RESOLUTION MEASURES AND DEEMED AGREEMENT

On May 15, 2014, the European Parliament and the Council of the European Union adopted a directive establishing a framework for the recovery and resolution of credit institutions and investment firms (commonly referred to as the "Recovery and Resolution Directive"). The Bank Recovery and Resolution Directive required each member state of the European Union to adopt and publish by December 31, 2014 the laws, regulations and administrative provisions necessary to comply with the Bank Recovery and Resolution Directive. Germany adopted the Recovery and Resolution Act (Sanierungs- und Abwicklungsgesetz, or the "Resolution Act"), which became effective on January 1, 2015. The Recovery and Resolution Directive and the Resolution Act provided national resolution authorities with a set of powers to intervene in the event that a bank is failing or likely to fail and certain other conditions are met. Pursuant to the SRM Regulation, the power to initiate resolution measures applicable to significant banking groups (such as Deutsche Bank) in the European Banking Union has been transferred to the European Single Resolution Board which, based on the SRM Regulation, works in close cooperation with the European Central Bank, the European Commission and the national resolution authorities. Pursuant to the SRM Regulation, the Resolution Act and other applicable rules and regulations, our notes may be subject to any Resolution Measure by the competent resolution authority if we become, or are deemed to become, "non-viable" (as defined under the then applicable law) and are unable to continue our regulated banking activities without a Resolution Measure becoming applicable to us. By acquiring

you will be bound by and deemed irrevocably to consent to the provisions set forth in the accompanying prospectus, which we have summarized below.

Pursuant to the German Banking Act as amended by the German law on the mechanism for the resolution of banks (effective November 2, 2015 (Abwicklungsmechanismusgesetz, or the "Resolution Mechanism Act"), in a German insolvency proceeding or in the event of the imposition of Resolution Measures with respect to the Issuer, certain special classes of senior unsecured debt instruments, including the notes, would rank junior to, without constituting subordination, all other outstanding unsecured unsubordinated obligations of the Issuer and would be satisfied only if all such other outstanding unsecured unsubordinated obligations of the Issuer have been paid in full. The Resolution Mechanism Act could result in increased losses for the holders of the notes if insolvency proceedings were initiated or Resolution Measures were imposed upon the Issuer. See the risk factor below and "Risk Factors" in the accompanying prospectus for more information.

By acquiring the notes, you will be bound by and deemed irrevocably to consent to the imposition of any Resolution Measure by the competent resolution authority. Under the relevant resolution laws and regulations as applicable from time to time, the notes may be subject to the powers exercised by the competent resolution authority to: (i) reduce, including to zero, any payment on the notes; (ii) convert the notes into ordinary shares of (a) the Issuer, (b) a subsidiary or (c) any bridge bank or other instruments of ownership of such entities qualifying as common equity tier 1 capital; (iii) issue to or conferral of the holders (including the beneficial owners) of such ordinary shares or instruments; (iv) any other resolution measure including, but not limited to, any transfer of the notes to another entity, the modification or variation of the terms and conditions of the notes or the cancellation of the notes. We refer to such measures as a "Resolution Measure." A "group entity" refers to an entity that is included in the corporate group of the Issuer. A "bridge bank" refers to a newly chartered German bank that would receive some or all of the assets, securities, assets, liabilities and material contracts, including those attributable to our branches and subsidiaries, in a resolution proceeding.

Furthermore, by acquiring the notes, you:

will be deemed irrevocably to have agreed, and you will agree: (i) to be bound by the terms and conditions of the notes, to your knowledge and to accept any Resolution Measure and any amendment, modification or variation of the terms and conditions of the notes to give effect to any Resolution Measure; (ii) that you will have no claim or other right against us arising out of any Resolution Measure; and (iii) that the

Edgar Filing: DEUTSCHE BANK AKTIENGESELLSCHAFT - Form FWP

of any Resolution Measure will not constitute a default or an event under the notes, under the Eligible Liabilities Senior Indenture dated 19, 2017 among us, The Bank of New York Mellon, as trustee, and Deutsche Bank Trust Company Americas, as paying agent, authenticating agent, agent and registrar, as amended and supplemented from time to time (the "Indenture"), or for the purposes of, but only to the fullest extent permitted by, the Trust Indenture Act of 1939, as amended (the "Trust Indenture Act"); [ ] waive, to the fullest extent permitted by the Trust Indenture Act and applicable law, any and all claims against the trustee and the issuing agent, the issuing agent and the registrar (each, an "indenture agent"), agree not to initiate a suit against the trustee or the indenture agent in respect of, and agree that the trustee and the indenture agents will not be liable for, any action that the trustee or any of the indenture agents abstains from taking, in either case in accordance with the terms of the notes of a Resolution Measure by the competent resolution authority with respect to the notes; and [ ] will be deemed irrevocably to have: (i) consented to the imposition of any Resolution Measure as it may be imposed without any objection by the competent resolution authority of its decision to exercise its powers with respect to

Issuer, the competent resolution authority or court would determine whether the securities offered by the p  
the terms described in clauses (i) or (ii) above, referred to herein as "Structured Debt Securities," or wh  
referred to herein as "Non-Structured Debt Securities." We expect and intend the notes offered herein to be  
as Non-Structured Debt Securities. In a German insolvency proceeding or in the event of the imposition of R  
Measures with respect to the Issuer, the unsecured unsubordinated obligations of the Issuer that either fa  
statutory definition of debt instruments that rank junior to other senior unsecured obligations or are exp  
such definition, including any Structured Debt Securities, are expected to bear losses after the Non-Struct  
Securities (including the notes) as described above. The Resolution Mechanism Act could lead to increased l  
the holders of the notes if insolvency proceedings were initiated or Resolution Measures imposed upon the I  
ets In November 2016, the European Commission proposed substantial amendments to, among other laws, the Capital  
Requirements Regulation, the Bank Recovery and Resolution Directive and the SRM Regulation. The proposals c  
multiple areas, including the ranking of certain unsecured debt instruments in national insolvency proceed  
new category of 'non-preferred' senior debt referred to as "eligible liabilities instruments"), the introdu  
tool, refinements of the minimum requirement for own funds and eligible liabilities (or "MREL") framework,  
integration of the minimum total loss-absorbing capacity (or "TLAC") standard into EU legislation. Based up  
proposals, we expect the securities to qualify as "eligible liabilities instruments" and to continue to ran  
Structured Debt Securities once the proposals become effective. The proposals, if they are enacted as propo  
enable us to issue instruments similar to the securities but ranking senior to them. The proposals are to k

the European Parliament and the Council of the European Union and therefore remain subject to change. The proposals when final may not include all elements of the proposals and new or amended elements may be introduced in the legislative process. Until the proposals are in final form, it is uncertain how the proposals will affect our securities. The current proposals, as well as the economic and financial environment at the time of implementation beyond, can have a material impact on our operations and financial condition and they may require us to raise additional capital or issue additional "eligible liabilities instruments."

Imposition of a Resolution Measure would likely occur if we become, or are deemed by the competent supervisory authority to have become, "non-viable" (as defined under the then applicable law) and are unable to continue our regular business activities without a Resolution Measure becoming applicable to us. The Bank Recovery and Resolution Directive and the Resolution Act are intended to eliminate the need for public support of troubled banks, and you should be aware that public support, if any, would only potentially be used by the competent supervisory authority as a last resort after all other measures and exploited, to the maximum extent practicable, the resolution tools, including the bail-in tool. You may be affected by the Resolution Measure of your investment in the notes if a Resolution Measure becomes applicable to us.

By acquiring the notes, you would have no claim or other right against us arising out of any Resolution Measure. We would have no obligation to make payments under the notes following the imposition of a Resolution Measure. The imposition of any Resolution Measure will not constitute a default or an event of default under the notes or the Indenture or for the purposes of, but only to the fullest extent permitted by, the Trust Indenture Act. Further, if the notes are subject to any Resolution Measure, secondary market trading in the notes may not follow the trading behavior associated with similar types of securities issued by other financial institutions which may be or have been subject to a Resolution Measure. In addition, secondary market trading in the notes may not follow the trading behavior associated with Structured Debt Securities issued by us or with securities issued by other financial institutions that are not subject to a Resolution Mechanism Act or similar laws.

In addition, by your acquisition of the notes, you waive, to the fullest extent permitted by the Trust Indenture Act and applicable law, any and all claims against the trustee and the indenture agents for, agree not to initiate any legal action against the trustee or any indenture agent in respect of, and agree that the trustee and the indenture agents will not be liable for any action that the trustee or any indenture agent takes, or abstains from taking, in either case in accordance with the terms of a Resolution Measure by the competent resolution authority with respect to the notes. Accordingly, you may have limited or circumscribed rights to challenge any decision of the competent resolution authority to impose a Resolution Measure.
