Board of Directors to fill the vacancy created by the resignation of Mr. Smith.

On January 6, 2003, the Company sold all of the issued and outstanding shares of capital stock of its indirect subsidiary, Elektro-Metall Export GmbH ("EME"), for a purchase price of \$8,000,000 which consisted of cash and purchaser notes. In addition, a distribution of \$2,000,000 was paid prior to closing by EME to a subsidiary of the Company and the purchaser did not require that the Company pay down EME's bank debt of approximately \$3,600,000 prior to closing. The purchaser notes were a \$3,000,000 secured note that bore interest at the prime rate plus 2%, which was paid on March 14, 2003, and a \$1,000,000 unsecured note that bore interest at an annual rate of 12% and matures April 3, 2004. Cash proceeds of \$4,000,000 received at closing plus the \$2,000,000 distribution and the \$3,000,000 secured note paid March 14, 2003 were used to pay down bank debt. As a result of the transaction, the Company recorded a pre-tax loss from the sale of discontinued operations of approximately \$1,619,000 in 2002. The tax effects were not material to the transaction.

On January 6, 2003, the Company entered into a three-year senior secured credit facility with LaSalle Business Credit LLC. The credit facility provides for a maximum indebtedness of \$20,000,000, with a revolving tranche and a term debt tranche. Outstanding indebtedness under this facility bears interest ranging from the prime rate plus .5% to the prime rate plus 2%. The credit facility is secured by all of the Company's assets and requires that the Company maintain specified financial ratios. Loan proceeds at closing were used to retire the Company's former bank debt, which matured on December 31, 2002, and for working capital purposes.

On April 30, 2003, the Company de-listed its shares on the New York Stock Exchange ("NYSE"), and listed its shares for trading on the American Stock Exchange ("AMEX"). The Company's common stock began trading on the AMEX under the symbol "SLI." Additionally, on April 30, 2003, the Company's symbol on the Philadelphia Stock Exchange was changed from "SL" to "SLI." The Company had received notification from the NYSE that it was below the market capitalization and stockholders' equity requirements of the NYSE's listing standards. After it was unable to make sufficient progress towards meeting the listing standards, management made a determination to transfer the Company's listing to the AMEX.

On November 24, 2003, the Company sold substantially all of the assets of its subsidiary, SL Surface Technologies, Inc. ("SurfTech"). The Company received cash of \$600,000 at closing. In addition, the purchaser assumed certain liabilities and ongoing obligations of SurfTech. As a result of the transaction, the Company recorded an after tax loss from the sale of discontinued operations of approximately \$442,000. The results of operations of SurfTech are presented as discontinued operations for all periods presented in the financial statements.

(b) FINANCIAL INFORMATION ABOUT SEGMENTS

Financial information about the Company's business segments is incorporated herein by reference to Note 16 in the Notes to Consolidated Financial Statements included in Part IV of this Annual Report on Form 10-K.

(c) NARRATIVE DESCRIPTION OF BUSINESS

SEGMENTS

The Company currently operates under four business segments: Condor DC Power Supplies, Inc. ("Condor"), Teal Electronics Corp. ("Teal"), SL Montevideo Technology, Inc. ("SL-MTI"), and RFL Electronics Inc. ("RFL"). In the second quarter of 2003, management decided to combine Condor and Teal into one business unit classified as the Power Electronics Group. Accordingly, for the years ended December 31, 2003, 2002 and 2001 the Company's reportable segments consisted of Condor, Teal (collectively, The Power Electronics Group), SL-MTI, and RFL.

The Power Electronics Group consists of two segments:

CONDOR - Condor produces a wide range of standard and custom power supply products that convert AC or DC power to direct electrical current to be used in customers' end products. Standard and custom AC-DC and DC-DC power supplies in both linear and switching configurations are produced, with ranges in power from 1 to 5000 watts, and are manufactured in either commercial or medical

Edgar Filing: SL INDUSTRIES INC - Form 10-K

configurations. Power supplies closely regulate and monitor power outputs, using patented filter and other technologies, resulting in little or no electrical interference. Power supplies are also used in drive systems for electric equipment and other motion control systems. For the years ended December 31, 2003, December 31, 2002 and December 31, 2001, net sales of Condor, as a percentage of consolidated net sales from continuing operations, were 38%, 36% and 44%, respectively.

TEAL - Teal designs and manufactures customized power conditioning and power distribution units. Products are developed and manufactured for custom electrical subsystems for OEMs of semiconductor, medical imaging, graphics and telecommunication systems. Outsourcing the AC power system helps OEMs reduce cost and time to market, while increasing system performance and customer satisfaction. Customers are also helped by getting necessary agency approvals. Custom products are often called "Power Conditioning and Distribution Units," which provide voltage conversion and stabilization, system control, and power distribution for systems such as CT and MRI scanners, chip testers and industrial systems. For the years ended December 31, 2003, December 31, 2002 and December 31, 2001, net sales of Teal, as a percentage of consolidated net sales from continuing operations, were 19%, 18% and 12%, respectively.

SL-MTI - SL-MTI is a technological leader in the design and manufacture of intelligent, high power density precision motors. Important programs in both traditional and new market areas have been won as a result of new motor and (patented and patent pending) motor control technologies. New motor and motion controls are used in numerous applications, including aerospace, medical and industrial products. Negotiations are continuing with customers on advanced designs for numerous programs, including fuel cell energy storage systems, high performance missile guidance motors, and medical/surgical drills and saws. For the years ended December 31, 2003, December 31, 2002 and December 31, 2001, net sales of SL-MTI, as a percentage of consolidated net sales from continuing operations, were 21%, 21% and 18%, respectively.

RFL - RFL designs and manufactures teleprotection products/systems that are used to protect electric utility transmission lines and apparatus by isolating faulty transmission lines from a transmission grid. These products are sophisticated communication systems that allow electric utilities to manage their high-voltage power lines more efficiently, and include a system that is a completely digital, fully-integrated relay/communications terminal, suitable for high-speed protective relaying of overhead or underground high-voltage transmission lines. RFL provides customer service and maintenance for all electric utility equipment protection systems. For the years ended December 31, 2003, December 31, 2002 and December 31, 2001, net sales of RFL, as a percentage of consolidated net sales from continuing operations, were 22%, 25% and 26%, respectively.

THE COMPANY'S DISCONTINUED OPERATIONS CONSIST OF:

SURFTECH - SurfTech produced industrial coatings and platings for equipment in the corrugated paper and telecommunications industries. On November 24, 2003, the Company sold substantially all of the assets of SurfTech. As a result, SurfTech is reported as a discontinued operation for all periods presented. For the years ended December 31, 2003, December 31, 2002 and December 31, 2001, net sales of SurfTech were \$1,840,000, \$2,237,000 and \$3,087,000, respectively.

EME - EME is based in Ingolstadt, Germany, with low cost manufacturing operations in Paks, Hungary. It was a leader in electromechanical actuation systems, power drive units and complex wire

harness systems for use in the aerospace and automobile industries. On January

Edgar Filing: SL INDUSTRIES INC - Form 10-K

6, 2003, the Company sold all of the issued and outstanding shares of capital stock of EME. As a result, EME is reported as a discontinued operation for all periods presented. For the years ended December 31, 2002 and December 31, 2001, net sales of EME were \$27,700,000 and \$25,600,000, respectively.

SL WABER - SL Waber manufactured surge suppressors that were sold to protect computers, audiovisual and other electronic equipment from sudden surges in power. These products were sold to OEM customers as well as to distributors and dealers of electronics and electrical supplies and retailers and wholesalers of office, computer, and consumer products. In September 2001, the Company sold substantially all of the assets of SL Waber, including its name and goodwill, as a going concern. As a result, SL Waber is reported on the Company's financial statements as a discontinued operation for all periods presented. For the year ended December 31, 2001, net sales of SL Waber were approximately \$10,300,000.

RAW MATERIALS

Raw material components are supplied by various domestic and international vendors. In general, availability of materials is not a problem for the Company. However, in the fourth quarter of 2000, the Company experienced shortages in the supply of certain strategic components for power supplies. During 2003, there were no major disruptions in the supply of raw materials.

Raw materials are purchased directly from the manufacturer whenever possible to avoid distributor mark-ups. Average lead times generally run from immediate availability to eight weeks. Lead times can be substantially higher for strategic components subject to industry shortages. In most cases, viable multiple sources are maintained for flexibility and competitive leverage.

PATENTS, TRADEMARKS, LICENSES, FRANCHISES, AND CONCESSIONS

The Company has proprietary information which it has developed and uses in its business. This proprietary information is protected by contractual agreements, as well as through patents and patents pending, to the extent appropriate. The patents are protected by federal law. To protect its proprietary information, the Company also enters into non-disclosure agreements with its employees, vendors and customers. Where appropriate, the Company will take and has taken all steps necessary to defend its intellectual property. For additional information related to the enforcement of the Company's patent rights, see Note 20 to the Notes to Consolidated Financial Statements, included in Part IV of this Annual Report on Form 10-K.

SEASONALITY

Generally, seasonality is not a significant factor in any of the Company's segments.

SIGNIFICANT CUSTOMERS

The Company has no customer that accounts for 10% or more of its consolidated net sales from continuing operations. Each of Teal, Condor, SL-MTI and RFL has certain major customers, the loss of any of which could have a material adverse effect on such entity.

BACKLOG

Backlog at February 29, 2004, February 28, 2003 and March 3, 2002 was \$42,022,000, \$41,544,000, and \$41,674,000, respectively. The backlog remained relatively unchanged at February 29, 2004, as compared to February 28, 2003. There has been an increase in orders from OEMs in the

Edgar Filing: SL INDUSTRIES INC - Form 10-K

telecommunications, semiconductor and medical imaging industries, offset in part by a decrease in orders from electric power utility customers.

COMPETITIVE CONDITIONS

The Company's businesses are in active competition with domestic and foreign companies with national and international name recognition that offer similar products or services, and with companies producing alternative products appropriate for the same uses. In addition, Condor has experienced significant offshore competition for certain products in certain markets. The uncertain commercial aerospace market has also created more competitive conditions in that industry. Each of the Company's businesses differentiate themselves from their competition by concentrating on customized products based on customer needs. The Company's businesses seek a competitive advantage based on quality, service, innovation, delivery and price.

ENVIRONMENTAL

The Company (together with the industries in which it operates or has operated) is subject to United States and Mexican environmental laws and regulations concerning emissions to the air, discharges to surface and subsurface waters and generation, handling, storage, transportation, treatment and disposal of waste materials. The Company and the industry are also subject to other federal, state and local environmental laws and regulations, including those that require the Company to remediate or mitigate the effects of the disposal or release of certain chemical substances at various sites, including some where it has ceased operations. It is impossible to predict precisely what effect these laws and regulations will have on the Company in the future.

It is the Company's policy to comply with all environmental, health and safety regulations, as well as industry standards for maintenance. The Company's domestic competitors are subject to the same environmental, health and safety laws and regulations, and the Company believes that the compliance issues and potential expenditures of its operating subsidiaries are comparable to those faced by their major domestic competitors.

There are two sites on which the Company may incur material environmental costs in the future as a result of past activities of its former SurfTech subsidiary. These sites are the Company's properties located near the Puchack Wellfield in Pennsauken, New Jersey, and in Camden, New Jersey. Based on the Company's investigation into the Pennsauken, New Jersey site, where it is one of several parties alleged to be responsible for groundwater contamination, the Company believes it has significant defenses against all or any part of the claims and that any material adverse impact is unlikely. Regarding the Camden, New Jersey site, the Company believes that the cost to remediate the property should not exceed \$500,000. The Company recorded a provision for this amount during the first quarter of 2002. Anticipated environmental costs have been reclassified in discontinued operations, as a result of the sale of SurfTech on November 24, 2003. For additional information related to environmental issues, see "Item 3. Legal Proceedings," and Note 13 to the Notes to Consolidated Financial Statements included in Part IV of this Annual Report on Form 10-K.

EMPLOYEES

As of December 31, 2003, the Company had approximately 1,257 employees. Of these employees, approximately 150 are subject to collective bargaining agreements.

Edgar Filing: SL INDUSTRIES INC - Form 10-K

FOREIGN OPERATIONS

In addition to manufacturing operations in California, Minnesota, and New Jersey, the Company manufactures substantial quantities of products in premises leased in Mexicali and Matamoros, Mexico. In 2003, the Company began to outsource some of its products with contract manufacturers located in Sushou and Dongguan, China. These external and foreign sources of supply present risks of interruption for reasons beyond the Company's control, including political or economic instability and other uncertainties.

Generally, the Company's sales are priced in United States dollars and its costs and expenses are priced in United States dollars and Mexican pesos. Accordingly, the competitiveness of the Company's products relative to locally produced products may be affected by the performance of the United States dollar compared with that of its foreign customers' and competitors' currencies. Foreign net sales comprised 12%, 13% and 11% of net sales from continuing operations for the years ended December 31, 2003, December 31, 2002 and December 31, 2001, respectively.

Additionally, the Company is exposed to foreign currency exchange rate fluctuations, which might result from adverse fluctuations in the value of the Mexican peso. At December 31, 2003 and December 31, 2002, the Company had net liabilities of \$233,000 and \$277,000, respectively, subject to fluctuations in the value of the Mexican peso. Fluctuations in the value of the foreign currencies were not significant in 2003. There can be no assurance that the value of the Mexican peso will continue to remain stable.

Condor manufactures substantially all of its products in Mexico and incurs its labor costs and supplies in Mexican pesos. SL-MTI manufactures approximately 45% of its products in Mexico and incurs related labor costs and supplies in Mexican pesos. Both Condor and SL-MTI price their sales in United States dollars. The Mexican subsidiaries of Condor and SL-MTI maintain their books and records in Mexican pesos. For additional information related to financial information about foreign operations, see Notes 16 and 17 in the Notes to Consolidated Financial Statements included in Part IV of this Annual Report on Form 10-K.

ADDITIONAL INFORMATION

Additional information regarding the development of the Company's businesses during 2003 and 2002 is contained in "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" included in Part II and Notes 1, 2, and 3 of the Notes to the Consolidated Financial Statements included in Part IV of this Annual Report on Form 10-K.

RISK FACTORS

THE COMPANY MAY BE ADVERSELY IMPACTED BY FLUCTUATIONS IN CASH FLOWS, LIQUIDITY, AND DEBT LEVELS.

Working capital requirements and cash flows historically have been, and are expected to continue to be, subject to quarterly and yearly fluctuations, depending on such factors as levels of sales, timing and size of capital expenditures, timing of deliveries and collection of receivables, inventory levels, customer payment terms, customer financing obligations, and supplier terms and conditions. The inability to manage adverse cash flow fluctuations resulting from such factors could have a material adverse effect on the Company's business, results of operations, and financial condition. In order to finance the working capital requirements of the Company's business, the Company has entered into a three-year

Edgar Filing: SL INDUSTRIES INC - Form 10-K

senior secured credit facility with LaSalle Business Credit LLC and has borrowed funds thereunder. At December 31, 2003, outstanding borrowed funds under the credit facility were \$2,902,000, with total availability thereunder of \$11,128,000. In addition, at December 31, 2003 the Company maintained a cash balance of \$3,501,000. If operating cash flows are not sufficient to meet operating expenses, capital expenditures and debt service requirements as they become due, the Company may be required, in order to meet its debt service obligations, to delay or reduce capital expenditures or the introduction of new products, to sell assets, and/or to forego business opportunities, including research and development projects and product design enhancements.

THE COMPANY'S OPERATING RESULTS MAY FLUCTUATE, AND THERE MAY BE VOLATILITY IN GENERAL INDUSTRY, ECONOMIC, AND MARKET CONDITIONS.

The results of operations for any quarter or year are not necessarily indicative of results to be expected in future periods. Future operating results may be affected by various trends and factors that must be managed in order to achieve favorable operating results. The inability to accurately forecast and manage these trends and factors could have a material adverse effect on the Company's business, results of operations, and financial condition.

General economic conditions, and specifically market conditions in the medical, telecommunications, semiconductor and electric power utility equipment industries in the United States and globally, affect the Company's business. In addition, reduced capital spending and/or negative economic conditions in the United States, Europe, Asia, Latin America and/or other areas of the world could have a material adverse effect on the Company's business, results of operations, and financial condition.

Gross margins may be adversely affected by increased price competition, excess capacity, higher material or labor costs, warranty costs, obsolescence charges, loss of cost savings on future inventory purchases as a result of high inventory levels, introductions of new products, increased levels of customer services, changes in distribution channels, and changes in product and geographic mix. Lower than expected gross margins could have a material adverse effect on the Company's business, results of operations, and financial condition.

THE COMPANY'S OPERATING RESULTS AND STOCK PRICE MAY BE ADVERSELY AFFECTED BY FLUCTUATIONS IN CUSTOMERS' BUSINESSES.

Business is dependent upon product sales to telecommunications, semiconductor, medical imaging, aerospace and other businesses, who in turn are dependent for their business upon orders from their customers. Any downturn in the business of any of these parties affects the Company. Moreover, sales often reflect orders shipped in the same quarter in which they are received, which makes sales vulnerable to short-term fluctuations in customer demand and difficult to predict. In general, customer orders may be cancelled, modified or rescheduled after receipt. Consequently, the timing of these orders and any subsequent cancellation, modification or rescheduling of these orders has affected, and will in the future affect, results of operations from quarter to quarter. Also, as some of the Company's customers typically order in large quantities, any subsequent cancellation, modification or rescheduling of an individual large order may affect results of operations.

FAILURE TO REMAIN COMPETITIVE COULD ADVERSELY IMPACT THE COMPANY'S OPERATING RESULTS.

The markets in which the Company sells its products are highly competitive and characterized by rapidly changing and converging technologies. The Company faces intense competition from established competitors and the threat of future competition from new and emerging companies in all aspects of

business. The Company's future success will depend on its ability to enhance current products and to develop new products that keep pace with technological developments and respond to changes in customer requirements. Among its current competitors are its customers, who are vertically integrated and either manufacture and/or are capable of manufacturing some or all of the Company's products sold to them. In addition to current competitors, new competitors providing niche, and potentially broad, product solutions will likely increase in the future. To remain competitive in both the current and future business climates, the Company must maintain a substantial commitment to focused research and development, improve the efficiency of its manufacturing operations, and streamline its marketing and sales efforts and attendant customer service and support. Among other things, the Company may not be able to anticipate shifts in its markets or technologies, may not have sufficient resources to continue to make the investments necessary to remain competitive, or may not make the technological advances necessary to remain competitive. In addition, notwithstanding its efforts, technological changes, manufacturing efficiencies or development efforts by competitors may render the Company's products or technologies obsolete or uncompetitive.

CONSOLIDATION IN THE INDUSTRY COULD INCREASE COMPETITIVE PRESSURES ON THE COMPANY.

The industries in which the Company operates are consolidating and will continue to consolidate in the future as companies attempt to strengthen or hold their market positions. Such consolidations may result in stronger competitors that are better able to compete as sole-source vendors for customers. The Company's relatively small size may increase competitive pressure for customers seeking single vendor solutions. Such increased competition would increase the variability of the Company's operating results and could otherwise have a material adverse effect on the Company's business, results of operations, and financial condition.

THE COMPANY IS DEPENDENT UPON THIRD PARTIES FOR PARTS AND COMPONENTS.

The ability to meet customer demand depends, in part, on the ability of the Company to obtain timely and adequate delivery of parts and components from suppliers and internal manufacturing capacity. The Company has experienced significant shortages in the past, and although it works closely with its suppliers to avoid shortages, there can be no assurance that it will not encounter further shortages in the future. A further reduction or interruption in component supplies or a significant increase in the price of one or more components could have a material adverse effect on the Company's business, results of operations and financial condition.

THE COMPANY MAY BE SUBJECT TO SIGNIFICANT COSTS IN COMPLYING WITH ENVIRONMENTAL LAWS.

The Company's facilities are subject to a broad array of environmental laws and regulations. The costs of complying with complex environmental laws and regulations may be significant in the future. Present accruals for such costs and liabilities may not be adequate in the future since the estimates on which the accruals are based depend on a number of factors, including the nature of the problem, the complexity of the site, the nature of the remedy, the outcome of discussions with regulatory agencies and other potentially responsible parties ("PRPs") at multiparty sites, and the number and financial viability of other PRPs.

Further, the Company is the subject of various lawsuits and actions relating to

Edgar Filing: SL INDUSTRIES INC - Form 10-K

environmental issues, including an administrative action in connection with SurfTech's Pennsauken facility which could subject the Company to, among other things, \$9,266,000 in collective reimbursements (with other parties) to NJDEP (as defined herein). In addition, a class action suit was filed on June 12, 2002 against the Company, SurfTech and 37 other defendants alleging that the plaintiffs suffered personal

Page 10

injuries as a result of consuming contaminated water distributed from the Puchack Wellfield in Pennsauken, New Jersey (which supplies Camden, New Jersey). There can be no assurance that the Company will be able to successfully defend itself against or settle these or any other actions to which it is a party. For additional information related to environmental risks, see "Item 3. Legal Proceedings," and Note 13 to the Notes to Consolidated Financial Statements included in Part IV of this Annual Report on Form 10-K.

THE COMPANY MAY HAVE TO PAY SIGNIFICANT COSTS FOR REGULATORY COMPLIANCE AND LITIGATION.

Rapid or unforeseen escalation of the cost of regulatory compliance and/or litigation, including but not limited to, environmental compliance, product-related liability, assertions related to intellectual property rights and licenses, adoption of new accounting policies, or changes in current accounting policies and practices and the application of such policies and practices could have a material adverse effect on the Company's business. Additionally, the Company is subject to certain legal actions involving complaints by terminated employees and disputes with customers and suppliers. One such claim was brought against the Company's subsidiary, SL-MTI, by a customer seeking \$3,900,000 in compensatory damages. On November 7, 2002, after a full trial of the facts, a jury awarded this customer damages of \$650,000, which, when combined with pre-trial interest, amounts to a total claim of \$780,000. The customer has appealed various aspects of this decision, which appeal, if determined adversely to the Company, could have a material adverse impact upon the Company. In the future there can be no assurance of the outcome in any litigation. An adverse determination in any one or more significant legal actions could have a material adverse effect on the Company's business, results of operations and financial condition. See "Item 3. Legal Proceedings," and Note 13 to the Notes to the Consolidated Financial Statements included in Part IV of this Annual Report on Form 10-K.

THE COMPANY IS DEPENDENT UPON KEY PERSONNEL FOR THE MANAGEMENT OF ITS OPERATIONS.

The Company's success depends in part upon the continued services of many of its highly skilled personnel involved in management, engineering and sales, and upon its ability to attract and retain additional highly qualified officers and employees. The loss of service of any of these key personnel could have a material adverse effect on business. In addition, future success will depend on the ability of officers and key employees to manage operations successfully.

THE COMPANY'S FORMER USE OF ARTHUR ANDERSEN LLP AS ITS INDEPENDENT ACCOUNTANT MAY POSE A RISK TO IT AND WILL LIMIT INVESTORS' ABILITY TO SEEK RECOVERIES FROM THEM RELATED TO THEIR WORK.

On June 15, 2002, Arthur Andersen LLP, the Company's former independent accountant, was convicted on a federal obstruction of justice charge. In July 2002, the Company's board of directors dismissed Arthur Andersen and engaged Grant Thornton LLP as the Company's independent accountant based on the recommendation of the audit committee of its board of directors.

Edgar Filing: SL INDUSTRIES INC - Form 10-K

The rules and regulations of the Securities and Exchange Commission ("SEC") require the Company to present its audited financial statements in various SEC filings, along with Arthur Andersen's consent to the inclusion of its audit report in those filings. The SEC has provided regulatory relief designed to allow companies that file reports with the SEC to dispense with the requirement to file a consent of Arthur Andersen in certain circumstances. The Company had not been able to obtain, after reasonable efforts, the written consent of Arthur Andersen to its naming of them as an expert and as having audited the Consolidated Financial Statements for the year ended December 31, 2001. Notwithstanding the SEC's regulatory relief, the inability of Arthur Andersen to provide their consent or to provide

Page 11

assurance services to the Company could negatively affect the Company's ability to, among other things, access the public capital markets. Any delay or inability to access the public markets as a result of this situation could have a material adverse impact on the Company's business. Also, an investor's ability to seek potential recoveries from Arthur Andersen related to any claims that an investor may assert as a result of the work performed by Arthur Andersen will be limited significantly in the absence of a consent and may be further limited by the diminished amount of assets of Arthur Andersen that are or may in the future be available for claims.

THE COMPANY'S OPERATING RESULTS AND COMMON STOCK ARE SUBJECT TO PRICE FLUCTUATIONS.

Operating results for future periods are never perfectly predictable even in the most certain of economic times, and the Company expects to continue to experience fluctuations in its quarterly results. These fluctuations, which in the future may be significant, could cause substantial variability in the market price of the Company's stock. The market price for the Company's common stock has been, and is likely to continue to be, highly volatile. The market for the Company's common stock is subject to fluctuations as a result of a variety of factors, including factors beyond its control. These include:

- additions or departures of key personnel;
- changes in market valuations of similar companies;
- announcements of new products or services by competitors or new competing technologies;
- conditions or trends in medical equipment, medical imaging, aerospace, and electric utility industries;
- general market and economic conditions; and
- other events or factors that are unforeseen.

OTHER FACTORS MAY AFFECT FUTURE RESULTS.

The risks and uncertainties described herein are not the only ones facing the Company. Additional risks and uncertainties not presently known, or that may now be deemed immaterial, may also impair business operations.

(d) FORWARD-LOOKING INFORMATION

From time to time, information provided by the Company, including written or oral statements made by representatives, may contain forward-looking information as defined in the Private Securities Litigation Reform Act of 1995. All

Edgar Filing: SL INDUSTRIES INC - Form 10-K

statements, other than statements of historical facts, contain forward-looking information, particularly statements which address activities, events or developments that the Company expects or anticipates will or may occur in the future, such as expansion and growth of the Company's business, future capital expenditures and the Company's prospects and strategy. In reviewing such information, it should be kept in mind that actual results may differ materially from those projected or suggested in such forward-looking information. This forward-looking information is based on various factors and was derived utilizing numerous assumptions. Many of these factors previously have been identified in filings or statements made by or on behalf of the Company.

Important assumptions and other important factors that could cause actual results to differ materially from those set forth in the forward-looking information include changes in the general economy, changes in capital investment and/or consumer spending, competitive factors and other factors affecting the Company's business in or beyond the Company's control. These factors include a change in the rate of inflation, a change in state or federal legislation or regulations, an adverse

Page 12

determination with respect to a claim in litigation or other claims (including environmental matters), the ability to recruit and develop employees, the ability to successfully implement new technology and the stability of product costs. These factors also include the timing and degree of any business recovery in certain of the Company's markets that are currently experiencing a cyclical economic downturn.

Other factors and assumptions not identified above could also cause actual results to differ materially from those set forth in the forward-looking information. The Company does not undertake to update forward-looking information contained herein or elsewhere to reflect actual results, changes in assumptions or changes in other factors affecting such forward-looking information.

Future factors include the effectiveness of cost reduction actions undertaken by the Company; the timing and degree of any business recovery in certain of the Company's markets that are currently experiencing economic uncertainty; increasing prices, products and services offered by U.S. and non-U.S. competitors, including new entrants; rapid technological developments and changes and the Company's ability to continue to introduce and develop competitive new products and services on a timely, cost-effective basis; availability of manufacturing capacity, components and materials; credit concerns and the potential for deterioration of the credit quality of customers; customer demand for the Company's products and services; U.S. and non-U.S. governmental and public policy changes that may affect the level of new investments and purchases made by customers; changes in environmental and other U.S. and non-U.S. governmental regulations; protection and validity of patent and other intellectual property rights; compliance with the covenants and restrictions of bank credit facilities; and outcome of pending and future litigation and governmental proceedings. These are representative of the future factors that could affect the outcome of the forward-looking statements. In addition, such statements could be affected by general industry and market conditions and growth rates, general U.S. and non-U.S. economic conditions, including increased economic uncertainty and instability following the terrorist attacks in the United States on September 11, 2001 and the war with Iraq, the global economic slowdown and interest rate and currency exchange rate fluctuations and other future factors.

Page 13

Edgar Filing: SL INDUSTRIES INC - Form 10-K

ITEM 2. PROPERTIES

Set forth below are the properties where the Company conducted business as of December 31, 2003.

Location -----	General Character -----
Montevideo, MN	Manufacture of precision motors and motion control systems (SL-MTI)
Matamoros, Mexico	Manufacture of precision motors (SL-MTI)
Oxnard, CA	Manufacture and distribution of power supply products (Condor)
Mexicali, Mexico	Manufacture and distribution of power supply products (Condor)
San Diego, CA	Manufacture of power distribution and conditioning units (Teal)
Boonton Twp., NJ	Manufacture of electric utility equipment protection systems (RFL)
Camden, NJ	Industrial surface finishing (Other) (1)
Pennsauken, NJ	Industrial surface finishing warehouse (Other) (1)
Mt. Laurel, NJ	Corporate office (Other)

(1) Ownership retained by the Company after the sale of SurfTech on November 24, 2003.

All manufacturing facilities are adequate for current production requirements. The Company believes that its facilities are sufficient for future operations, maintained in good operating condition and adequately insured. Of the owned properties, none are subject to a major encumbrance material to the operations of the Company.

ITEM 3. LEGAL PROCEEDINGS

In the ordinary course of its business, the Company is subject to loss contingencies pursuant to foreign and federal, state and local governmental laws and regulations and is also party to certain legal actions, frequently involving complaints by terminated employees and disputes with customers and suppliers. In the opinion of management, such claims are not expected to have a material adverse effect on the financial condition or results of operations of the Company.

In a November 1991 Administrative Directive, the New Jersey Department of Environmental Protection ("NJDEP") alleged that SurfTech, formerly SL Modern Hard Chrome, Inc., and 20 other respondents are responsible for a contamination

Edgar Filing: SL INDUSTRIES INC - Form 10-K

plume which has affected the Puchack Wellfield in Pennsauken, New Jersey (which supplies Camden, New Jersey). SurfTech is alleged to have contributed to the groundwater contamination through its operations conducted in Pennsauken, New Jersey (the "SurfTech site"). Three other actions have been initiated from the underlying directive. The first is Supplemental Directive No. 1 ("Directive No. 1") issued by the NJDEP to the same parties in May 1992, which seeks a cost reimbursement of \$8,655,000 for the construction of a treatment system at the Puchack site and an annual payment of \$611,000 (a total of \$9,266,000) for ongoing operation and maintenance of the treatment system. The second matter is a lawsuit initiated by one of the parties named in Directive No. 1 seeking to have the remainder of those parties, and more than 600 others, pay some or all of that party's cost of compliance with Directive No. 1 and any other costs associated with its site. This second matter is a claim for indemnification of potential damages. Accordingly, it is unspecified in amount. The third matter is a Spill Act Directive by the NJDEP to SurfTech alone, regarding similar matters at its site and consists of a claim for contribution towards potential damages and is unspecified in amount. Both the second and third matters relate to the payment of a portion of the damages set forth in the discussion of Directive No. 1. The state has not initiated enforcement action regarding any of its three Directives. There also exists an outstanding enforcement issue regarding the Company's compliance with state environmental laws at the same site.

With regard to the \$8,655,000 amount discussed in the preceding paragraph, in the Company's view, it is not appropriate to consider that amount as "potential cost reimbursements." The SurfTech site has undergone remedial activities under NJDEP's supervision since 1983. The Company believes that it has a significant defense against all or any part of the \$8,655,000 claim since technical data generated as part of previous remedial activities indicate that there is no offsite migration of contaminants at the SurfTech site. Based on this and other technical factors, the Company has been advised by its outside technical consultant, with the concurrence of its outside counsel, that it has a significant defense to Directive No. 1 and any material exposure is unlikely.

On June 12, 2002, the Company and SurfTech were served with notice of a class action complaint filed in Superior Court of New Jersey for Camden County. The Company and SurfTech are currently two of approximately 39 defendants in this action. The complaint alleges, among other things, that plaintiffs suffered personal injuries as a result of consuming water distributed from the Puchack Wellfield in Pennsauken, New Jersey (which supplies Camden, New Jersey).

This case arises from the same factual circumstances as the current administrative actions involving the Puchack Wellfield, which are described above. The administrative actions and the class action lawsuit both allege that SurfTech and other defendants contaminated ground water through the disposal of hazardous substances at industrial facilities in the area. As with the administrative actions, the Company believes it has significant defenses against the class action plaintiffs' claims and intends to pursue them vigorously. Technical data generated as part of remedial activities at the SurfTech site have not established offsite migration of contaminants. Based on this and other technical factors, the Company has been advised by its outside counsel that it has a strong defense against the claims alleged in the class action plaintiffs' complaint, as well as the environmental administrative actions discussed above.

Page 15

The Company's subsidiary, SL-MTI, defended a cause of action, brought against it in the fall of 2000 in the Federal District Court for the Western District of Michigan. The lawsuit was filed by Eaton Aerospace LLC ("Eaton"), alleging breach of contract and warranty in the defective design and manufacture of a high precision motor and demanding compensatory damages of approximately \$3,900,000. On November 7, 2002, after a full trial of the facts, a jury awarded

Edgar Filing: SL INDUSTRIES INC - Form 10-K

Eaton damages of \$650,000, which when combined with pre-trial interest amounts to a total claim of \$780,000, which has been accrued. Eaton has appealed this judgment.

The Company has reported a ground water contamination plume on its property in Camden, New Jersey. The Company's former subsidiary, SurfTech, conducted operations at the Camden site. In January 2004, the Company submitted to the NJDEP a proposed remediation action work plan, which is currently under review. Based upon the preliminary evidence, the Company was advised that the cost to remediate the site could amount to \$500,000. The Company recorded a provision for this amount during the first quarter of 2002. This provision has been reclassified as discontinued operations, as a result of the sale of SurfTech on November 24, 2003.

The Company is investigating possible soil and ground water contamination on SL-MTI's property in Montevideo, Minnesota. Based upon the preliminary evidence, the Company believes it will not incur material remediation costs at this site.

The Company filed claims with several of its insurers seeking reimbursement for past and future environmental costs. In settlement of its claims, the Company received aggregate cash payments of \$2,400,000 prior to fiscal 1998 and commitments from three insurers to pay for a portion of environmental costs associated with the SurfTech site of 15% of costs up to \$300,000, 15% of costs up to \$150,000 and 20% of costs up to \$400,000, respectively. In addition, the Company received \$100,000 per year during fiscal 1998, 1999, 2000 and 2001, as stipulated in the settlement agreement negotiated with one of the three insurers.

Loss contingencies include potential obligations to investigate and eliminate or mitigate the effects on the environment of the disposal or release of certain chemical substances at various sites, such as Superfund sites and other facilities, whether or not they are currently in operation. The Company is currently participating in environmental assessments and cleanups at six sites under these laws and may in the future be involved in additional environmental assessments and cleanups. Based upon investigations completed by the Company and its independent engineering consulting firms to date, management has provided an estimated accrual for all known costs believed to be probable in the amount of \$957,000. However, it is in the nature of environmental contingencies that other circumstances might arise, the costs of which are indeterminable at this time due to such factors as changing government regulations and stricter standards, the unknown magnitude of defense and cleanup costs, the unknown timing and extent of the remedial actions that may be required, the determination of the Company's liability in proportion to other responsible parties, and the extent, if any, to which such costs are recoverable from other parties or from insurance. Although these contingencies could result in additional expenses or judgments, or off-sets thereto, at present such expenses or judgments are not expected to have a material effect on the consolidated financial position or results of operations of the Company.

It is management's opinion that the impact of legal actions brought against the Company and its operations will not have a material adverse effect on its financial position or results of operations.

However, the ultimate outcome of these matters, as with litigation generally, is inherently uncertain, and it is possible that some of these matters may be resolved adversely to the Company. The adverse resolution of any one or more of these matters could have a material adverse effect on the business, operating results, financial condition or cash flows of the Company. Additional information pertaining to legal proceedings is found in Note 13 in the Notes to

Edgar Filing: SL INDUSTRIES INC - Form 10-K

the Consolidated Financial Statements included in Part IV of this Annual Report on Form 10-K.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

During the fourth quarter of fiscal 2003, no matter was submitted to a vote of the Company's security holders.

PART II

ITEM 5. MARKET FOR THE COMPANY'S COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

The Company's common stock is currently registered on both the American Stock Exchange ("AMEX") and the Philadelphia Stock Exchange under the symbol "SLI." The Company moved from the New York Stock Exchange ("NYSE") to the AMEX on April 30, 2003, as discussed in the narrative below. The following table sets forth the high and low closing sales price per share of the Company's common stock for the periods indicated:

Stock Prices	Year Ended December 31, 2003		Year Ended December 31, 2002	
	HIGH	LOW	HIGH	LOW
	1st Quarter	6.90	5.29	8.30
2nd Quarter	7.25	5.35	8.05	6.60
3rd Quarter	8.00	6.08	7.30	5.05
4th Quarter	8.49	7.50	5.75	4.25

As of March 3, 2004, there were approximately 798 registered shareholders. The Company suspended dividend payments during 2001 and has no present intention of making dividend payments in the foreseeable future. On January 6, 2003, the Company entered into a new senior credit facility, which has a term of three years. This facility restricts the Company from paying dividends. Additional information pertaining to the Company's senior credit facility is found in Note 10 in the Notes to the Consolidated Financial Statements included in Part IV of this Annual Report on Form 10-K.

On October 17, 2002, the Company received notification from the NYSE that it was below the market capitalization and stockholders' equity requirements of the NYSE's continued listing standards and, therefore, the Company's common stock might be delisted. The Company had operated under a plan to address its non-compliance issues with the NYSE and could not demonstrate compliance with the NYSE's continued listing standards. Consequently, the Company moved its common stock to the AMEX and began trading on the AMEX on April 30, 2003 under the symbol "SLI." Additionally on April 30, 2003, the Company's symbol on the Philadelphia Stock Exchange was changed from "SL" to "SLI."

On December 12, 2003, the Company announced that its Board of Directors had authorized the repurchase of up to 10% of the outstanding shares of the common stock of the Company. Any repurchases would be made in the open market or in negotiated transactions, if and when the Company's management considers such repurchases appropriate. The Company had not repurchased any of its shares as of March 22, 2004.

Edgar Filing: SL INDUSTRIES INC - Form 10-K

For the "Equity Compensation Plan Information," please refer to the Company's Proxy Statement for the 2003 Annual Meeting of Shareholders, which is incorporated herein by reference.

ITEM 6. SELECTED FINANCIAL DATA

Selected consolidated financial data with respect to the calendar years ended December 31, 2003, 2002, 2001, 2000, and the Company's fiscal year ended July 31, 1999 are presented below.

	Twelve Months Ended December 2003	Twelve Months Ended December 2002	Twelve Months Ended December 2001	Twelve Months Ended December 2000	T M E
----- (amounts in thousands except per share data) -----					
Net sales (1)	\$ 105,284	\$ 107,912	\$ 109,770	\$ 123,026	\$
Income (loss) from continuing operations	\$ 3,742	\$ 801	\$ (8,452)	\$ 5,454	\$
Income (loss) from discontinued operations	\$ (2,422)	\$ (1,271)	\$ (2,927)	\$ (3,754)	\$
Net income (loss) (2)	\$ 1,320	\$ (470)	\$ (11,379)	\$ 1,700	\$
Diluted net income (loss) per common share	\$ 0.22	\$ (0.08)	\$ (2.00)	\$ 0.30	\$
Shares used in computing diluted net income (loss) per common share	5,956	5,867	5,698	5,757	
Cash dividend per common share	\$ --	\$ --	\$ --	\$ 0.10	\$
YEAR-END FINANCIAL POSITION					
Working capital	\$ 16,612	\$ 10,107	\$ 12,132	\$ 40,506	\$
Current ratio (3)	1.98	1.03	1.01	2.15	
Total assets	\$ 58,421	\$ 90,667	\$ 109,911	\$ 115,491	\$
Long-term debt	\$ 2,015	\$ 0	\$ 0	\$ 35,671	\$
Shareholders' equity	\$ 34,581	\$ 32,983	\$ 33,204	\$ 43,350	\$
Book value per share	\$ 5.82	\$ 5.59	\$ 5.81	\$ 7.81	\$
OTHER					
Capital expenditures (4)	\$ 1,616	\$ 1,466	\$ 1,039	\$ 1,208	\$
Depreciation and amortization	\$ 1,851	\$ 2,634	\$ 3,670	\$ 3,550	\$

(1) On November 24, 2003, the Company sold certain assets of SurfTech. On January 6, 2003, effective for the year ended December 31, 2002, the Company sold EME, and in 2001, the Company sold certain assets of SL Waber. Accordingly, the operations of SurfTech, EME, and SL Waber have been accounted for as discontinued operations in all periods presented.

(2) Fiscal 2002 includes \$1,834,000 of special charges related to change of control and proxy costs, \$703,000 of impairment charges related to the write-off of goodwill, \$556,000 and \$147,000 of asset impairment charges at SurfTech. Fiscal 2001 includes costs related to inventory write-offs of \$2,890,000, asset impairment charges of \$4,145,000 and restructuring costs of \$3,683,000 related to Condor, and inventory write-offs of \$50,000 and restructuring, and intangible asset impairment charges of \$185,000 and \$125,000, respectively, related to SurfTech. Fiscal 2000 includes income of \$875,000 related to the settlement of a class action suit against one of the Company's insurers, and pre-tax income of \$650,000 related to the reduction of a contingency reserve for environmental costs and restructuring costs of \$790,000 related to SL Waber.

Edgar Filing: SL INDUSTRIES INC - Form 10-K

(3) The current ratio for 2002 and 2001 includes all debt classified as current, due to the December 31, 2002 maturity date of the Former Revolving Credit Facility (see Item 7 - Financial Condition). The current ratio calculations for all years exclude net current assets and liabilities held for sale.

(4) Excludes assets acquired in business combinations.

Page 18

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The Company through its subsidiaries, designs, manufactures and markets power electronics, power motion, power protection equipment, teleprotection and specialized communication equipment that is used in a variety of aerospace, computer, datacom, industrial, medical, telecom, transportation and utility equipment applications. The Company is comprised of four domestic business segments, two of which have significant manufacturing operations in Mexico. Most of the Company's sales are made to customers who are based in the United States. However, the Company has over the years increased its presence in international markets. The Company places an emphasis on high quality, well-built, dependable products and continues its dedication to product enhancement and innovations.

ORGANIZATION OF FINANCIAL INFORMATION

The Company's Management Discussion and Analysis provides material historical and prospective disclosures intended to enable investors and other users to assess the Company's financial condition and results of operations. Statements that are not historical are forward-looking and involve risks and uncertainties, as discussed under the caption "Forward-Looking Statements" in Item 1 of this Annual Report on Form 10-K. The consolidated financial statements and notes are presented in Item 8 of this Annual Report on Form 10-K. Included in the consolidated financial statements are the consolidated statements of operations, consolidated statements of comprehensive income (loss), consolidated shareholders' equity and consolidated cash flows. The notes, which are an integral part of the consolidated financial statements, provide additional information required to fully understand the nature of amounts included in the consolidated financial statements. Additionally, in Note 16, the Company provides a summary of net sales, income (loss) from continuing operations, net assets and depreciation and amortization by industry segment. The Company's Management Discussion and Analysis provides a more detailed discussion related to business segments operations.

SIGNIFICANT TRANSACTIONS AND FINANCIAL TRENDS

Included in the financial sections of this Annual Report on Form 10-K is a description of significant transactions or events that have materially contributed to or reduced earnings and materially affected trends. Significant transactions discussed in the Company's Management Discussion and Analysis for fiscal 2003 include costs and charges recorded in discontinued operations of (i) \$750,000 related to the defense of a class action lawsuit regarding environmental matters resulting from alleged activities of SurfTech; and (ii) \$428,000 related to certain machinery and equipment that was being utilized by SurfTech. SurfTech was sold in November 2003 and is reported as discontinued operations for all periods presented. Also included in the financial sections in 2003 is an asset impairment charge of \$275,000, which was recorded against the carrying value of the Company's property located in Camden, New Jersey. This impairment charge is recorded in continuing operations.

In fiscal 2002, the Company recorded in selling, general, and administrative expenses, \$1,100,000 in litigation costs. In addition, the Company recorded

Edgar Filing: SL INDUSTRIES INC - Form 10-K

\$500,000 for environmental matters, which is reported in discontinued operations. In fiscal 2002, the Company also recorded \$1,834,000 in special charges related to change of control and proxy costs. Included in interest expense for fiscal 2002 is a \$780,000 facility fee. These significant costs do not result from the Company's continuing operations.

Page 19

While these items are important in understanding and evaluating financial results and trends, other transactions or events, such as disclosed later in this Management Discussion and Analysis, may also have a material impact on continuing operations. A complete understanding of these transactions is necessary in order to estimate the likelihood that these trends will continue.

CRITICAL ACCOUNTING POLICIES

In December 2001, the SEC issued disclosure guidance for "critical accounting policies." The SEC defines "critical accounting policies" as those that require application of management's most difficult, subjective or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain and may change in subsequent periods.

The Company's significant accounting policies are described in Note 1 in the Notes to Consolidated Financial Statements included in Part IV of this Annual Report on Form 10-K. Not all of these significant accounting policies require management to make difficult, subjective or complex judgments or estimates. However, the following policies could be deemed to be critical within the SEC definition.

REVENUE RECOGNITION

Revenue from product sales is recognized at the time the product is shipped, with provisions established for estimated product returns and returns related to one business segment's stock scrap program with distributors. Upon shipment, the Company provides for the estimated cost that may be incurred for product warranties. Rebates and other sales incentives offered by the Company are recorded as a reduction of sales at the time of shipment. Revenue recognition is significant because net sales is a key component of results of operations. In addition, revenue recognition determines the timing of certain expenses, such as commissions and royalties. The Company follows generally accepted guidelines in measuring revenue. However, certain judgments affect the application of its revenue policy. For a discussion of the Company's revenue recognition policies, see Note 1 in the Notes to Consolidated Financial Statements included in Part IV in this Annual Report on Form 10-K. Revenue results are difficult to predict, and any shortfall in revenue or delay in recognizing revenue could cause operating results to vary significantly from quarter to quarter and could result in future operating losses.

ALLOWANCE FOR DOUBTFUL ACCOUNTS

The Company's estimate for the allowance for doubtful accounts related to trade receivables is based on two methods. The amounts calculated from each of these methods are combined to determine the total amount reserved. First, the Company evaluates specific accounts where it has information that the customer may have an inability to meet its financial obligations (bankruptcy, etc.). In these cases, the Company uses its judgment, based on the best available facts and circumstances, and records a specific reserve for that customer against amounts due to reduce the receivable to the amount that is expected to be collected. These specific reserves are reevaluated and adjusted as additional information is received that impacts the amount reserved. Second, a general reserve is established for all customers based on several factors, including historical

Edgar Filing: SL INDUSTRIES INC - Form 10-K

write-offs as a percentage of sales. If circumstances change (i.e. higher than expected defaults or an unexpected material adverse change in a major customer's ability to meet its financial obligation), the Company's estimates of the recoverability of amounts due could be reduced by a material amount.

INVENTORIES

The Company values inventory at the lower of cost or market, and continually reviews the book value of

Page 20

discontinued product lines to determine if these items are properly valued. The Company identifies these items and assesses the ability to dispose of them at a price greater than cost. If it is determined that cost is less than market value, then cost is used for inventory valuation. If market value is less than cost, then related inventory is adjusted to that value.

If a write down to the current market value is necessary, the market value cannot be greater than the net realizable value, which is defined as selling price less costs to complete and dispose, and cannot be lower than the net realizable value less a normal profit margin. The Company also continually evaluates the composition of its inventory and identifies slow-moving and excess inventories. Inventory items identified as slow-moving or excess are evaluated to determine if reserves are required. If the Company is not able to achieve its expectations of the net realizable value of the inventory at current market value, it would have to adjust its reserves accordingly.

ACCOUNTING FOR INCOME TAXES

The Company's income tax policy records the estimated future tax effects of temporary differences between the tax basis of assets and liabilities and amounts reported in the accompanying consolidated balance sheets, as well as operating loss and tax credit carryforwards. The Company follows generally accepted guidelines regarding the recoverability of any tax assets recorded on the balance sheet and provides any necessary allowances as required. As part of the process of preparing its consolidated financial statements, the Company is required to estimate its income taxes in each of the jurisdictions in which it operates. This process involves estimating the actual current tax exposure, together with assessing temporary differences resulting from the differing treatment of certain items for tax and accounting purposes. These differences result in deferred tax assets and liabilities, which are included within the consolidated balance sheet. Management must then assess the likelihood that deferred tax assets will be recovered from future taxable income and to the extent it believes that recovery is not likely, the Company must establish a valuation allowance. To the extent it establishes a valuation allowance or increases or decreases this allowance in a period, it must include expense or income, as the case may be, within the tax provision in the consolidated statement of operations.

Significant management judgment is required in determining the provision for income taxes, the deferred tax assets and liabilities and any valuation allowance recorded against deferred tax assets. As of December 31, 2003, the Company had recorded total valuation allowances of \$352,000 due to uncertainties related to the utilization of some deferred tax assets, primarily consisting of certain loss carryforwards and foreign tax credits, before they expire. The valuation allowance is based on estimates of taxable income by jurisdiction in which the Company operates and the period over which deferred tax assets will be recoverable. In the event that actual results differ from these estimates or these estimates are adjusted in future periods, the Company may need to establish an additional valuation allowance that could materially impact its

Edgar Filing: SL INDUSTRIES INC - Form 10-K

consolidated financial position and results of operations.

The net deferred tax assets as of December 31, 2003 were \$6,255,000, net of valuation allowances of \$352,000. The carrying value of the Company's net deferred tax assets assumes that it will be able to generate sufficient future taxable income in certain tax jurisdictions, based on estimates and assumptions. If these estimates and related assumptions change in the future, the Company may be required to record additional valuation allowances against its deferred tax assets resulting in additional income tax expense in the consolidated statement of operations. Management evaluates the reliability of the deferred tax assets and assesses the need for additional valuation allowances quarterly.

Page 21

LEGAL CONTINGENCIES

The Company is currently involved in certain legal proceedings. As discussed in Note 13 in the Notes to the Consolidated Financial Statements included in Part IV to this Annual Report on Form 10-K, the Company has accrued an estimate of the probable costs for the resolution of these claims. This estimate has been developed after investigation and is based upon an analysis of potential results, assuming a combination of litigation and settlement strategies. Management does not believe these proceedings will have a material adverse effect on the Company's consolidated financial position. It is possible, however, that future results of operations for any particular quarterly or annual period could be materially affected by changes in these assumptions, or the effectiveness of these strategies, related to these proceedings.

IMPAIRMENT OF LONG-LIVED AND INTANGIBLE ASSETS

The Company's long-lived and intangible assets primarily consist of fixed assets, goodwill and other intangible assets. Statement of Financial Accounting Standards No. 142 "Goodwill and Other Intangible Assets" ("SFAS 142") requires that goodwill be tested for impairment at the reporting unit level (operating segment or one level below an operating segment) on an annual basis and between annual tests in certain circumstances. Application of the goodwill impairment test requires judgment, including the identification of reporting units, assigning assets and liabilities to reporting units, assigning goodwill to reporting units, and determining the fair value of each reporting unit. Significant judgments required to estimate the fair value of reporting units include estimating future cash flows, determining appropriate discount rates and other assumptions. Changes in these estimates and assumptions could materially affect the determination of fair value for each reporting unit.

Effective January 1, 2002, the Company adopted SFAS 142 and performed a transitional test of its goodwill and intangible assets. No impairment charges were recorded as a result of the initial impairment test. Goodwill was also tested for impairment in the fourth quarter of 2002. Due to, among other things, the overall softening of the global economy and the related decline in operating results of SurfTech, the Company recorded a goodwill impairment loss of \$556,000, which is reported as part of discontinued operations in 2002. The fair value of the reporting unit giving rise to the transitional impairment loss was estimated using the expected present value of future cash flows. Any further impairment losses recorded in the future could have a material adverse impact on the Company's financial condition and results of operations.

The Company periodically reviews the carrying value of its long-lived assets held and used, other than goodwill and intangible assets with indefinite lives, and assets to be disposed of whenever events or circumstances indicate that the carrying amount of an asset may not be recoverable. The Company assesses the recoverability of the asset by estimated cash flows and at times by independent

Edgar Filing: SL INDUSTRIES INC - Form 10-K

appraisals. It compares estimated cash flows, on a discounted basis, expected to be generated from the related assets, or the appraised value of the asset, to the carrying amounts to determine whether impairment has occurred. If the estimate of cash flows expected to be generated changes in the future, the Company may be required to record impairment charges that were not previously recorded for these assets. If the carrying value of a long-lived asset is considered impaired, an impairment charge is recorded for the amount by which the carrying value of the long-lived asset exceeds its fair value.

ENVIRONMENTAL EXPENDITURES

The Company is subject to United States and Mexican environmental laws and regulations

Page 22

concerning emissions to the air, discharges to surface and subsurface waters, and generation, handling, storage, transportation, treatment and disposal of waste materials. The Company is also subject to other federal, state and local environmental laws and regulations, including those that require it to remediate or mitigate the effects of the disposal or release of certain chemical substances at various sites, including some where the Company has ceased operations. It is impossible to predict precisely what effect these laws and regulations will have in the future.

Expenditures that relate to current operations are charged to expense or capitalized, as appropriate. Expenditures that relate to an existing condition caused by past operations are expensed and recorded as part of discontinued operations. Expenditures include costs of remediation and legal fees to defend against claims for environmental liability. Liabilities are recorded when remedial efforts are probable and the costs can be reasonably estimated. The liability for remediation expenditures includes, as appropriate, elements of costs such as site investigations, consultants' fees, feasibility studies, outside contractor expenses and monitoring expenses. Estimates are not discounted, nor are they reduced by potential claims for recovery from insurance carriers. The liability is periodically reviewed and adjusted to reflect current remediation progress, prospective estimates of required activity and other relevant factors including changes in technology or regulations.

The above listing is not intended to be a comprehensive list of all of the Company's accounting policies. In many cases, the accounting treatment of a particular transaction is specifically dictated by generally accepted accounting principles with no need for management's judgment in their application. There are also areas in which management's judgment in selecting any available alternatives would not produce a materially different result. See the Company's audited Consolidated Financial Statements and Notes thereto included in Part IV of this Annual Report on Form 10-K, which contain accounting policies and other disclosures required by generally accepted accounting principles.

FINANCIAL CONDITION

LIQUIDITY AND CAPITAL RESOURCES

At December 31, 2003, the Company maintained a cash balance of \$3,501,000, with outstanding bank debt of \$2,902,000. Availability under the Senior Credit Facility was \$11,128,000. During the year ended December 31, 2003 ("2003"), the net cash provided by operating activities was \$9,517,000, as compared to net cash provided by operating activities of \$8,774,000 during the year ended December 31, 2002 ("2002"). The primary source of cash provided by operating activities for 2003 were the reduction of accounts receivable primarily related to the receipt of income tax refunds, reduction of inventory levels from the

Edgar Filing: SL INDUSTRIES INC - Form 10-K

prior year and positive income from continuing operations, offset primarily by payments made under the Company's 2002 bonus and incentive programs. In the year 2002, net cash provided by operating activities was positively affected by the reduction of accounts receivable, primarily due to the receipt of income tax refunds, the reduction of inventory and positive income from continuing operations, partially offset by payments under deferred compensation and retirement plans and reductions in accounts payable.

During 2003, net cash provided by investing activities was \$5,986,000, primarily related to the cash proceeds of \$7,000,000 received from the sale of EME and \$600,000 received from the sale of SurfTech, partially offset by \$1,616,000 in capital expenditures. During the year ended December 31, 2002, net cash provided by investing activities was \$9,378,000, which was primarily generated by the proceeds of \$10,676,000 from the surrender of life insurance policies.

Page 23

During 2003, net cash used in financing activities was \$14,131,000, primarily due to the payoff of the Company's former revolving credit facility of \$17,557,000. During 2002 net cash used in financing activities was \$18,272,000, primarily related to the pay down of bank debt in the net amount of \$18,103,000, and \$1,141,000 related to debt refinancing costs.

On January 6, 2003, the Company entered into a three-year Senior Secured Credit Facility (the "Senior Credit Facility") with LaSalle Business Credit LLC. The Senior Credit Facility provides for a revolving loan facility and two term loans, up to a maximum indebtedness of \$20,000,000. The revolving loan of up to \$16,810,000 is based upon eligible receivables and inventory, as well as an over advance amount of \$1,500,000, which is amortized over a two-year term. The two term loans of \$2,350,000 and \$840,000 are amortized over a three-year term. The Senior Credit Facility restricts investments, acquisitions, capital expenditures and dividends. It contains financial covenants relating to minimum levels of net worth, fixed charge coverages, and EBITDA levels, as defined. The Company is currently in compliance with all the restrictions and covenants of the Senior Credit Facility. The Senior Credit Facility bears interest ranging from the prime rate plus fifty basis points to prime rate plus 2%. The Senior Credit Facility is secured by all of the Company's assets. At December 31, 2003, the outstanding revolving loan balance was \$327,000 and the outstanding term loan balances were \$1,992,000 and \$583,000, or a total of \$2,902,000. Availability under the Senior Credit Facility at December 31, 2003 was \$11,128,000.

During 2002, the Company was a party to a Second Amended and Restated Credit Agreement, dated December 13, 2001, as amended (the "Former Credit Facility") that allowed the Company to borrow for working capital and other purposes. The Former Credit Facility contained certain financial and non-financial covenants, including requirements to maintain certain minimum levels of net income and a minimum fixed charge coverage ratio, as defined therein, on a quarterly basis. As of December 31, 2001, the Company was in violation of the net income covenant for the fourth quarter of 2001. In addition, on March 1, 2002, the Company was notified that it was in default under the Former Credit Facility due to its failure to meet the previously scheduled debt reduction to \$25,500,000.

On May 23, 2002, the Company and its former lenders reached an agreement, pursuant to which the lenders granted a waiver of default and amended the violated financial covenants, so that the Company would be in full compliance with the Former Credit Facility. The agreement provided, among other things, for the Company to pay down outstanding borrowings by \$689,000 to \$25,500,000 and for the payment to the lenders of an amendment fee of \$130,000. The Former Credit Facility provided for the payment of a facility fee of \$780,000 in the event that it was not repaid in full by October 31, 2002. The Company paid this facility fee on November 4, 2002.

Edgar Filing: SL INDUSTRIES INC - Form 10-K

The Former Credit Facility matured on December 31, 2002. The Company retired the Former Credit Facility on January 6, 2003, and therefore, was in technical default thereunder at December 31, 2002.

As of December 31, 2002, outstanding borrowings under the Former Credit Facility were \$17,557,000. The weighted average interest rate on borrowings during the year ended December 31, 2002 was 6.56% (with the \$780,000 facility fee included as interest expense, the weighted average interest rate was 10.01%). On January 6, 2003, the Company borrowed \$10,359,000 under the Senior Credit Facility, which together with the proceeds from the sale of EME and available cash (including a \$2,000,000 distribution from EME), was used to retire the Former Credit Facility.

Page 24

On October 11, 2002, the Company filed a registration statement with the SEC relating to an anticipated distribution to its shareholders of subscription rights to purchase additional shares of common stock of the Company. The Company subsequently filed an amendment to the Registration Statement with the SEC on December 30, 2002. On March 28, 2003, following a thorough discussion and review, the Company's Board of Directors decided not to proceed with the Rights Offering and withdrew the Registration Statement with the SEC.

The Company's current ratio was 1.98 to 1 at December 31, 2003, and 1.03 to 1 at December 31, 2002 (calculated without net assets and liabilities held for sale). This ratio improved primarily due to a significant reduction of short-term debt.

As a percentage of total capitalization, consisting of debt and shareholders' equity, total borrowings by the Company were 8% at December 31, 2003 and 35% at December 31, 2002. At December 31, 2003, total borrowings, decreased by \$14,655,000, compared to December 31, 2002.

Capital expenditures of \$1,616,000 were made in 2003, primarily related to equipment purchases, a new management information system and building improvements, compared to \$1,466,000 in 2002. The capital expenditures made in 2002 primarily related to improvements in process technology, equipment and building improvements.

The Company has been able to generate adequate amounts of cash to meet its operating needs. During 2003, Condor, Teal, RFL and SL-MTI produced positive cash flow, aggregating \$9,268,000. SurfTech experienced negative cash flow for the year due to poor operating results. SurfTech was sold on November 24, 2003, and is classified as a discontinued operation for all periods presented.

With the exception of the segment reported as "Other" (which consists primarily of corporate office expenses, financing activities and accruals not specifically allocated to the reportable business segments) all of the Company's operating segments were profitable at the operating profit level and are expected to remain so in 2004.

CONTRACTUAL OBLIGATIONS

The following is a summary of the Company's contractual obligations at December 31, 2003, for the periods indicated:

Less than 1 Year	1 to 3 Years	4 to 5 Years	After 5 Years	Total
-----	-----	-----	-----	-----

Edgar Filing: SL INDUSTRIES INC - Form 10-K

(in thousands)

Operating Leases	\$1,344	\$1,734	-	-	\$3,078
Debt	887	2,015	-	-	2,902
Capital Leases	170	379	-	-	549
	-----	-----	-----	-----	-----
Total	\$2,401	\$4,128	-	-	\$6,529
	=====	=====	=====	=====	=====

Contractual obligations with respect to the two term loans under the Senior Credit Facility are \$887,000 due in less than one year and \$2,015,000 due in one to two years.

OFF-BALANCE SHEET ARRANGEMENTS

It is not the Company's usual business practice to enter into off-balance sheet arrangements such as

Page 25

guarantees on loans and financial commitments, indemnification arrangements, and retained interests in assets transferred to an unconsolidated entity for securitization purposes. Consequently, the Company has no off-balance sheet arrangements, except for operating lease commitments disclosed in the table above, that have, or are reasonably likely to have, a material current or future effect on its financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

	-----	-----
Consolidated	\$ 6,678	\$ 3,112
	=====	=====

Consolidated net sales from continuing operations for 2003, compared to 2002 decreased by \$2,628,000, or 2%. This decrease is primarily due to a significant decrease in sales at RFL of \$3,851,000, or 14%, and to a lesser extent a sales decrease at SL-MTI of \$954,000, or 4%. These decreases were partially offset by an increase in sales at the Power Electronics Group of \$2,177,000, or 4%. Consolidated net sales for 2002 do not include net sales of \$29,895,000, relating to the combined sales of EME, SL Waber and SurfTech, which are classified as discontinued operations. Net income from continuing operations in 2003 was \$3,742,000, or \$0.63 per diluted share, compared to net income from continuing operations in 2002 of \$801,000, or \$0.14 per diluted share. The net income in 2002 included restructuring costs at Condor within the Power Electronics Group of \$230,000 and special charges included in other expenses of \$1,834,000 related to change-of-control and proxy costs.

The Company's operating income increased to \$6,678,000 in 2003, compared to \$3,112,000 in 2002. Other than RFL, all of the Company's business segments had increases in operating income in 2003, as

Page 26

compared to 2002. RFL's operating income decreased \$1,199,000, or 35%. The Company's business segments and the components of operating expenses are discussed more fully in the following sections.

The Power Electronics Group had an increase in sales of \$2,177,000, or 4%, and income from operations increased \$2,718,000, or 82%, over the prior year. The increase in sales within the Power Electronics Group is primarily attributable to an increase in sales at Condor of \$1,392,000, or 4%. This increase in sales is related to an increase in sales to distributors of medical products. In addition, there were lower returns from distributors in the 2003 period, as compared to 2002, primarily due to a new distributor scrap program.

SL-MTI's net sales in 2003 decreased approximately \$954,000, or 4%, while operating income increased slightly by \$84,000, or 4%, compared to net sales and income from operations in 2002. Contributing to the decrease in net sales was a significant decrease in the windings product line, which decreased by \$2,811,000, or 39%. This decrease was partially offset by an increase in sales of DC brushless motors of \$2,097,000, or 19%. The increase in income from operations in 2003, as compared to 2002 is due primarily to an inventory write-off of \$387,000, which was recorded in 2002. Without this \$387,000 charge, operating income for 2003 would have been less than in 2002, which is reflective

Edgar Filing: SL INDUSTRIES INC - Form 10-K

of the decrease in sales.

RFL's net sales in 2003 decreased approximately \$3,851,000, or 14%, and income from operations decreased approximately \$1,199,000, or 35%, compared to net sales and operating income in 2002. RFL has experienced significant sales decreases in its teleprotection and protective relaying product lines, which decreased by \$3,846,000, or 29%, and \$1,498,000, or 56%, respectively. These decreases were partially offset by an increase in its carrier communications product line, which increased by \$1,355,000, or 18%. RFL is experiencing inconsistent procurement patterns from electric power utility companies, who are the major purchasers of its teleprotection and protective relaying product lines. In particular, the pendency of proposed federal energy legislation has apparently deferred the procurement and capital investment decisions of many electric power utility companies.

COST OF PRODUCTS SOLD

As a percentage of net sales, cost of products sold in 2003 was approximately 63%, as compared to approximately 64% in 2002. Although the cost of products sold, as a percentage of sales remained relatively constant year-to-year, the business segments' product mix changed considerably. The Power Electronics Group cost of products sold percentage improved from 67% in 2002 to 63% in 2003. This was due in part to the increase in sales. In addition, Condor made several operational improvements to re-engineer its manufacturing facility in Mexicali, Mexico that improved productivity at the facility. In the comparable period in 2002, significant inefficiencies and start up costs were incurred due to the movement of Condor's remaining telecommunications product line from its Reynosa, Mexico facility to its current manufacturing location in Mexicali, Mexico. The improvement in SL-MTI's cost of products sold percentage is primarily due to an inventory charge being taken in 2002 and a slight improvement in manufacturing efficiency in 2003 at its Cedro, Mexico plant. RFL's increase in its cost of products sold percentage is due to a significant reduction in sales.

ENGINEERING AND PRODUCT DEVELOPMENT EXPENSES

Engineering and product development expenses in 2003 were \$7,856,000, an increase of approximately \$401,000, or 5%, as compared to 2002. As a percentage of net sales, engineering and product development expenses in 2003 and 2002 were 7% for both years. The increase of \$401,000 was

Page 27

primarily generated by SL-MTI, which experienced higher net engineering costs in the current year, as compared to 2002.

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

Selling, general and administrative expenses in 2003 were \$22,614,000, a decrease of \$662,000, or 3%, which is reflective of the decrease in sales, compared to 2002. As a percentage of net sales, selling, general and administrative expenses in 2003 and 2002 were approximately 21% for both years.

DEPRECIATION AND AMORTIZATION EXPENSES

Depreciation and amortization expenses in 2003 were \$1,851,000, a decrease of approximately \$783,000, or 30%, compared to 2002. The reduction in 2003 is due primarily to the Company's reduced fixed asset base.

AMORTIZATION OF DEFERRED FINANCING COSTS

In connection with entering into the Senior Credit Facility on January 6, 2003,

Edgar Filing: SL INDUSTRIES INC - Form 10-K

the Company incurred approximately \$1,342,000 in costs. These costs have been deferred and are being amortized over the three-year term of the Senior Credit Facility. Amortization for 2003 was \$447,000.

INTEREST INCOME (EXPENSE)

In 2003, interest income was \$172,000, compared to \$25,000 in 2002. Interest expense in 2003 was \$380,000, compared to \$2,256,000 in 2002. Included in interest expense in 2002 is the payment of a facility fee of \$780,000 resulting from the Company's inability to pay down in full the Former Credit Facility by October 31, 2002. (See Note 10 in the Notes to Consolidated Financial Statements included in Part IV of this Annual Report on Form 10-K). The decrease in interest expense for 2003 is related to significantly reduced debt levels and lower interest rates.

TAXES

The effective tax rate for 2003 was higher than the statutory rate due primarily to the impact of state income taxes.

Page 28

Other expenses and Corporate office	(5,526)	(5,237)
	-----	-----
Consolidated	\$ 3,112	\$ (8,915)
	=====	=====

Consolidated net sales from continuing operations in 2002 of \$107,912,000, a decrease of approximately \$1,858,000 (or 2%), as compared to consolidated net sales from continuing operations in 2001. This decrease was due mainly to decreases in the Power Electronics Group of \$4,396,000, (or 7%). Within this Group, Condor's net sales decreased approximately \$10,684,000 (or 22%), while Teal had an increase in sales of \$6,288,000, or 47%. RFL had a decrease in sales of approximately \$1,207,000 (or 4%). These decreases were partially offset by an increase in net sales at SL-MTI of \$3,745,000 (or 19%). Consolidated net sales for 2002 and 2001 do not include net sales of \$29,895,000 and \$39,012,000, respectively, relating the combined sales of EME, SL Waber and SurfTech, which are classified as discontinued operations. Net income from continuing operations in 2002 was \$801,000, (or \$.14 per diluted share), compared to a net loss from continuing operations in 2001 of \$8,452,000, (or \$1.48 per diluted share). The net income in 2002 included restructuring costs at Condor of \$230,000 and special charges included in other expenses of \$1,834,000 related to change-of-control and proxy costs.

Although the Power Electronics Group's net sales decreased by \$4,396,000 in 2002, operating income increased by \$12,219,000, as compared to 2001. This decrease in net sales is primarily related to Condor's withdrawal of a significant portion of its telecommunications-related product line. Operating results in 2002 includes a restructuring charge of \$230,000 related to facility consolidation at Condor's Brentwood, New York and Reynosa, Mexico facilities and related severance payments. The 2001 operating results included charges in connection with the write-down of telecommunications-related

Page 29

inventory in the amount of \$2,890,000, the restructuring costs related to the closing of the two facilities mentioned above of \$3,683,000, and the impairment of intangible assets in connection with the Todd Products acquisition in the amount of \$4,145,000.

SL-MTI's net sales in 2002 increased approximately \$3,745,000 (or 19%), while operating income decreased approximately \$108,000 (or 5%), compared to net sales and income from operations in 2001. Contributing to the increased net sales were significant increases in net sales of DC brushless motors. The decrease in income from operations was due primarily to poor operating efficiencies associated with the rapid increase in sales and an inventory write-off of \$387,000.

RFL's net sales in 2002 decreased approximately \$1,207,000 (or 4%), and income from operations increased approximately \$205,000 (or 6%), compared to net sales and operating income in 2001. Contributing to the decrease in net sales was the weak growth in the U.S. economy, which delayed the capital improvement plans of several large customers in the electric power utility industry. Despite the decrease in net sales, income from operations increased slightly, primarily due to the non-amortization provision of goodwill adopted by the Company in 2002.

Edgar Filing: SL INDUSTRIES INC - Form 10-K

COST OF PRODUCTS SOLD

As a percentage of net sales, cost of products sold in 2002 was approximately 64%, as compared to approximately 68% in 2001. This improvement is primarily related to the Power Electronics Group and in particular, Condor. Significant improvements were made at Condor, which decreased its percentage of cost of products sold from 73% in 2001 to 67% in 2002. Condor's cost of products sold improved primarily as a result of the substantial reduction of its telecommunications related product line, as well as improved manufacturing efficiencies. The remaining business segments had a relatively constant percentage of cost of products sold to sales on a comparative basis from 2002 to 2001.

ENGINEERING AND PRODUCT DEVELOPMENT EXPENSES

Engineering and product development expenses in 2002 were \$7,455,000, a decrease of approximately \$565,000 (or 7%), as compared to 2001. As a percentage of net sales, engineering and product development expenses in 2002 and 2001 were 7% for both years. The decrease of \$565,000 was primarily due to the consolidation of engineering facilities in the Power Electronics Group, which was completed during 2002.

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

Selling, general and administrative expenses in 2002 were \$23,276,000, a decrease of \$842,000, (or 3%,) compared to 2001. As a percentage of net sales, selling, general and administrative expenses in 2002 and 2001 were approximately 21% and 22%, respectively. Included in 2002 are additional accruals for litigation of \$1,100,000, and service fees of \$400,000. In 2001, selling, general and administrative expenses included \$1,300,000 of professional fees related to the possible sale of all or a portion of the Company's business (\$765,000 of which was reversed in 2002), \$700,000 of bank charges incurred as a result of the default of financial covenants under the Former Credit Facility, an increase of \$450,000 in litigation reserves, \$300,000 in expenses associated with the contested election of directors and \$90,000 in consulting costs related to the restructuring of Condor.

DEPRECIATION AND AMORTIZATION EXPENSES

Depreciation and amortization expenses in 2002 were \$2,634,000, a decrease of approximately \$1,036,000 (or 28%), compared to 2001. The reduction in 2002 is due primarily to the Company's

Page 30

reduced asset base and the discontinuance of goodwill amortization. The discontinuance of goodwill amortization, which amounted to \$491,000 for the year ended December 31, 2001, was the result of the adoption of SFAS No.142 during 2002.

RESTRUCTURING COSTS AND IMPAIRMENT CHARGES

At December 31, 2001, the Company had a restructuring reserve of \$1,053,000 related to continuing operations. This restructuring reserve was established in 2001 to provide for anticipated costs associated with the downsizing of Condor. During 2002, the reserve was increased by \$230,000, comprised of \$90,000 for severance payments and \$140,000 for certain exit costs related to the closure of Condor's engineering and sales support office in Brentwood, New York and manufacturing facility in Reynosa, Mexico. All of the restructuring costs were either paid or applied to the write-down of assets during 2002. At December 31,

Edgar Filing: SL INDUSTRIES INC - Form 10-K

2002, no amount remained in the Company's restructuring reserve. A summary of the principal components of the restructuring reserve from December 31, 2001 to December 31, 2002, is as follows:

Restructuring Accrual	December 31, 2001	Increases	(Decreases)	December 31, 2002

(in thousands)				
Facility costs	\$ 654	\$ 15	\$ (669)	\$ --
Asset write-off	250	125	(375)	--
Professional fees	102	--	(102)	--
Other	47	--	(47)	--
Severance	--	90	(90)	--

Total	\$ 1,053	\$ 230	\$ (1,283)	\$ --
=====				

INTEREST INCOME (EXPENSE)

In 2002, interest income was \$25,000, compared to \$153,000 in 2001. Interest expense in 2002 was \$2,256,000, compared to \$3,261,000 in 2001. Included in interest expense in 2002 is the payment of a facility fee in the amount of \$780,000, due to the Company's inability to pay down in full the Former Credit Facility by October 31, 2002. (See Note 10 in the Notes to Consolidated Financial Statements included in Part IV of this Annual Report on Form 10-K). The decrease in interest expense for 2002 is related to significantly reduced debt levels and lower interest rates.

TAXES

The effective tax rate for 2002 was lower than the statutory rate due to the recovery of certain tax benefits not previously recognized combined with benefits received related to foreign sales.

NEW ACCOUNTING PRONOUNCEMENTS TO BE ADOPTED

In January 2003, the FASB issued FASB Interpretation No. 46, "Consolidation of Variable Interest Entities" ("FIN 46"). FIN 46 clarifies the application of Accounting Research Bulletin 51, "Consolidated Financial Statements," for entities that do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties or in which equity investors do not have the characteristics of a controlling financial interest ("variable interest entities"). Variable interest entities within the scope of FIN 46 will be required to be consolidated by their primary beneficiary. The primary beneficiary of a variable interest entity is determined to be the party that absorbs a majority of the entity's expected losses, receives a majority of its expected returns,

or both. FIN 46 applies immediately to variable interest entities created after January 31, 2003, and to variable interest entities in which an enterprise obtains an interest after that date. The Company's operations and financial position have not been affected by the adoption of FIN 46. In December 2003, a modification to FIN 46 was issued ("FIN 46R"), which delayed the effective date until no later than fiscal periods ending after March 15, 2004, and provided

Edgar Filing: SL INDUSTRIES INC - Form 10-K

additional technical clarification to implementation issues. The Company currently does not have any variable interest entities as defined in FIN 46R.

ENVIRONMENTAL

See "Item 3. Legal Proceedings" in Part I of this Annual Report on Form 10-K.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is exposed to market risk from changes in interest and foreign currency exchange rates. Changes in the market interest rate affect both interest paid and earned by the Company. The Company's investments and outstanding debt bear variable interest rates. As of December 31, 2003, debt consists primarily of the Senior Credit Facility, which bears interest at interest rates ranging from prime rate plus fifty basis points to prime rate plus 2%. The Company manufactures some of its products in Mexico and purchases some components in foreign markets. All other foreign market component purchases are primarily invoiced in U.S. dollars. Changes in interest and foreign currency exchange rates did not have a material impact on the reported earnings for 2003 and are not expected to have a material impact on reported earnings for 2004.

See generally, "Item 1. Description of Business - Risk Factors" and "Item 1. Description of Business - Foreign Operations" in Part I of this Annual Report on Form 10-K.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Consolidated Financial Statements and supplementary data, together with the report of Grant Thornton LLP, independent public accountants, are included in Part IV of this Annual Report on Form 10-K.

ITEM 9. CHANGE IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

On July 18, 2002, the Company announced that it dismissed Arthur Andersen LLP as its independent accountants and engaged Grant Thornton LLP as its new independent accountants. The decision to dismiss Arthur Andersen and to engage Grant Thornton LLP was recommended by the Audit Committee of the Board of Directors and approved by the Board of Directors.

Arthur Andersen's report on the Company's financial statements for the year ended December 31, 2001 did not contain an adverse opinion or a disclaimer of opinion, nor were they qualified or modified as to audit scope or accounting principles. However, as a result of an impairment charge related to the write-off of intangible assets of Condor at December 31, 2001, the Company was in violation of its net income covenant for the fourth quarter of 2001 under the Former Credit Facility. Additionally, on March 1, 2002, the Company received a notice from its lenders under the Former Credit Facility stating that it was in default due to its failure to meet a scheduled debt reduction.

Page 32

Consequently, Arthur Andersen's report for the period ended December 31, 2001 dated March 15, 2002 did contain the following paragraph: "The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1 to the consolidated financial statements, the Company was in technical default under its revolving credit facility at December 31, 2001 and an additional event of default occurred on March 1, 2002. Due to these events of default, the lenders that provide the revolving credit facility do not have to provide any further financing and have

Edgar Filing: SL INDUSTRIES INC - Form 10-K

the right to terminate the facility and demand repayment of all amounts outstanding. The existence of these events of default raised substantial doubt about the Company's ability to continue as a going concern."

On January 6, 2003, the Company entered into the Senior Credit Facility, which provides for debt financing for a term of three years. See Note 10 in the Notes to Consolidated Financial Statements included in Part IV of this Annual Report on Form 10-K.

During the Company's fiscal year ended December 31, 2001 and through July 18, 2002, there were no disagreements with Arthur Andersen on any matter of accounting principles or practices, financial statement disclosure or auditing scope or procedure which, if not resolved to Andersen's satisfaction, would have caused them to make reference to the subject matter in connection with their report on the Company's consolidated financial statements for the fiscal year ended December 31, 2001, and there were no reportable events as defined in Item 304(a)(1)(v) of Regulation S-K.

The Company provided Arthur Andersen with a copy of the foregoing disclosures and requested that Arthur Andersen furnish it a letter stating whether it agreed with the statements herein. The Company has not received a response to that letter and has not been able to obtain it after reasonable efforts. Accordingly, pursuant to Item 304T of Regulation S-K, no response from Arthur Andersen is filed as an exhibit hereto.

During the Company's fiscal year ended December 31, 2001, and the subsequent interim periods through July 18, 2002, the Company did not consult with Grant Thornton LLP regarding the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on its consolidated financial statements, or any other matters or events as set forth in Item 304(a)(2)(i) or (ii) of Regulation S-K.

ITEM 9A. CONTROLS AND PROCEDURES

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES: The Company, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the design and operation of the Company's "disclosure controls and procedures," as such term is defined in Rules 13a-15e and 15d-15e promulgated under the Securities Exchange Act of 1934, as amended, of this Annual Report on Form 10-K. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures were effective, except as discussed below, as of the end of the period covered by this Report to provide reasonable assurance that information required to be disclosed by the Company in reports that it files or submits under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms.

During the fourth quarter of 2003, management conducted an extensive review of its consolidation procedures and accounting for investments, in particular as they relate to a German holding company that held the Company's investment in EME. After an extensive review by management, it was determined that a portion of an expected income tax benefit had been recorded twice in 2001, once at the German subsidiary and once at the parent company. Management disclosed this fact to its independent auditors, Grant Thornton LLP. Grant Thornton subsequently verified management's findings and concluded that this was a material weakness in the system of internal controls in periods prior to the fourth quarter of 2003. Management has enhanced the system of internal controls to address this matter. The audit committee of the Company's board of directors has been advised of this matter.

Edgar Filing: SL INDUSTRIES INC - Form 10-K

CHANGES IN INTERNAL CONTROLS: Except as noted above, there have been no changes in internal controls or in other factors that could significantly affect these controls subsequent to the date of their evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

It should be noted that any control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected.

Page 33

ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE COMPANY

Apart from certain information concerning the Company's executive officers, which is set forth in Part I of this Annual Report on Form 10-K, the information required under this Item is incorporated herein by reference to the applicable information in the Proxy Statement for the Company's 2004 Annual Meeting of Shareholders.

ITEM 11. EXECUTIVE COMPENSATION

The information required under this Item is incorporated by reference to the Proxy Statement for the Company's 2004 Annual Meeting of Shareholders.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The information required under this Item is incorporated by reference to the Proxy Statement for the Company's 2004 Annual Meeting of Shareholders.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

The information required under this Item is incorporated by reference to the Proxy Statement for the Company's 2004 Annual Meeting of Shareholders.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

Information regarding the Company's independent auditor fees and services and other information required by Item 14 of Part III of this Report is incorporated herein by reference to the Proxy Statement for the Company's 2004 Annual Meeting of Shareholders.

Page 34

PART IV

ITEM 15. EXHIBITS, FINANCIAL STATEMENT SCHEDULES AND REPORTS ON FORM 8-K

(a) (1) FINANCIAL STATEMENTS

The information required by this Item is included in Item 8 of Part II of this Annual Report on Form 10-K.

(a) (2) FINANCIAL STATEMENT SCHEDULES

Edgar Filing: SL INDUSTRIES INC - Form 10-K

The following financial statement schedule for the years ended December 31, 2003, December 31, 2002, and December 31, 2001 are submitted herewith:

Schedule II - Valuation and Qualifying Accounts

All other schedules are omitted because (a) the required information is shown elsewhere in this Annual Report on Form 10-K, or (b) they are inapplicable, or (c) they are not required.

See Index at page F-1 to Consolidated Financial Statements included in Part IV of this Annual Report on Form 10-K.

(a) (3) EXHIBITS

The information called for by this section is listed in the Exhibit Index of this Annual Report on Form 10-K.

(b) REPORTS ON FORM 8-K

The following reports on Form 8-K were filed by the Company during the quarter ended December 31, 2003:

Current report on Form 8-K filed November 25, 2003 pursuant to Item 2 (Acquisition Or Disposition Of Assets) and Item 9 (Regulation FD Disclosure).

Current report on Form 8-K filed December 12, 2003 pursuant to Item 5 (Other Events).

Page 35

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the Company has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

The Board of Directors and Shareholders

Edgar Filing: SL INDUSTRIES INC - Form 10-K

SL INDUSTRIES, INC.

We have audited the accompanying consolidated balance sheets of SL Industries, Inc. and its subsidiaries (the "Company") as of December 31, 2003 and 2002, and the related consolidated statements of operations, shareholders' equity, and cash flows for each of the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits. The consolidated financial statements of SL Industries, Inc. and its subsidiaries as of and for the years ended December 31, 2001, were audited by other auditors who have ceased operations and whose report dated March 15, 2002 included an explanatory paragraph that described certain uncertainties regarding the Company's ability to continue as a going concern. As discussed in Note 3, the Company has restated its financial statements for the year ended December 31, 2001 in the current year. The other auditors expressed their opinion prior to such restatement.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of SL Industries, Inc. and its subsidiaries at December 31, 2003 and 2002 and the results of their operations and their cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

As discussed in the first paragraph above, the consolidated financial statements of SL Industries, Inc. and its subsidiaries as of December 31, 2001, and for the year then ended were audited by other auditors who have ceased operations. As described in Note 3, the financial statements for December 31, 2002 and 2001 have been restated for an accounting error and to present SL Surface Technologies, Inc. as a discontinued operation. We audited the adjustments described in Note 3 that were applied to restate the 2002 and 2001 financial statements. In our opinion, such adjustments are appropriate and have been properly applied. However, we were not engaged to audit, review, or apply any procedures to the 2001 financial statements of the Company other than with respect to such adjustments and, accordingly, we do not express an opinion or any other form of assurance on the 2001 financial statements taken as a whole.

As discussed in Note 1 to the consolidated financial statements, the Company adopted Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets," on January 1, 2002.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The schedule listed in the index to financial statements and financial statement schedule is presented for purposes of complying with the Securities and Exchange Commission's rules and is not part of the basic financial statements. This schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, fairly states in all material respects the financial data required to be set forth therein in relation to the basic financial statements taken as a whole.

GRANT THORNTON LLP

New York, New York

Edgar Filing: SL INDUSTRIES INC - Form 10-K

March 5, 2004

F-2

THIS IS A COPY OF A PREVIOUSLY ISSUED ARTHUR ANDERSEN LLP REPORT.
THIS REPORT HAS NOT BEEN REISSUED BY ARTHUR ANDERSEN LLP.

THE FINANCIAL STATEMENTS REFERRED TO IN ARTHUR ANDERSEN'S REPORT HAVE BEEN RESTATED SUBSEQUENT TO THE DATE OF THEIR REPORT FOR THE PRESENTATION OF CERTAIN DISCONTINUED OPERATIONS OCCURRING DURING 2003 AND 2002. GRANT THORNTON LLP HAS REPORTED ON THE RESTATEMENT ADJUSTMENTS. SEE GRANT THORNTON'S REPORT ON F-2, INCLUDED HEREIN AND NOTE 3 IN THE NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS INCLUDED IN PART IV OF THIS ANNUAL REPORT ON FORM 10-K.

REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

To SL Industries, Inc.:

We have audited the accompanying consolidated balance sheets of SL Industries, Inc. and subsidiaries as of December 31, 2001 and 2000, and the related consolidated statements of operations, comprehensive income (loss), shareholders' equity and cash flows for the years ended December 31, 2001, and 2000 and July 31, 1999, and for the five months ended December 31, 1999. These financial statements and the schedule referred to below are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of SL Industries, Inc. and subsidiaries as of December 31, 2001 and 2000, and the results of their operations and their cash flows for the years ended December 31, 2001, and 2000 and July 31, 1999, and for the five months ended December 31, 1999 in conformity with accounting principles generally accepted in the United States.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1 to the consolidated financial statements, the Company was in technical default under its revolving credit facility at December 31, 2001 and an additional event of default occurred on March 1, 2002. Due to these events of default, the lenders that provide the revolving credit facility do not have to provide any further financing and have the right to terminate the facility and demand repayment of all amounts outstanding. The existence of these events of default raises substantial doubt about the Company's ability to continue as a going concern. Management's plans in regard to this matter are also described in Note 1. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Edgar Filing: SL INDUSTRIES INC - Form 10-K

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The schedule listed in the index to financial statements and financial statement schedule is presented for purposes of complying with the Securities and Exchange Commission's rules and is not part of the basic financial statements. This schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, fairly states in all material respects the financial data required to be set forth therein in relation to the basic financial statements taken as a whole.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BACKGROUND: SL Industries, Inc. (the "Company"), a New Jersey corporation, through its subsidiaries, designs, manufactures and markets power electronics, power motion, power protection equipment, teleprotection and specialized communication equipment that is used in a variety of medical, aerospace, computer, datacom, industrial, telecom, transportation and electric power utility equipment applications. Its products are incorporated into larger systems to increase operating safety, reliability and efficiency. The Company's products are largely sold to original equipment manufacturers, the electric utility industry, and, to a lesser extent, commercial distributors. The Company's customer base is primarily located in the United States.

LIQUIDITY: On January 6, 2003, the Company entered into a three-year senior secured credit facility (the "Senior Credit Facility") with LaSalle Business Credit LLC. The Senior Credit Facility provides for a revolving loan and two term loans, up to a maximum indebtedness of \$20,000,000. The Senior Credit Facility restricts investments, acquisitions, capital expenditures and dividends. It contains financial covenants relating to minimum levels of net worth, fixed charge coverages and EBITDA levels, as defined. The Company is currently in compliance with all the restrictions and covenants of the Senior Credit Facility (see Note 10). The proceeds at closing from the Senior Credit Facility were used to repay the Company's former credit facility and for working capital needs. At December 31, 2003, the outstanding balance under the Senior Credit Facility was \$2,902,000, with borrowing availability thereunder of

Edgar Filing: SL INDUSTRIES INC - Form 10-K

\$11,128,000. In addition, at December 31, 2003 the Company maintained a cash balance of \$3,501,000.

BASIS OF CONSOLIDATION: The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation.

RECLASSIFICATIONS: Reclassifications, when applicable, are made to the prior year consolidated financial statements to conform with the current year presentation.

CASH EQUIVALENTS: The Company considers all highly liquid debt instruments with an original maturity date of three months or less and investments in money market accounts to be cash equivalents. At December 31, 2003 and December 31, 2002, cash and cash equivalents were held principally at two financial institutions.

REVENUE RECOGNITION: Revenue is recognized when persuasive evidence of an arrangement exists, when title and risk of ownership passes, the sales price is fixed or determined and collectibility is probable. Generally, those criteria are met at the time the product is shipped. Provisions are made at the time the related revenue is recognized for product returns, product warranties, rebates, certain stock scrap programs with distributors and other sales incentives offered by the Company to its customers. Freight revenues billed to customers are included in net sales and expenses for shipping products are included in cost of sales.

ACCOUNTS RECEIVABLE: The Company's accounts receivable primarily consist of trade receivables and are reported net of allowances for doubtful accounts of approximately \$365,000 and \$270,000 for 2003 and 2002, respectively. The Company's estimate for the allowance for doubtful accounts related to trade receivables is based on two methods. The amounts calculated from each of these methods are

F-8

combined to determine the total amount reserved. First, the Company evaluates specific accounts where it has information that the customer may have an inability to meet its financial obligations (bankruptcy, etc.). In these cases, the Company uses its judgment, based on the best available facts and circumstances, and records a specific reserve for that customer against amounts due to reduce the receivable to the amount that is expected to be collected. These specific reserves are reevaluated and adjusted as additional information is received that impacts the amount reserved. Second, a general reserve is established for all customers based on several factors, including historical write-offs as a percentage of sales and anticipated returns related to customer receivables. If circumstances change (e.g., higher than expected defaults or an unexpected material adverse change in a major customer's ability to meet its financial obligation), the Company's estimates of the recoverability of amounts due could be reduced by a material amount.

INVENTORIES: Inventories are valued at the lower of cost or market. Cost is primarily determined using the first-in, first-out ("FIFO") method. Cost for certain inventories is determined using the last-in, first-out ("LIFO") method. The Company ensures inventory is valued at the lower of cost or market, and continually reviews the book value of discontinued product lines to determine if these items are properly valued. The Company identifies these items and assesses the ability to dispose of them at a price greater than cost. If it is determined that cost is less than market value, then cost is used for inventory valuation. If market value is less than cost, then related inventory is set to that value.

Edgar Filing: SL INDUSTRIES INC - Form 10-K

If a write down to the current market value is necessary, the market value cannot be greater than the net realizable value, defined as selling price less costs to complete and dispose and cannot be lower than the net realizable value less a normal profit margin. The Company also continually evaluates the composition of its inventory and identifies slow-moving and excess inventories. Inventory items identified as slow-moving or excess are evaluated to determine if reserves are required. If the Company is not able to achieve its expectations of the net realizable value of the inventory at current value, it would have to adjust its reserves accordingly.

PROPERTY, PLANT AND EQUIPMENT: Property, plant and equipment are carried at cost and include expenditures for new facilities and major renewals and betterments. Maintenance, repairs and minor renewals are charged to expense as incurred. When assets are sold or otherwise disposed of, any gain or loss is recognized currently. Depreciation is provided primarily using the straight-line method over the estimated useful lives of the assets, which range from 25 to 40 years for buildings, 3 to 15 years for equipment and other property, and the lease term for leasehold improvements.

GOODWILL AND OTHER INTANGIBLES: In June 2001, FASB issued Statement of Financial Accounting Standard No. 142, "Goodwill and Other Intangible Assets" ("SFAS No. 142"), which requires that goodwill and certain other intangible assets having indefinite lives and will no longer be amortized to earnings, but instead be subject to periodic testing for impairment. Intangible assets determined to have definitive lives will continue to be amortized over their estimated useful lives. Effective January 1, 2002, the Company adopted SFAS No. 142 and implemented certain provisions, specifically the discontinuation of goodwill amortization, and implemented the remaining provisions during 2002.

LONG-LIVED ASSETS: As of January 1, 2002, the Company adopted Statement of Financial Accounting Standard No. 144 ("SFAS No. 144"), "Accounting for the Impairment or Disposal of Long Lived Assets" ("SFAS No. 144"), which supersedes Statement of Financial Accounting Standard No. 121, "Accounting for the Impairment of Long-lived Assets and for Long-lived Assets to be Disposed of." Accordingly, whenever events or circumstances indicate that the carrying amount of an asset may not be

F-9

recoverable, the Company assesses the recoverability of the asset either by estimated cash flows or independent appraisals.

ENVIRONMENTAL EXPENDITURES: Environmental expenditures that relate to current operations are charged to expense or capitalized, as appropriate. Environmental expenditures that relate to former business units are reported as part of discontinued operations. Liabilities are recorded when remedial efforts are probable and the costs can be reasonably estimated. The liability for remediation expenditures includes elements of costs such as site investigations, consultants' fees, feasibility studies, outside contractor expenses and monitoring expenses. Estimates are not discounted, nor are they reduced by potential claims for recovery from the Company's insurance carriers. The liability is periodically reviewed and adjusted to reflect current remediation progress, prospective estimates of required activity and other relevant factors including changes in technology or regulations.

DEBT ISSUANCE COSTS: Costs incurred in securing long-term debt are deferred and amortized over the term of the related debt, which approximate the interest method of amortization.

PRODUCT WARRANTY COSTS: The Company offers various warranties on its products.

Edgar Filing: SL INDUSTRIES INC - Form 10-K

The Company provides for its estimated future warranty obligations in the period in which the related sale is recognized primarily based on historical experience. For 2003, 2002 and 2001, these costs were \$423,000, \$605,000, and \$727,000, respectively.

ADVERTISING COSTS: Advertising costs are expensed as incurred. For 2003, 2002 and 2001, these costs were \$296,000, \$310,000, and \$416,000, respectively.

RESEARCH AND DEVELOPMENT COSTS: Research and development costs are expensed as incurred. For 2003, 2002 and 2001, these costs were \$2,659,000, \$2,572,000, and \$2,549,000, respectively.

INCOME TAXES: The Company utilizes the asset and liability method of accounting for income taxes. Under this method, deferred tax assets and liabilities are recognized for the expected future tax consequences of temporary differences between the carrying amounts and the tax basis of assets and liabilities. A provision has been made for US and state income taxes for the anticipated repatriation of certain earnings of foreign subsidiaries of the Company. The Company considers the undistributed earnings of its foreign subsidiaries above the amount already provided to be permanently reinvested. As of December 31, 2003, \$694,000 of such undistributed earnings were expected to be permanently reinvested.

FOREIGN CURRENCY CONVERSION: The Company's Mexican subsidiaries' functional currency is U.S. dollars, conversion gains or losses resulting from these foreign currency transactions are included in the accompanying consolidated statements of operations. Through November 2001, a foreign currency loan was used to hedge the value of the investment in the Company's German operating subsidiary. Gains and losses on the translation of this foreign currency loan to U.S. dollars were not included in the statement of operations but shown as a separate component of shareholders' equity. The Company's German subsidiary was sold on January 6, 2003. Accordingly, gains or losses related to its currency translation included in shareholders' equity had been included with the sale of that subsidiary in discontinued operations.

USE OF ESTIMATES: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The most significant areas which require the use of management estimates relate to product warranty costs, accrued liabilities related to litigation, allowance for doubtful accounts, allowance for inventory obsolescence and environmental costs.

F-10

NET INCOME (LOSS) PER COMMON SHARE: The Company determines net income (loss) per share in accordance with Statement of Financial Accounting Standard No. 128 "Earnings per Share." Basic earnings per share is computed by dividing reported earnings available to common shareholders by weighted average shares outstanding. Diluted earnings per share is computed by dividing reported earnings available to common shareholders by weighted average shares outstanding plus the effect of outstanding dilutive stock options, using the treasury method.

The following table reconciles the numerators and denominators of the basic and diluted net income (loss) per common share calculations:

Edgar Filing: SL INDUSTRIES INC - Form 10-K

	Income (loss)	Shares	Per share amount
For the Year Ended December 31, 2003:			
Basic net income per common share	\$ 1,320,000	5,917,000	\$ 0.22
Effect of dilutive securities	--	39,000	--
Dilutive net income per common share	\$ 1,320,000	5,956,000	\$ 0.22
For the Year Ended December 31, 2002:			
Basic net loss per common share	\$ (470,000)	5,867,000	\$ (0.08)
Effect of dilutive securities	--	--	--
Dilutive net loss per common share	\$ (470,000)	5,867,000	\$ (0.08)
For the Year Ended December 31, 2001:			
Basic net loss per common share	\$ (11,379,000)	5,698,000	\$ (2.00)
Effect of dilutive securities	--	--	--
Dilutive net loss per common share	\$ (11,379,000)	5,698,000	\$ (2.00)

For the year ended December 31, 2003, 490,000 stock options were excluded from the dilutive computations because the option exercise prices were greater than the average market price of the Company's common stock. For the years ended December 31, 2002 and December 31, 2001, 533,000 and 1,268,000 stock options, respectively, were excluded from the dilutive computations because their effect would have been anti-dilutive.

STOCK BASED COMPENSATION: The Company applies Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees," ("APB Opinion No. 25") and related interpretations in accounting for its plans and complies with the disclosure provisions of Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation" ("SFAS No. 123"). Under APB Opinion No. 25, compensation expense is measured as the excess, if any, of the fair value of the Company's common stock at the date of the grant over the amount a grantee must pay to acquire the stock. The Company's stock option plans enable the Company to grant options with an exercise price not less than the fair value of the Company's common stock at the date of the grant. However, the Company has recognized approximately \$290,000 in compensation expense related to stock option arrangements.

Had compensation cost for the Company's stock option plans been determined based upon the fair value at the grant date for awards under these plans consistent with the methodology prescribed under SFAS No. 123, "Accounting for Stock-Based Compensation," the Company's net income (loss) and net income (loss) per common share would have been as follows:

F-11

	Year Ended December 31, 2003	Year Ended December 31, 2002	Y De
Net income (loss), as reported	\$ 1,320,000	\$ (470,000)	\$

Edgar Filing: SL INDUSTRIES INC - Form 10-K

Add: Stock-based employee compensation expense included in reported net income, net of related tax effects

--

--

Deduct: Total stock-based employee compensation expense determined under fair value based method for awards granted, modified, or settled, net of related tax effects

(612,000)

(684,000)

Pro forma net income (loss)

\$ 708,000 \$ (1,154,000) \$

Earnings (loss) per share:

Basic - as reported

\$ 0.22 \$ (0.08) \$

Basic - pro forma

\$ 0.12 \$ (0.20) \$

Diluted - as reported

\$ 0.22 \$ (0.08) \$

Diluted - pro forma

\$ 0.12 \$ (0.20) \$

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model with the following weighted average assumptions:

	Year Ended December 31, 2003	Year Ended December 31, 2002	Year Ended December 31, 2001
Expected dividend yield	0.0%	0.0%	0.0%
Expected stock price volatility	66.18%	62.55%	45.95%
Risk-free interest rate	2.69%	4.28%	5.0%
Expected life of stock option	5 years	5 years	7 years

RECENT ACCOUNTING PRONOUNCEMENTS: In August 2001, the FASB issued SFAS No. 143, "Accounting for Asset Retirement Obligations" ("SFAS No. 143"), which provides the accounting requirements for retirement obligations associated with tangible long-lived assets. This statement requires entities to record the fair value of a liability for an asset retirement obligation in the period in which it is incurred. At the beginning of the year 2003, the Company adopted this statement, which did not have an impact on its consolidated financial position or results of operations.

In April 2002, the FASB adopted SFAS No. 145, "Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections" ("SFAS No. 145"). This Statement rescinds SFAS No. 4, "Reporting Gains and Losses from Extinguishment of Debt," and amends, SFAS No. 64, "Extinguishments of Debt Made to Satisfy Sinking-Fund Requirements." This

F-12

Statement also rescinds SFAS No. 44, "Accounting for Intangible Assets of Motor Carriers" and amends SFAS No. 13, "Accounting for Leases," to eliminate an inconsistency between the required accounting for sale-leaseback transactions

Edgar Filing: SL INDUSTRIES INC - Form 10-K

and the required accounting for certain lease modifications that have economic effects that are similar to sale-leaseback transactions. This Statement also amends other existing authoritative pronouncements to make various technical corrections, clarify meanings, or describe their applicability under changed conditions. SFAS No. 145 is effective for fiscal years beginning after May 15, 2002. At the beginning of the year 2003, the Company adopted the provisions of this statement, which did not have an impact on its consolidated financial position or results of operations.

In June 2002, the FASB issued SFAS No. 146, "Accounting for Costs Associated with Exit or Disposal Activities" ("SFAS No. 146"). This Statement addresses financial accounting and reporting for costs associated with exit or disposal activities and nullifies Emerging Issues Task Force (EITF) Issues No. 94-3, "Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring)" ("Issue 94-3"). The principal difference between this Statement and Issue 94-3 relates to its requirements for recognition of a liability for a cost associated with an exit or disposal activity be recognized when the liability is incurred. Under Issue 94-3, a liability for an exit cost as defined in Issue 94-3 was recognized at the date of an entity's commitment to an exit plan. The provisions of this Statement are effective for exit or disposal activities that are initiated after December 31, 2002. At the beginning of the year 2003, the Company adopted the provisions of this statement, which did not have an impact on the Company's financial position.

In November 2002, the FASB issued FASB Interpretation No. 45, "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others" ("FIN 45"). FIN 45 requires that the liability be recorded in the guarantor's balance sheet upon the issuance of a guarantee. In addition, FIN 45 requires disclosure about the guarantees that an entity has issued, including a reconciliation of changes in the entity's product warranty liabilities (see Note 11). The initial recognition and initial measurement provisions of FIN 45 are applicable on a prospective basis to guarantees issued or modified after December 31, 2002. The disclosure requirements of FIN 45 are effective for financial statements of interim or annual periods ending after December 15, 2002. The Company has adopted the provisions of FIN 45, which did not have an impact on its consolidated financial position or results of operations.

In January 2003, the FASB issued FASB Interpretation No. 46, "Consolidation of Variable Interest Entities" ("FIN 46"). FIN 46 clarifies the application of Accounting Research Bulletin 51, "Consolidated Financial Statements," for entities that do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties or in which equity investors do not have the characteristics of a controlling financial interest ("variable interest entities"). Variable interest entities within the scope of FIN 46 will be required to be consolidated by their primary beneficiary. The primary beneficiary of a variable interest entity is determined to be the party that absorbs a majority of the entity's expected losses, receives a majority of its expected returns, or both. FIN 46 applies immediately to variable interest entities created after January 31, 2003, and to variable interest entities in which an enterprise obtains an interest after that date. It applies in the first fiscal year or interim period beginning after December 15, 2003, to variable interest entities in which an enterprise holds a variable interest that it acquired before February 1, 2003. The Company has determined that adoption of the provisions of FIN 46 did not have an impact on its consolidated financial position or results of operations. In December 2003, a modification to FIN 46 was issued ("FIN 46R") which delayed the effective date until no later than fiscal periods ending after March 15, 2004 and

Edgar Filing: SL INDUSTRIES INC - Form 10-K

provided additional technical clarification to implementation issues. The Company currently does not have any variable interest entities as defined in FIN 46R.

In November 2002, the EITF reached a consensus on Issue No. 00-21, "Revenue Arrangements with Multiple Deliverables," ("Issue No. 00-21") which requires the revenue from sales with multiple deliverables be accounted for based on a determination of whether the multiple deliverables qualify to be accounted for as separate units of accounting. The consensus is effective prospectively for arrangements entered into in fiscal periods beginning after June 15, 2003. The Company has determined that adoption of Issue No. 00-21 did not have a material impact on its consolidated financial position or results of operations.

In April 2003, FASB issued SFAS No. 149, "Amendment of Statement 133 on Derivative Instruments and Hedging Activities" ("SFAS No. 149"), which clarifies financial accounting and reporting for derivative instruments, including certain derivative instruments embedded in other contracts (collectively referred to as derivatives) and for hedging activities under SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities" ("SFAS No. 133"). SFAS No. 149 is effective prospectively for contracts entered into or modified after June 30, 2003, and for hedging relationships designated after June 30, 2003. The exception to these requirements are the provisions of SFAS No. 149 related to SFAS No. 133 implementation issues that have been effective for fiscal quarters that began prior to June 15, 2003, and should continue to be applied in accordance with their respective effective dates. In addition, paragraphs 7(a) and 23(a), which relate to forward purchases or sales of when-issued securities or other securities that do not yet exist, should be applied to both existing contracts and new contracts entered into after June 30, 2003. Adoption of SFAS No. 149 had no impact on the Company's consolidated financial position or results of operations.

NOTE 2. BUSINESS ACQUISITIONS

RFL ELECTRONICS INC.

On May 11, 1999, the Company acquired 100% of the issued and outstanding shares of capital stock of RFL Electronics Inc. ("RFL"). The Company paid \$11,387,000 in cash and issued \$75,000 of promissory notes. In addition, in fiscal 1999 the Company paid a contingent payment of \$1,000,000 based upon the financial performance of RFL for its fiscal year ended March 31, 1999. RFL is a leading supplier of teleprotection and specialized communication equipment. The acquisition was accounted for using the purchase method. Accordingly, the aggregate purchase price was allocated to the net assets acquired based on their respective fair values at the date of acquisition. The excess of the aggregate purchase price over the fair value of net tangible assets acquired of \$5,838,000 has been allocated to goodwill and was being amortized on a straight-line basis over 30 years through December 31, 2001. The results of operations of RFL, since the acquisition date, are included in the accompanying consolidated financial statements.

CONDOR D.C. POWER SUPPLIES, INC.

On July 27, 1999, Condor D.C. Power Supplies, Inc. ("Condor"), a wholly-owned subsidiary of the Company, acquired certain of the net operating assets of Todd Products Corporation and Todd Power Corporation (together, "Todd Products"). The Company paid \$7,430,000 comprised of \$3,700,000 in cash and assumption of debt equal to approximately \$3,730,000. Condor also entered into a ten-year consulting agreement with the chief executive officer of Todd Products for an aggregate consulting fee of \$1,275,000 to be paid in quarterly installments over three years. Todd Products was a leading supplier of high quality power supplies

Edgar Filing: SL INDUSTRIES INC - Form 10-K

to the datacom, telecommunications and computer industries. The acquisition was accounted for using the purchase method. Accordingly, the aggregate purchase price was

F-14

allocated to the net assets acquired, based on their respective fair values at the date of acquisition. The excess of the aggregate purchase price over the fair value of net tangible assets acquired of \$4,665,000, with \$3,390,000 allocated to goodwill and \$1,275,000 allocated to the consulting agreement. During 2001, an evaluation of the remaining value of the Company's goodwill and the consulting agreement related to Todd Products was undertaken, resulting in the write-off of the remaining unamortized balance of \$4,145,000 due to the impairment of assets, including the consulting agreement acquired in connection with the acquisition of Todd Products (see Notes 16 and 18).

NOTE 3. DISCONTINUED OPERATIONS AND RESTATEMENT

SL WABER - Discontinued Operations

Effective August 27, 2001, substantially all of the assets of SL Waber, Inc. ("SL Waber") and the stock of Waber de Mexico S.A. de C.V. were sold for approximately \$1,053,000. As part of this transaction, the purchaser acquired the rights to the SL Waber name and assumed certain liabilities and obligations of SL Waber. Subsequent to the sale, the Company changed the name of SL Waber to SLW Holdings, Inc. ("SLW Holdings"). The net income or losses of this subsidiary are included in the consolidated statements of operations under discontinued operations for all periods presented. There was no activity from operations of SLW Holdings during the fourth quarter of 2001 and hereafter. Net sales from discontinued operations for the year ended 2001 was \$10,316,000. The after-tax operating loss from discontinued operations for 2001 was \$3,947,000. The provision for income or loss from discontinued operations reflected in the accompanying consolidated statements of operations includes the loss recognized in 2001 from the sale of the assets of SL Waber of \$2,745,000 and the income or losses of the subsidiary's operations during all periods presented through December 31, 2001, net of the expected tax benefits applicable thereto.

ELEKTRO-METALL EXPORT GMBH - Discontinued Operations

On January 6, 2003, the Company sold its wholly-owned, indirect German subsidiary, Elektro-Metall Export GmbH ("EME"). EME is a producer of electronic actuation devices and cable harness systems sold to original equipment manufacturers in the aerospace and automotive industries. Its operations are located in Ingolstadt, Germany and Paks, Hungary. In consideration for 100% of the issued and outstanding capital stock of EME, the purchaser paid \$8,000,000, consisting of cash of \$4,000,000 paid at closing and \$4,000,000 of purchaser notes. In addition, EME made a distribution of \$2,000,000 to the Company prior to closing. The purchaser notes are comprised of a \$3,000,000 secured note that bore interest at the prime rate plus 2%, which was paid on March 14, 2003, and a \$1,000,000 unsecured note that bears interest at an annual rate of 12% and matures April 3, 2004.

In December 2002, the Board of Directors authorized the sale of EME, which was a separate reportable segment of the Company. EME is distinguishable as a component of the Company and met the criteria as held for sale under SFAS 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." Accordingly, related operating results of EME have been reported as discontinued operations for the years ended December 31, 2002 and 2001. At December 31, 2002, the Company recorded a provision of \$1,631,000 (\$.28 per share), net of related income taxes, to reduce the carrying value of EME to its fair value less costs

Edgar Filing: SL INDUSTRIES INC - Form 10-K

to dispose.

F-15

Revenue and net income before income taxes from the discontinued operations of EME (exclusive of the impairment provision) were as follows:

	Years Ended December 31,	
	2002	2001
	(in thousands)	
Revenues	\$ 27,658	\$ 25,610
Net income before income taxes	\$ 3,049	\$ 3,436
	=====	

EME - RESTATEMENTS

During the fourth quarter of 2003, the Company identified an accounting error that requires restatement related to its consolidated statement of operations for the year ended December 31, 2001 and the consolidated balance sheet for the year ended December 31, 2002. This matter relates to an income tax benefit of \$729,000 and recoverable income tax asset recorded in 2001 related to EME. EME was sold on January 6, 2003, and has been classified as discontinued operations for all periods presented. The above adjustment is currently reflected in discontinued operations for 2001. The effect of the adjustment on the December 31, 2002 consolidated balance sheet was not material. The prior periods affected have also been restated to reflect the sale of SurfTech, which has been reclassified as discontinued operations for all periods presented, in accordance with the provisions of SFAS 144. Below is a summary of the correction:

	As previously reported	Restated
Net loss	\$ 10,650,000	\$ 11,379,000
Recoverable income taxes	4,355,000	3,626,000

SL SURFACE TECHNOLOGIES, INC. - Discontinued Operations

During the third quarter of 2003, the Company completed a strategic review of its subsidiary, SL Surface Technologies, Inc. ("SurfTech"). As a result of that review, an impairment charge of \$703,000 was recorded during the quarter ending September 30, 2003. Included in the \$703,000 is a charge of \$275,000, which was recorded against the carrying value of the real property where SurfTech conducted operations, as determined by an independent third party appraiser. An impairment charge of \$428,000 was also recorded during that quarter against certain machinery and equipment being utilized by SurfTech.

On November 24, 2003, the Company sold the operating assets of SurfTech. The sale included current assets and equipment used by SurfTech. The purchaser paid \$600,000 in cash, plus the assumption of certain liabilities. The Company continues to own the land and building on which SurfTech's operations were conducted, and has entered into a ten year lease with the buyer. As a result of

Edgar Filing: SL INDUSTRIES INC - Form 10-K

the sale, the Company recorded an after tax loss of \$442,000, which included severance, closing costs and a required contribution to a union pension plan discussed more fully below. In addition, as a result of the sale, the Company reclassified the \$428,000 asset impairment charge described above as part of discontinued operations.

SurfTech had made contributions, based on rates per hour, as specified in two union agreements, to two union-administered defined benefit multi-employer pension plans. Under the multi-employer Pension Plan Amendments Act of 1980, an employer is liable upon withdrawal from or termination of a multi-employer plan for its proportionate share of the plan's unfunded vested benefits liability. During 2003 the Company withdrew from both plans and recorded a total charge of \$684,000 regarding the Company's withdrawal from the two plans.

F-16

Revenue and net income before income taxes from the discontinued operations of SurfTech (exclusive of the loss on the sale of net assets) were as follows:

	Years Ended December 31,		
	2003	2002	2001
	(in thousands)		
Revenues	\$ 1,840	\$ 2,237	\$ 3,087
Net (loss) before income taxes	\$ (2,941)	\$ (1,994)	\$ (1,423)

The following table represents the restatement required to present EME and SurfTech as a discontinued operation for the periods presented.

NOTE 4. INCOME TAXES

Income (loss) from continuing operations before provision for income taxes consists of the following:

	Years Ended December 31,		
	2003	2002 (as adjusted)	2001 (as adjusted)
	(in thousands)		
U.S.	\$ 5,724	\$ 407	\$ (13,972)
Non-U.S.	299	474	1,949
	\$ 6,023	\$ 881	\$ (12,023)

The provision (benefit) for income taxes from continuing operations consists of the following:

	Years Ended December 31,		
	2003	2002 (as adjusted)	2001 (as adjusted)
	(in thousands)		

Current:

Edgar Filing: SL INDUSTRIES INC - Form 10-K

Federal	\$	32	\$	(691)	\$	367
International		144		283		636
State		158		30		487
Deferred:						
Federal		1,576		567		(4,176)
International		--		--		--
State		371		(109)		(885)
	\$	2,281	\$	80	\$	(3,571)

The pre-tax domestic loss incurred in 2002 was carried back to prior years resulting in recoverable income taxes of approximately \$1,992,000.

Income tax benefits related to discontinued operations for 2003 and 2001 were \$1,097,000 and \$1,065,000, respectively. The provision for income taxes related to discontinued operations for 2002 was \$113,000.

Significant components of the Company's deferred tax assets and liabilities as of December 31, 2003 and December 31, 2002 are as follows:

F-19

	December 31, 2003	December 31, 2002 (as adjusted)
	(in thousands)	
Deferred Tax Assets:		
Deferred compensation	\$ 1,836	\$ 1,836
Inventory valuation	925	1,000
Tax loss carryforwards	701	1,100
Tax credit carryforwards	1,427	900
Other	964	3,300
	5,853	8,336
Less valuation allowances	(352)	(352)
	5,501	8,284
Deferred Tax Liabilities:		
Accelerated depreciation and amortization	803	900
	4,698	7,384
Assets and Liabilities Related to Discontinued Operations, net	1,557	400
	\$ 6,255	\$ 7,868

As of December 31, 2003, the Company had net operating loss carryforwards for both U.S. federal and state income tax purposes. As of December 31, 2003, the Company's net operating loss carryforwards were \$1,705,000 for U.S. federal income tax purposes. These losses can be carried forward 20 years and will expire in 2022.

Edgar Filing: SL INDUSTRIES INC - Form 10-K

The tax benefits of the U.S. Federal loss carryforwards at the current statutory rate were \$580,000 as of December 31, 2003. The tax benefits of the state loss carryforwards at the current statutory rates were \$121,000. The tax benefits for state loss carryforwards will begin expiring in 2012.

As of December 31, 2003 and December 31, 2002, the Company's gross foreign tax credits totaled approximately \$1,167,000 and \$911,000, respectively. These credits can be carried forward for five years, and will expire between 2004 and 2008.

The Company has assessed its past earnings history and trends, sales backlog, budgeted sales, and expiration dates of tax carryforwards and has determined that it is more likely than not that the \$6,255,000 of net deferred tax assets as of December 31, 2003 will be realized. The Company has an allowance of \$352,000 provided against the gross deferred tax asset.

F-20

Following is a reconciliation of income tax expense (benefit) at the applicable federal statutory rate and the effective rates:

	Years Ended December 31,		
	2003	2002 (as adjusted)	2001 (as adjusted)
Statutory rate	34%	34%	(34%)
Tax rate differential on Foreign Sales Corporation/Extraterritorial Income Exclusion benefit earnings	(2)	(15)	1
International rate differences	1	8	--
State income taxes, net of federal income tax	5	--	(2)
Taxable gain from surrender of life insurance policies	--	--	9
Other	--	(18)	(4)
	38%	9%	(30%)

NOTE 5. RECEIVABLES

Receivables consist of the following:

	December 31, 2003	December 31, 2002 (as adjusted)
	(in thousands)	
Trade receivables	\$ 12,656	\$ 13,874
Less allowances for doubtful accounts	(365)	(270)
	12,291	13,604

Edgar Filing: SL INDUSTRIES INC - Form 10-K

Recoverable income taxes	406	1,992
Other	367	1,976
	-----	-----
	\$ 13,064	\$ 17,572
	=====	=====

Recoverable income taxes of \$1,949,000 were received during 2003 along with \$1,654,000 recorded as other receivables, primarily related to tax refunds from EME.

NOTE 6. CONCENTRATIONS OF CREDIT RISK

Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of temporary cash investments and trade receivables. The Company places its temporary cash investments with high credit quality financial institutions. Concentrations of credit risk with respect to trade receivables are limited due to the large number of customers comprising the Company's customer base, and their dispersion across many industries and geographic regions.

F-21

NOTE 7. INVENTORIES

Inventories consist of the following:

	December 31, 2003	December 31, 2002 (as adjusted)
	-----	-----
	(in thousands)	
Raw materials	\$ 8,384	\$ 9,924
Work in process	3,769	4,014
Finished goods	1,494	2,367
	-----	-----
	13,647	16,305
Less allowances	(2,638)	(2,585)
	-----	-----
	\$ 11,009	\$ 13,720
	=====	=====

The above includes certain inventories, which are valued using the LIFO method, which aggregated \$3,307,000 and \$3,469,000 as of December 31, 2003 and December 31, 2002, respectively. The excess of FIFO cost over LIFO cost as of December 31, 2003 and December 31, 2002 was approximately \$457,000 and \$265,000, respectively.

NOTE 8. PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment consist of the following:

	December 31, 2003	December 31, 2002 (as adjusted)
	-----	-----

Edgar Filing: SL INDUSTRIES INC - Form 10-K

	-----	-----
	(in thousands)

Other	501	476	25	501	
	-----	-----	-----	-----	-----
Other Intangible Assets	2,479	1,499	980	5,341	4
	-----	-----	-----	-----	-----
	\$ 14,646	\$ 3,363	\$ 11,283	\$ 17,508	\$ 6
	=====	=====	=====	=====	=====

The Company conducted its initial test for impairment of goodwill and other intangible assets in the second quarter of 2002. The Company allocated its adjusted goodwill balance to its reporting units and conducted the transitional impairment tests required by SFAS No. 142. The fair values of the reporting units were estimated using a combination of the expected present values of future cash flows and an assessment of comparable market values. No impairment charges were recorded as a result of the initial impairment test. The Company also tested goodwill for impairment in the fourth quarter of 2002 and recorded a charge to reduce goodwill in the amount of \$556,000 related to SurfTech. This charge has been reclassified to discontinued operations for fiscal 2002. There were no impairment charges related to goodwill and intangible assets recorded during 2003.

In addition, the goodwill related to EME in the amount of \$2,431,000 was included in the basis of the loss calculation related to the sale of that subsidiary, classified as discontinued operations. The assets and liabilities of EME are classified as held for sale for the period ended December 31, 2002 and are excluded from the intangible asset table.

Edgar Filing: SL INDUSTRIES INC - Form 10-K

The other intangible assets are all amortizable and have original estimated useful lives as follows: patents are amortized over approximately 13 years and trademarks over approximately 25 years. Amortization expense for intangible assets subject to amortization in each of the next five fiscal years is estimated to be \$111,000 per year.

Amortization expense for 2003, 2002, and 2001 was \$113,000, \$431,000 and \$398,000, respectively.

The following table reflects the adjustment to exclude goodwill amortization expense (including related tax effects) recognized in the prior periods as presented (in thousands, except per share amounts):

F-23

	Years Ended December 31,		
	2003	2002 (as adjusted)	2001 (as adjusted)
	-----	-----	-----

Long term debt	\$ 2,015	\$ --
	=====	=====

During 2002, the Company was a party to a Second Amended and Restated Credit Agreement dated as of December 13, 2001, as amended (the "Former Credit Facility"), that allowed the Company to borrow for working capital and other purposes. The Former Credit Facility contained certain financial and non-financial covenants, including requirements for certain minimum levels of net income and a minimum fixed charge coverage ratio, as defined therein, on a quarterly basis.

The Former Credit Facility provided for payment of a facility fee of \$780,000 in the event that it was not paid in full by October 31, 2002. The Company paid the facility fee on November 4, 2002. The Company recorded the facility fee as interest expense during 2002.

As of December 31, 2002, outstanding borrowings under the Former Credit Facility were \$17,557,000. The weighted average interest rate on borrowings during 2002 was 6.56% (weighted average interest rate was 10.01% after factoring in the facility fee of \$780,000). The Former Credit Facility matured on December 31, 2002. The Company did not retire the Former Credit Facility until January 6, 2003, and therefore, was in technical default thereunder at December 31, 2002.

On January 6, 2003, the Company entered into the Senior Credit Facility with LaSalle Business Credit LLC. The Senior Credit Facility provides for a revolving loan and two term loans, up to a maximum indebtedness of \$20,000,000. The revolving loan of up to \$16,810,000 is based upon eligible receivables and inventory and an original overadvance amount of \$1,500,000, which is reduced pro-rata over a two-year term. The two term loans of \$2,350,000 and \$840,000 are paid down over a three-year

F-24

term. The Senior Credit Facility restricts investments, acquisitions, capital expenditures and dividends. The Senior Credit Facility contains financial covenants relating to minimum levels of net worth, fixed charge coverages, "EBITDA" levels and maximum levels of capital expenditures, as defined. The Company is currently in compliance with all the restrictions and covenants of the Senior Credit Facility. The Senior Credit Facility bears interest ranging from the prime rate plus fifty basis (.5%) points to the prime rate plus 2%. The Senior Credit Facility is secured by all of the Company's assets. The Senior Credit Facility also provides for certain reserves for outstanding letters of credit and other contingencies, which have reduced the Company's availability under the revolving loan portion of the Senior Credit Facility. At December 31, 2003, the outstanding revolving loan balance was \$327,000 and the outstanding term loan balances were \$1,992,000 and \$583,000, or a total of \$2,902,000. Availability under the Senior Credit Facility at December 31, 2003 was \$11,128,000.

The schedule of payments on long-term debt is as follows:

	December 31, 2003

	(in thousands)
2004	\$ 887
2005	560

Edgar Filing: SL INDUSTRIES INC - Form 10-K

2006	1,455

	\$ 2,902
Less-current portion	887

Total long-term debt	\$ 2,015
	=====

The weighted average interest rate on borrowings during 2003 was 5.09%.

NOTE 11. ACCRUED LIABILITIES AND OTHER

Accrued liabilities and other consist of the following:

	December 31, 2003	December 31, 2002 (as adjusted)
	-----	-----
	(in thousands)	
Taxes other than income and insurance	\$ 1,062	\$ 972
Commissions	484	371
Accrued litigation and legal	1,109	1,391
Professional fees and other expenses	269	1,171
Financing costs	---	714
Environmental	957	875
Warranty	915	897
Other	606	1,079
	-----	-----
	\$ 5,402	\$ 7,470
	=====	=====

Included in professional fees and financing costs above are costs related to the Company's refinancing of its debt (Note 10), which were paid in 2003. Included in the environmental accrual are estimates for all known costs believed to be probable for sites, which the Company currently operates or had operated at one time and which are explained more fully under Environmental (Note 13).

F-25

A summary of the Company's warranty reserve for 2003 and 2002 are as follows:

	December 31, 2003	December 31, 2002 (as adjusted)

	(in thousands)	
Liability, beginning of year	\$ 897	\$ 898
Expense for new warranties issued	423	605
Expense related to accrual revisions for prior year warranties	-	(341)
Warranty claims	(405)	(265)

Edgar Filing: SL INDUSTRIES INC - Form 10-K

	-----	-----
Liability, end of year	\$ 915	\$ 897
	=====	=====

NOTE 12. RETIREMENT PLANS AND DEFERRED COMPENSATION

The Company maintains three noncontributory defined contribution pension plans covering substantially all employees. The Company's contributions to these plans are based on a percentage of employee elective contributions and, in one plan, plan year gross wages, as defined. Contributions to plans maintained by Teal Electronics Corporation ("Teal") and RFL are based on a percentage of employee elective contributions. RFL has also made a profit sharing contribution annually. Costs incurred under these plans during 2003, 2002 and 2001 amounted to approximately \$1,131,000, \$1,232,000 and \$1,302,000, respectively.

The Company has agreements with certain active and retired directors, officers and key employees providing for supplemental retirement benefits. The liability for supplemental retirement benefits is based on the most recent mortality tables available and discount rates of 6% to 12%. The amount charged to income in connection with these agreements amounted to \$411,000, \$334,000 and \$396,000, for 2003, 2002 and 2001, respectively.

The Company is the owner and beneficiary of life insurance policies on the lives of some of the participants having a deferred compensation or supplemental retirement agreement. As of December 31, 2003, the aggregate death benefit totaled \$636,000, with the corresponding cash surrender value of all policies totaling \$254,000.

As of December 31, 2001, life insurance policies with a cash surrender value of approximately \$11,109,000 were surrendered to the life insurance company in exchange for the cash proceeds from the build up of cash surrender value in the policies. In December 2001 and January 2002, the Company received approximately \$880,000 and \$10,229,000, respectively, from the surrender of these policies. These funds were used to pay down bank debt.

As of December 31, 2003, certain agreements may restrict the Company from utilizing cash surrender value of certain life insurance policies totaling approximately \$254,000 for purposes other than the satisfaction of the specific underlying deferred compensation agreements, if benefits are not paid by the Company. The Company nets the dividends realized from the life insurance policies with premium expenses. Net credits (expenses) included in income in connection with the policies amounted to \$0, (\$18,000) and \$789,000 for 2003, 2002 and 2001, respectively.

F-26

NOTE 13. COMMITMENTS AND CONTINGENCIES

The Company leases certain facilities, equipment and vehicles from third parties that expire through 2007. The minimum rental commitments as of December 31, 2003 are as follows:

	Operating	Capital
	-----	-----
	(in thousands)	
2004	\$ 1,344	\$ 170

Edgar Filing: SL INDUSTRIES INC - Form 10-K

2005	833	168
2006	716	153
2007	185	58
2008	-	-
Thereafter	-	-
	-----	-----
Total minimum payments	\$ 3,078	\$ 549
	-----	-----
Less: interest on capital leases		(82)

Total principal payable on capital leases		\$467
		=====

For 2003, 2002 and 2001, rental expense applicable to continuing operations aggregated approximately \$1,394,000, \$1,027,000, and \$1,348,000, respectively.

LETTERS OF CREDIT: As of December 31, 2003 and 2002, the Company was contingently liable for \$604,000 under an outstanding letter of credit issued for casualty insurance requirements.

LITIGATION: In the ordinary course of its business, the Company is subject to loss contingencies pursuant to foreign and domestic federal, state and local governmental laws and regulations and is also party to certain legal actions, which may occur in the normal operations of the Company's business. It is management's opinion that the impact of these legal actions will not have a material adverse effect on the consolidated financial position or results of operations of the Company.

The Company's subsidiary, SL Montevideo Technology, Inc. ("SL-MTI"), defended a cause of action, brought against it in the fall of 2000, in the federal district court for the western district of Michigan. The lawsuit was filed by a customer, Eaton Aerospace, Inc. ("Eaton"), alleging breach of contract and warranty in the defective design and manufacture of a high precision motor and demanding compensatory damages of approximately \$3,900,000. On November 7, 2002, after a full trial of the facts, a jury awarded Eaton damages of \$650,000, which when combined with pre-trial interest brings the total claim to \$780,000 which is fully reserved. Eaton is appealing the decision.

On June 12, 2002, the Company and SurfTech were served with notice of class action complaint filed in Superior Court of New Jersey for Camden County. The Company and SurfTech are currently two of approximately 39 defendants in this action. The complaint alleges, among other things, that plaintiffs suffered personal injuries as a result of consuming water distributed from the Puchack Wellfield in Pennsauken, New Jersey (which supplies Camden, New Jersey).

This case arises from the same factual circumstances as current administrative actions involving the Puchack Wellfield, to which the Company is a party. The administrative actions are discussed below. The administrative actions and the class action lawsuit both allege that SurfTech and other defendants contaminated ground water through the disposal of hazardous substances at industrial facilities in the area. SurfTech once operated a chrome-plating facility in Pennsauken, New Jersey (the "SurfTech Site").

F-27

As with the administrative actions, the Company believes it has significant defenses against the class action plaintiff's claims and intends to pursue them vigorously. Technical data generated as part of remedial activities at the SurfTech Site have not established offsite migration of contaminants. Based on

Edgar Filing: SL INDUSTRIES INC - Form 10-K

this and other technical factors, the Company has been advised by its outside counsel that it has a strong defense against the claims alleged in the class action plaintiffs' complaint, as well as the environmental administrative actions.

It is management's opinion that the impact of legal actions brought against the Company and its operations will not have a material adverse effect on its financial position or results of operations. However, the ultimate outcome of these matters, as with litigation generally, is inherently uncertain, and it is possible that some of these matters may be resolved adversely to the Company. The adverse resolution of any one or more of these matters could have a material adverse effect on the business, operating results, financial condition or cash flows of the Company.

ENVIRONMENTAL: Loss contingencies include potential obligations to investigate and eliminate or mitigate the effects on the environment of the disposal or release of certain chemical substances at various sites, such as Superfund sites and other facilities, whether or not they are currently in operation. The Company is currently participating in environmental assessments and cleanups at a number of sites under these laws and may in the future be involved in additional environmental assessments and cleanups. Based upon investigations completed by the Company and its independent engineering consulting firms to date, management has provided an estimated accrual for all known costs believed to be probable in the amount of \$957,000. However, it is in the nature of environmental contingencies that other circumstances might arise, the costs of which are indeterminable at this time due to such factors as changing government regulations and stricter standards, the unknown magnitude of defense and cleanup costs, the unknown timing and extent of the remedial actions that may be required, the determination of the Company's liability in proportion to other responsible parties, and the extent, if any, to which such costs are recoverable from other parties or from insurance. Although these contingencies could result in additional expenses or judgments, or off-sets thereto, at present such expenses or judgments are not expected to have a material effect on the consolidated financial position or results of operations of the Company. Substantially all of the Company's environmental costs relate to discontinued operations and all such costs have been recorded in discontinued operations.

The Company is the subject of various other lawsuits and actions relating to environmental issues, including an administrative action in connection with the SurfTech Site, which could subject the Company to, among other things, \$9,266,000 in collective reimbursements (with other parties) to the New Jersey Department of Environmental Protection (the "NJDEP"). The Company believes that it has significant defenses against all or any part of the claim and that any material impact is unlikely.

The Company has reported a ground water contamination plume on its property in Camden, New Jersey. In January 2003, the Company submitted to the NJDEP a plan to remediate the site, which is currently under review. Based upon the preliminary evidence, the Company was advised that the cost to remediate the site could amount to \$500,000. The Company recorded a provision for this amount during the first quarter of 2002, which is now recorded as part of discontinued operations.

The Company is investigating possible soil and ground water contamination on SL-MTI's property in Montevideo, Minnesota. Based upon the preliminary evidence, the Company does not believe it will incur material remediation costs at this site.

The Company filed claims with several of its insurers seeking reimbursement for

Edgar Filing: SL INDUSTRIES INC - Form 10-K

past and future environmental costs. In settlement of its claims, the Company received aggregate cash payments of \$2,400,000 prior to fiscal 1998 and commitments from three insurers to pay for a portion of environmental costs associated with the SurfTech Site of 15% of costs up to \$300,000, 15% of costs up to \$150,000 and 20% of costs up to \$400,000, respectively. In addition, the Company received \$100,000 per year during fiscal 1998, 1999, 2000 and 2001, as stipulated in the settlement agreement negotiated with one of the three insurers. As of December 31, 2003 and 2002, the remaining environmental accruals of \$957,000 and \$875,000, respectively, have been included in "Accrued Liabilities."

EMPLOYMENT AGREEMENTS: Following election of the five new directors, the Company made payments to certain executive officers under change-of-control agreements totaling approximately \$1,480,000, which is reported as a component of special charges in the statement of operations in 2002.

The Company also entered into severance agreements with certain key employees in 2001 that provide for one-time payments in the event of a change in control, as defined, if the employee is terminated within 12 months of any such change of control. These payments range from three to 24 months of the employee's base salary as of the termination date, as defined. If these employees had been terminated during 2003 and such termination was effective within 12 months of a change of control, the payments would have aggregated approximately \$3,500,000 under the change of control agreements. All senior divisional management teams are continuing in their positions.

NOTE 14. STOCK OPTIONS AND CAPITAL STOCK

At the Company's 1993 Annual Meeting, the shareholders approved a Nonemployee Director Nonqualified Stock Option Plan (the "Director Plan"), which was effective June 1, 1993. The Director Plan provides for the granting of nonqualified options to purchase up to 250,000 shares of the Company's common stock to non-employee directors of the Company in lieu of paying quarterly retainer fees and regular quarterly meeting attendance fees, when elected. The Director Plan enables the Company to grant options, with an exercise price per share not less than fair market value of the Company's common stock on the date of grant, which are exercisable at any time. Each option granted under the Director Plan expires no later than ten years from date of grant and no options can be granted under the Director Plan after its May 31, 2003 expiration date. Information for 2003, 2002 and 2001 with respect to the Director Plan is as follows:

F-29

	SHARES	OPTION PRICE

	(in thousands, except for opti	

Outstanding and exercisable as of December 31, 2000	94	\$3.5625 to \$14.625

	-----	-----
Outstanding and exercisable as of December 31, 2003	140	\$3.5625 to \$14.625
	=====	=====

As of December 31, 2003, there are no shares available for grant.

At the Company's 1991 Annual Meeting, the shareholders approved the adoption of a Long Term Incentive Plan (the "1991 Plan") which provided for the granting of options to officers and key employees of the Company to purchase up to 500,000 shares of the Company's common stock. At the 1995 Annual Meeting, the shareholders approved an amendment to increase the number of shares subject to options under the 1991 Plan from 500,000 to 922,650. At the 1998 Annual Meeting, the shareholders approved an amendment to increase the number of shares subject to options under the 1991 Plan from 922,650 to 1,522,650. The 1991 Plan enables the Company to grant either nonqualified options, with an exercise price per share established by the Board's Compensation Committee, or incentive stock options, with an exercise price per share not less than the fair market value of the Company's common stock on the date of grant, which are exercisable at any time. Each option granted under the 1991 Plan expires no later than ten years from date of grant, and no future options can be granted under the 1991 Plan as a result of its expiration on September 25, 2001.

Information for 2003, 2002 and 2001 with respect to the 1991 Plan is as follows:

	SHARES	OPTION PRICE
	-----	-----
	(in thousands, except for option price)

NOTE 15. CASH FLOW INFORMATION

Supplemental disclosures of cash flow information:

	2003	Years Ended December 31, 2002 (as adjusted)

		(in thousands)
Interest paid	\$321	\$2,640
Income taxes paid	\$407	\$ 379
	=====	

On November 24, 2003, the Company sold substantially all the assets of SurfTech. In conjunction with this sale, the Company received \$600,000 in cash and deconsolidated the net book value of assets sold of \$782,000.

On January 6, 2003, the Company sold its wholly owned German subsidiary EME. In conjunction with this sale, the Company received \$7,000,000 in cash in 2003 and deconsolidated the net book value of assets of \$9,686,000.

During 2001, the Company sold substantially all the assets of SL Waber and the stock of Waber de Mexico S.A. de C.V. The Company received \$1,053,000 in cash in 2001 and deconsolidated the net book value of assets sold of \$3,798,000.

NOTE 16. INDUSTRY SEGMENTS

The Company currently operates under four business segments: Condor, Teal, RFL and SL-MTI. In the second quarter of 2003, management decided to combine Condor and Teal into one business unit classified as the Power Electronics Group. Accordingly, for the years ended December 31, 2003, 2002 and 2001, the Company's reportable segments consisted of Condor, Teal (The Power Electronics Group), SL-MTI, and RFL.

At December 31, 2002 and 2001, the Company was comprised of five and six operating business units, respectively. With the sale of EME on January 6, 2003, the Company has classified this operating segment as discontinued for all periods presented. On November 24, 2003 the Company sold the operating assets of SurfTech, accordingly the Company has classified this operating segment as discontinued for all periods presented. Condor produces a wide range of standard and custom power supply products that convert AC or DC power to direct electrical current to be used in customers' end products. Power supplies closely regulate and monitor power outputs, using patented filter and other technologies, resulting in little or no electrical interference. Teal is a leader in the design and manufacture of customized power conditioning and power distribution units. Teal products are developed and manufactured for custom electrical subsystems for original equipment manufacturers of semiconductor, medical imaging, graphics, and telecommunications systems. SL-MTI is a technological leader in the design and manufacture of intelligent, high power density precision motors. New motor and motion controls are used in numerous applications, including aerospace, medical, and industrial products. RFL designs

Edgar Filing: SL INDUSTRIES INC - Form 10-K

and manufactures teleprotection products/systems that are used to protect utility transmission lines and apparatus by isolating faulty transmission lines from a transmission grid. RFL also provides customer service and maintenance for all electric utility equipment protection systems. The Other segment includes corporate related items, financing activities and other costs not allocated to reportable segments, which includes but not limited to certain legal, litigation and public

F-32

reporting charges and the results of insignificant operations. The accounting policies of these business units are the same as those described in the summary of significant accounting policies (see Note 1 for additional information).

Business segment operations are conducted through domestic subsidiaries. For all periods presented, sales between business segments were not material. No single customer accounted for more than 10% of consolidated net sales during 2003, 2002 and 2001. Each of the segments has certain major customers, the loss of any of which would have a material adverse effect on such entity.

NOTE 17. FOREIGN OPERATIONS

In addition to manufacturing operations in California, Minnesota and New Jersey, the Company manufactures substantial quantities of products in leased premises located in Mexicali and Matamoros, Mexico. In 2003, the Company began to outsource some of its products with contract manufacturers located in Sushou and Dongguan, China. These sources of supply present risks of interruption for reasons beyond the Company's control, including political and other uncertainties. During 2002 and 2001, the Company manufactured products in Ingolstadt, Germany and Paks, Hungary. The locations in Germany and Hungary were transferred as part of the sale of EME on January 6, 2003. In addition the Condor plant in Reynosa, Mexico, was closed in March 2002. During 2001, the Company manufactured products in Nogales, Mexico, which was transferred as part of the sale of SL Waber in September 2001.

Condor manufactures substantially all of its products in Mexico and incurs its labor costs and supplies in Mexican pesos. SL-MTI manufactures approximately 45% of its products in Mexico and incurs related labor costs and supplies in Mexican pesos. Both Condor and SL-MTI price their sales in United States dollars. The Mexican subsidiaries of Condor and SL-MTI maintain their books and records in Mexican pesos.

Generally, the Company's sales from continuing operations are priced in United States dollars and its costs and expenses are priced in United States dollars and Mexican pesos. Foreign sales comprised

F-35

12%, 13% and 11% of sales for 2003, 2002 and 2001, respectively. Accordingly, the competitiveness of the Company's products relative to locally produced products may be affected by the performance of the United States dollar compared with that of its foreign customers' currencies. Additionally, the Company is exposed to foreign currency transaction and translation losses which might result from adverse fluctuations in the values of the Mexican peso. As of December 31, 2003, the Company had net liabilities of \$233,000 subject to fluctuations in the value of the Mexican peso. Fluctuations in the value of the Mexican peso were not significant in 2002 and 2001. However, there can be no assurance that the value of the Mexican peso will continue to remain stable.

NOTE 18. RESTRUCTURING COSTS AND IMPAIRMENT CHARGES

At December 31, 2001, the Company had a restructuring reserve of \$1,053,000 related to continuing operations. This restructuring reserve was established in 2001 to provide for anticipated costs associated with the downsizing of Condor. During 2002, additional restructuring costs of \$230,000 were recorded and were comprised primarily of \$90,000 for severance payments and \$140,000 for certain exit costs related to the closure of Condor's engineering and sales support

Edgar Filing: SL INDUSTRIES INC - Form 10-K

office in Brentwood, New York and the manufacturing facility in Reynosa, Mexico. During 2002 all of the accrued restructuring costs as of December 31, 2001 were either paid or applied to the write-down of assets during the year. At December 31, 2002 no amount remained in the Company's restructuring reserve. A summary of the principal components of the restructuring reserve from December 31, 2001 to December 31, 2002 is set forth below:

Restructuring Accrual -----	December 31, 2001 -----	Increases ----- (in thousands)	(Decreases) -----
Facility costs	\$ 654	\$ 15	\$ (6)
Asset write-off	250	125	(3)
Professional fees	102	--	(1)
Other	47	--	()
Severance	--	90	()
	-----	-----	-----
Total	\$1,053 =====	\$230 =====	\$ (1,2) =====

The Company recorded restructuring, impairment charges, and inventory write-downs during 2001 as follows:

	Restructuring Costs -----	Impairment of Intangibles ----- (in thousands)	Inventory Write-Downs -----
Year ended December 31, 2001			
Condor - intangible asset impairment	\$ --	\$ 4,145	\$ --
Condor - workforce reduction and other	3,683	--	--
Condor - inventory write-off	--	--	2
	-----	-----	-----
Total restructuring and impairment charges	\$3,683 =====	\$ 4,145 =====	\$2 =====

During 2001, the Company implemented a plan to restructure certain of its operations as a result of a significant reduction in the demand for products by telecommunications equipment manufacturers. The

F-36

sharp decrease in orders for telecommunications-related products occurred abruptly in the first quarter and continued to the end of 2001.

The restructuring plan was designed to reduce fixed costs in line with lower anticipated sales in a manner that would not overburden personnel and monetary resources. It consisted of the following actions:

- the closure of Condor's engineering and sales support facility in Brentwood, New York;

Edgar Filing: SL INDUSTRIES INC - Form 10-K

- the closure of Condor's manufacturing facility in Reynosa, Mexico; and
- the substantial reduction of Condor's employees and staff at Condor's manufacturing facility in Mexicali, Mexico and headquarters in Oxnard, California.

The charge for facility closures relates primarily to the write-off of equipment and other fixed assets to be disposed of or abandoned. A portion of the charge represented management's estimate of the future lease commitments and buyout options for closed facilities.

The restructuring plan included the termination of approximately 828 employees, and the payment of related severance benefits. Approximately 810 employees were terminated during 2001. The remaining terminations and associated termination payments were made in the first quarter of 2002.

The \$2,890,000 inventory write-down in 2001, which was not part of the restructuring reserve, consisted of Condor's telecommunications-related product inventory line. The inventory was evaluated based on current backlog and sales forecasts. Following this evaluation, the Company considered the inventory to have limited value. The Company disposed of approximately \$2,100,000 of this inventory during 2001.

NOTE 19. RELATED PARTY TRANSACTIONS

As discussed in Note 3 the Company sold EME on January 6, 2003. The Company had engaged Imperial Capital, LLC to explore the sale of the Company or one or more of its subsidiaries. Imperial Capital, LLC contacted over four hundred potential buyers with respect to the sale of the Company and its subsidiaries, and in the process received several indications of interest to acquire EME. After negotiations, the Company's Board of Directors determined that in light of the circumstances including but not limited to the maturity of the Company's Former Credit Facility on December 31, 2002 and its need for additional capital at that time, it was in the best interest of the Company to pursue the offer received for EME from the ultimate purchaser. A principal of the buyer of EME is a limited partner in Steel Partners II, L.P. ("Steel"), an investment partnership. The Company's Chairman of the Board and Chief Executive Officer is the sole executive officer and managing member of Steel.

The Company has paid approximately \$334,000 and \$340,000 in 2003 and 2002, for services performed by Olshan Grundman Frome Rosenzweig & Wolosky LLP, a law firm in which a director of the Company is a senior partner. The fees were related to the sale of EME, the preparation, filing and amending a Registration Statement regarding a potential Rights Offering, matters related to the Company's continuing listing on the New York Stock Exchange and eventual listing on the American Stock Exchange and general corporate matters. At December 31, 2003 and 2002, approximately \$5,000 and \$320,000 were payable at the respective year ends.

As a result of certain services being provided to the Company by Steel Partners, Ltd. ("SPL"), a company controlled by the Chairman of the Board and Chief Executive Officer of the Company, Warren Lichtenstein, the Compensation Committee engaged an independent firm to provide a report and advice regarding the amount of management fees that should be payable to SPL. These fees are the only consideration for the services of the Chairman of the Board and Chief Executive Officer, Warren Lichtenstein, the Company's President, Glen Kassan, and other assistance from SPL. The services provided include management and advisory services with respect to operations, strategic planning, finance and accounting, merger, sale and acquisition activities and other aspects of the businesses of the Company. A fee of \$475,000 and \$362,000 was expensed by the Company for SPL's 2003 and 2002 services. At December 31, 2003 and 2002,

Edgar Filing: SL INDUSTRIES INC - Form 10-K

approximately \$40,000 and \$362,000 were payable at the respective year ends.

RFL has an investment of \$15,000 in RFL Communications PLC, ("RFL Communications"), representing 4.5% of the outstanding equity thereof. RFL Communications is a distributor of teleprotection and communication equipment located in the United Kingdom. It is authorized to sell RFL products in accordance with an international sales agreement. Sales to RFL Communications for

F-37

the years ended 2003, 2002 and 2001 were \$621,000, \$978,000 and \$ 941,000, respectively. Accounts receivable due from RFL Communications at December 31, 2003 was \$53,000.

NOTE 20. SUBSEQUENT EVENTS

In 1997, the Company, through a wholly-owned subsidiary, commenced a patent infringement action against American Power Conversion Corporation ("APC") in the United States District Court for the Southern District of New Jersey. The complaint alleged that APC infringed a patent held by the subsidiary, and sought damages resulting from APC's infringement. On February 3, 2004, the Company and APC executed a Settlement Agreement that provided, among other things, for the release of all claims against APC and the granting to APC a paid-up license, in return for the payment to the Company of \$4,000,000. The Settlement Agreement was conditioned on the dismissal with prejudice of the lawsuit. On March 5, 2004, the District Court dismissed the lawsuit with prejudice and the settlement fee was paid to the Company. A third party has threatened certain claims against the Company relating to this matter for a portion of the payment. The Company disputes such claims and intends to defend them vigorously.
