NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying condensed consolidated financial statements include the accounts of CSB Bancorp, Inc. and its wholly-owned subsidiaries, The Commercial and Savings Bank and CSB Investment Services, LLC (together referred to as the Company or CSB). All significant intercompany transactions and balances have been eliminated in consolidation.

The condensed consolidated financial statements have been prepared without audit. In the opinion of management, all adjustments (which include normal recurring adjustments) necessary to present fairly the Company's financial position at March 31, 2010, and the results of operations and changes in cash flows for the periods presented have been made. Certain information and footnote disclosures typically included in financial statements prepared in accordance with U.S. generally accepted accounting principles have been omitted. The Annual Report for CSB for the year ended December 31, 2009, contains consolidated financial statements and related footnote disclosures, which should be read in conjunction with the accompanying consolidated financial statements. The results of operations for the period ended March 31, 2010 are not necessarily indicative of the operating results for the full year or any future interim period.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In December 2009, the FASB issued ASU 2009-16, Accounting for Transfer of Financial Assets. ASU 2009-16 provides guidance to improve the relevance, representational faithfulness, and comparability of the information that an entity provides in its financial statements about a transfer of financial assets; the effects of a transfer on its financial position, financial performance, and cash flows; and a transferor's continuing involvement, if any, in transferred financial assets. ASU 2009-16 is effective for annual periods beginning after November 15, 2009 and for interim periods within those fiscal years. The adoption of this guidance is not expected to have a significant impact on the Company's financial statements.

In September 2009, the FASB issued new guidance impacting Topic 820. This creates a practical expedient to measure the fair value of an alternative investment that does not have a readily determinable fair value. This guidance also requires certain additional disclosures. This guidance is effective for interim and annual periods ending after December 15, 2009. The Company has presented the necessary disclosures in the Note 3 herein.

In January 2010, the FASB issued ASU 2010-04, Accounting for Various Topics - Technical Corrections to SEC Paragraphs. ASU 2010-04 makes technical corrections to existing SEC guidance including the following topics: accounting for subsequent investments, termination of an interest rate swap, issuance of financial statements subsequent events, use of residential method to value acquired assets other than goodwill, adjustments in assets and liabilities for holding gains and losses, and selections of discount rate used for measuring defined benefit obligation. ASU 2010-04 is effective January 15, 2010. The adoption of this guidance did not have a material impact on the Company's financial position or results of operation.

(Unaudited)

In January 2010, the FASB issued ASU No. 2010-06, *Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements*. ASU 2010-06 amends Subtopic 820-10 to clarify existing disclosures, require new disclosures, and includes conforming amendments to guidance on employers' disclosures about postretirement benefit plan assets. ASU 2010-06 is effective for interim and annual periods beginning after December 15, 2009, except for disclosures about purchases, sales, issuances, and settlements in the roll forward of activity in Level 3 fair value measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010 and for interim periods within those fiscal years. The adoption of this guidance is not expected to have a significant impact on the Company's financial statements.

In April 2010, the FASB issued ASU 2010-13, *Compensation - Stock Compensation (Topic 718): Effect of Denominating the Exercise Price of a Share-Based Payment Award in the Currency of the Market in Which the Underlying Equity Security Trades*. ASU 2010-13 provides guidance on the classification of a share-based payment award as either equity or a liability. A share-based payment that contains a condition that is not a market, performance, or service condition is required to be classified as a liability. ASU 2010-13 is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2010 and is not expected to have a significant impact on the Company's financial statements.

NOTE 2 SECURITIES (continued)**Realized Gains and Losses**

The following table shows the proceeds from sales of available-for-sale securities and the gross realized gains and losses on the sales of those securities that have been included in earnings as a result of the sales. Gains or losses on the sales of available-for-sale securities are recognized upon sale and are determined by the specific identification method.

Proceeds	\$	\$ 1,292
Realized gains	\$	\$ 199
Realized losses		48
Impairment losses		35
Net securities gains	\$	\$ 116

At least quarterly, the Company conducts a comprehensive security-level impairment assessment. The assessments are based on the nature of the securities, the extent and duration of the securities, the extent and duration of the loss and management's intent to sell or if it is more likely than not that management will be required to sell a security before recovery of its amortized cost basis, which may be maturity. Management believes the Company will fully recover the cost of these securities and it does not intend to sell these securities and likely will not be required to sell them before the anticipated recovery of the remaining amortized cost basis, which may be maturity. As a result, management concluded that these securities were not other-than-temporarily impaired at March 31, 2010 and has recognized the total amount of the impairment in other comprehensive income, net of tax.

The following table presents gross unrealized losses and fair value of securities, aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position, at March 31, 2010 and December 31, 2009:

NOTE 3 FAIR VALUE MEASUREMENTS

The Company provides disclosures about assets and liabilities carried at fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities and lowest priority to unobservable inputs. The three broad levels of the fair value hierarchy are described below:

Level I: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Company has the ability to access.

Level II: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by corroborated or other means. If the asset or liability has a specified (contractual) term, the Level II input must be observable for substantially the full term of the asset or liability.

Level III: Inputs to the valuation methodology are unobservable and significant to the fair value measurement. The following table presents the assets reported on the consolidated statements of financial condition at their fair value as of March 31, 2010 and December 31, 2009, by level within the fair value hierarchy. No liabilities are carried at fair value. As required by the accounting standards, financial assets and liabilities are classified in their entirety based on the lowest level

included inputs that are unobservable and are based on estimates and assumptions developed by management based on the best information available under each circumstance, the asset valuation is classified as Level III inputs.

NOTE 4 FAIR VALUES OF FINANCIAL INSTRUMENTS

The estimated fair values of recognized financial instruments as of March 31, 2010 and December 31, 2009 are as follows:

(Dollars in thousands)	2010		2009	
	Carrying value	Fair value	Carrying value	Fair value
Financial assets:				
Cash and cash equivalents	\$ 36,682	\$ 36,682	\$ 42,661	\$ 42,661

Other borrowings	32,210	33,222	45,010	46,535
Accrued Interest Payable	292	292	322	322

For purposes of the above disclosures of estimated fair value, the following assumptions are used:

Cash and cash equivalents; Accrued interest receivable; Short term borrowings, Accrued interest payable

The fair value of the above instruments is considered to be carrying value.

Securities

The fair value of securities available-for-sale which are measured on a recurring basis are determined primarily by obtaining quoted prices on nationally recognized securities exchanges or matrix pricing, which is a mathematical technique used widely in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on securities' relationship to other similar securities.

NOTE 4 FAIR VALUES OF FINANCIAL INSTRUMENTS -(continued)

Loans, net

The fair value for loans is estimated by discounting future cash flows using current market inputs at which loans with similar terms and qualities would be made to borrowers of similar credit quality. Where quoted market prices were available, primarily for certain residential mortgage loans, such market rates were utilized as estimates for fair value. Fair value of non-accrual loans is based on carrying value.

Deposits and Other Borrowed Funds

The fair values of certificates of deposit and other borrowed funds are based on the discounted value of contractual cash flows. The discount rates are estimated using rates currently offered for similar instruments with similar remaining maturities. Demand, savings, and money market deposit accounts are valued at the amount payable on demand as of year-end.

The Company also has unrecognized financial instruments at March 31, 2010 and December 31, 2009. These financial instruments relate to commitments to extend credit and letters of credit. The aggregated contract amount of such financial instruments was approximately \$65,012 at March 31, 2010 and \$63,824 at December 31, 2009. Such amounts are also considered to be the estimated fair values.

The fair value estimates of financial instruments are made at a specific point in time based on relevant market information. These estimates do not reflect any premium or discount that could result from offering for sale at one time the entire holdings of a particular financial instrument over the value of anticipated future business and the value of assets and liabilities that are not considered financial instruments. Since no ready market exists for a significant portion of the financial instruments, fair value estimates are largely based on judgments after considering such factors as future expected credit losses, current economic conditions, risk characteristics of various financial instruments, and other factors. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore, cannot be determined with precision. Changes in assumptions could significantly affect these estimates.

FINANCIAL CONDITION

Total assets were \$435.6 million at March 31, 2010, compared to \$450.7 million at December 31, 2009, representing a decrease of \$15.0 million or 3.3%. Cash and cash equivalents decreased \$6.0 million, or 14.0%, during the three-month period ending March 31, 2010, due to an \$4.7 million decrease in deposits held at the Federal Reserve Bank and a \$1.3 million decrease in cash and due from banks. Securities decreased \$6.9 million or 9.2% during the first three months of 2010 primarily due to calls within the US Agency portfolio and principal repayments within the mortgage-backed securities portfolio. Net loans decreased \$2.9 million, or 0.9%, while deposits decreased \$3.3 million, or 1.0%, during the three-month period. Short-term borrowings of securities sold under repurchase agreement increased \$857 thousand and Federal Home Loan Bank advances decreased \$12.8 million, during the period as advances matured and required amortized payments were made on outstanding advances at the Federal Home Loan Bank.

Net loans decreased \$2.9 million, or 0.9%, during the three-month period ended March 31, 2010. Commercial loans increased \$821 thousand or 0.4% and home equity lines increased \$1.0 million or 3.1% over December 31, 2009. Decreases were recognized in real estate mortgage loans of \$3.2 million or 3.8% and consumer installment loans of \$558 thousand or 7.3%. Consumers increased their refinancing of mortgage loans for lower rates offered in the secondary market. The allowance for loan losses amounted to \$4.4 million or 1.40% of total loans at March 31, 2010 compared to \$4.1 million or 1.29% of total loans at December 31, 2009.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The allowance for loan losses as a percentage of total loans increased at March 31, 2010 as compared to December 31, 2009 as the additional provision of \$519 exceeded net charge-offs of \$223 for the three months ended March 31, 2010 and outstanding loan balances decreased 1% to \$310,899 at March 31, 2010. Non-performing loans have increased \$2.1 million or 50% from December 31, 2009, primarily the result of the bank's internal analysis of cash flows of one \$2.5 million commercial real estate loan and related line being moved to nonaccrual status.

<i>(dollars in thousands)</i>	March 31, 2010	December 31, 2009	March 31, 2009
Non-performing loans	\$ 6,221	\$ 4,141	\$ 4,123
Other real estate	251	162	59
Allowance for loan losses	4,356	4,059	3,402
Total loans	310,899	313,482	319,425
Allowance: loans	1.40%	1.29%	1.07%
Allowance: non-performing loans	0.7x	1.0x	0.8x

The ratio of gross loans to deposits was 95.3% at March 31, 2010, compared to 95.1% at December 31, 2009. The increase in this ratio is primarily the result of the decrease in deposits exceeding the decrease in loans during the three months ended March 31, 2009.

The Company recognized no gains or losses from the sales of securities for the first three months of 2010 as compared to recognizing gross gains on sales of available for sale securities of \$151 (tax provision of \$51) which was partially offset by the recognition of a \$35 (tax benefit of \$12) from other than temporary impairment of an equity investment during the quarter ended March 31, 2009. The Company had net unrealized gains of \$1,775 within its securities portfolio at March 31, 2010, compared to net unrealized gains of \$1,618 at December 31, 2009. Management has considered industry analyst reports, sector credit reports and the volatility within the bond market in concluding that the gross unrealized losses of \$231 within the portfolio as of March 31, 2010, were primarily the result of customary and expected fluctuations in the bond market. As a result, all security impairments as of March 31, 2010, are considered temporary.

The Company has no exposure to government-sponsored enterprise preferred stocks, collateralized debt obligations or trust preferred securities and only an immaterial amount of nonagency collateralized mortgage obligations. Total gross unrealized security losses within the portfolio were an immaterial 0.3% of total available-for-sale securities at March 31, 2010, reflecting interest rate fluctuations, not credit downgrades.

Short-term borrowings increased \$857 thousand from December 31, 2009 and other borrowings decreased \$12.8 million as the Company used cash flows from investments to repay required maturities and monthly payments on advances from the Federal Home Loan Bank (FHLB).

FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Deposits decreased \$3.3 million, or 1% from December 31, 2009 with non-interest bearing deposits declining \$1.4 million and interest-bearing deposit accounts decreasing \$1.9 million. By deposit type, increases were recognized in interest-bearing checking accounts and money market savings accounts for the three-month period ended March 31, 2010.

Total shareholders' equity amounted to \$46.2 million, or 10.6%, of total assets, at March 31, 2010, compared to \$45.8 million, or 10.2% of total assets, at December 31, 2009. The increase in shareholders' equity during the three months ended March 31, 2010 was due to net income of \$737 and changes in accumulated other comprehensive income of \$104. The increase was partially offset by dividends declared of \$492. The Company and its subsidiary bank met all regulatory capital requirements at March 31, 2010.

RESULTS OF OPERATIONS

Three months ended March 31, 2010 and 2009

For the quarter ended March 31, 2010, the Company recorded net income of \$737 or \$0.27 per share, as compared to net income of \$896, or \$0.33 per share for the quarter ended March 31, 2009. The \$159 decrease in net income for the quarter was principally due to the increase in the provision for loan losses of \$278 for the quarter ended March 31, 2010. On a core basis, net interest income decreased \$13, other income increased \$51 (exclusive of the \$116 gain on sale of securities in 2009) and other expenses decreased \$88.

Interest income for the quarter ended March 31, 2010, was \$5,156 representing a \$424 decrease, or 7.6% decline, compared to the same period in 2009. This decrease was primarily due to a decline in the average loan yield of 0.29% to 5.61% for the quarter ended March 31, 2010 as compared to 5.90% for the first quarter ended March 31, 2009. Additionally, average loan volume declined by \$6.5 million to \$311,789 for the quarter ended March 31, 2010 as compared the first quarter 2009. Investment interest income decreased \$121 as both investment volume and yield decreased in 2010 over the first quarter in 2009. Interest expense for the quarter ended March 31, 2010 was \$1,275 a decrease of \$411 or 24.4%, from the same period in 2009. The decrease in interest expense occurred due to decreases in interest rates across the board for the quarter ended March 31, 2010. During first quarter 2010, maturing time deposits continued to renew at interest rates that were lower.

The provision for loan losses for the quarter ended March 31, 2010, was \$519, compared to a \$241 provision for the same quarter in 2009. The provision for loan losses is determined based on management's calculation of the adequacy of the allowance for loan losses, which includes provisions for classified loans as well as for the remainder of the portfolio based on historical data including past charge-offs and current economic trends.

Non-interest income for the quarter ended March 31, 2010, was \$731, a decrease of \$65, or 8.2%, compared to the same quarter in 2009. During the quarter ended 2009, the Company recognized a gross gain of \$151 on the sale of investments that was partially offset by the recording of an other than temporary impairment of \$35 on equity securities. Trust and brokerage fees increased \$27 on a year over year quarter as increases were recognized on the market value of assets under management.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Non-interest expenses for the quarter ended March 31, 2010, decreased \$88, or 2.8%, compared to the first quarter of 2009. Salaries and employee benefits decreased \$104, or 6.1%, primarily due to the decrease in incentive and profit sharing accruals in the quarter ended March 31, 2010. Occupancy and equipment expenses decreased \$31 and other operating expenses increased \$12. State franchise tax increased \$25 due to the increased capital of the franchise. Federal income tax expense decreased \$109, or 25.7% for the quarter ended March 31, 2010 as compared to the first quarter of 2009. The provision for income taxes was \$315 (effective rate of 29.9%) for the quarter ended March 31, 2010, compared to \$424 (effective rate of 32.1%) for the quarter ended March 31, 2009. The decrease in the effective tax rate resulted from an increase in tax-exempt interest income.

CAPITAL RESOURCES

The Federal Reserve Board (FRB) has established risk-based capital guidelines that must be observed by financial holding companies and banks. Failure to meet specified minimum capital requirements could result in regulatory actions by the Federal Reserve or Ohio Division of Financial Institutions that could have a material effect on the Company's financial condition or results of operations. Management believes there were no material changes to Capital Resources as presented in CSB Bancorp's annual report on Form 10-K for the year ended December 31, 2009, and as of March 31, 2010 the holding company and its bank meet all capital adequacy requirements to which they are subject.

LIQUIDITY

Liquidity refers to the Company's ability to generate sufficient cash to fund current loan demand, meet deposit withdrawals, pay operating expenses and meet other obligations. The Company's primary sources of liquidity are cash and cash equivalents, which totaled \$36.7 million at March 31, 2010, a decrease of \$6.0 million from \$42.7 million at December 31, 2009. Net income, securities available-for-sale, and loan repayments also serve as sources of liquidity. Cash and cash equivalents and estimated principal cash flow and maturities on investments maturing within one year represent 12.3% of total assets as of March 31, 2010 compared to 15.0% of total assets at year-end 2009. Other sources of liquidity include, but are not limited to, purchase of federal funds, advances from the FHLB, adjustments of interest rates to attract deposits, and borrowing at the Federal Reserve discount window. Management believes that its sources of liquidity are adequate to meet cash flow obligations for the foreseeable future.

OFF-BALANCE SHEET ARRANGEMENTS

We do not have any off-balance sheet arrangements (as such term is defined in applicable Securities and Exchange Commission rules) that are reasonably likely to have a current or future material effect on our financial condition, results of operations, liquidity, capital expenditures or capital resources.

ITEM 4T CONTROLS AND PROCEDURES

With the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of the end of the period covered by this Quarterly Report on Form 10-Q. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that:

- (a) information required to be disclosed by the Company in this Quarterly Report on Form 10-Q would be accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure;
- (b) information required to be disclosed by the Company in this Quarterly Report on Form 10-Q would be recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms; and
- (c) the Company's disclosure controls and procedures are effective as of the end of the period covered by this Quarterly Report on Form 10-Q to ensure that material information relating to the Company and its consolidated subsidiary is made known to them, particularly during the period for which our periodic reports, including this Quarterly Report on Form 10-Q, are being prepared.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

There were no changes during the period covered by this Quarterly Report on Form 10-Q in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
