1

ITEM 5. OTHER EVENTS.

On March 16, 2004, Century Aluminum Company ("Century") issued a press release announcing that it entered into an agreement with Columbia Ventures Corporation ("CVC"), a U.S. company, to purchase up to 100 percent of the shares of Nordural hf, an Icelandic company that owns and operates a 90,000 metric ton per year (mtpy) primary aluminum plant at Grundartangi, Iceland. The Nordural plant began operation in 1998. An expansion is planned that will double its capacity to 180,000 mtpy by 2006.

The agreement provides that Century will acquire 49.9 percent of Nordural from CVC for \$75 million. Century anticipates that its purchase will increase to 100 percent of Nordural subject to the satisfaction of certain conditions that

are expected to be met by March 31, 2004. The purchase price for CVC's entire interest would be \$150 million. In addition, Nordural has long-term debt (including current portion) of approximately \$190 million. The agreement also provides for a contingent payment of \$25 million to CVC upon the commencement of the expansion. The purchase price is subject to a customary adjustment based on changes in selected balance sheet accounts, calculated as of the date of closing. Century intends to use proceeds from a registered equity offering to finance the acquisition. The transaction is expected to close by May 31, 2004, subject to satisfaction of customary closing conditions.

A copy of the press release is attached hereto as Exhibit 99.1.

The audited financial statements for Nordural hf begin on page 4 of this Form 8-K, followed by separate unaudited pro forma consolidated financial information reflecting Century's acquisition of both a 100% and 49.9% interest in Nordural.

FORWARD-LOOKING STATEMENTS

This Form 8-K may contain certain "forward-looking statements." Century has based these forward-looking statements on current expectations and projections about future events. Many of these statements may be identified by the use of forward-looking words such as "expects," "anticipates," "plans," "believes," "projects," "estimates," "should," "will," and "potential" and variations of such words. These forward-looking statements are subject to risks, uncertainties and assumptions and readers are cautioned that actual results could differ materially and, therefore, they should not place undue reliance on any forward-looking statements. Century does not undertake, and specifically disclaims, any obligation to revise any forward-looking statements to reflect the occurrence of anticipated or unanticipated events or circumstances after the date such forward-looking statements are made.

REPORT OF INDEPENDENT ACCOUNTANTS

TO THE BOARD OF DIRECTORS AND STOCKHOLDERS OF NORDURAL HF

We have audited the accompanying balance sheets of Nordural hf, as of December 31, 2003 and 2002, and the related statements of income, of cash flows and of stockholder's equity for each of the three years in the period ended December 31, 2003. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audits in accordance with generally accepted auditing standards in Iceland and the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statements presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Nordural hf, at December 31, 2003 and 2002, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2003 in conformity with accounting principles generally accepted in Iceland.

As discussed in Note 2 to the financial statements, the Company changed its method of accounting for deferred income taxes during the year ended December 31, 2003.

Accounting principles generally accepted in Iceland vary in certain significant respects from accounting principles generally accepted in the United States of America. The application of the latter would have affected the determination of net income for each of the three years in the period ended December 31, 2003 and the determination of stockholders' equity at December 31, 2003 and 2002 to the extent summarized in Note 14 to the financial statements.

NORDURAL HF

NOTES TO FINANCIAL STATEMENTS

1. THE COMPANY

Nordural hf (the "Company"), a wholly-owned subsidiary of Columbia Ventures Corporation, was incorporated in Reykjavik, Iceland, on February 28,

1997. The Company was formed to develop and operate an aluminum smelter in Grundartangi, Iceland.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

The accompanying financial statements are stated on an accrual basis prepared in accordance with Generally Accepted Accounting Principles in Iceland.

Functional currency

Amounts in the Company's books and these financial statements are denominated in US dollars as all of the Company's revenues and a significant portion of the Company's expenses are denominated in US dollars.

Management's Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the balance sheet. Actual results could differ from those estimates.

Changes in Accounting Policies and Presentation

In 2003, changes were made to the Icelandic law which require calculations and recording of a deferred income tax liability in the financial statements. Accordingly, during 2003, a deferred income tax liability is recorded in the Company's financial statements to provide for the tax consequences in future years of the differences between the tax basis of assets and liabilities and their financial reporting amounts. The amount of the cumulative deferred tax liability that applies to 2002 has been recorded as a reduction to retained earnings of \$1,552,423 as of January 1, 2003.

Property, Plant and Equipment

Property plant and equipment is stated at cost. Additions, renewals and improvements are capitalized. Maintenance and repairs are expensed as incurred and costs of improvements and renewals are capitalized. Depreciation is determined by the straight-line method based on the estimated useful lives of the related assets. Upon disposal, cost and related accumulated depreciation of the assets are removed from the accounts and resulting gains or losses are included in earnings.

Depreciation is calculated on a straight line basis. The following annual percentages of cost are used:

Buildings and improvements	20 to 40 years
Machinery and equipment	5 to 33 years
Transportation vehicles	5 years

9

NORDURAL HF

NOTES TO FINANCIAL STATEMENTS - (CONTINUED)

Other assets

Other assets primarily include net unamortized financing costs of \$7,857,767 in connection with the senior credit facility and payments made to expand production capacity according to contracts for supply of certain raw materials of \$5,536,057, net of amortization. Such payments represent a downpayment on raw materials to be supplied through 2013. The Company's policy is to amortize those payments using the greater of (a) straight line over the contract period; or (b) the ratio of current purchases of raw materials in the period to the total of current and anticipated future purchases. Since raw materials are generally used ratably over the contract period, applying either method results in approximately the same amounts. Financing costs are amortized over 10 to 15 years and the payments made for the supply contract are amortized over 12.5 years, in accordance with the length of the contract.

Inventories and Supplies

Inventories and supplies are stated at the lower of cost or market value. Cost is determined by the first-in, first-out (FIFO) method except for supplies inventories which are based upon the average cost method.

Accounts receivable

Accounts receivable are valued at nominal value. The Company's accounts receivable with a tolling customer described in Note 8 comprise 89.26% and 92.01% of the remaining balance of accounts receivable at December 31, 2002 and 2003.

Derivative Financial Instruments

The Company enters into various derivative instruments to protect itself from fluctuating prices and rates. From time to time the Company purchases options to hedge a portion of its exposure to price fluctuations of aluminum. Hedging gains and losses are recognized concurrently with related sales transactions.

Revenue Recognition

Revenues are recognized when title, risk of loss and ownership passes to customers in accordance with contract terms. Revenues for the conversion of alumina and processing of aluminum under tolling arrangements are recognized upon completion of the tolling process. The tolling process is considered complete when the customer assumes the risk of ownership of the finished aluminum (Note 8).

Income Taxes

Deferred income taxes are recognized for the tax consequences in future years of differences between the tax basis of assets and liabilities and their financial reporting amounts at the balance sheet date based on enacted tax laws and statutory tax rates applicable to the years in which the differences are expected to affect taxable income.

A deferred income tax liability generally reflects the income tax which would be payable, according to current tax law, if the Company's assets were to be sold or redeemed at book value. Under an agreement with Icelandic Authorities the Company's tax rate is 33%. The agreement contains a provision which allows for the Company to opt out of the agreement and be subject to general corporate tax rates in Iceland. Effective January 1, 2002, the general corporate tax rate was reduced from 33% to 18%. The Company has used the statutory Icelandic tax rate of 18% to calculate the deferred tax liability as it is anticipated that this will be the effective tax rate when tax payments will have to be made.

Income tax (18%)	\$ 1,552,423

7. LONG-TERM LIABILITIES

Long-term liabilities consist of the following:

2002

Credit facility payable to banks, due in semiannual installments with final repayment on June 30, 2018; interest paid at the end of each interest period which can vary from one to six months, at LIBOR (London Interbank Offered Rate) plus 1.45% (interest rate 2.5838% at December 31, 2003).....

Credit facility payable to banks, due in semiannual installments with final

repayment on June 30, 2013; interest paid at the end of each interest period which can vary from one to six months at London Interbank Offered Rate (LIBOR) plus 1.3% to 1.5% margin (interest rate 3.26% at December 31, 2002)	\$ 151,556,600
Debt payable to bank due in quarterly installments (annuity) with final repayment on August 1, 2012; interest payable at three month London Interbank Offered Rate (LIBOR) plus 0.2% (interest rate 2.01% and 1.34% at December 31, 2002 and 2003)	
Other long-term liability will accumulate until April 25, 2005 when a bond will be issued; interest will be accumulated and is calculated at three month London Interbank Offered Rate (LIBOR) plus 0.75% (interest rate 2.71% and 1.98% at December 31, 2001 and 2002)	1,196,517
Less: current portion	155,729,307 (9,803,839
	\$ 145,925,468

12

NORDURAL HF

NOTES TO FINANCIAL STATEMENTS - (CONTINUED)

Future annual maturities of the above long-term debts are as follows:

2003

Maturity 2004..... Maturity 2005..... Maturity 2006..... Maturity 2007.... Maturity 2008.... Thereafter...

All of the assets of the Company are pledged as collateral for the credit facility. If the price of aluminum falls below designated levels for six months prior to a payment date and certain debt coverage ratios are not met, the credit facility agreement provides for deferral of principal payments. Acceleration of principal payments is required if certain debt coverage ratios are exceeded.

Leases

The State Treasury of Iceland provided \$7,000,000 to cover certain site infrastructure costs of Nordural. Accrued interest on the loan of \$1,113,932 has been added to the principal. The value of these infrastructure costs shall be repaid as part of the lease payments for the site over a period of seventeen years, plus interest at a fixed rate (6.725% at December 31, 2003), which is tied to the long-term borrowing rate of an agency of the Icelandic government.

Future lease principal payments are as follows:

8. TOLLING CONTRACT

The Company is a party to a tolling contract which expires December 31, 2013. Under the contract the customer owns all of the primary raw material and finished goods. Nordural receives revenues based upon the London Metal Exchange price of aluminum for converting the primary raw materials into finished goods. The contract specifies standard usage rates of the primary raw materials. Variations of actual usage from such standard usage may result in additional amounts due to or due from the customer. Sales under the tolling agreement totalled approximately \$84,588,000 in 2001, \$95,850,000 in 2002 and \$100,961,000 in 2003.

9. DERIVATIVE FINANCIAL INSTRUMENTS

In 2002 and 2003, the Company purchased put options that allowed the Company to sell 4,500 metric tons of aluminum per month at \$1,250 per metric ton through the end of April 2004. Premiums paid in 2003 were \$513,000, of which \$171,000 were deducted from net sales and \$342,000 is a part of prepaid cost in the Balance sheet at December 31, 2003. In addition, prepaid premiums at January 1, 2003 of \$1,008,000 were deducted from net sales during 2003.

13

NORDURAL HF

NOTES TO FINANCIAL STATEMENTS - (CONTINUED)

10. RELATED PARTY TRANSACTIONS

The company had made advances to its sole shareholder in the amount of \$2,341,041 and \$14,876,843 at December 31, 2002 and 2003.

11. COMMITMENTS AND CONTINGENCIES

The Company has entered into an operating land lease. Lease obligations accrue from July 1, 1997, and payments will be made on January 2nd of each year.

Future minimum lease commitments are as follows:

2004	
2005-2009	
2010-2014	

2015-2019.....

The Company purchases all of its power (the majority on a take or pay basis) from the Iceland Power Company at a rate that varies with the price of aluminum. The contract expires October 31, 2019. To the extent that the Company has received a benefit of reduced power prices, the Company may pay higher power prices in the future should the price of aluminum exceed specified levels.

The Company is a party to a contract for the annual purchase of 48,000 metric tons (+/-10%) of certain raw materials for delivery through 2013. The purchase price is adjusted annually throughout the term of the contract based upon the supplier's raw material and operating costs.

In conjunction with the refinancing of the Senior Credit Facility completed in September 2003, the Company will be obligated to pay the bank group additional fees of \$832,500 if specific bank financing for the expansion of the annual operating capacity of the plant to 180,000 tonnes is not completed by June 10, 2004.

The Company, in the regular course of business, is involved in investigations and claims by various regulatory agencies none of which the Management of the Company believes will have a ultimate resolution that will be material.

The Company has entered into several operating lease agreements for mobile equipment and monthly lease payments are charged to the income statement. At the year end the remaining amount of these agreements are approximately \$1,041,800 and expire through the year 2008.

12. MORTGAGES

The Company has issued a general bond of \$197,600,000 as a guarantee for the senior credit facility specified in Note 7. The general bond holds a first mortgage on all the following assets:

- A. All assets located within the smelter site.
- B. The harbour installations.
- C. All other properties and assets owned by the Company from time to time.

14

NORDURAL HF

NOTES TO FINANCIAL STATEMENTS - (CONTINUED)

13. OPERATING LICENSE

The Company has an operating license for the production of up to 180,000 tonnes of aluminum per year in the smelter at Grundartangi. This operating license was issued by the Icelandic Minister for the Environment on March 26, 1997 and confirmed by the Environmental and Food Agency of Iceland on November 2, 1999. The Company continues to operate pursuant to this license. In February

2003, this license was amended subject to start up of additional production capacity to allow for production up to 300,000 tonnes of aluminum per year.

14. SUMMARY OF DIFFERENCES BETWEEN ICELANDIC AND U.S. GENERALLY ACCEPTED ACCOUNTING PRINCIPLES (GAAP)

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in Iceland (Icelandic GAAP) which differ in certain material respects from accounting principles generally accepted in the United States (U.S. GAAP). The following is a summary of the material adjustments to net profit which would have been required, if U.S. GAAP had been applied instead of Icelandic GAAP.

Effect on net profit of differences between Icelandic GAAP and U.S. GAAP:

	YEAR ENDED DECEMBER 31, 2001	YEAR ENDED DECEMBER 31, 2002

---------------	--------	-------	------	------	--	----	-----------------

\$ 103,578,583

\$70,096

A summary of the principal differences applicable to the financial statements is set out below:

Deferred financing costs

Under Icelandic GAAP, the Company capitalizes all bank fees and third party costs associated with refinancing the senior credit facility. In addition, upon refinancing, deferred costs have been amortized over the original term of the related facility.

Under U.S. GAAP, fees paid to a bank upon refinancing may be deferred and amortized over the term of the credit facility. However, all third party costs associated with a refinancing that is not debt extinguishment must be expensed. In addition, any unamortized costs from an earlier financing are amortized over the term of the new credit facility.

Capital leases

Under Icelandic GAAP, payments associated with equipment leases whose term approximates the useful life of the associated equipment may be expensed as incurred, even though title to equipment passes to the lessee at the end of the term.

Under U.S. GAAP, if there is a bargain purchase option at the end of the lease or title to equipment transfers to the lessee, then these leases shall be accounted for as capital leases. Under U.S. GAAP, at the onset of a lease, the cost of the equipment is recorded in the assets of the company as property, plant and equipment and depreciated over its useful life, while a corresponding liability entitled, "Obligation under Capital Lease" is recorded. As payments are made on the leases, the liability is reduced while an interest portion of each payment is recorded as expense in the income statement. The gross amount of equipment recorded under capital leases was \$1,539,790 and \$1,418,476 at December 31, 2003 and 2002.

Interest rate swap contracts and derivative financial instruments

Under Icelandic GAAP, interest rate swap contracts undertaken for the purpose of hedging outstanding borrowings are accounted for off-balance sheet by recording net payments or receipts as a component of interest expense. In addition, the cost of financial derivatives undertaken for the purpose of hedging the future price volatility of a commodity are deferred and recorded in sales concurrent with the sale of the commodity that was hedged.

16

NORDURAL HF

NOTES TO FINANCIAL STATEMENTS - (CONTINUED)

The requirements for hedge accounting under U.S. GAAP are more prescriptive than those under Icelandic GAAP. Under U.S. GAAP, to qualify for hedge accounting, interest rate swaps and commodity derivatives must not only be designated as hedges, but at inception and throughout the term of the swap there must be a high correlation between the market values of the contracts and the outstanding balance of the underlying debt or commodity being hedged. The

principal amounts of the Company's outstanding debt and the volume of the commodity hedged correlate sufficiently with the notional amounts of the swap contracts and commodities derivative instruments to qualify for hedge accounting. Given the nature of these contracts, they are accounted for as cash flow hedges. Therefore, under U.S. GAAP these contracts are marked to market at the balance sheet dates with any difference between the market value and the carrying amount recorded in the equity section of the balance sheet as other comprehensive income (loss).

Deferred income taxes

Under Icelandic GAAP, prior to 2003, deferred income taxes were not required to be recorded in the financial statements of a company. Rather, footnote disclosure of the items that caused a difference between book income and taxable income was made. Beginning in 2003, it was required that deferred taxes be recorded in the financial statements.

Under U.S. GAAP, deferred taxes are accounted for on all temporary differences, including those resulting from other U.S. GAAP adjustments, and a valuation allowance is established to reduce deferred tax assets to the amount which more likely than not will not be realized in future periods based on current estimates of future taxable income, along with proper tax planning strategies.

The components of the net deferred tax liabilities under U.S. GAAP, which have been netted with respect to noncurrent amounts, as of December 31, 2002 and 2003 are as follows:

	2002 ASSET (LIABILITY)	2003 ASSET (LIABILITY)		
Tax over book depreciation Tax loss carryforwards	\$(4,735,667) 3,308,818	\$(8,816,673) 4,544,208		
Net non-current deferred tax liability	\$(1,426,849)	\$ (4,272,464)		

On January 1, 2002, the Icelandic statutory rate was decreased from 33% to 18%. This decrease in effective rate resulted in a decrease to net deferred tax assets and additional tax expense of \$462,907.

In 2001, the Company's provision for income taxes includes tax expense calculated at a statutory tax rate of 33% of \$3,489,293 which is offset by a reduction of a valuation allowance of \$4,507,688 which nets to a tax benefit of \$1,018,395. In 2001, the valuation allowance was reduced to zero as based upon the Company's ability to generate profits, a valuation allowance was no longer deemed necessary.

17

INTRODUCTION TO UNAUDITED PRO FORMA CONSOLIDATED FINANCIAL DATA (100% ACQUISITION)

The following tables present Century's unaudited pro forma consolidated balance sheet as of December 31, 2003 and unaudited pro forma consolidated statement of operations for the year ended December 31, 2003. The unaudited pro

forma consolidated financial data presented below has been derived from (1) Century Aluminum Company's audited consolidated financial statements and accompanying notes included in its Annual Report on Form 10-K for the year ended December 31, 2003; and (2) the separate audited financial statements and accompanying notes of Nordural hf for the year ended December 31, 2003, which are included in this Current Report on Form 8-K. The unaudited pro forma consolidated financial data has been prepared for illustrative purposes only and does not purport to represent what Century's results of operations or financial condition would actually have been had the transactions described below in fact occurred as of the dates specified. In addition, the unaudited pro forma consolidated financial data does not purport to project Century's results of operations or financial condition as of any date or for any future period. Among other things, the unaudited pro forma consolidated financial data does not reflect the effects of Century's acquisition of the remaining 20% interest in its Hawesville primary aluminum reduction facility prior to the closing of that acquisition in April 2003.

The unaudited pro forma consolidated statement of operations for the year ended December 31, 2003 gives pro forma effect to the following events as if they were consummated on January 1, 2003:

- Century's acquisition of 100% of the outstanding equity shares of Nordural hf;
- Century's anticipated issuance and sale of common stock to finance the Nordural acquisition; and
- other adjustments that management believes are directly related to the Nordural acquisition.

The unaudited pro forma consolidated balance sheet as of December 31, 2003 gives effect to these events as if they were consummated on December 31, 2003.

The Nordural acquisition would be accounted for using the purchase method of accounting. Under the purchase method of accounting, the cash payment of the estimated aggregate purchase price for Nordural (including transaction fees and expenses) would be allocated to the tangible assets, identifiable intangible assets and liabilities of Nordural, based upon their respective fair values. The allocation of the purchase price, useful lives assigned to assets and other adjustments made to the unaudited pro forma consolidated financial data are based upon available information and certain preliminary assumptions that we believe are reasonable under the circumstances. Century has not yet completed the fair market value allocation to the specific assets and liabilities of Nordural. Consequently, the final amounts allocated and the related useful lives could differ from those reflected in the unaudited pro forma consolidated financial data and the effects could be material. The acquisition of Nordural is subject to certain conditions, including the successful completion of a planned equity offering, and there can be no assurance that the acquisition will be consummated.

The unaudited pro forma consolidated financial data should be read in conjunction with: (1) Century's audited consolidated financial statements and accompanying notes and "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in its Annual Report on Form 10-K for the year ended December 31, 2003, and (2) the separate audited financial statements and accompanying notes of Nordural hf which are included elsewhere in this Current Report on Form 8-K.

NOTES TO THE UNAUDITED PRO FORMA CONSOLIDATED BALANCE SHEET (100% ACQUISITION) AS OF DECEMBER 31, 2003

- Reflects an adjustment to eliminate shareholder loans, a portion of which is expected to be repaid prior to closing and the balance is expected to be offset against retained earnings.
- 2. Reflects the cash payment and allocation of the estimated aggregate purchase price for Nordural, including acquired cash and estimated transaction fees and expenses (subject to adjustment for an additional payment not to exceed \$25.0 million due upon commencement of the expansion). Acquired cash reflects pro forma cash on the balance sheet of Nordural which Century has agreed to purchase. Century will also compensate the seller for the cash flow generated by the business from December 31, 2003 through closing which could be material.

NOTES TO THE UNAUDITED PRO FORMA CONSOLIDATED STATEMENT OF OPERATIONS (100% ACQUISITION) YEAR ENDED DECEMBER 31, 2003

- Reflects an adjustment to depreciation expense based on the preliminary purchase accounting fair market valuation of Nordural's property, plant and equipment using an estimated average useful life of 35 years.
- 2. Reflects an adjustment to eliminate Nordural's historical amortization expense related to deferred financing and carbon anode contract costs.
- Reflects an adjustment to record income tax expense for the effects of the pro forma adjustments using an effective tax rate of 35%.
- 4. Reflects an adjustment to record the incremental increase in income tax expense for the historical results of Nordural using an effective tax rate of 35% as opposed to the historical rate of 18%.
- Records the additional shares outstanding from Century's anticipated issuance of common stock to finance the Nordural acquisition using Century's closing price per share of \$26.79 as of March 15, 2004.

23

INTRODUCTION TO UNAUDITED PRO FORMA CONSOLIDATED FINANCIAL DATA (49.9% ACQUISITION)

The following tables present Century's unaudited pro forma consolidated balance sheet as of December 31, 2003 and unaudited pro forma consolidated statement of operations for the year ended December 31, 2003. The unaudited pro forma consolidated financial data presented below has been derived from (1) Century's audited consolidated financial statements and accompanying notes included in its Annual Report on Form 10-K for the year ended December 31, 2003, and (2) the separate audited financial statements and accompanying notes of Nordural hf for the year ended December 31, 2003, which are included elsewhere in this Current Report of Form 8-K. The unaudited pro forma consolidated financial data has been prepared for illustrative purposes only and does not purport to represent what Century's results of operations or financial condition would actually have been had the transactions described below in fact occurred as of the dates specified. In addition, the unaudited pro forma consolidated financial data does not purport to project Century's results of operations or financial condition as of any date or for any future period. Among other things, the unaudited pro forma consolidated financial data does not reflect the effects of Century's acquisition of the remaining 20% interest in its Hawesville primary aluminum reduction facility prior to the closing of that acquisition in April 2003.

The unaudited pro forma consolidated statement of operations for the year ended December 31, 2003 gives pro forma effect to the following events as if they were consummated on January 1, 2003:

- Century's acquisition of 49.9% of the outstanding equity shares of Nordural hf;
- Century's anticipated issuance and sale of common stock to finance the Nordural acquisition; and
- other adjustments that management believes are directly related to the Nordural acquisition.

The unaudited pro forma consolidated balance sheet as of December 31, 2003 gives effect these events as if they were consummated on December 31, 2003.

The Nordural acquisition would be accounted for using the equity method of accounting. Under the equity method of accounting, the cash payment of the estimated aggregate purchase price for 49.9% of the shares of Nordural (including transaction fees and expenses) would be allocated to the tangible assets, identifiable intangible assets and liabilities of Nordural, based upon their respective fair values, and recorded as a single line item on the unaudited pro forma consolidated balance sheet. Century would recognize its pro rata share of Nordural's earnings before income taxes, adjusted for the fair market value allocation of the purchase price, as a single line item on the unaudited pro forma consolidated statement of operations. The allocation of the purchase price, useful lives assigned to assets and other adjustments made to the unaudited pro forma consolidated financial data are based upon available information and certain preliminary assumptions that we believe are reasonable under the circumstances. Century has not yet completed the fair market value allocation to the specific assets and liabilities of Nordural. Consequently, the final amounts allocated and the related useful lives could differ from those reflected in the unaudited pro forma consolidated financial data and the effects could be material. The acquisition of Nordural is subject to certain conditions, including the successful completion of a planned equity offering, and there can be no assurance that the acquisition will be consummated.

The unaudited pro forma consolidated financial data should be read in conjunction with: (1) Century's audited consolidated financial statements and accompanying notes and "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in its Annual Report on Form 10-K for the year ended December 31, 2003; and (2) the separate audited financial statements and accompanying notes of Nordural included elsewhere in this Current Report on Form 8-K.
