FORWARD-LOOKING STATEMENTS

Certain matters contained in this report are forward-looking statements within the meaning of the federal securities laws and are subject to uncertainties and risks. These include, but are not limited to, general and local economic conditions, local real estate conditions, the activity of others developing competitive projects, the risks associated with development projects (such as delay, cost overruns and leasing/sales risk of new properties), the cyclical nature of the real estate industry, the financial condition of existing tenants, interest rates, the Company s ability to obtain favorable financing or zoning, environmental matters, the effects of terrorism, the ability of the Company to close properties under contract and other risks detailed from time to time in the Company s filings with the Securities and Exchange Commission, including this report on Form 10-K. The words believes, expects, anticipates, estimates and similar expressions are intended to identify forward-looking statements. Although the Company believes that its plans, intentions and expectations reflected in any forward-looking statements are reasonable, the Company can give no assurance that such plans, intentions or expectations will be achieved. Such forward-looking statements are based on current expectations and speak as of the date of such statements. The Company undertakes no obligation to publicly update or revise any forward-looking statement, whether as a result of future events, new information or otherwise.

PART I

Item 1. Business

Corporate Profile

Cousins Properties Incorporated (the Registrant or Cousins) is a Georgia corporation, which since 1987 has elected to be taxed as a real estate investment trust (REIT). Cousins Real Estate Corporation and its subsidiaries (CREC) is a taxable entity wholly-owned by the Registrant and is consolidated with the Registrant. CREC owns, develops, and manages its own real estate portfolio and performs certain real estate related services for other parties. The Registrant and CREC combined are hereafter referred to as the Company. The Company has been a public company since 1962, and its common stock trades on the New York Stock Exchange under the symbol CUZ.

The Company s strategy is to produce strong stockholder returns by creating value through the acquisition, development and redevelopment of high quality, well-located office, multi-family, retail, industrial, and residential properties. The Company has developed substantially all of the income producing real estate assets it owns and operates. A key element in the Company s strategy is to actively manage its portfolio of investment properties and, at the appropriate times, to engage in timely and strategic dispositions either by sale or through contributions to ventures in which the Company retains an ownership interest. These transactions seek to maximize the value of the assets the Company has created, generate capital for additional development properties and return a portion of the value created to stockholders.

Unless otherwise indicated, the notes referenced in the discussion below are the Notes to Consolidated Financial Statements included in this Annual Report on Form 10-K on pages F-7 through F-43.

The Company conducts its business through four divisions: Office/Multi-Family, Retail, Industrial and Land. The following is a summary of the strategy and 2006 activity in each of its operating divisions:

Business Description and Significant Changes in 2006

Office/Multi-Family Division

The strategy of the Office/Multi-Family Division is to create value through (1) the development and asset management of Class A office projects with particular focus in Austin, Dallas, Charlotte, Birmingham, and Atlanta; (2) the development and sale of multi-family projects in urban locations in the Southeastern United States targeted to buyers with generally higher income and less sensitivity to interest rates; and (3) the management and leasing of office properties owned by third parties. In addition to traditional office/multi-family projects, the Office/Multi-Family Division is engaged in the development of mixed use projects that contain multiple product types in communities where individuals live, work and seek entertainment.

As of December 31, 2006, the Office/Multi-Family Division owned directly or through joint ventures 20 operating office properties totaling 4.9 million rentable square feet and had five office or multi-family projects under active development or redevelopment.

Significant activity within the Office/Multi-Family Division in 2006 was as follows:

Formed a joint venture which is intended to construct Palisades West, a 360,000 square foot, two building office development in Austin, Texas.

Increased percentage leased of Terminus 100 from 41% at December 31, 2005 to 64% at December 31, 2006.

Completed the construction and closed the sale of all units at 905 Juniper, the Company s first multi-family project.

Acquired 191 Peachtree, a 1.2 million square foot, Class A building in Downtown Atlanta.

Increased percentage of completion of 50 Biscayne from 26% at December 31, 2005 to 70% at December 31, 2006. The Company expects construction to be substantially complete and unit closings to commence in the fourth quarter of 2007.

Table of Contents

Had significant leasing activity, notably a 274,000 square foot lease to the American Cancer Society at Inforum.

Retail Division

The strategy of the Retail Division is to create stockholder value through the development and management of retail shopping centers, including Avenue® concept lifestyle centers and power centers. The Retail Division focuses its efforts in demographically favorable markets in the Sunbelt with a particular emphasis on Georgia, Tennessee, North Carolina, Texas and Florida. In addition, the Retail Division is partnering with other divisions for mixed-use developments such as the Terminus project in the Buckhead district of Atlanta.

As of December 31, 2006, the Company owned directly or through joint ventures 10 operating retail properties totaling 2.7 million rentable square feet and had three projects and one expansion under active development totaling 1.5 million square feet.

Significant activity within the Retail Division in 2006 was as follows:

Commenced operations of San Jose MarketCenter, a 363,000 square foot power center in San Jose, California, of which the Company owns 220,000 square feet.

Commenced operations of The Avenue Webb Gin, a 381,000 square foot lifestyle center in suburban Atlanta.

Through a joint venture, commenced construction of The Avenue Murfreesboro, an 810,000 square foot lifestyle center in suburban Nashville, Tennessee.

Industrial Division

The strategy of the Industrial Division is to create value through the development of institutional quality warehouse and distribution properties. The Industrial Division initially focused its efforts on the metropolitan Atlanta area. In 2006, it expanded into the Dallas market with a joint venture partner. Over time, the Industrial Division expects to expand beyond the Atlanta and Dallas market areas to port cities such as Savannah, Jacksonville and Tampa as well as major distribution centers that may include Central Florida, Memphis and Kansas City.

As of December 31, 2006, the Company owned through joint ventures one operating industrial property totaling 417,000 rentable square feet and three projects under active development totaling 1.6 million square feet.

Significant activity within the Industrial Division in 2006 was as follows:

Commenced construction of the first building at Jefferson Mill Business Park, a 459,000 square foot industrial project in Jackson County, Georgia. This project will contain 3.2 million square feet upon completion.

Through a joint venture commenced construction of the first building in Lakeside Ranch Business Park in Dallas, Texas. The first building will contain 749,000 square feet and the project will contain 1.7 million square feet upon completion.

Commenced operations of the first building in King Mill Distribution Park containing 417,000 square feet.

Commenced construction of the second building in King Mill Distribution Park containing 359,000 square feet.

Land Division

The strategy of the Land Division is to create value through the acquisition and entitlement of land, and the development and sale of residential lots. In addition, the Land Division acquires and sells certain undeveloped tracts of land to third parties that are generally adjacent to or a part of its residential lot developments. The Land Division conducts most of its business through partnerships with Temple Inland and its affiliates. This alliance has allowed the Company to share in the capital invested in individual projects and to share resources and expertise in the development and sale of residential lots and land tracts.

Table of Contents

As of December 31, 2006, the Company had 24 residential communities under development directly or through joint ventures in which approximately 11,600 lots remain to be developed and/or sold. In addition, the Company or its joint ventures had approximately 9,100 acres of undeveloped land.

Significant activity within the Land Division in 2006 was as follows:

Commenced development of Blalock Lakes, a planned 3,000 acre residential community in Coweta County, Georgia that is expected to include private hunting, equestrian, fishing, swim and tennis facilities in a controlled access community.

Entered into a joint venture with Callaway Gardens Resorts, Inc. for the development of residential lots within the Callaway Gardens Resort.

Sold 1,576 residential lots, either directly or through joint ventures.

Sold 1,245 acres of land tracts, either directly or through joint ventures.

Financing Activities

The Company s financing strategy is to provide capital to fund its development activities while maintaining a relatively conservative debt level and managing the Company s size to make the value created from its development activities more accretive to its common stockholders. Historically, the Company has accomplished this strategy by raising capital through bank lines of credit, construction and mortgage loans secured by its properties, sale of mature assets and distribution of the gains on asset sales to stockholders, contribution of assets into joint ventures, and the issuance of preferred stock.

During 2006, the Company had the following financing activities:

Formed a venture with an institutional investor for the ownership, development, investment, management and leasing of certain commercial real estate projects, including five of the Company s retail properties. This transaction provided $300 million in capital in 2006 and is expected to provide $20 million of capital in 2007 for future investment.

Sold The Avenue of the Peninsula and its interests in Bank of America Plaza and Frost Bank Tower for total proceeds of $502 million.

Sold seven ground lease outparcels at its North Point property generating proceeds of approximately $14.3 million.

Recast its credit facility resulting in $75 million in additional capacity, a reduction in its interest spread over LIBOR and additional flexibility in certain financial covenants.

Closed a $100 million unsecured construction facility for funding the development of Terminus 100.

The joint venture developing The Avenue Murfreesboro closed a $131 million construction loan, of which the Company guarantees 20%.

Paid a special dividend to common stockholders of $175.5 million or $3.40 per share.

Environmental Matters

Under various federal, state and local laws, ordinances and regulations, an owner or operator of real estate is generally liable for the costs of removal or remediation of certain hazardous or toxic substances on or in such property. Such laws often impose liability without regard to whether the owner knew of, or was responsible for, the presence of such hazardous or toxic substances. The presence of such substances, or the failure to properly remediate such substances, may subject the owner to substantial liability and may adversely affect the owner s ability to develop the property or to borrow using such real estate as collateral. The Company is not aware of any environmental liability that the Company s management believes would have a material adverse effect on the Company s business, assets or results of operations.

Certain environmental laws impose liability on a previous owner of property to the extent that hazardous or toxic substances were present during the prior ownership period. A transfer of the property does not relieve an owner of such liability. Thus, although the Company is not aware of any such situation, the Company may be liable in respect to properties previously sold.

In connection with the development or acquisition of certain properties, the Company has obtained Phase One environmental audits (which generally involve inspection without soil sampling or ground water analysis) from independent environmental consultants. The remaining properties (including the Company s land held for investment or future development) have typically also been so examined. No assurance can be given that environmental liabilities do not exist, that the reports revealed all environmental liabilities or that no prior owner created any material environmental condition not known to the Company.

The Company believes that it and its properties are in compliance in all material respects with all federal, state and local laws, ordinances and regulations regarding hazardous or toxic substances.

Competition

The Company competes for tenants with similar properties located in its markets primarily on the basis of location, rental rates, services provided and the design and condition of the facilities. The Company also competes with other real estate companies, financial institutions, pension funds, partnerships, individual investors and others when attempting to acquire and develop properties. In addition, the Land and Office/Multi-Family divisions compete with other lot and multi-family developers.

Executive Offices; Employees

The Registrant s executive offices are located at 2500 Windy Ridge Parkway, Suite 1600, Atlanta, Georgia 30339-5683. Effective April 1, 2007, the Company s executive offices will relocate to 191 Peachtree Street, Suite 3600, Atlanta, Georgia 30303-1740. At December 31, 2006, the Company employed 488 people.

Available Information

The Company makes available free of charge on the Investor Relations page of its Web site, www.cousinsproperties.com, its filed and furnished reports on Forms 10-K, 10-Q and 8-K, and all amendments thereto, as soon as reasonably practicable after the reports are filed with or furnished to the Securities and Exchange Commission (the SEC).

The Company s Corporate Governance Guidelines, Director Independence Standards, Code of Business Conduct and Ethics, and the Charters of the Audit Committee and the Compensation, Succession, Nominating and Governance Committee of the Board of Directors are also available on the Investor Relations page of the Company s Web site. The information contained on the Company s Web site is not incorporated herein by reference.

Copies of these documents (without exhibits, when applicable) are also available free of charge upon request to the Company at 2500 Windy Ridge Parkway, Suite 1600, Atlanta, Georgia 30339-5683, Attention: Investor Relations. Investor Relations may also be reached by telephone at (770) 955-2200 or by facsimile at (770) 857-2368. Effective April 1, 2007, the Company s headquarters will relocate to 191 Peachtree Street, Suite 3600, Atlanta, Georgia 30303-1740, main telephone number (404) 407-1000.

In addition, the SEC maintains an internet website that contains reports, proxy and information statements, and other information regarding issuers, including the Company, that file electronically with the SEC at www.sec.gov.

Item 1A. Risk Factors

Set forth below are the risks we believe investors should consider carefully in evaluating an investment in the securities of Cousins Properties Incorporated.

General Real Estate Operating Risks

Our ownership of commercial real estate involves a number of risks, including general economic and market risks, leasing risk, uninsured losses and condemnation costs, environmental issues, joint venture structure risk and concentration of real estate, the effects of which could adversely affect our business.

General economic and market risks. Our assets may not generate income sufficient to pay our expenses, service debt or maintain our properties, and, as a result, our results of operations may be adversely affected and we may need to reduce our dividend in future periods. Several factors may adversely affect the economic performance and value of our properties. These factors include, among other things:

- changes in the national, regional and local economic climate;
- local conditions such as an oversupply of properties or a reduction in demand for properties;
- the attractiveness of our properties to tenants;
- competition from other available properties;
- changes in market rental rates; and
- the need to periodically repair, renovate and re-lease space.

Our performance also depends on our ability to collect rent from tenants and to pay for adequate maintenance, insurance and other operating costs (including real estate taxes), which could increase over time. Also, the expenses of owning and operating a property are not necessarily reduced when circumstances such as market factors and competition cause a reduction in income from the property. If a property is mortgaged and we are unable to meet the mortgage payments, the lender could foreclose on the mortgage and take title to the property. In addition, interest rate levels, the availability of financing, changes in laws and governmental regulations (including those governing usage, zoning and taxes) and financial distress or bankruptcies of tenants may adversely affect our financial condition.

Leasing risk. Our operating revenues are dependent upon entering into leases with and collecting rents from tenants. National, regional and local economic conditions may adversely impact tenants and potential tenants in the various marketplaces in which projects are located, and accordingly, could affect their ability to continue to pay rents and possibly to occupy their space. Tenants sometimes experience bankruptcies and pursuant to the various bankruptcy laws, leases may be rejected and thereby terminated. When leases expire or are terminated, replacement tenants may or may not be available upon acceptable terms and conditions. In addition, our cash flows and results of operations could be adversely impacted if existing leases expire or are terminated and at such time, market rental rates are lower than the previous contractual rental rates. As a result, our distributable cash flow and ability to make distributions to stockholders would be adversely affected if a significant number of our tenants fail to pay their rent due to bankruptcy, weakened financial condition or otherwise.

Uninsured losses and condemnation costs. Accidents, earthquakes, terrorism incidents and other losses at our properties could materially adversely affect our operating results. Casualties may occur that significantly damage an operating property, and insurance proceeds may be materially less than the total loss incurred by us. Although we maintain casualty insurance under policies we believe to be adequate and appropriate, some types of losses, such as lease and other contract claims, generally are not insured. Certain types of insurance may not be available or may be available on terms that could result in large uninsured losses. We own property in California and other locations where

property is subject to damage from earthquakes, as well as other natural catastrophes. We also own property that could be subject to loss due to terrorism incidents. The earthquake insurance and terrorism insurance markets, in particular, tend to be volatile and the availability and pricing of insurance to cover losses from earthquakes and terrorism incidents may be unfavorable from time to time. In addition, earthquakes and terrorism incidents could result in a significant loss that is uninsured due to the high level of deductibles or damage in excess of levels of coverage. Property ownership also involves potential liability to third parties for such matters as personal injuries occurring on the property. Such losses may not be fully insured. In addition to uninsured losses, various government authorities may condemn all or parts of operating properties. Such condemnations could adversely affect the viability of such projects.

Environmental issues. Environmental issues that arise at our properties could have an adverse effect on our financial condition and results of operations. Federal, state and local laws and regulations relating to the protection of the environment may require a current or previous owner or operator of real estate to investigate and clean up hazardous or toxic substances or petroleum product releases at a property. The owner or operator may have to pay a governmental entity or third parties for property damage and for investigation and clean-up costs incurred by such parties in connection with the contamination. These laws typically impose clean-up responsibility and liability without regard to whether the owner or operator knew of or caused the presence of the contaminants. Even if more than one person may have been responsible for the contamination, each person covered by the environmental laws may be held responsible for all of the clean-up costs incurred. In addition, third parties may sue the owner or operator of a site for damages and costs resulting from environmental contamination emanating from that site. We are not currently aware of any environmental liabilities at locations that we believe would have a material adverse effect on our business, assets, financial condition or results of operations. Unidentified environmental liabilities could arise, however, and could have an adverse effect on our financial condition and results of operations.

Joint venture structure risks. Our venture partners have rights to take some actions over which we have no control, which could adversely affect our interests in the related joint ventures and in some cases our overall financial condition or results of operations. We have interests in a number of joint ventures (including partnerships and limited liability companies) and may in the future conduct our business through such structures. These structures involve participation by other parties whose interests and rights may not be the same as ours. For example, a venture partner might have economic and/or other business interests or goals which are unlike or incompatible with our business interests or goals and those venture partners may be in a position to take action contrary to our interests, including maintaining our REIT status. In addition, such venture partners may become bankrupt and such proceedings could have an adverse impact on the operation of the partnership or joint venture. Furthermore, the success of a project may be dependent upon the expertise, business judgment, diligence and effectiveness of our venture partners in matters that are outside our control. Thus, the involvement of venture partners could adversely impact the development, operation and ownership of the underlying properties, including any disposition of such underlying properties.

Regional concentration of properties. Currently, a large percentage of our properties are located in metropolitan Atlanta, Georgia. In the future, there may be significant concentrations in metropolitan Atlanta, Georgia and/or other markets. If there is deterioration in any market in which we have significant holdings, our interests could be adversely affected, including, without limitation, loss in value of properties, decreased cash flows and inability to make or maintain distributions to stockholders.

Compliance or failure to comply with the Americans with Disabilities Act or other safety regulations and requirements could result in substantial costs.

The Americans with Disabilities Act generally requires that public buildings, including office, retail and multi-family buildings, be made accessible to disabled persons. Noncompliance could result in the imposition of fines by the federal government or the award of damages to private litigants. If, under the Americans with Disabilities Act, we are required to make substantial alterations and capital expenditures in one or more of our properties, including the removal of access barriers, it could adversely affect our financial condition and results of operations, as well as the amount of cash available for distribution to our stockholders.

Our properties are also subject to various federal, state and local regulatory requirements, such as state and local fire and life safety requirements. If we fail to comply with these requirements, we could incur fines or private damage awards. We do not know whether existing requirements will change or whether compliance with future requirements will require significant unanticipated expenditures that will affect our cash flow and results of operations.

8

Real Estate Development Risks

We face risks associated with the development of real estate, such as delay, cost overruns and the possibility that we are unable to lease a large portion of the space that we build, which could adversely affect our results.

We generally undertake more commercial development activity relative to our size than other public real estate companies. Development activities contain certain inherent risks. Although we seek to minimize risks from commercial development through various management controls and procedures, development risks cannot be eliminated. Some of the key factors affecting development of commercial property are as follows:

The availability of sufficient development opportunities. Absence of sufficient development opportunities could result in our experiencing slower growth in earnings and cash flows. Development opportunities are dependent upon a wide variety of factors. From time to time, availability of these opportunities can be volatile as a result of, among other things, economic conditions and product supply/demand characteristics in a particular market.

Abandoned predevelopment costs. The development process inherently requires that a large number of opportunities be pursued with only a few being developed and constructed. We may incur significant costs for predevelopment activity for projects that are abandoned that directly affect our results from operations. We have procedures and controls in place that are intended to minimize this risk, but it is likely that there will be predevelopment costs charged to expense on an ongoing basis.

Project costs. Construction and leasing of a project involves a variety of costs that cannot always be identified at the beginning of a project. Costs may arise that have not been anticipated or actual costs may exceed estimated costs. These additional costs can be significant and could adversely impact our return on a project and the expected results from operations upon completion of the project. Also, construction costs rose significantly in 2006 due to increased demand for building materials and are expected to increase further in the near term. We attempt to mitigate construction cost risks on our development projects through guaranteed maximum price contracts and pre-ordering of certain materials, but we may be adversely affected by increased construction costs on our current and future projects.

Leasing risk. The success of a commercial real estate development project is dependent upon, among other factors, entering into leases with acceptable terms within a predefined lease-up period. Although our policy is to achieve preleasing goals (which vary by market, product type and circumstances) before committing to a project, it is likely only some percentage of the space in a project will be leased at the time we commit to the project. If the space is not leased on schedule and upon the expected terms and conditions, our returns, future earnings and results of operations from the project could be adversely impacted. Whether or not tenants are willing to enter into leases on the terms and conditions we project and on the timetable we expect will depend upon a large variety of factors, many of which are outside our control. These factors may include:

general business conditions in the economy or in the tenants   or prospective tenants   industries;

supply and demand conditions for space in the marketplace; and

level of competition in the marketplace.

Governmental approvals. All necessary zoning, land-use, building, occupancy and other required governmental permits and authorization may not be obtained or may not be obtained on a timely basis resulting

in possible delays, decreased profitability and increased management time and attention.

Financing Risks

If interest rates or other market conditions for obtaining capital become unfavorable, we may be unable to raise capital needed to build our developments on a timely basis, or we may be forced to borrow money at higher interest rates or under adverse terms, which could adversely affect returns on our development projects, our cash flow and results of operations.

We finance our development projects through one or more of the following: our credit facility, permanent mortgages, proceeds from the sale of assets, secured and unsecured construction facilities, and joint venture equity. In addition, we have raised capital through the issuance of perpetual preferred stock to supplement our capital needs. Each of these sources may be constrained from time to time because of market conditions, and interest rates may be unfavorable at any given point in time. These sources of capital, and the risks associated with each, include the following:

Credit facilities. Terms and conditions available in the marketplace for credit facilities vary over time. We can provide no assurance that the amount we need from our credit facility will be available at any given time, or at all, or that the rates and fees charged by the lenders will be acceptable to us. We incur interest under our credit facility at a variable rate. Variable rate debt creates higher debt service requirements if market interest rates increase, which would adversely affect our cash flow and results of operations. Our credit facility contains customary restrictions, requirements and other limitations on our ability to incur indebtedness, including restrictions on total debt outstanding, restrictions on secured debt outstanding, requirements to maintain minimum debt service coverage ratios and minimum ratios of unencumbered assets to unsecured debt. Our continued ability to borrow under our credit facility is subject to compliance with our financial and other covenants. In addition, our failure to comply with such covenants could cause a default, and we may then be required to repay such debt with capital from other sources. Under those circumstances, other sources of capital may not be available to us, or may be available only on unattractive terms.

Mortgage financing. The availability of financing in the mortgage markets varies from time to time depending on various conditions, including the willingness of mortgage lenders to lend at any given point in time. Interest rates may also be volatile and we may from time to time elect not to proceed with mortgage financing due to unfavorable interest rates. This could adversely affect our ability to finance development activities. In addition, if a property is mortgaged to secure payment of indebtedness and we are unable to make the mortgage payments, the lender may foreclose, resulting in loss of income and asset value.

Property sales. Real estate markets tend to experience market cycles. Because of such cycles the potential terms and conditions of sales, including prices, may be unfavorable for extended periods of time. In addition, federal tax laws limit our ability to sell properties and this may affect our ability to sell properties without adversely affecting returns to our stockholders. These restrictions reduce our ability to respond to changes in the performance of our investments and could adversely affect our financial condition and results of operations. This could impair our ability to raise capital through property sales in order to fund our development projects or other cash needs. In addition, mortgage financing on a property may impose a prepayment penalty in the event the financing is prepaid, which may decrease the proceeds from a sale or refinancing or make the sale or refinancing impractical.

Construction facilities. Construction facilities generally relate to specific assets under construction and fund costs above an initial equity amount deemed acceptable to the lender. Terms and conditions of construction facilities vary but they generally carry a term of two to five years, charge interest at variable rates and require the lender to be satisfied with the nature and amount of construction costs prior to funding. While construction lending is competitive and offered by many financial institutions, there may be times when these facilities are

not available or are only available upon unfavorable terms which could have an adverse effect on our ability to fund development projects or on our ability to achieve the returns we expect.

Joint ventures. Joint ventures, including partnerships or limited liability companies, tend to be complex arrangements, and there are only a limited number of parties willing to undertake such investment structures. There is no guarantee that we will be able to undertake these ventures at the times we need capital.

Preferred stock. The availability of preferred stock at favorable terms and conditions is dependent upon a number of factors including the general condition of the economy, the overall interest rate environment, the condition of the capital markets and the demand for this product by potential holders of the securities. We can provide no assurance that conditions will be favorable for future issuances of perpetual preferred stock (or other equity securities) when we need the capital which could have an adverse effect on our ability to fund development projects.

Although we believe that in most economic and market environments we will be able to obtain necessary capital for our operations from the foregoing financing activities, we can make no assurances that the capital we need will be available when we need it. If we cannot obtain capital when we need it, we may not be able to develop and construct all the projects we could otherwise develop which could result in a reduction in our future earnings and cash flows. Lack of financing could also result in an inability to repay maturing debt which could result in defaults and, potentially, loss of properties, as well as an inability to make distributions to stockholders. Unfavorable interest rates could adversely impact both the cost of our projects (through capitalized interest) and our current earnings and cash flows.

Covenants contained in our credit facility and mortgages could restrict or hinder our operational flexibility, which could adversely affect our results of operations.

Our credit facility imposes financial and operating covenants on us. These covenants may be modified from time to time, but covenants of this type typically include restrictions and limitations on our ability to incur debt and certain forms of equity capital, as well as limitations on the amount of our unsecured debt, limitations on payments to stockholders, and limitations on the amount of development and joint venture activity in which we may engage. These covenants may limit our flexibility in making business decisions. If we fail to meet those covenants, our ability to borrow may be impaired, which could potentially make it more difficult to fund our capital and operating needs. Additionally, some of our properties are subject to mortgages. These mortgages contain customary negative covenants, including limitations on our ability, without the lender s prior consent, to further mortgage that property, to modify existing leases or to sell that property. Compliance with these covenants could harm our operational flexibility and financial condition.

Risks Associated with Multi-Family Projects

Any failure to timely sell the multi-family units developed by our Office/Multi-Family Division or an increase in development costs could adversely affect our results of operations.

Our Office/Multi-Family Division develops for-sale multi-family residential projects currently in urban markets. Multi-family unit sales can be highly cyclical and can be affected by interest rates and local issues. Once a project is undertaken, we can provide no assurance that we will be able to sell the units in a timely manner which could result in significantly increased carrying costs and erosion or elimination of profit with respect to any project.

In addition, actual construction and development costs of the multi-family residential projects can exceed estimates for various reasons. As these projects are normally multi-year projects, the market demand for multi-family residences may change between commencement of a project and its completion. Any estimates of sales and profits may differ substantially from our actual sales and profits and, as a result, our results of operations may differ substantially from any estimates.

Any failure to receive cash corresponding to previously recognized revenues could adversely affect our future results of operations.

In accordance with accounting principles generally accepted in the United States, we recognize revenues and profits from sales of multi-family residential units during the course of construction. Revenue is recorded when, among other factors, (1) construction is beyond a preliminary stage, (2) the buyer is committed to the extent of being unable to require a full refund, except for nondelivery of the residence, (3) a substantial percentage of units are under non-cancelable contracts, (4) collection of the sales price is reasonably assured and (5) costs can be reasonably estimated. Due to various contingencies, such as delayed construction and buyer defaults, we may

receive less cash than the amount of revenue already recognized or the cash may be received at a later date than we expected, which could affect amounts of revenue previously recognized and our ultimate profitability on the project.

Risks Associated with our Land Division

Any failure to timely sell the lots developed by our Land Division could adversely affect our results of operations.

Our land division develops residential subdivisions, primarily in metropolitan Atlanta, Georgia. Our land division also participates in joint ventures that develop or plan to develop subdivisions in metropolitan Atlanta, as well as Texas, Florida and other states. This division also from time to time supervises sales of unimproved properties owned or controlled by us. Residential lot sales can be highly cyclical and can be affected by interest rates and local issues, including the availability of jobs, transportation and the quality of public schools. Once a development is undertaken, no assurances can be given that we will be able to sell the various developed lots in a timely manner. Failure to sell such lots in a timely manner could result in significantly increased carrying costs and erosion or elimination of profit with respect to any development.

In addition, actual construction and development costs with respect to subdivisions can exceed estimates for various reasons, including unknown site conditions. The timing of subdivision lot sales and unimproved property sales are, by their nature, difficult to predict with any precision. Additionally, some of our residential properties are multi-year projects, and market conditions may change between the time we decide to develop a property and the time that all or some of the lots or tracts may be ready for sale. Similarly, we often hold undeveloped land for long periods of time prior to sale. Any changes in market conditions between the time we acquire land and the time we sell land, could cause the Company s estimates of proceeds and related profits from such sales to be lower or result in an impairment charge. Estimates of sales and profits may differ substantially from actual sales and profits and as a result, our results of operations may differ substantially from these estimates.

Any failure to timely sell or lease non-income producing land could adversely affect our results of operations.

We maintain significant holdings of non-income producing land in the form of land tracts and outparcels. Our strategy with respect to these parcels of land include (1) developing the land at a future date as a retail, office, industrial or mixed-use income producing property or developing it for single-family or multi-family residential uses; (2) ground leasing the land to third parties; and (3) in certain circumstances, selling the parcels to third parties. Before we develop, lease or sell these land parcels, we incur carrying costs, including interest expense and property tax expense.

If we are unable to sell this land or convert it into income producing property in a timely manner, our results of operations and liquidity could be adversely affected.

Risks Associated with our Third Party Management Business

Our third party business may experience volatility based on a number of factors, including termination of contracts, which could adversely affect our results of operations.

We engage in third party development, leasing, property management, asset management and property services to unrelated property owners. Contracts for such services are generally short-term in nature and permit termination without extensive notice. Fees from such activities can be volatile due to unexpected terminations of such contracts. Extensive unexpected terminations could materially adversely affect our results of operations. Further, the timing of the generation of new contracts for services is difficult to predict.

Table of Contents

General Business Risks

We may not adequately or accurately assess new opportunities, which could adversely impact our results of operations.

Our estimates and expectations with respect to new lines of business and opportunities may differ substantially from actual results, and any losses from these endeavors could materially adversely affect our results of operations. We conduct business in an entrepreneurial manner. We seek opportunities in various sectors of real estate and in various geographical areas and from time to time undertake new opportunities, including new lines of business. Not all opportunities or lines of business prove to be profitable. We expect from time to time that some of our business ventures may have to be terminated because they do not meet our profit expectations. Termination of these ventures may result in the write off of certain related assets and/or the termination of personnel, which would adversely impact results of operations.

We are dependent upon key personnel, the loss of any of whom could adversely impair our ability to execute our business.

One of our objectives is to develop and maintain a strong management group at all levels. At any given time we could lose the services of key executives and other employees. None of our key executives or other employees are subject to employment agreements or contracts. Further, we do not carry key person insurance on any of our executive officers or other key employees. The loss of services of any of our key employees could have an adverse impact upon our results of operations, financial condition and our ability to execute our business strategy.

Our restated and amended articles of incorporation contain limitations on ownership of our stock, which may prevent a change in control that might otherwise be in the best interests of our stockholders.

Our restated and amended articles of incorporation impose limitations on the ownership of our stock. In general, except for certain individuals who owned stock at the time of adoption of these limitations, no individual or entity may own more than 3.9% of the value of our outstanding stock. The ownership limitation may have the effect of delaying, inhibiting or preventing a transaction or a change in control that might involve a premium price for our stock or otherwise be in the best interest of our stockholders.

Federal Income Tax Risks

Any failure to continue to qualify as a real estate investment trust for federal income tax purposes could have a material adverse impact on us and our stockholders.

Cousins intends to operate in a manner to qualify as a REIT for federal income tax purposes. However, we can provide no assurance that Cousins has qualified or will remain qualified as a REIT. Qualification as a REIT involves the application of highly technical and complex provisions of the Internal Revenue Code (the Code), for which there are only limited judicial or administrative interpretations. Certain facts and circumstances not entirely within our control may affect our ability to qualify as a REIT. In addition, we can provide no assurance that legislation, new regulations, administrative interpretations or court decisions will not adversely affect Cousins qualification as a REIT or the federal income tax consequences of Cousins REIT status.

If Cousins were to fail to qualify as a REIT, it would not be allowed a deduction for distributions to stockholders in computing its taxable income. In this case, it would be subject to federal income tax (including any applicable alternative minimum tax) on its taxable income at regular corporate rates. Unless entitled to relief under certain Code

provisions, it also would be disqualified from treatment as a REIT for the four taxable years following the year during which qualification was lost. As a result, the cash available for distribution to our stockholders would be reduced for each of the years involved. Although Cousins currently intends to operate in a manner designed to qualify as a REIT, it is possible that future economic, market, legal, tax or other considerations may cause us to revoke the REIT election.

In order to qualify as a REIT, under current law, Cousins generally is required each taxable year to distribute to its stockholders at least 90% of its net taxable income (excluding any net capital gain). To the extent that Cousins does not distribute all of its net capital gain or it distributes at least 90%, but less than 100%, of its other taxable

income, Cousins is subject to tax on the undistributed amounts at regular corporate rates. In addition, Cousins is subject to a 4% nondeductible excise tax to the extent that distributions paid by Cousins during the calendar year are less than the sum of the following:

85% of its ordinary income;

95% of its net capital gain income for that year, and

100% of its undistributed taxable income (including any net capital gains) from prior years.

We intend to make distributions to our stockholders to comply with the 90% distribution requirement, to avoid corporate-level tax on undistributed taxable income and to avoid the nondeductible excise tax. Differences in timing between taxable income and cash available for distribution could require Cousins to borrow funds to meet the 90% distribution requirement, to avoid corporate-level tax on undistributed taxable income and to avoid the nondeductible excise tax. Satisfying the distribution requirements may also make it more difficult to fund new development projects.

Certain property transfers may be characterized as prohibited transactions, resulting in a tax on any gain attributable to the transaction.

From time to time, we may transfer or otherwise dispose of some of our properties. Under the Code, any gain resulting from transfers or dispositions, from other than our taxable REIT subsidiary, deemed to be prohibited transactions would be subject to a 100% tax on any gain associated with the transaction. Prohibited transactions generally include sales of assets that constitute inventory or other property held for sale to customers in the ordinary course of business. Since we acquire properties primarily for investment purposes, we do not believe that our occasional transfers or disposals of property are deemed to be prohibited transactions. However, whether property is held for investment purposes is a question of fact that depends on all the facts and circumstances surrounding the particular transaction. The Internal Revenue Service may contend that certain transfers or disposals of properties by us are prohibited transactions. While we believe that the Internal Revenue Service would not prevail in any such dispute, if the Internal Revenue Service were to argue successfully that a transfer or disposition of property constituted a prohibited transaction, we would be required to pay a tax equal to 100% of any gain allocable to us from the prohibited transaction. In addition, income from a prohibited transaction might adversely affect our ability to satisfy the income tests for qualification as a REIT for federal income tax purposes.

Disclosure Controls and Internal Control over Financial Reporting Risks

Our business could be adversely impacted if we have deficiencies in our disclosure controls and procedures or internal control over financial reporting.

The design and effectiveness of our disclosure controls and procedures and internal control over financial reporting may not prevent all errors, misstatements or misrepresentations. While management will continue to review the effectiveness of our disclosure controls and procedures and internal control over financial reporting, there can be no guarantee that our internal control over financial reporting will be effective in accomplishing all control objectives at all times. Deficiencies, including any material weakness, in our internal control over financial reporting which may occur in the future could result in misstatements of our results of operations, restatements of our financial statements, a decline in our stock price, or otherwise materially adversely affect our business, reputation, results of operations, financial condition or liquidity.

Item 1B. Unresolved Staff Comments

Not applicable.

Item 2. Properties

The following tables set forth certain information relating to properties in which the Company has a 10% or greater ownership interest. Information presented in Note 6 to the Consolidated Financial Statements included in Item 8 of this report provides additional information related to the Company s joint ventures. All information presented is as of December 31, 2006. Dollars are stated in thousands.

Table of Contents

Lease Expirations Office

As of December 31, 2006, the Company s office portfolio included 20 commercial office buildings, excluding all properties currently under development, held for redevelopment and buildings in lease-up stage. The weighted average remaining lease term of these office buildings was approximately seven years as of December 31, 2006. Most of the major tenant leases in these buildings provide for pass through of operating expenses and contractual rents which escalate over time. The leases expire as follows:

07	2008	2009	2010	2011	2012	2013	2014	2015	T
579	241,820	459,856	162,599	322,486	167,914	536,232	148,207	618,869

Table of Contents

Lease Expirations Retail

As of December 31, 2006, the Company s retail portfolio included 10 retail properties, excluding all properties currently under development and/or in lease-up. The weighted average remaining lease term of these retail properties was approximately 11 years as of December 31, 2006. Most of the major tenant leases in these retail properties provide for pass through of operating expenses and contractual rents which escalate over time. The leases expire as follows:

07	2008	2009	2010	2011	2012	2013	2014	2015	2016 Therea

Lease Expirations Industrial

As of December 31, 2006, the Company s industrial portfolio included one fully operational building in the King Mill Distribution Park Building 3A, Phase I. The tenant lease in this building provides for pass through of operating expenses and contractual rents which escalate over time. The lease expires in 2012.

FOOTNOTES

(1) Average economic occupancy is calculated as the percentage of the property for which revenue was recognized during the year. If the property was purchased during the year, average economic occupancy is calculated from the date of purchase forward. If the project has an expansion that was under construction during the year, average economic occupancy for the expansion portion is only included after it becomes partially operational.

(2) Cost as shown in the accompanying table includes deferred leasing costs and other tangible related assets.

(3) 191 Peachtree Tower is treated as an operational property for financial reporting purposes, although the Company considers this property as a redevelopment project in some of its external reports and analyses. Also, the acreage numbers include 0.8 acres under a ground lease which expires in 2086.

(4) Approximately 0.18 acres of the total four acres of land at Inforum are under a ground lease expiring in 2068.

(5) Actual tenant or venture partner is an affiliate of the entity shown.

(6) These projects are owned either (1) through a joint venture with a third party providing a participation in operations and on sale of the property or (2) subject to a contract with a third party providing a participation in operations and on sale of the property, even though they may be shown as 100% owned.

(7) 100 North Point Center East and 200 North Point Center East were financed together as one non-recourse mortgage note payable.

(8) 333 North Point Center East and 555 North Point Center East were financed together as one recourse mortgage note payable.

(9) See Additional Information Related to Operating Properties following this table for more information related to 3100 Windy Hill Road.

(10) At Meridian Mark Plaza, 8,718 square feet of the Northside Hospital lease expires in 2008; 7,521 square feet of the Scottish Rite Hospital lease expires in 2009.

(11) Emory Crawford Long Medical Office Tower was developed on top of a building within the Crawford Long Hospital campus. The venture received a fee simple interest in the air rights above this building in order to develop the medical office tower.

(12) Presbyterian Medical Plaza at University is located on 1 acre, which is subject to a ground lease expiring in 2057.

(13) Approximately 23,359 square feet of the Novant Health, Inc. lease at Presbyterian Medical Plaza at University expires in 2007, with an option to renew through 2022.

(14) Where a tenant has the option to cancel its lease without penalty, the lease expiration date used in the Lease Expirations tables reflect the cancellation option date rather than the lease expiration date.

(15) Annual Contractual Rent excludes the operating expense reimbursement portion of the rent payable and percentage rents, if applicable. If the lease does not provide for pass through of such operating expense reimbursements, an estimate of operating expenses is deducted from the rental rate shown. The contractual rental rate shown is the estimated rate in the year of expiration.

(16) Rentable square feet leased as of December 31, 2006 out of approximately 2,828,000 total rentable square feet.

(17) Rentable square feet leased as of December 31, 2006 out of approximately 2,095,000 total rentable square feet.

(18) These retail centers also include outparcels which are ground leased to freestanding users.

(19) A portion of the project became partially operational in 2006, but a portion remains under construction and/or in lease-up as of December 31, 2006.

(20) This anchor tenant owns its own store and land.

(21) This tenant built and owns its own store and pays the Company under a ground lease.

(22) During 2006, these properties were contributed to CP Venture IV Holdings LLC. Cost and cost less depreciation and amortization reflects the venture s basis which was adjusted to fair market value at the time of the contribution.

(23) This loan was assumed by CP Venture IV Holdings LLC upon contribution of this property to CP Venture IV Holdings LLC and was adjusted to fair market value at the time of the contribution.

(24) Approximately 1.5 acres of the total acreage at The Avenue Peachtree City is under a ground lease expiring in 2024.

(25) The Company s economic interest in this property decreased in 2006 as a result of Prudential satisfying in full a note payable of CP Venture Two LLC.

(26) This project is currently under contract to sell, and the sale is anticipated to close in the first quarter of 2007.

(27) Gross leasable area leased as of December 31, 2006 out of approximately 492,000 total gross leasable area.

(28) Gross leasable area leased as of December 31, 2006 out of approximately 2,212,000 total gross leasable area.

(29) This building became operational during 2006.

Additional Information Related to Operating Properties

The 3100 Windy Hill Road building, a 188,000 rentable square foot building constructed as a training facility, occupies a 13-acre parcel of land which is wholly owned by the Company. The building was sold in 1983 to a limited partnership of private investors, at which time the Company received a leasehold mortgage note. The training facility land was simultaneously leased to the partnership for thirty years, along with certain equipment for varying periods. The building was leased by the partnership to IBM through November 30, 2006.

Effective January 1, 1997, based on the economics of the training facility lease, the Company determined it would receive substantially all of the economic risks and rewards from the property, mainly due to the short term remaining on the land lease and the mortgage note balance that would have to be paid off, with interest, at maturity. As such, the Company began consolidating the operations of the building and eliminated the mortgage note balance and activity under the land lease beginning January 1, 1997.

During 2006, the Company and the partnership amended the note and ground lease to, among other things, extend both to expire on January 1, 2010.

This property is currently vacant and the Company is attempting to re-lease the space. There can be no guarantee as to rental rates upon re-leasing or the period to lease-up, although the Company does not believe the property has any impairment in value.

(Notes to Development Table)

(1) This schedule includes all Office/Multi-Family, Retail and Industrial projects under construction or redevelopment from the commencement of construction or redevelopment until the projects become fully operational pursuant to accounting principles generally accepted in the United States. Single-family residential projects are included on a separate schedule in this report. Amounts included in the total cost column represent the estimated costs upon completion of the project and achievement of fully operational status. Significant estimation is required to derive these costs and the final costs may differ from these estimates. The projected dates for completion and fully operational status shown above are estimates and are subject to change as the projects proceed through the development process.

(2) Company Owned Gross Leasable Area (GLA) includes square footage owned either directly by the Company or by a joint venture in which the Company is a partner.

Table of Contents

(3) Total Project GLA includes anchor stores who may own their own property and other non-owned property contained within the named development.

(4) Leased square footage includes a lease with the Company of 62,000 square feet.

(5) 191 Peachtree Tower was purchased in 2006 and is under redevelopment and repositioning. It is treated as a development property for the purpose of this schedule, although its cost basis is included in operating properties on the Company s consolidated balance sheet.

(6) The Company is obligated to fund 50% of the project costs for the Palisades West Joint Venture. The Company made the majority of its initial equity contribution in the form of land; therefore, the Company s investment in this project at 12/31/06 is more than 50% of the costs spent to date.

(7) 95% of the units at 50 Biscayne are under non-cancelable third party contracts, 3% of the units are under cancelable contracts, and the remaining 2% of the units are under non-cancelable contracts to the Company s partner in the venture.

(8) A third party will share in the results of operations and any gain on sale of the property.

(9) Reconciliation to Consolidated Balance Sheet

(1) This estimate represents the total projected development capacity for a development on both owned land and land expected to be purchased for further development. The numbers shown include lots currently developed or to be developed over time, based on management s current estimates, and lots sold to date from inception of development.

(2) Includes cost basis of land tracts as detailed on the Land Held for Investment or Future Development schedule.

(3) A third party has a participation in this project after certain thresholds are met.

(4) Callaway Gardens is owned in a venture, although the venture is consolidated with the Company. The partner is entitled to a share of the profits after the Company s capital is recovered.

(5) Longleaf at Callaway lots are sold to a home building venture, of which CREC is a joint venture partner. As a result of this relationship, the Company recognizes profits when houses are built and sold, rather than at the

Table of Contents

time lots are sold, as is the case with the Company s other residential developments. As of December 31, 2006, 108 houses have been sold.

(6) CREC owns 50% of Temco Associates and CL Realty.

(7) CL Realty purchased the partner s interest in Village Park and Village Park North on July 31, 2006. Prior to this date, CL owned 60% and 75%, respectively, of the projects.

(8) CL Realty owned a 10% interest in Stonebridge, which it sold on July 18, 2006.

Land Held for Investment or Future Development

As of December 31, 2006, the Company owned or controlled the following land holdings either directly or indirectly through venture arrangements. The Company evaluates its land holdings on a regular basis and may develop, ground lease or sell portions of the land holdings if opportunities arise. Information in the table represents total amounts for the developable land area as a whole, not the Company s share, and for cost basis, reflects the venture s basis, if applicable. See Note 6 of Notes to Consolidated Financial Statements in Item 8 of this report for further information related to investments in unconsolidated joint ventures. Dollars are stated in thousands.

Description and Location(1)	Zoned Use	Company s Ownership Interest	Developable Land Area (Acres)	Year Acquired	Cost Basis(2)

Description and Location(1)	Zoned Use	Company s Ownership Interest	Developable Land Area (Acres)	Year Acquired	Cost Basis(2)
OTHER JOINT VENTURES					
Handy Road Associates, LLC					
Suburban Atlanta, GA	Large Lot Residential	50%	1,187	2004	$ 5,251
Wildwood Office Park					
Suburban Atlanta, GA	Office and Commercial	50%	32	1971-1989	21,875
Austin Research Park					
Austin, TX	Commercial	50%	6	1998	3,478
Total Acres			9,125		

(1) The following properties include adjacent building pads. The aggregate cost of these pads is included in Operating Properties in the Company s consolidated financial statements or the applicable joint venture s financial statements. The square footage of potential office buildings which could be built on the land is as follows:

	Ownership Interest	Square Footage
Ten Peachtree Place	50.0%	400,000
One Georgia Center	88.5%	300,000
The Points at Waterview	100.0%	60,000

(2) For consolidated properties, amount reflects the Company s basis. For joint venture properties, amount reflects the venture s basis.

(3) Weeks Properties Group, LLC has the option to invest up to 25% of project equity of any future industrial development on a portion of this land.

(4) This land was sold subsequent to December 31, 2006.

(5) This project is consolidated but a third party has a participation in the results of operations of this project.

(6) Residential communities with adjacent land that is intended to be sold to third parties in large tracts for residential, multi-family or commercial development. The basis of these tracts as well as lot inventory are included on the Residential Projects Under Development schedule.

(7) This property included a building and parking deck that were imploded in the third quarter of 2006. The cost basis includes costs associated with the demolition and clearing of the land for a future development.

(8) This project is owned through a joint venture with a third party who has contributed equity but the equity ownership and the allocation of the results of operations and/or gain on sale may be disproportionate to the equity ownership.

Other Investments

Air Rights Near the CNN Center. The Company owns a leasehold interest in the air rights over the approximately 365,000 square foot CNN Center parking facility in Atlanta, Georgia, adjoining the headquarters of Turner Broadcasting System, Inc. and Cable News Network. The air rights are developable for additional parking or office use. The Company s net carrying value of this interest is $0.

Item 3. Legal Proceedings

The Company is subject to various legal proceedings, claims and administrative proceedings arising in the ordinary course of business, some of which are expected to be covered by liability insurance and all of which collectively are not expected to have a material adverse effect on the liquidity, results of operations, business or financial condition of the Company.

Item 4. Submission of Matters to a Vote of Security Holders

No matter was submitted for a vote of the security holders during the fourth quarter of the Registrant s fiscal year ended December 31, 2006.

Item X. Executive Officers of the Registrant

The Executive Officers of the Registrant as of the date hereof are as follows:

Name	Age	Office Held
Thomas D. Bell, Jr.	57	President, Chief Executive Officer and Chairman of the Board of Directors
Daniel M. DuPree	60	Vice Chairman of the Company
R. Dary Stone	53	Vice Chairman of the Company
James A. Fleming	48	Executive Vice President and Chief Financial Officer
Craig B. Jones	55	Executive Vice President and Chief Investment Officer
Lawrence L. Gellerstedt III	50	Senior Vice President and President of the Office/Multi-Family Division
John D. Harris, Jr.	47	Senior Vice President, Chief Accounting Officer and Assistant Secretary
Robert M. Jackson	39	Senior Vice President, General Counsel and Corporate Secretary
John S. McColl	44	Senior Vice President Office/Multi-Family Division
Joel T. Murphy	48	Senior Vice President and President of the Retail Division
Forrest W. Robinson	55	Senior Vice President and President of the Industrial Division
Bruce E. Smith	59	Senior Vice President and President of the Land Division

Family Relationships:

Thomas G. Cousins was the Chairman of the Board of Directors from January 1, 2006 until December 7, 2006, when he retired. Lillian C. Giornelli, Mr. Cousins daughter, is a director of the Company. There are no other family relationships among the Executive Officers or Directors.

Term of Office:

The term of office for all officers expires at the annual stockholders meeting. The Board retains the power to remove any officer at any time.

Business Experience:

Mr. Bell has served as the President and Chief Executive Officer of the Company since January 2002. He has also served as Chairman of the Executive Committee and Chairman of the Board since June 2000 and December 2006, respectively. Prior to becoming Chairman of the Board in December 2006, he served as Vice Chairman of the Board beginning in June 2000. He was a Special Limited Partner with Forstmann Little & Co. from January 2001 until January 2002. He was Worldwide Chairman and Chief Executive Officer of Young & Rubicam, Inc. from January

2000 to November 2000; President and Chief Operating Officer of Young & Rubicam, Inc. from August 1999 to December 1999; and Chairman and Chief Executive Officer of Young & Rubicam Advertising from September 1998 to August 1999. Mr. Bell is also a director of Regal Entertainment Group, AGL Resources, Inc., and the United States Chamber of Commerce and a Trustee of Emory University Healthcare.

Mr. DuPree rejoined the Company in March 2003 as Vice Chairman of the Company. During his previous tenure with the Company from October 1992 until March 2001, he became Senior Vice President in April 1993, Senior Executive Vice President in April 1995 and President and Chief Operating Officer in November 1995. From September 2002 until February 2003, Mr. DuPree was Chief Executive Officer of Barry Real Estate Companies, a privately held development firm.

Mr. Stone joined the Company in June 1999 as President of Cousins Stone LP, a venture in which the Company purchased a 50% interest in June 1999. In July 2000, the Company purchased an additional 25% interest in Cousins Stone LP and in February 2001, the Company purchased the remaining 25% interest. The name Cousins Stone LP was changed to Cousins Properties Services LP in August 2001. Mr. Stone was President and Chief Operating Officer of the Company from February 2001 to January 2002 and was a Director of the Company from 2001 to 2003. Effective January 2002, he relinquished the positions of President and Chief Operating Officer and assumed the position of President Texas. In February 2003, he became Vice Chairman of the Company.

Mr. Fleming joined the Company in July 2001 as Senior Vice President, General Counsel and Secretary. He became Executive Vice President and Chief Financial Officer in August 2004. He was a partner in the Atlanta law firm of Fleming & Ray from October 1994 until July 2001. Prior to that he was a partner at Long Aldridge & Norman, where he served as Managing Partner from 1991 through 1993.

Mr. Jones joined the Company in October 1992 and became Senior Vice President in November 1995 and President of the Office Division in September 1998. He became Executive Vice President and Chief Administrative Officer in August 2004 and served in that capacity until December 2006 when he assumed the role of Executive Vice President and Chief Investment Officer. From 1987 until joining the Company, he was Executive Vice President of New Market Companies, Inc. and affiliates.

Mr. Gellerstedt joined the Company in July 2005 as Senior Vice President and President of the Office/Multi-Family Division. From 2003 to 2005, Mr. Gellerstedt was Chairman and CEO of The Gellerstedt Group. From 2001 to 2003, he was President and COO of The Integral Group, LLC.

Mr. Harris joined the Company in February 2005 as Senior Vice President and Chief Accounting Officer. From 1994 to 2003, Mr. Harris was employed by JDN Realty Corporation, most recently serving as Senior Vice President, Chief Financial Officer, Secretary, and Treasurer. Beginning in 2004, Mr. Harris was the Vice President and Corporate Controller for Wells Real Estate Funds, Inc. Prior to 1994, Mr. Harris was employed by Ernst & Young LLP, most recently serving as Senior Manager.

Mr. Jackson joined the Company in December 2004 as Senior Vice President, General Counsel and Corporate Secretary. From February 1996 to December 2004, he was an associate and then a partner with the Atlanta-based law firm of Troutman Sanders LLP.

Mr. McColl joined the Company in April 1996 as Vice President. He joined the Cousins/Richmond Division in February 1997 and was promoted in May 1997 to Senior Vice President. He joined the Office Division in September 2000.

Mr. Murphy joined the Company in October 1992 and became Senior Vice President of the Company and President of the Retail Division in November 1995. From 1990 until joining the Company, he was Senior Vice President of New Market Companies, Inc. and affiliates.

Mr. Robinson joined the Company in May 2004 as Senior Vice President and President of the Industrial Division. Prior to joining the Company, he was Senior Vice President and President of Codina Group from March 2001 to April 2004. From 1999 to 2001, he was Senior Vice President of Duke Realty Company.

Mr. Smith joined the Company in May 1993 as Senior Vice President and President of the Land Division. From 1983 until joining the Company, he held several positions with Arvida Company, including President of the Atlanta Division and President of the Texas Division.

PART II

Item 5. Market for Registrant s Common Stock and Related Stockholder Matters

Market Information

The high and low sales prices for the Company s common stock and cash dividends declared per common share were as follows:

	2006 Quarters				2005 Quarters			
	First	Second	Third	Fourth	First	Second	Third	Fourth
High	$ 33.99	$ 33.49	$ 34.89	$ 38.77	$ 31.24	$ 30.15	$ 33.50	$ 30.75
Low	27.87	29.02	29.64	33.13	25.28	25.36	27.70	27.04
Dividends Declared:								
Regular	.37	.37	.37	.37	.37	.37	.37	.37
Special				3.40				
Payment Date:								
Regular	2/22/06	5/30/06	8/25/06	12/22/06	2/22/05	5/27/05	8/25/05	12/22/05
Special				12/01/06				

Holders

The Company s common stock trades on the New York Stock Exchange (ticker symbol CUZ). At February 23, 2007, there were 1,166 common stockholders of record.

Purchases of Equity Securities

The following table contains information about the Company s purchases of its equity securities during the fourth quarter of 2006:

	Purchases Outside Plan		Purchases Inside Plan	
	Total Number of Shares Purchased(1)	Average Price Paid per Share(1)	Total Number of Shares Purchased as Part of Publicly Announced Plan(2)	Maximum Number of Shares That May Yet Be Purchased Under Plan(2)
October 1-31	5,122	$ 35.76		5,000,000
November 1-30	66,664	35.75		5,000,000
December 1-31	45,890	36.02		5,000,000
Total	117,676	$ 35.86		5,000,000

(1) The purchases of equity securities that occurred during the fourth quarter of 2006 related to shares remitted by employees as payment for income taxes due in conjunction with restricted stock grants or option exercises or as payment for option exercises.

(2) On May 9, 2006, the Board of Directors of the Company authorized a stock repurchase plan, which expires May 9, 2009, of up to 5,000,000 shares of the Company s common stock. No purchases were made under this plan in the fourth quarter of 2006.

In periods prior to 2006, the Company recorded reimbursements of salary and benefits of on-site employees pursuant to management agreements with third parties as reductions of general and administrative expenses. In 2006, the Company began recording these reimbursements in Fee Income on the Consolidated Statements of Income and reclassified prior period amounts to conform to the 2006 presentation. As a result, Fee Income and

General and Administrative Expenses have increased by $15.1 million in 2005, $13.2 million in 2004, $10.6 million in 2003 and $10.6 million in 2002, when compared to amounts previously reported.

Item 7. Management s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with the Selected Financial Data included in Item 6 and the Consolidated Financial Statements and Notes thereto included in Item 8 of this Annual Report on Form 10-K.

Overview of 2006 Performance and Company and Industry Trends. During 2006, the Company continued to execute its strategy of developing high quality real estate and harvesting the value of more mature projects through sale or contribution to joint ventures. The Company invested approximately $494 million in development or predevelopment projects, land acquisitions or operating properties including eight new projects that upon completion are estimated to result in an aggregate investment of $476 million. The Company or its joint ventures also sold six properties, several land tracts and contributed five properties to a joint venture that resulted in proceeds of approximately $824 million. These proceeds were used to fund current developments and acquisitions, to reduce indebtedness, thereby creating additional capacity to reinvest capital into new development projects, and to pay a special dividend to common stockholders in the amount of $3.40 per share. As a result of this activity, the Company s consolidated aggregate indebtedness decreased from $468 million at December 31, 2005 to $315 million at December 31, 2006 and the consolidated debt to total market capitalization ratio decreased from 22% at December 31, 2005 to 13% at December 31, 2006. The Company believes that these relatively low debt levels provide it with the ability to fund its development pipeline for the foreseeable future.

In 2006, the Company completed substantial construction and commenced operations of San Jose MarketCenter, The Avenue Webb Gin (Phase I), the second phase of The Avenue West Cobb, and Building 3A of King Mill Distribution Park. In addition, the Company completed construction and closed the sale of all units in 905 Juniper, its first multi-family project. The Company acquired land and commenced construction of projects in each of the Company s operating divisions in 2006. The Office/Multi-Family Division began construction of its Palisades West project in Austin and acquired 191 Peachtree Tower, a 1.2 million square foot office building in Downtown Atlanta. The Retail Division began construction of The Avenue Murfreesboro near Nashville, with a joint venture partner and received final approvals to commence the first phase of The Avenue Forsyth, just north of Atlanta. The Industrial Division began Jefferson Mill Distribution Center, just north of Atlanta and, with a joint venture partner, commenced construction of Lakeside Ranch, a project in Dallas. The Land Division began construction of Blalock Lakes, a community south of Atlanta, and an additional phase of its Callaway Gardens project with a joint venture partner.

As these new products were being created, the Company and its joint ventures sold three assets and contributed five assets into a joint venture to capture the value of these properties in what management believed to be favorable market conditions. From its Office portfolio, the Company sold Bank of America Plaza and Frost Bank Tower. The Retail Division sold The Avenue of the Peninsula, a property in Southern California that it acquired and converted into its Avenue format in 1999. The Company also formed a venture with an institutional investor and contributed five retail properties while the investor contributed cash to be used for future development by the Company. This transaction allowed the Company to realize a value for these assets significantly in excess of their original cost.

Consistent with past practices, the Company returned a portion of the proceeds from its 2006 sales transactions to common stockholders in the form of a special dividend in the fourth quarter. This dividend represents the third such dividend the Company has paid since 2003, the total of which is $12.62 per share. When combined with its regular quarterly dividends of $0.37 per share over this same period, the Company has paid an aggregate of $18.54 per share in dividends to common stockholders since January of 2003.

Also in 2006, the Company experienced a decline in its residential lot business as a result of an overall softening of the housing markets in which the Company does business. The Company s markets that were most affected were Tampa and Texas. The Tampa area has recently experienced an expansion of completed home inventories and a decline in new home closings. While we expect housing demand to return to this market in the future because of job growth and migration of retirees to the area, the large inventories caused a slow down in builders purchasing the Company s lots. The Texas markets were adversely affected. Management expects these

adverse conditions to continue in 2007. While management is optimistic about the long term profitability of its lot business in general and in these markets in particular, it is unable to determine when market conditions will turn more favorable for the Company.

The Company s strategy is to annually invest $200 million to $400 million in development projects. Years such as 2006 provide more opportunities than others; however, the Company s product diversity and the ability of management to understand and react to changing trends in the real estate markets should improve its ability to continue to develop through the changing real estate cycles.

With its expanded development pipeline, the Company will need to perform at a high level in order to deliver the projects discussed above, and any future projects it undertakes, on schedule and at the returns expected at the beginning of the projects. The Company believes that it has developed appropriate systems and that it has experienced development and construction professionals managing these projects, which should help to mitigate the risks inherent in the development and leasing process. As a real estate company, the Company is dependent upon certain conditions outside of its control to create value for its stockholders through development. These conditions include demand for its products as well as favorable interest rates and the availability of capital to fund its projects. In addition, the general economic environment for its customers may affect the ability of the Company to complete sales or leasing of its developments and may affect the amount of development that the Company undertakes in future years and the ultimate results of its current development projects.

Looking to 2007 and beyond, there are both positive and negative macro economic factors that will likely affect the Company s business. Management believes that above average population and job growth in its core markets will have a positive impact on future development opportunities and on the profitability of these projects. In the near term, management believes that additional supply of recently completed office, retail, multi-family and industrial projects in its core markets will put pressure on rent growth and unit sales prices for multi-family product. In addition, the rise in land prices and construction costs, without a corresponding rise in rental rates, will make it more difficult to maximize returns on the Company s projects.

The Company, however, sees opportunity in mixed use developments as recent demographic trends show that individuals are seeking locations where they can live, work and seek entertainment. Management believes that the Company, with its multiple divisions, is positioned to act on this demographic shift and expects to add additional mixed use projects to its development pipeline in the near term.

The Company intends to be cautious in 2007 about new multi-family projects because of a recent slowdown in sales activity in certain markets, but management is optimistic about opportunities in this product type over the next five years as a result of favorable demographics. Likewise management believes that the problems in the housing sector that have caused the Company s lot sales to slow will turn and that there will continue to be opportunities for new residential lot developments over the long term for which the Company is well positioned.

Management also believes that in the event of rising capitalization rates, its strategy of creating value through development should allow it to compare favorably with other real estate companies who acquire completed properties for income and future market appreciation. Unlike these companies, management believes that if it is successful in identifying development opportunities that meet its underwriting criteria, it can continue to create value for stockholders in higher capitalization rate environments by capitalizing on the value it creates above cost during the process. While this trend may make it less profitable to dispose of mature income producing assets, management believes that its conservative capital structure will provide it with other opportunities to raise capital needed for development.

Two of the traditional financial metrics for evaluating a REIT are funds from operations (FFO) and FFO growth. As the Company recycles capital from stabilized assets into development projects in order to create value and enhance stockholder returns over the long term, its FFO generally decreases in the short run. This reduction in FFO results from either the distribution of capital to stockholders or the redeployment of capital into development assets that will ultimately result in value creation and higher yields, but are not yet producing income. Therefore, management believes that it is important not to place too much emphasis on the traditional FFO measures, but instead to look at the value the Company creates through its development and leasing activities and the impact this value creation will have on the Company s net asset value.

For the foreseeable future, the Company expects to continue to pursue its business model by focusing much of its efforts on creating value through development. Management believes that this strategy has been successful in the past and should continue to maximize the total return to stockholders.

Critical Accounting Policies. The Company s financial statements are prepared in accordance with accounting principles generally accepted in the United States of America, and the Notes to Consolidated Financial Statements included in Item 8 herein include a summary of the significant accounting policies for the Company. A critical accounting policy is one which is both important to the portrayal of a company s financial condition and results of operations and requires significant judgment or complex estimation processes. The Company is in the business of developing, owning and managing office, retail and industrial real estate properties, developing multi-family residential units, and developing single-family residential communities which are parceled into lots and sold to various home builders. The Company s critical accounting policies relate to its long lived assets, including cost capitalization, acquisition of operating property, depreciation and amortization, and impairment of long-lived assets (including investments in unconsolidated joint ventures); revenue recognition, including residential lot sales, land tract sales, multi-family residential unit sales and valuation of receivables; and to accounting for investments in non-wholly owned entities.

Long-Lived Assets

Cost Capitalization. The Company is involved in all stages of real estate development. The Company expenses predevelopment expenses incurred on a potential project until it becomes probable (more likely than not at the point the decision is made) that the project will go forward. After the Company determines the project is probable, all subsequently incurred predevelopment costs, as well as interest, real estate taxes and certain internal personnel and associated costs directly related to the project under development, are capitalized in accordance with Statement of Financial Accounting Standards (SFAS) No. 34 *Capitalization of Interest Cost* and SFAS No. 67 *Accounting for Costs and the Initial Rental Operations of Real Estate Properties.* If the project s probability comes into question, a reserve may be placed on the assets. If the decision is made to abandon development of a project that had been deemed probable, all previously capitalized costs are expensed or charged against the reserve, if one was established. Therefore, a change in the probability of a project could result in the expensing of significant costs incurred for predevelopment activity. The Company had approximately $17.5 million of capitalized predevelopment assets as of December 31, 2006.

At the time the Company determines that a development project is probable, the Company estimates the time and cost of construction to complete the project. A change in the estimated time and cost of construction could adversely impact the return on the project and the amount of value created from the development of the project. Additionally, determination of when construction of a project is substantially complete and held available for occupancy requires judgment. In accordance with SFAS Nos. 34 and 67, the Company capitalizes direct and related indirect project costs associated with development projects during the construction period. Once a project is deemed substantially complete and held for occupancy, subsequent carrying costs, such as real estate taxes, interest, internal personnel and associated costs, are expensed as incurred. The Company considers projects and/or project phases substantially complete and held for occupancy at the earlier of the date on which the phase reached occupancy of 95% or one year from the issuance of a certificate of occupancy. The Company s judgment of the date the project is substantially complete has a direct impact on the Company s operating expenses and net income for the period.

Acquisition of Operating Property. In addition to developing properties for investment purposes, the Company also occasionally acquires completed and operating properties. The Company allocates the purchase price of operating properties acquired to land, building, tenant improvements and identifiable intangible assets and liabilities based upon relative fair value at the date of acquisition in accordance with SFAS No. 141, *Accounting for Business Combinations,*

which requires considerable judgment. The Company assesses fair value based on estimated cash flow projections that utilize appropriate discount and/or capitalization rates. Estimates of future cash flows are based on a number of assumptions including hypothetical expected lease-up periods, known and anticipated trends, and local market and economic conditions, including probability of lease renewal and estimated lease terms. The fair value of the tangible assets of an acquired operating property, including land, building and tenant improvements, considers the value of the property as if it were vacant. Intangible assets can consist of above

---

or below market tenant and ground leases, customer relationships and the value of in-place leases. Tangible and intangible assets are amortized over their respective expected lives. If management uses incorrect assumptions, thereby incorrectly allocating acquisition cost to the different components or assigns an incorrect amortization period to any asset, then net income may not be reflected properly.

Depreciation and Amortization. Real estate assets are depreciated or amortized over their estimated useful lives using the straight-line method of depreciation. Management uses its judgment when estimating the life of the real estate assets and when allocating development project costs. Historical data, comparable properties and replacement costs are some of the factors considered in determining useful lives and cost allocations. If management incorrectly estimates the useful lives of the Company s real estate assets or if cost allocations are not appropriate, then depreciation and amortization may not be reflected properly in the Company s results of operations.

Impairment. The Company periodically evaluates its real estate assets to determine if there has been any impairment in the carrying values of its held for use assets and records impairment losses if the undiscounted cash flows estimated to be generated by those assets are less than the assets carrying amounts. The evaluation of real estate assets involves many subjective assumptions dependent upon future economic events that affect the ultimate value of the property. For example, future cash flows from properties are estimated using expected market rental rates, anticipated leasing results and potential sales results. A change in assumptions concerning future economic events could result in an adverse change in the value of a property and cause an impairment to be recorded. The Company has analyzed all real estate assets that had indicators of impairment and has determined that the carrying value of all real estate assets on the accompanying Consolidated Balance Sheets does not exceed undiscounted cash flows estimated to be generated by those assets. Based on this analysis, no impairment losses were required to be recorded. Unconsolidated joint ventures follow the same impairment assessment of their properties as the Company. Additionally, the Company evaluates its investments in joint ventures, if indicators warrant the need for a review, utilizing a discounted cash flow calculation. If the calculation results in a lower amount than the carrying value of the investment, the Company determines whether the impairment is other than temporary and records an adjustment, if needed. The Company also evaluates its goodwill annually, which requires certain estimates and judgments, specifically related to the fair value of its reporting segments. Based on the Company s analysis, no impairment losses were required to be recorded.

Revenue Recognition

Residential Lot and Land Tract Sales. In its determination of the gross profit recognized on its residential lot and land tract sales, the Company utilizes several estimates. Gross profit percentages are calculated based on the estimated lot sales prices and the estimated costs of the development or on the estimated total land tract sales and any estimated development or improvement costs. The Company must estimate the prices of the lots or land tracts to be sold, the costs to complete the development of the residential community or the land improvements and the time period over which the lots or land tracts will ultimately be sold. If the Company s estimated lot or land tract sales, timing or costs of development, or the assumptions underlying all, were to be revised or be rendered inaccurate, it could affect the overall profit recognized on these sales.

Multi-family Residential Unit Sales. If a certain threshold of non-refundable deposits are obtained upon sale of a multi-family residential unit and other factors are met, the Company recognizes profits of multi-family residential units on the percentage of completion method. Therefore, sales on these units are recognized before the contract actually closes and before the entire sales price is obtained. If the Company determines there is a risk that the remaining sales price is uncollectible, an allowance for doubtful accounts may be created. The Company assesses the collectibility of the full sales price at closing by reviewing the overall market conditions in the specific area of each project as well as the market for re-sales of individual units at each project. These factors, combined with the amount of the non-refundable deposits and an assessment of the buyer s financial condition, allow the Company to assess the likelihood that the buyer will ultimately pay the contractual purchase price at closing. Additionally, cost of sales are

recognized using the estimated profit percentage during construction of the project, which percentage could change significantly during the course of development. The percentage of completion method involves significant estimates, particularly in determining the profit percentage to be realized on the overall project, the percentage that construction is complete at reporting periods during the project, and judgments as to the

collectibility of unit purchase prices upon completion. If the Company inaccurately estimates costs to construct the project, the estimated profit percentage is ultimately incorrect or if its judgments regarding collectibility are incorrect, actual final results could differ from previously estimated results. See Discussion of New Accounting Pronouncements below for a new pronouncement affecting future sales recognition for multi-family residential units.

Valuation of Receivables. Receivables, including straight-line rent receivables, are reported net of an allowance for doubtful accounts and may be uncollectible in the future. The Company reviews its receivables regularly for potential collection problems in computing the allowance recorded against its receivables. This review process requires the Company to make certain judgments regarding collectibility, notwithstanding the fact that ultimate collections are inherently difficult to predict. A change in the judgments made could result in an adjustment to the allowance for doubtful accounts with a corresponding effect on net income.

Accounting for Non-Wholly Owned Entities

The Company holds ownership interests in a number of ventures with varying structures. The Company evaluates all of its partnership interests and other variable interests to determine if the entity is a variable interest entity (VIE), as defined in Financial Accounting Standards Board (FASB) Interpretation No. 46 R. If the venture is a VIE and in its judgment the Company is determined to be the primary beneficiary, the Company consolidates the assets, liabilities and results from operations of the VIE.

For entities that are not determined to be VIEs, the Company evaluates whether or not the Company has control or significant influence over the joint venture to determine the appropriate consolidation and presentation. Non-VIEs under the Company s control are consolidated and non-VIEs in which the Company can exert significant influence over, but does not control, are accounted for under the equity method of accounting.

The Company recognizes minority interest on its Consolidated Balance Sheets for non-wholly owned entities which the Company consolidates. The minority partner s share of current operations is reflected in Minority Interest in Income of Consolidated Subsidiaries on the Consolidated Statements of Income.

Contributions to unconsolidated joint ventures are recorded as Investments in Unconsolidated Joint Ventures, and subsequently adjusted for income from unconsolidated joint ventures and cash contributions and distributions. Any difference between the carrying amount of these investments on the Company s balance sheet and the underlying equity in net assets on the joint venture s balance sheet is amortized as an adjustment to income from unconsolidated joint ventures over the life of the related asset. If the Company s judgment as to the existence of a VIE, the primary beneficiary of the VIE, and the extent of influence and control over a non-VIE is incorrect, the presentation of the balance sheet and results of operations could be incorrect.

Discussion of New Accounting Pronouncements

In June 2006, the FASB issued Interpretation No. 48, *Accounting for Income Tax Uncertainties* (FIN 48). FIN 48 defines the threshold for recognizing tax return positions in the financial statements as those which are more-likely-than-not to be sustained upon examination by the taxing authority. FIN 48 also provides guidance on derecognition, measurement and classification of income tax uncertainties, along with any related interest and penalties, accounting for income tax uncertainties in interim periods and the level of disclosures associated with any recorded income tax uncertainties. FIN 48 is effective January 1, 2007 for the Company. The Company does not anticipate the effect of adopting the provisions of FIN 48 will be material to its financial position or results of operations.

In November 2006, the FASB ratified the consensus in Emerging Issues Task Force (EITF) Issue No. 06-08, *Applicability of the Assessment of a Buyer s Continuing Investment under FASB Statement No. 66, Accounting for Sales of Real Estate, for Sales of Condominiums,* which provides guidance for determining the adequacy of a buyer s continuing investment and the appropriate profit recognition in the sale of individual units in a condominium project. This issue requires that companies evaluate the adequacy of a buyer s continuing investment in recognizing condominium revenues on the percentage of completion method by applying paragraph 12 of SFAS No. 66 to the level and timing of deposits received on contracts for condominium sales. This rule is

Table of Contents

effective for the Company on January 1, 2008 and earlier adoption is permitted. While the Company has not analyzed in detail the effects of adoption of this standard on future results of operations or decided whether to elect early adoption of the standard, management believes that some of its existing condominium contracts would not meet the requirements for percentage of completion accounting and would, under the new standard, be accounted for on the completed contract method, which would result in later recognition of revenues than the Company has historically presented.

The SEC issued Staff Accounting Bulletin No. 108, *Considering the Effects of Prior Year Misstatements When Quantifying Misstatements in Current Year Financial Statements,* (SAB 108) in September 2006. This statement requires that registrants analyze the effect of financial statement misstatements on both their balance sheet and their income statement and contains guidance on correcting errors under this approach. The Company adopted SAB 108 on December 31, 2006 and, in accordance with the initial application provisions of SAB 108, adjusted retained earnings effective January 1, 2006. This adjustment was comprised of an overstatement of deferred tax liabilities, an overstatement of investment in unconsolidated joint ventures and an understatement of accounts payable and accrued liabilities for compensated absences. All of these adjustments were considered immaterial individually and in the aggregate in prior years based on the Company s historical method of determining materiality. See Note 15 of Notes to Consolidated Financial Statements in Item 8 for more information.

Results of Operations For The Three Years Ended December 31, 2006.

General. Historically, the Company s financial results have been significantly affected by sale transactions and the fees generated by, and start-up operations of, major real estate developments. These types of transactions and developments do not necessarily recur. Accordingly, the Company s historical financial statements may not be indicative of future operating results.

In addition, in periods prior to 2006, the Company recorded reimbursements of salary and benefits of on-site employees pursuant to management agreements with third parties and joint ventures as reductions of general and administrative expenses. In 2006, the Company began recording these reimbursements in Fee Income on the Consolidated Statements of Income and reclassified prior period amounts to conform to the 2006 presentation. As a result, Fee Income and General and Administrative Expenses have increased by $15.1 million in 2005 and $13.2 million in 2004 when compared to amounts previously reported.

Rental Property Revenues. Summary. Rental property revenues increased $11.1 million between 2005 and 2006 and decreased by $5.2 million between 2004 and 2005. The Company sold a significant number of office buildings in 2004, some of whose operations were not reclassified to discontinued operations due to continuing involvement with the properties in the form of property management. The Company also had declines during the last three years in some of the leased percentages of its office assets, although several leased percentages increased during 2006. In addition, the Company purchased a 1.2 million square foot office building, 191 Peachtree Tower, during 2006. The Company also opened several retail centers during 2006 that increased rental property revenues. The retail increases were partially offset by the contribution of five retail centers to a joint venture with Prudential in June 2006, CP Venture IV Holdings, LLC (CPV IV). The Company s share of results of operations from these properties is reflected in income from unconsolidated joint ventures on the statement of income, since they are now accounted for using the equity method.

Comparison of Year Ended December 31, 2006 to 2005.

Rental property revenues from continuing operations of the office portfolio increased approximately $5.6 million between 2005 and 2006 as a result of the following:

Increase of $5.5 million related to the purchase of 191 Peachtree Tower and the purchase of Cosmopolitan Center;

Increase of $1.6 million related to One Georgia Center as its average economic occupancy increased from 19% in 2005 to 37% in 2006;

Decrease of approximately $1.5 million related to 615 Peachtree Street, which was taken out of service as an operating property in 2006, the building imploded, and the land is now held for potential future development or sale; and

Decrease of approximately $1.2 million for 3301 Windy Ridge Parkway, as its average economic occupancy decreased from 100% in 2005 to 42% in 2006.

Rental property revenues from continuing operations of the retail portfolio increased approximately $4.9 million between 2005 and 2006 as a result of the following:

Increase of $15.4 million related to the openings of San Jose MarketCenter and The Avenue Webb Gin in 2006, and to the increased occupancy at The Avenue Carriage Crossing, which opened in late 2005; and

Decrease of $10.5 million related to the contribution of the five retail properties to the venture with Prudential, CPV IV.

Rental property revenues of the industrial portfolio increased approximately $555,000 between 2005 and 2006, as the Company s first industrial building, King Mill Building 3A, opened in 2006.

Comparison of Year Ended December 31, 2005 to 2004.

Rental property revenues from continuing operations of the Company s office portfolio decreased approximately $12.7 million in 2005 compared to 2004 as a result of the following:

Decrease of $10.6 million related to the sale of 333 John Carlyle/1900 Duke Street and 101 Independence Center in 2004;

Decrease of $2.7 million from One Georgia Center, as its average economic occupancy decreased from 48% in 2004 to 19% in 2005;

Decrease of $902,000 at Lakeshore Park Plaza, as its average economic occupancy decreased from 89% in 2004 to 51% in 2005; and

Increase of $737,000 at 555 North Point Center East due to the commencement of a new lease in 2005.

Rental property revenues from continuing operations of the retail portfolio increased approximately $7.5 million between 2004 and 2005 as a result of the following:

Increase of $4.2 million as a result of the opening of The Avenue Viera in 2004;

Increase of $1.5 million as a result of the opening of The Avenue Carriage Crossing in 2005;

Increase of $912,000 from The Avenue West Cobb, as its average economic occupancy increased from 92% in 2004 to 99% in 2005; and

Increase of $920,000 from The Avenue Peachtree City, as its average economic occupancy increased from 92% in 2004 to 96% in 2005.

Rental Property Operating Expenses. Rental property operating expenses increased $5.9 million between 2005 and 2006 as a result of the following:

Increase of $4.7 million due to the openings of San Jose MarketCenter and The Avenue Webb Gin, and the increased occupancy of The Avenue Carriage Crossing, which opened late in 2005;

Increase of $3.6 million as a result of the 2006 purchases of 191 Peachtree Tower and Cosmopolitan Center;

Decrease of $2.8 million due to the contribution of the five retail centers to CPV IV; and

Decrease of $731,000 related to the cessation of operations at 615 Peachtree Street noted above.

Rental property operating expenses increased $1.8 million between 2004 and 2005 primarily as a result of the 2005 opening of and/or increased occupancy at The Avenue Viera, The Avenue Carriage Crossing, The Avenue West Cobb and The Avenue Peachtree City.

Fee Income. Fee income increased $267,000 between 2005 and 2006 and $5.5 million between 2004 and 2005. The increase between 2005 and 2006 is a result of the following:

Increase of $940,000 related to reimbursements of salaries and related benefits from third party and joint venture managed properties;

Increase of $776,000 in development fees from the Temco joint venture;

Increase of $1.8 million in leasing, development and management fees from three joint ventures formed in 2006 (Palisades West, LLC; CF Murfreesboro Associates (CF Murfreesboro), and CPV IV), offset by a decrease of $846,000 of joint venture leasing fees from 2005 activity; and

Decrease of $2.1 million from the Company s Texas subsidiary, which performs third party management and leasing, mainly due to a decrease in land brokerage fees from the Las Colinas project.

The increase between 2004 and 2005 is a result of increases in reimbursements from third party and joint venture managed properties and higher brokerage fees from the Las Colinas project.

Multi-Family Residential Unit Sales and Cost of Sales. In 2005, the Company began recognizing revenue and cost of sales for its units at the 905 Juniper project. This project, a 94-unit multi-family residential building in midtown Atlanta, Georgia, was owned in a joint venture, which the Company began consolidating in June 2005 (see Note 6 905 Juniper Venture, LLC). Revenue and cost of sales were recognized using the percentage of completion method as outlined in SFAS No. 66 for certain units which qualified, while other units were accounted for on the completed contract method. All of the units in the 905 Juniper project closed in 2006, which increased sales and cost of sales in 2006 compared to 2005. The Company expects multi-family residential unit sales and cost of sales to decrease in 2007 due to the completion of its 905 Juniper project in 2006.

Residential Lot and Outparcel Sales and Cost of Sales. Residential lot and outparcel sales decreased $4.6 million between 2005 and 2006 and increased $5.2 million between 2004 and 2005. The decrease between 2005 and 2006 is the result of a decrease in lot sales of $4.4 million and a decrease in outparcel sales of $217,000. The decrease in lot sales is primarily the result of a decrease in number of lots sold from 172 to 126. The increase between 2004 and 2005 is the result of an increase in outparcel sales of $5.6 million, partially offset by a decrease in lot sales of $400,000.

Consistent with current market trends, the Company anticipates residential lot sales for 2007, like those in 2006, will be lower than the Company experienced in 2005, both at consolidated projects and at developments owned by Temco and CL Realty, entities in which the Company is a joint venture partner. The Company cannot currently quantify the effect of the current slowdown on its results of operations for 2007 and forward.

Residential lot and outparcel cost of sales decreased by $3.7 million between 2005 and 2006 and increased by $4.4 million between 2004 and 2005. The change in residential lot cost of sales was partially due to the number of lots sold during the periods and partially to fluctuations in gross profit percentages used to calculate the cost of sales for residential lot sales in certain of the residential developments. Furthermore, outparcel cost of sales were approximately $5.1 million, $5.6 million and $929,000 in 2006, 2005 and 2004, respectively, due to the aforementioned outparcel sales.

The majority of the Company s residential lot sales are conducted through the CL Realty and Temco joint ventures, which are not consolidated and therefore not included in the above numbers.

General and Administrative Expenses. General and administrative expenses increased $2.8 million between 2005 and 2006. Salaries and related benefits increased approximately $11.8 million in 2006 as a result of the following:

Increase of $3.4 million in salary and bonus expense, due mainly to an increase in the number of employees and individual compensation increases;

Increase of $3.3 million related to stock options, which the Company began expensing January 1, 2006 in conjunction with the adoption of SFAS 123R;

Increase of $3.0 million in restricted stock units (RSU) expense, which were granted for the first time in December 2005.

Included in the above increases for RSUs and stock options was additional expense totaling $1.2 million, after the effect of capitalization to projects under development, related to the adoption of a retirement feature, which allows for immediate vesting in these instruments upon the meeting of certain requirements.

Table of Contents

The vesting period for stock options and RSUs also changed for those employees who are estimated to meet the retirement feature in less time than the original vesting period. See Note 7 in Notes to Consolidated Financial Statements included in Item 8 for more information; and

As previously discussed in fee income above, general and administrative expense for all periods presented reflect salary, benefits and other expenses reimbursed by third party and joint venture management contracts, which increased $940,000 between 2005 and 2006.

The salary and related benefits increase between 2005 and 2006 was partially offset by a $4.6 increase in capitalized salaries of development and leasing personnel due to a larger number of projects under development between 2005 and 2006.

Additionally, the increase in general and administrative expenses between 2005 and 2006 was partially offset by a decrease in charitable contributions of $4.5 million, as the Company contributed this amount in 2005 toward establishment of a charitable foundation.

General and administrative expenses increased $8.9 million between 2004 and 2005 as a result of the following:

Increase of $1.9 million in reimbursements from third party and joint venture management contracts primarily due to an increase in the Company s third-party and joint venture managed properties;

Increase in salaries and related benefits due to increased development personnel in the Retail and Industrial Divisions and to increased personnel in the Office/Multi-Family Division related to the acquisition of The Gellerstedt Group;

An expense of $350,000 recognized in 2005 associated with a funding obligation for its 401(k) and profit sharing plan; and

A $4.5 million charitable contribution expense, as discussed above.

The increases in general and administrative expense between 2004 and 2005 were partially offset by increases in capitalized salaries of development and leasing personnel due to a larger number of projects under development between 2004 and 2005.

Depreciation and Amortization. Depreciation and amortization increased $5.1 million between 2005 and 2006 and decreased $2.8 million between 2004 and 2005. The 2006 increase was due to the following:

Increases resulting from the opening of The Avenue Carriage Crossing, San Jose MarketCenter and The Avenue Webb Gin and the acquisitions of 191 Peachtree Tower and Cosmopolitan Center;

Increase of $579,000 at 3301 Windy Ridge Parkway where amortization of certain tenant costs was accelerated upon the tenant s partial lease termination;

Decrease of $3.6 million related to the five retail properties contributed to the venture with Prudential;

Decrease of $858,000 at Inforum as first generation tenant improvement and leasing costs which were assigned to these assets upon purchase of this property in 1999 are now fully amortized; and

Decrease of $650,000 from the transfer of 615 Peachtree Street from operating properties to land held for investment or future development.

The 2005 decrease was due to the following:

Decrease resulting from the 2004 sales of 333 John Carlyle, 1900 Duke Street and 101 Independence Center;

Decrease of $3.5 million at the Inforum related to the fully amortized assets discussed above; and

Increase related to the aforementioned opening and acquisition of office buildings and retail centers.

Interest Expense. Interest expense increased $2.0 million between 2005 and 2006 and decreased $5.5 million between 2004 and 2005. Interest expense before capitalization increased $5.7 million in 2006 due to higher average balances outstanding on the credit facility during 2006 over 2005, the new construction facility entered into during

2006, and to higher rates on its credit facility in 2006 as a result of increases in LIBOR. The higher average debt balances on the credit facility were a result of more development and acquisition expenditures in 2006 than in 2005, and the result of the Company having a large balance of unexpended cash at the beginning of 2005 from property sales in 2004. Capitalized interest increased $3.6 million, which partially offset the increase in interest expense. Capitalized interest rose as a result of the increased development activity in 2006.

Interest expense decreased between 2004 and 2005 due to a decrease in interest before capitalization of $2.6 million. Interest before capitalization decreased primarily because of the 2004 sales and related disposition of debt for 333 John Carlyle, 1900 Duke Street and 101 Independence. In addition, the Company issued $100 million in preferred stock in 2004, the proceeds of which were used to reduce indebtedness. Capitalized interest increased $2.9 million in 2005 as compared to 2004, which contributed to the decrease in interest expense. Capitalized interest increased as a result of the increased development activity in 2005 over 2004.

Loss on Extinguishment of Debt. Loss on extinguishment of debt of $18.2 million in 2006 was comprised of defeasance charges related to the repayment of one note and a mark to market charge on the contribution of another note to a joint venture. CSC Associates, L.P. (CSC), of which the Company owns a 50% interest, sold Bank of America Plaza in the third quarter of 2006. This building was encumbered by a mortgage note payable, the proceeds of which had been loaned to the Company and, in turn, the Company was obligated in full on the debt. The Company repaid the debt upon sale of Bank of America Plaza and incurred a loss related to a defeasance fee paid to terminate the note and to the unamortized closing costs totaling approximately $15.4 million. The Company also incurred a loss on extinguishment of debt of approximately $2.8 million related to the assumption of The Avenue East Cobb mortgage note payable by the venture formed with Prudential, CPV IV.

Provision for Income Taxes from Operations. An income tax provision is recorded for the Company s taxable subsidiary, CREC. The income tax provision decreased $3.6 million between 2005 and 2006 and increased $5.0 million between 2004 and 2005. The 2006 decrease was a result of a decrease in taxable income at CREC caused by a reduction in lot and tract sales and to an adjustment to current and deferred income tax liabilities (See Note 15 in Notes to the Consolidated Financial Statements). The 2005 increase is the result of an increase in residential lot and tract sales as well as an increase in multi-family sales. CREC is the partner in certain joint ventures, including CL Realty and Temco, which sell residential lots and land tracts, and TRG Columbus Development Venture, Ltd. (TRG), which sells multi-family residential units. The consolidated results of 905 Juniper Venture, LLC, which sold multi-family residential units, are also recorded in CREC.

Income from Unconsolidated Joint Ventures. (All amounts reflect the Company s share of joint venture income.) Income from unconsolidated joint ventures increased $132.1 million between 2005 and 2006 and decreased $163.5 million between 2004 and 2005. Overall, these changes were the result of the recognition of gains on sales of properties by certain joint ventures in 2004 and 2006. A more detailed discussion by venture follows.

Income from CSC increased approximately $131.1 million in 2006 due to the sale of Bank of America Plaza in September 2006, which generated a gain to the Company of $133.8 million. Due to the disposition of CSC s sole asset in 2006, income from this joint venture will decline in 2007 and forward.

Income from TRG increased approximately $3.7 million and $6.7 million in 2006 and 2005, respectively. TRG is developing 50 Biscayne, a 529-unit condominium project in Miami, Florida. TRG is recognizing income utilizing the percentage of completion method for applicable units which meet the criteria and commenced income recognition in the fourth quarter of 2005. The Company recognizes 40% of TRG s net income, after certain preferred returns to each partner and, at December 31, 2006, had recognized income on 95% of the units, and the project was 70% complete for construction. There have been recent reports about softening in the Miami, Florida condominium market. The Company does not believe that this softening market will affect this project, as 100% of the units are under contract

for sale and some of the contracts have been re-sold in the secondary market for prices in excess of the original contract amount, but there can be no guarantee of the estimated outcome until the sales of the units close, which is expected to be complete by the first quarter of 2008.

Income from CL Realty decreased $2.4 million between 2005 and 2006 and increased $5.7 million between 2004 and 2005 due to the changes in the number of lots sold, plus the mix of residential communities from which the lots were sold. CL Realty is a venture in which the Company is a 50% partner, and CL Realty is in the business of

residential lot development and land tract sales. CL Realty sold 973, 1,314 and 972 lots in 2006, 2005 and 2004, respectively.

Income from Temco increased $3.5 million between 2005 and 2006 and decreased $1.2 million between 2004 and 2005. The primary reason for the changes between periods is the result of tract sales activities as the number of lots sold by Temco remained consistent. Temco is a venture in which the Company is a 50% partner and is in the business of residential lot development and land tract sales. Temco sold 477, 467 and 491 lots in 2006, 2005 and 2004, respectively, which caused a portion of the changes between years. Temco sold 1,088, 212 and 310 acres of land during 2006, 2005 and 2004, respectively, which generated pre-tax gains to the Company of approximately $5.0 million, $1.7 million and $2.2 million in 2006, 2005 and 2004, respectively.

Income from CPV IV increased approximately $1.8 million between 2006 and 2005. In June 2006, the Company contributed five retail properties to this venture, which is accounted for on the equity method. The ownership of the venture decreased in stages between June and December 2006, and the Company now owns 11.5% of the venture and will be recognizing income based on its 11.5% ownership going forward.

Income from Deerfield Towne Center, LLC, (Deerfield) increased approximately $5.3 million between 2004 and 2005 and decreased approximately the same amount between 2005 and 2006. The Company had a 10% profits interest in Deerfield and neither made nor was obligated to make any capital contributions to the entity. The Company obtained this interest through a predevelopment and leasing arrangement and recognized income as distributions were received. Deerfield sold its operating retail center in 2005 and distributed the proceeds, thus accounting for the income recognition by the Company in 2005. No significant income or loss was recognized in 2006.

Income from 285 Venture, LLC (285 Venture) decreased approximately $1.4 million between 2005 and 2006. In 2005, 285 Venture sold 1155 Perimeter Center West, the single asset of the venture, and the Company recognized a gain of approximately $1.6 million on the sale. No significant income or loss was recognized in 2006.

Income from Wildwood Associates decreased $101.2 million between 2004 and 2005. The 2005 decrease was due to approximately $99.4 million in gains on sales of investment properties in 2004. Wildwood Associates sold all of its office buildings and its 15 acres of stand-alone retail sites under ground leases in 2004. In 2005 and 2006, Wildwood Associates assets consisted mainly of undeveloped land. No significant income or loss was recognized in 2005 or 2006.

Income from CPI/FSP I, L.P. decreased $14.1 million between 2004 and 2005. The 2005 decrease was due to a $12.4 million gain on sale of investment properties, as CPI/FSP I, L.P. sold Austin Research Park Buildings III and IV in the third quarter of 2004. The assets that CPI/FSP I, L.P. currently owns consist mainly of undeveloped land. No significant income or loss was recognized in 2006.

Income from CC-JM II Associates decreased $18.1 million between 2004 and 2005. In 2004, the John Marshall II office building, the single asset which CC-JM II Associates owned, was sold and a gain of $19.2 million recognized. No significant income or loss was recognized in 2005 or 2006.

The results for Cousins LORET Venture, L.L.C. (LORET) decreased $45.6 million between 2004 and 2005 due to a $45.3 million gain on sale of investment properties in 2004, as LORET sold its office buildings, The Pinnacle and Two Live Oak Center, in the third quarter of 2004. No significant income or loss was recognized in 2005 or 2006.

Gain on Sale of Investment Properties. Gain on sale of investment properties, net of applicable income tax provision, was $3.0 million, $15.7 million and $118.1 million in 2006, 2005 and 2004, respectively. The 2006 gain included the following:

The sale of undeveloped land at The Lakes of Cedar Grove residential development $0.2 million;

The sale of undeveloped land at the North Point/Westside mixed use project $2.3 million; and

The recurring amortization of deferred gain from CP Venture, LLC (CPV) $0.5 million (see Note 5 in Notes to Consolidated Financial Statements in Item 8).

The 2005 gain included the following:

The sale of undeveloped land at The Lakes of Cedar Grove residential development $1.2 million;

The sale of undeveloped land at the North Point/Westside mixed use project $4.4 million;

The sale of Company-owned land at Wildwood $9.8 million; and

The recurring amortization of deferred gain from CPV $0.3 million.

The 2004 gain included the following:

The sale of the 333 John Carlyle and 1900 Duke Street office buildings $34.5 million;

The sale of Ridenour land $0.7 million;

The sale of the 101 Independence Center office building $35.8 million;

The sale of undeveloped land at the North Point/Westside mixed use project $9.6 million;

The recognition of deferred gain from the sale of Wildwood land associated with the property sales $29.3 million);

The sale of Company-owned land at Wildwood $3.3 million;

The sale of a ground lease adjacent to North Point MarketCenter $1.4 million;

A true-up of gains from the 1996 sale of Lawrenceville MarketCenter, as certain taxes were determined not to be owed on that transaction $0.6 million; and

The recurring amortization of deferred gain from CPV, plus an additional amount recognized from the sale of Wachovia Tower, $2.8 million.

Discontinued Operations. SFAS No. 144 requires that certain office buildings and retail centers that were sold or plan to be sold be treated as discontinued operations and that the results of their operations and any gains on sales from these properties be shown as a separate component of income in the Consolidated Statements of Income for all periods presented. The properties sold which qualified as discontinued operations were as follows:

2006

Frost Bank Tower

The Avenue of the Peninsula

North Point Ground Leases

2005

Hanover Square South

2004

Rocky Creek Properties

Northside/Alpharetta I and II

101 Second Street

55 Second Street

The Shops of Lake Tuscaloosa

Income from Discontinued Operations decreased from $6.0 million in 2004 to $2.3 million in 2005, and further decreased to a loss of $38,000 in 2006. The difference between the 2004, 2005 and 2006 amounts is the result of the number and type of properties included in each year.

Table of Contents

Stock-Based Compensation. The Company adopted SFAS No. 123R, Share-Based Payment, on January 1, 2006 utilizing the modified prospective method. This standard requires that companies recognize compensation expense in the statement of income for the grant-date fair value of share-based awards that vest during the period. The Company calculates the grant-date fair value of its awards using the Black-Scholes model, which it also utilized under SFAS No. 123 in its pro forma disclosures for periods prior to 2006. Assumptions used under SFAS No. 123 are not materially different from those used under SFAS No. 123R. The adoption of SFAS No. 123R reduced 2006 net income by approximately $2.4 million after accounting for the effect of capitalizing salaries and related benefits of certain development and leasing personnel to projects under development and after the effect of income taxes. The total unrecognized compensation cost related to all non-vested share-based payment arrangements was $23.3 million, which will be recognized over a weighted average period of 3.2 years.

Funds From Operations. The table below shows Funds From Operations Available to Common Stockholders (FFO) and the related reconciliation to net income available to common stockholders for the Company. The Company calculated FFO in accordance with the National Association of Real Estate Investment Trusts (NAREIT) definition, which is net income available to common stockholders (computed in accordance with accounting principles generally accepted in the United States of America (GAAP)), excluding extraordinary items, cumulative effect of change in accounting principle and gains or losses from sales of depreciable property, plus depreciation and amortization of real estate assets, and after adjustments for unconsolidated partnerships and joint ventures to reflect FFO on the same basis. In 2005, the Company included $5.0 million in income from a real estate venture related to the sale of real estate in its NAREIT-defined calculation of FFO. The Company included this amount in FFO because, based on the nature of the investment, the Company believes this income should not be considered gain on the sale of depreciable property. The Company presented the NAREIT-defined calculation and also presented an adjusted NAREIT-defined calculation of FFO to add back the losses on extinguishment of debt recognized in 2006 in connection with the venture formation on June 29, 2006 with Prudential and the sale of Bank of America Plaza in September 2006. The Company presented this additional measure of FFO because the losses on extinguishment of debt that the Company recognized related to a sale or an exchange of real estate, and all other amounts related to a sale or an exchange of real estate are excluded from FFO.

Table of Contents

FFO is used by industry analysts and investors as a supplemental measure of an equity REIT s operating performance. Historical cost accounting for real estate assets implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values instead have historically risen or fallen with market conditions, many industry investors and analysts have considered presentation of operating results for real estate companies that use historical cost accounting to be insufficient by themselves. Thus, NAREIT created FFO as a supplemental measure of REIT operating performance that excludes historical cost depreciation, among other items, from GAAP net income. The use of FFO, combined with the required primary GAAP presentations, has been fundamentally beneficial, improving the understanding of operating results of REITs among the investing public and making comparisons of REIT operating results more meaningful. Company management evaluates the operating performance of its reportable segments and of its divisions based on FFO. Additionally, the Company uses FFO and FFO per share, along with other measures, to assess performance in connection with evaluating and granting incentive compensation to its officers and employees. The reconciliation of net income available to common stockholders to funds from operations, both NAREIT defined and as-adjusted, is as follows for the years ended December 31, 2006, 2005 and 2004 (in thousands):

	Years Ended December 31,		
	2006	2005	2004
Net Income Available to Common Stockholders	$ 217,441	$ 34,491	$ 399,742
Depreciation and amortization:			
Consolidated properties	32,415	27,289	30,115
Discontinued properties	11,275	9,297	12,414
Share of unconsolidated joint ventures	8,831	8,920	15,915
Depreciation of furniture, fixtures and equipment and amortization of specifically identifiable intangible assets:			
Consolidated properties	(2,911)	(2,951)	(2,652)
Share of unconsolidated joint ventures	(12)	(78)	(35)
Gain on sale of investment properties, net of applicable income tax provision:			
Consolidated properties	(3,012)	(15,733)	(118,056)
Discontinued properties	(86,495)	(1,037)	(81,927)
Share of unconsolidated joint ventures	(135,618)	(1,935)	(176,265)
Gain on sale of undepreciated investment properties	14,348	15,483	29,627
Funds From Operations Available to Common Stockholders	56,262	73,746	108,878
Loss on extinguishment of debt	18,207		
Funds From Operations Available to Common Stockholders, Excluding Loss on Extinguishment of Debt	$ 74,469	$ 73,746	$ 108,878
Weighted Average Shares	50,655	49,989	49,005
Diluted Weighted Average Shares	52,513	51,747	51,016

Liquidity and Capital Resources.

Financial Condition.

The Company had a significant number of projects under development and in the pre-development stage at December 31, 2006 and does not expect the number of projects or the amounts invested in development projects to decrease in the near term. The Company also has a large amount of undeveloped land, both consolidated and in unconsolidated joint ventures, which may progress into development projects in 2007. In order to position the Company to fund these projects and potential projects, the Company sold two office buildings, one retail property and contributed five retail projects to a venture with a third party that generated capital in 2006. As a result, total indebtedness decreased during 2006 to $315.1 million as of December 31, 2006, representing 13% of total market

Table of Contents

capitalization at December 31, 2006, and the Company had $11.5 million in cash on hand. The Company believes that it has sufficient availability on its credit and construction facilities and the capacity to generate additional capital to fund its development expenditures through 2007. The financial condition of the Company is discussed in further detail below.

At December 31, 2006, the Company was subject to the following contractual obligations and commitments ($ in thousands):

	Total	Less than 1 Year	1-3 Years	4-5 Years	After 5 Years
Contractual Obligations:					
Company long-term debt					
Unsecured notes payable and construction loans	$ 199,179	$ 338	$ 5,941	$ 192,900	$
Mortgage notes payable	115,970	24,337	12,510	62,990	16,133
Interest commitments under notes payable(1)	70,604	20,083	36,341	10,686	3,494
Operating leases (ground leases)	15,343	90	186	196	14,871
Operating leases (offices)	1,404	741	370	255	38
Total Contractual Obligations	$ 402,500	$ 45,589	$ 55,348	$ 267,027	$ 34,536
Commitments:					
Letters of credit	$ 3,016	$ 3,016	$	$	$
Performance bonds	17,973	16,874	1,099		
Estimated development commitments	286,360	186,664	76,358	23,338	
Unfunded tenant improvements	18,294	18,294			
Total Commitments	$ 325,643	$ 224,848	$ 77,457	$ 23,338	$

(1) Interest on variable rate obligations is based on rates effective as of December 31, 2006.

As discussed above, the Company formed a new venture with Prudential in 2006, and contributed its interests in five retail properties. Through December 31, 2006, Prudential had contributed $300 million in cash to this venture and may make further contributions of up to $20.5 million to this venture in 2007 based on future leasing and development performed by the Company on the contributed properties. The cash contributed by Prudential is expected to be used to fund development projects of the development venture, and the current funds are being used to reduce indebtedness of the Company until the Company commences development of such projects.

In addition to capital generated from this venture formation, the Company received cash from the sales of Bank of America Plaza, Frost Bank Tower, The Avenue of the Peninsula and from the sale of seven ground leased outparcels at its North Point property. These sales created taxable income that the Company distributed to common stockholders in the form of a special dividend in the fourth quarter of 2006 of $175.5 million (see Cash Flows section below). The Company may consider selling other income producing assets in 2007 as a result of the continued strategic review and analysis of assets it holds.

With the relatively low leverage created by the capital generated from these transactions, the Company expects to utilize indebtedness to fund a portion of its commitments in 2007. In the first quarter of 2006, the Company created additional borrowing capacity by expanding its existing revolving credit facility and by adding a construction facility. The revised credit facility can be expanded to $500 million under certain circumstances, although the availability of the additional capacity is not guaranteed. The revised credit facility also reduced the spread over LIBOR when compared to the previous facility, removed any restrictions on dividend payments provided the Company s Debt to Total Assets, as defined, is less than 55% and provided additional flexibility in some of the financial covenants. As of December 31, 2006, the Company had $128.2 million drawn on its $400 million credit facility. The amount available under this credit facility is reduced by outstanding letters of credit, which were approximately $3.0 million at December 31, 2006. The Company s interest rate on its credit

facility is variable based on LIBOR plus a spread based on certain of the Company s ratios and other factors. As of December 31, 2006, the spread over LIBOR was 0.80%.

The Company also entered into an unsecured $100 million construction facility in the first quarter of 2006. While this facility is unsecured, advances under the facility are to be used to fund the construction costs of the Terminus 100 project. As of December 31, 2006, the Company had $64.7 million drawn on its construction facility.

The Company s mortgage debt is primarily non-recourse fixed-rate mortgage notes payable secured by various real estate assets. In addition, many of the Company s non-recourse mortgages contain covenants which, if not satisfied, could result in acceleration of the maturity of the debt. The Company expects that it will either refinance the non-recourse mortgages at maturity or repay the mortgages with proceeds from other financings. As of December 31, 2006, the weighted average interest rate on all of the Company s debt was 6.64%.

In 2007, the Company may enter into other unsecured or secured construction facilities to provide funding to specific development projects. In addition, the Company may enter into mortgage notes payable with stabilized properties and utilize the proceeds to fund its development commitments. The Company may also sell additional income- and non-income-producing properties to generate capital or contribute additional assets to joint ventures.

The Company may also generate capital through the issuance of securities that includes, but is not limited to, preferred stock under an existing shelf registration statement. As of December 31, 2006, the Company had approximately $100 million available for issuance under this registration statement.

Over the long term, the Company will continue to actively manage its portfolio of income-producing properties and strategically sell mature assets held for investment to capture value for stockholders and to recycle capital for future development activities. The Company will continue to utilize indebtedness to fund future commitments and expects to place long-term permanent mortgages on selected assets as well as utilize construction facilities for other development assets. The Company may enter into additional joint venture arrangements to help fund future developments and may enter into additional structured transactions with third parties. While the Company does not foresee the need to issue common equity in the future, it will evaluate all capital sources and select the most appropriate options as capital is required.

The Company s business model is highly dependent upon raising capital to meet development obligations. If one or more sources of capital are not available when required, the Company may be forced to raise capital on potentially unfavorable terms which could have an adverse effect on the Company s financial position or results of operations.

Cash Flows. *Cash Flows from Operating Activities.* Cash flows provided by operating activities increased approximately $169.2 million between 2006 and 2005. Approximately $133.8 million of the increase related to the receipt of proceeds, to the extent of cumulative earnings, from CSC related to the sale of Bank of America Plaza. The other significant reason for this increase was approximately $34.9 million in cash received from the closing of units in the 905 Juniper multi-family residential project during 2006. Changes in accounts payable and accrued liabilities caused operating cash to increase by approximately $5.4 million, mainly due to the timing of the payment of property taxes. Cash flows from operating activities also increased as a result of net cash provided by recently developed income producing properties net of a reduction in such revenue as a result of the contribution of certain retail properties to CPV IV and the sale of other properties. Partially offsetting the increase in net cash provided by operating activities was a decrease in cash received from residential lot and outparcel sales and an increase in expenditures for multi-family development due to the aforementioned 905 Juniper project.

Net cash provided by operating activities decreased approximately $199.4 million between 2004 and 2005 due mainly to a decrease in net income before gain on sale of investment properties of approximately $171.1 million. The

Company had significant operating distributions, to the extent of cumulative earnings, from unconsolidated joint ventures in 2004 due to property sales at the ventures. Also contributing to the decrease was an increase in residential lot, outparcel and multi-family acquisition and development expenditures of $6.9 million due mainly to the 905 Juniper project. Partially offsetting the decrease was increased proceeds received from residential lot and outparcel sales due to an increase in volume of lot and outparcel sales activity in 2005 compared to 2004.

Cash Flows from Investing Activities. Cash flows from investing activities increased approximately $393.3 million between 2006 and 2005. Of this increase, approximately $297.3 million represents proceeds received from the CPV IV formation and approximately $299.4 represents proceeds received mainly from the sales of Frost Bank Tower, The Avenue of the Peninsula and seven ground leased sites at the Company s North Point property. In addition, distributions in excess of income from unconsolidated joint ventures were approximately $57.5 million higher during 2006 mainly due to the return of the Company s investment in CSC Associates from the sale of Bank of America Plaza. Offsetting these increases was the purchase of two office buildings in 2006 for an aggregate purchase price of $165.7 million; an increase in land acquisitions related to the Company s second industrial project in Jackson County, Georgia and land in Austin, Texas for the Palisades West office development; and increased development expenditures for projects under construction. Also partially offsetting the increases in cash flows from investing activities in 2006 was approximately $24.1 million more expenditures for other assets, mainly due to increased predevelopment expenditures in 2006.

Net cash from investing activities decreased approximately $583.9 million between 2004 and 2005, mainly due to a decline of approximately $501.7 million in sales proceeds from consolidated properties in 2004. The Company sold one operating center in 2005, which was a significantly lower volume of sales than in 2004. The Company also expended $81.9 million more in 2005 on development and acquisition of property due to a deeper development pipeline in 2005 compared to 2004, and because the Company purchased additional land tracts in 2005 that are being held for investment or future development. The Company s investment in unconsolidated joint ventures increased in 2005 due to increased contributions to the CL Realty and Temco residential joint ventures and distributions from joint ventures in excess of income decreased as a result of less asset sales activity in 2005. Both of these factors contributed to the decrease in cash flows from investing activities. Partially offsetting the decrease was an increase in proceeds from notes receivable of approximately $16.2 million, as the Company collected an $8 million note receivable in 2005.

Cash Flows from Financing Activities. Cash flows used in financing activities increased approximately $480.1 million between 2006 and 2005. The primary reason for the increase was a reduction in indebtedness of $278.2 million with proceeds from the property sales and the formation of CPV IV and from the repayment of the note payable related to CSC. In addition, the Company paid $15.4 million in defeasance costs associated with the Bank of America Plaza sale that increased cash flows used in financing activities. The Company also paid $21.2 million to minority partners during 2006 mainly related to the formation of CPV IV, the sale of Frost Bank Tower and the closing of units at 905 Juniper. Also during 2006, the Company paid $177.0 million more in common and preferred dividends, mainly due to the special dividend to common stockholders of $175.5 million paid in the fourth quarter of 2006, which distributed tax gains from the property sales discussed above.

Net cash from financing activities increased approximately $626.8 million in 2005. Common dividends paid decreased approximately $354.7 million due to the payment of a special dividend in 2004. Repayment of other notes payable decreased approximately $171.4 million due to the repayment or assumption of debt in 2004 related to the property sales. The Company borrowed more in 2005 which caused net borrowings on the credit facility to be approximately $158.0 million higher. Proceeds from other notes payable increased by approximately $28.9 million due to proceeds received from the construction loan on 905 Juniper and to a non-recourse mortgage note payable obtained on The Points at Waterview in 2005. The Company also had a preferred stock offering in 2004 which raised approximately $96.5 million. The Company did not have a similar level of property sales or offering proceeds in 2005 compared to 2004 and expended more on development, necessitating the increased borrowings.

Dividends. During 2006, 2005 and 2004, the Company funded its dividend payments from cash provided by operating activities and from proceeds from the sale of investment property. For the foreseeable future, the Company intends to fund its quarterly distributions to common and preferred stockholders with cash provided by operating

activities, a portion of proceeds from investment property sales and a portion of distributions from unconsolidated joint ventures in excess of income.

Effects of Inflation. The Company attempts to minimize the effects of inflation on income from operating properties by using rents tied to tenants sales, periodic fixed-rent increases or increases based on the Consumer Price Index and/or pass-through of certain operating expenses of properties to tenants.

Other Matters. The events of September 11, 2001 adversely affected the pricing and availability of property insurance. In particular, premiums increased and terrorism insurance coverage became harder to obtain. The availability of coverage has improved and, at this time, management believes that the Company and its unconsolidated joint ventures are adequately insured on all of their assets. While the Company s cost of property insurance coverage has increased, management believes the costs are currently reasonable and should not have a material impact on the Company s financial condition or results of operations in 2007. There can be no assurance that this situation will continue beyond 2007.

Off Balance Sheet Arrangements. The Company has a number of off balance sheet joint ventures with varying structures. At December 31, 2006, the Company s joint ventures had aggregate outstanding indebtedness to third parties of approximately $408.7 million of which the Company s share was $172.1 million. These loans are generally mortgage loans or construction loans that are non-recourse to the Company. One of the Company s ventures, CF Murfreesboro, has a $131 million construction loan that matures on July 20, 2010, of which the venture has drawn approximately $21 million. In July 2006, the Company formed CF Murfreesboro, a 50-50 joint venture between the Company and an affiliate of Faison Associates, to develop The Avenue Murfreesboro, an 810,000 square foot retail center in suburban Nashville, Tennessee. Upon formation, the joint venture acquired approximately 100 acres of land for approximately $25 million, obtained a construction loan and commenced construction of the center. The Company guarantees 20% of the amount outstanding under the construction loan, which equals $4.3 million at December 31, 2006. The retail center serves as collateral against the construction loan, and the Company is liable for 20% of any difference between the proceeds from the sale of the retail center and the amounts due under the loan in the event of default. The Company has not recorded a liability as of December 31, 2006, as it estimates no obligation is or will be required.

Several of these ventures are involved in the active acquisition and development of real estate. As capital is required to fund the acquisition and development of this real estate, the Company must fund its share of the costs not funded by operations or outside financing. Based on the nature of the activities conducted in these ventures, management cannot estimate with any degree of accuracy amounts that the Company may be required to fund in the short or long-term. However, management does not believe that additional funding of these ventures will have an adverse effect on its financial condition.

The Company does not expect to make significant capital contributions to any of its remaining joint ventures.

Item 7A. Quantitative and Qualitative Disclosure about Market Risk

Much of the Company s debt obligations have fixed interest rates which limit the risk of fluctuating interest rates. The Company is exposed to the impact of interest rate changes through its variable rate credit and construction facilities. As of December 31, 2006 and 2005, $122.2 million and $298.2 million of the total outstanding debt was fixed-rate debt and $192.9 million and $169.3 million was variable-rate debt, respectively. Based on the Company s variable rate debt balances as of December 31, 2006, interest expense, before capitalization to projects under development, would have increased by approximately $2.0 million in 2006 if short-term interest rates were 1% higher.

The following table summarizes the Company s market risk associated with notes payable as of December 31, 2006. The information presented below should be read in conjunction with Note 4 of the consolidated financial statements included in this Annual Report on Form 10-K. The Company did not have a significant level of notes receivable at either December 31, 2006 or 2005, and the table does not include information related to notes

Table of Contents

receivable. The table presents scheduled principal repayments and related weighted average interest rates by expected year of maturity.

	Expected Year of Maturity							
	2007	2008	2009	2010	2011	Thereafter	Total	Fair Value

Note: The above per share quarterly information may not sum to full year per share numbers due to rounding.

Certain components of quarterly net income (loss) available to common stockholders disclosed above differ from those as reported on the Company s respective quarterly reports on Form 10-Q. As discussed in Notes 2 and 9 to the Consolidated Financial Statements included in Item 8 herein, gains and losses from the disposition of certain real estate assets and the related historical operating results were reclassified as Discontinued Operations for all periods presented. Additionally, as discussed in Note 2 to the Consolidated Financial Statements included in Item 8 herein, reimbursements from our third party management business and joint ventures which we manage have been reclassified to reflect reimbursements and expenses on a gross basis for all periods presented.

Other financial statements and financial statement schedules required under Regulation S-X are filed pursuant to Item 15 of Part IV of this report.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

Not applicable.

Item 9A. Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC s rules and forms, and that such information is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. Management necessarily applied its judgment in assessing the costs and benefits of such controls and procedures, which, by their nature, can provide only reasonable assurance regarding management s control objectives. We also have investments in certain unconsolidated entities. As we do not always control or manage these entities, our disclosure controls and procedures with respect to such entities are necessarily more limited than those we maintain with respect to our consolidated subsidiaries.

As of the end of the period covered by this annual report, we carried out an evaluation, under the supervision and with the participation of management, including the Chief Executive Officer along with the Chief Financial Officer, of the effectiveness, design and operation of our disclosure controls and procedures pursuant to Exchange Act Rules 13a-15(b) and 15d-15(b). Based upon the foregoing, the Chief Executive Officer along with the Chief Financial Officer concluded that our disclosure controls and procedures are effective at providing reasonable assurance that all material information required to be included in our Exchange Act reports is reported in a timely manner. In addition, based on such evaluation we have identified no changes in our internal control over financial reporting that occurred during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Report of Management on Internal Control Over Financial Reporting

Management of the Company is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rule 13a-15(f). Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external reporting purposes in accordance with accounting principles generally accepted in the United States. Internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with accounting principles generally accepted in the United States and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the financial statements.

Management, under the supervision of and with the participation of the Chief Executive Officer and the Chief Financial Officer, assessed the effectiveness of our internal control over financial reporting as of December 31, 2006. The framework on which the assessment was based is described in Internal Control Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this assessment, we concluded that we maintained effective internal control over financial reporting as of December 31, 2006.

Management s assessment of the effectiveness of our internal control over financial reporting has been audited by Deloitte & Touche LLP, an independent registered public accounting firm, as stated in their report.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
Cousins Properties Incorporated:

We have audited management s assessment, included in the accompanying Report of Management on Internal Control Over Financial Reporting that Cousins Properties Incorporated and subsidiaries (the Company) maintained effective internal control over financial reporting as of December 31, 2006, based on criteria established in Internal Control Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on management s assessment and an opinion on the effectiveness of the Company s internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, evaluating management s assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinions.

A company s internal control over financial reporting is a process designed by, or under the supervision of, the company s principal executive and principal financial officers, or persons performing similar functions, and effected by the company s board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company s internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company s assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, management s assessment that the Company maintained effective internal control over financial reporting as of December 31, 2006, is fairly stated, in all material respects, based on the criteria established in Internal Control Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2006, based on the criteria established in Internal Control Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements and consolidated financial statement schedule as of and for the year ended December 31, 2006 of the Company and our report dated February 28, 2007 expressed an unqualified opinion on those consolidated financial statements and consolidated financial statement schedule and includes explanatory paragraphs relating to the adoption of Statement of Financial Accounting Standards No. 123(R), *Share-Based Payment* on January 1, 2006, and the adoption of SEC Staff Accounting Bulletin No. 108, *Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements* on December 31, 2006.

None.

PART III

Item 10. Directors and Executive Officers and Corporate Governance

The information required by Items 401 and 405 of Regulation S-K is presented in Item X in Part I above and is included under the captions Election of Directors and Section 16(a) Beneficial Ownership Reporting Compliance in the Proxy Statement relating to the 2007 Annual Meeting of the Registrant s Stockholders, and is incorporated herein by reference. The Company has a Code of Business Conduct and Ethics (the Code) applicable to its Board of Directors and all of its employees. The Code is publicly available on the Investor Relations page of its Web site at www.cousinsproperties.com. Section 1 of the Code applies to the Company s senior executive and financial officers and is a code of ethics as defined by applicable SEC rules and regulations. If the Company makes any amendments to the Code other than technical, administrative or other non-substantive amendments, or grants any waivers, including implicit waivers, from a provision of the Code to the Company s senior executive or financial officers, the Company will disclose on its Web site the nature of the amendment or waiver, its effective date and to whom it applies. The Company did make an amendment to its Code in 2005, as noted on its Web site.

Item 11. Executive Compensation

The information under the captions Executive Compensation (other than the Committee Report on Compensation) and Compensation of Directors in the Proxy Statement relating to the 2007 Annual Meeting of the Registrant s Stockholders is incorporated herein by reference.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The information under the captions Beneficial Ownership of Common Stock and Equity Compensation Plan Information in the Proxy Statement relating to the 2007 Annual Meeting of the Registrant s Stockholders is incorporated herein by reference.

Item 13. Certain Relationships and Related Transactions, and Director Independence

The information under the caption Certain Transactions in the Proxy Statement relating to the 2007 Annual Meeting of the Registrant s Stockholders is incorporated herein by reference.

Table of Contents

Item 14. Principal Accounting Fees and Services

The information under the caption Summary of Fees to Independent Registered Public Accounting Firm for Fiscal 2006 and 2005 in the Proxy Statement relating to the 2007 Annual Meeting of the Registrant s Stockholders is incorporated herein by reference.

PART IV

Item 15. Exhibits and Financial Statement Schedules

(a) 1. Financial Statements

A. The following Consolidated Financial Statements of the Registrant, together with the applicable Report of Independent Registered Public Accounting Firm, are filed as a part of this report:

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
Cousins Properties Incorporated:

We have audited the accompanying consolidated balance sheets of Cousins Properties Incorporated and subsidiaries (the Company) as of December 31, 2006 and 2005, and the related consolidated statements of income, stockholders investment, and cash flows for each of the three years in the period ended December 31, 2006. Our audits also included the consolidated financial statement schedule listed in the Index at Item 15. These consolidated financial statements and consolidated financial statement schedule are the responsibility of the Company s management. Our responsibility is to express an opinion on the consolidated financial statements and consolidated financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2006 and 2005, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2006, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, such consolidated financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, present fairly, in all material respects, the information set forth therein.

As described in Note 2 to the consolidated financial statements, the Company adopted Statement of Financial Accounting Standards No. 123(R), *Share Based Payment*, on January 1, 2006, based on the modified prospective application transition method.

Also as described in Note 2 to the consolidated financial statements, the Company adopted SEC Staff Accounting Bulletin 108, *Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements*, on December 31, 2006.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of the Company s internal control over financial reporting as of December 31, 2006, based on the criteria established in Internal Control Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 28, 2007 expressed an unqualified opinion on management s assessment of the effectiveness of the Company s internal control over financial reporting and an unqualified opinion on the effectiveness of the Company s internal control over financial reporting.

See notes to consolidated financial statements.

COUSINS PROPERTIES INCORPORATED AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. ORGANIZATION AND BASIS OF PRESENTATION

Organization: Cousins Properties Incorporated (Cousins), a Georgia corporation, is a self-administered and self-managed real estate investment trust (REIT). Cousins Real Estate Corporation and its subsidiaries (CREC) is a taxable entity wholly-owned by and consolidated with Cousins. CREC owns, develops, and manages its own real estate portfolio and performs certain real estate related services for other parties.

Description of Business: Cousins, CREC and their subsidiaries (collectively, the Company) actively invest in office, multi-family, retail, industrial and land development projects. As of December 31, 2006, the Company s portfolio consisted of interests in 7.2 million square feet of office space, 4.2 million square feet of retail space, 2.0 million square feet of industrial space, a 529-unit for-sale multi-family project under development, interests in 24 residential communities under development, over 9,000 acres of strategically located land tracts held for investment or future development, and significant land holdings for development of single-family residential communities. The Company also provides leasing and management services to third-party investors; its client-services portfolio comprises 14.8 million square feet of office and retail space.

Basis of Presentation: The Consolidated Financial Statements include the accounts of Cousins, its consolidated partnerships and wholly owned subsidiaries and CREC and its consolidated subsidiaries.

The Company evaluates all partnership interests or other variable interests to determine if the venture is a variable interest entity (VIE), as defined in Financial Accounting Standards Board (FASB) Interpretation No. 46R. If a venture is a VIE and the Company is determined to be the primary beneficiary, the Company consolidates the assets, liabilities and results of operations of the VIE.

In December 2006, the Company formed a joint venture with Callaway Gardens Resorts, Inc. for the development of residential lots within the Callaway Gardens Resort. The joint venture is considered a VIE, and the Company was determined to be the primary beneficiary. As of December 31, 2006, the VIE has total assets of $1.6 million, which are consolidated in the Consolidated Balance Sheet at December 31, 2006.

Additionally, the Company holds a 50% ownership interest in Charlotte Gateway Village, LLC (Gateway), a VIE which owns and operates an office building complex in Charlotte, North Carolina. The Company determined it is not the primary beneficiary. The Company s investment in Gateway was $10.5 million at December 31, 2006, which is its maximum exposure. See Note 6 for further discussion of Gateway.

For entities that are not considered VIEs, the Company uses Statement of Financial Accounting Standards (SFAS) No. 94, *Consolidation of All Majority-Owned Subsidiaries,* Accounting Research Bulletin (ARB) No. 51, *Consolidated Financial Statements,* and Emerging Issues Task Force (EITF) No. 04-5, *Determining Whether a General Partner, or the General Partners as a Group, Controls a Limited Partnership or Similar Entity When the Limited Partners Have Certain Rights* to determine the appropriate consolidation and presentation. A description of the Company s investments accounted for under the equity method is included in Note 6.

The Company recognizes Minority Interest on its Consolidated Balance Sheets for non-wholly owned entities that the Company consolidates. The minority partner s share of current operations is reflected in Minority Interest in Income of Consolidated Subsidiaries on the Consolidated Statements of Income.

2. SIGNIFICANT ACCOUNTING POLICIES

Long-Lived Assets

Cost Capitalization: Costs related to planning, developing, leasing and constructing a property are capitalized and classified with Properties in the Consolidated Balance Sheets, in accordance with SFAS No. 67, *Accounting for Costs and Initial Rental Operations of Real Estate Projects.* Costs for development personnel who work directly on projects under construction are capitalized during the construction period. An estimate of time is obtained directly from such personnel and the Company applies a percentage of their actual salaries plus an estimate

COUSINS PROPERTIES INCORPORATED AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

of payroll-related benefits to each project under construction based on time spent on each such project. Interest is capitalized to qualifying assets under development in accordance with SFAS No. 34, *Capitalization of Interest Costs,* and SFAS No. 58, *Capitalization of Interest Cost in Financial Statements That Include Investments Accounted for by the Equity Method.* The Company capitalizes interest on average accumulated expenditures outstanding during a period on qualifying projects based first on interest incurred on specific project debt, if any, and next using the weighted average interest rate for non-project specific debt. The amount of interest capitalized does not exceed the actual interest incurred by the Company during any period presented. Interest is also capitalized to investments accounted for under the equity method when the investee has property under development with a carrying value in excess of the investee s borrowings. To the extent that there is debt at the venture during the construction period, the venture capitalizes interest using the specifics of that debt.

Interest, real estate taxes and operating expenses of properties are also capitalized based on the percentage of the project available for occupancy from the date a project receives its certificate of occupancy, to the earlier of the date on which the project achieves 95% economic occupancy or one year thereafter.

Leasing costs capitalized include commissions paid to outside brokers and outside legal costs to negotiate and document a lease agreement. These costs are capitalized as a cost of the tenant s lease and amortized over the related lease term. Internal leasing costs are capitalized utilizing guidance in SFAS No. 91, *Accounting for Nonrefundable Fees and Costs Associated with Originating or Acquiring Loans and Initial Direct Costs of Leases.* Leasing personnel are queried monthly, and the Company capitalizes their compensation and payroll-related fringe benefits directly related to time spent performing initial direct leasing activities.

Impairment: Long-lived assets include property, goodwill and other assets which are held and used by an entity. The Company evaluates the carrying value of its long-lived assets in accordance with SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, and SFAS No. 142, *Goodwill and Other Intangible Assets.* Management reviews the carrying value of long-lived assets for the existence of any other-than-temporary indicators of impairment. For long-lived assets other than goodwill, the Company recognizes impairment losses, if any, on held for use assets when the fair value, calculated as the expected undiscounted future operating cash flows derived from such assets, are less than their carrying value. In such cases, the carrying value of the long-lived asset is reduced to its fair value. Additionally, the Company recognizes impairment losses if the fair value of a property held for sale, as defined in SFAS No. 144, net of selling costs, is less than its carrying value. The Company ceases depreciation of a property when it is categorized as held for sale. The Company has recorded no such impairment losses within its consolidated entities during 2006, 2005 or 2004. The accounting for long-lived assets is the same at the Company s unconsolidated joint ventures, one of which recorded an impairment loss in 2004 on a held for sale property (see Note 6 CP Venture LLC and CP Venture Two LLC). No impairment losses were recorded by the Company s unconsolidated joint ventures in 2005 or 2006.

The Company evaluates the carrying value of its investments in unconsolidated joint ventures in accordance with Accounting Principles Board (APB) Opinion No. 18, *The Equity Method of Accounting for Investments in Common Stock.* The Company utilizes a discounted cash flow analysis and evaluates the results of that calculation to determine if an other-than-temporary impairment exists. The Company concluded that it did not have an impairment in any of its investments in joint ventures in 2006, 2005 or 2004.

The Company evaluates the carrying value of its goodwill in accordance with SFAS No. 142. The Company records no amortization of goodwill, but it is tested annually, at the same time each year (or at any point during the year if

indicators of impairment exists), for impairment using a discounted cash flow analysis. For all periods presented, the tests for impairment of goodwill did not result in any impairment. The goodwill relates entirely to the office reporting unit. As office assets are sold, either by the Company or at its joint ventures, goodwill is allocated to the cost of each sale.

Acquisition of Operating Properties: The Company allocates the purchase price of operating properties acquired to land, building, tenant improvements and identifiable intangible assets and liabilities based upon relative

Table of Contents

COUSINS PROPERTIES INCORPORATED AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

fair values at the date of acquisition in accordance with SFAS No. 141, *Accounting for Business Combinations.* The Company assesses fair value based on estimated cash flow projections that utilize appropriate discount and/or capitalization rates, as well as available market information. Estimates of future cash flows are based on a number of factors including the historical operating results, known and anticipated trends, and market and economic conditions. The values assigned to the tangible assets of an acquired property are based on the market values for land and tenant improvements and an analysis of the fair value of the building as if it were vacant. Intangible assets can consist of above or below market tenant and ground leases, customer relationships or the value of in-place leases. The values of the above and below market tenant and ground leases are recorded within Other Assets or Accounts Payable and Accrued Liabilities, in the Consolidated Balance Sheets. Above or below market tenant leases are amortized into rental revenues over the individual remaining lease terms, and above or below market ground leases are amortized into ground rent expense over the remaining term of the associated lease. The value associated with in-place leases is recorded in Other Assets and amortized to depreciation and amortization expense over the expected term (see Note 10 for further detail on Intangible Assets). On operating properties it has acquired to date, the Company has not recorded any value to customer relationships. Tangible assets acquired are depreciated using the methodology detailed below in the Depreciation and Amortization section.

Depreciation and Amortization: Real estate assets are stated at the lower of fair value or depreciated cost. Buildings are depreciated over their estimated useful lives, which approximates 15-40 years depending upon a number of factors including whether the building was developed or acquired and the condition of the building upon acquisition. Furniture, fixtures and equipment are depreciated over their estimated useful lives of three to five years. Tenant improvements, leasing costs and leasehold improvements are amortized over the term of the applicable leases or the estimated useful life of the assets, whichever is shorter. Deferred expenses are amortized over the period of estimated benefit. The Company uses the straight-line method for all depreciation and amortization.

Discontinued Operations: SFAS No. 144 also requires that assets and liabilities of held for sale properties be separately categorized on the Consolidated Balance Sheet in the period that they are deemed to be held for sale. The Company separately classified the cost basis of five ground leased outparcels in suburban Atlanta, Georgia, which were under contract for sale, to Property Held for Sale in the Consolidated Balance Sheet as of December 31, 2006. The Company had no properties classified as held for sale at December 31, 2005. Also, in accordance with SFAS No. 144, the Company records gains and losses from the disposition of certain real estate assets and the related historical operating results in a separate section, Discontinued Operations, in the Consolidated Statements of Income for all periods presented. The Company considers operating properties sold or held for sale to be discontinued operations if the Company has no significant continuing involvement, as evaluated under EITF No. 03-13, *Applying the Conditions in Paragraph 42 of FASB Statement No. 144 in Determining Whether to Report Discontinued Operations.*

Revenue Recognition

Fee Income: Development and leasing fees are recognized when earned in accordance with Staff Accounting Bulletin (SAB) No. 101, *Revenue Recognition in Financial Statements.* Development and leasing fees received from unconsolidated joint ventures and related salaries and other direct costs incurred by the Company are recognized as income and expense based on the percentage of the joint venture which the Company does not own. Correspondingly, the Company adjusts Investment in Unconsolidated Joint Ventures when fees are paid to the Company by a joint venture in which the Company has an ownership interest.

Under management agreements, the Company receives management fees, as well as expense reimbursements, which are comprised primarily of on-site personnel salaries and benefits, from third party property owners and joint venture properties, in which the Company has an ownership interest. The Company expenses salaries and other direct costs related to these management agreements. Management fees and expense reimbursements are recorded in Fee Income on the Consolidated Statements of Income in the same period as the related expenses are incurred, in accordance with EITF No. 99-19 *Reporting Revenue Gross as a Principal versus Net as an Agent* (EITF 99-19).

Table of Contents

COUSINS PROPERTIES INCORPORATED AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Reimbursements from third party and unconsolidated joint venture management contracts were $16.1 million, $15.1 million and $13.2 million for the years ended December 31, 2006, 2005 and 2004, respectively.

Rental Property Revenues: In accordance with SFAS No. 13, *Accounting for Leases*, income on leases which include scheduled increases in rental rates over the lease term (other than scheduled increases based on the Consumer Price Index) and/or periods of free rent is recognized on a straight-line basis. The Company recognizes revenues for recoveries from tenants of operating expenses the Company paid on the tenant s behalf. These operating expenses include items such as real estate taxes, insurance and other property operating costs. During 2006, 2005 and 2004, the Company recognized $13.3 million, $10.9 million and $10.8 million, respectively, in revenues for recoveries from tenants.

The Company makes valuation adjustments to all tenant-related revenue based upon the tenant s credit and business risk. The Company generally suspends the accrual of income on specific tenants where rental payments or reimbursements are delinquent 90 days or more.

Residential Lot Sales: Sales and related cost of sales of developed lots to homebuilders are recognized in accordance with the full accrual method as outlined in SFAS No. 66, *Accounting for Sales of Real Estate.* If a substantial continuing obligation exists related to the sale or any other criteria for the full accrual method is not met, the Company would use the percentage of completion method to recognize revenues on lot sales.

Multi-Family Residential Sales: Sales and related cost of sales of multi-family residential units are recognized in accordance with SFAS No. 66. Individual unit sales that meet the criteria in paragraph 37 of SFAS No. 66 are accounted for under the percentage of completion method. The Company recognizes profits on multi-family residential unit sales under the percentage of completion method when, among other factors, (1) construction is beyond a preliminary stage, which usually coincides with completion of the building s foundation and (2) buyers make sufficient non-refundable deposits under their contracts (5% of the sales price for primary residences and 10% of the sales price for secondary residences is generally considered sufficient). Sales and related cost of sales for all other unit sales are recognized as deposits until all criteria for sales recognition under SFAS No. 66 are met.

In November 2006, the FASB ratified the consensus in EITF No. 06-08, *Applicability of the Assessment of a Buyer s Continuing Investment under FASB Statement No. 66, Accounting for Sales of Real Estate, for Sales of Condominiums* (EITF 06-08), which provides guidance for determining the adequacy of a buyer s continuing investment and the appropriate profit recognition in the sale of individual units in a condominium project. EITF 06-08 requires that companies evaluate the adequacy of a buyer s continuing investment in recognizing condominium revenues on the percentage of completion method by applying paragraph 12 of Statement No. 66 to the level and timing of deposits received on contracts for condominium sales. This rule is effective for the Company on January 1, 2008, although earlier adoption is permitted. The Company does not anticipate the impact of adopting EITF 06-08 will have a material effect on its financial position or results of operations for current projects, but anticipates that the accounting under EITF 06-08 will have a material effect on the timing of revenue recognition for any future multi-family residential projects the Company undertakes.

Gain on Sale of Investment Properties: The Company recognizes gain on sale of investment properties in accordance with the provisions of SFAS No. 66. SFAS No. 66 requires that the sale be consummated, the buyer s initial and continuing investment be adequate to demonstrate commitment to pay, any receivable obtained not be subject to future subordination and the usual risks and rewards of ownership be transferred. SFAS No. 66 also requires that the

seller not have a substantial continuing involvement with the property. If the Company has a commitment to the buyer and that commitment is a specific dollar amount, this commitment is accrued and the gain on sale that the Company recognizes is reduced. If the Company has a construction commitment to the buyer, an estimate is made of this commitment and a portion of the sale is deferred until the commitment has been fulfilled.

Income Taxes

Cousins has elected to be taxed as a REIT under the Internal Revenue Code of 1986, as amended (the Code). To qualify as a REIT, Cousins must distribute annually at least 90% of its adjusted taxable income, as defined in the Code, to its stockholders and satisfy certain other organizational and operating requirements. It is management s current intention to adhere to these requirements and maintain Cousins REIT status. As a REIT, Cousins generally will not be subject to federal income tax at the corporate level on the taxable income it distributes to its shareholders. If Cousins fails to qualify as a REIT in any taxable year, it will be subject to federal income taxes at regular corporate rates (including any applicable alternative minimum tax) and may not be able to qualify as a REIT for four subsequent taxable years. Cousins may be subject to certain state and local taxes on its income and property, and to federal income taxes on its undistributed taxable income.

CREC uses the liability method of accounting for income taxes. Deferred income tax assets and liabilities result from temporary differences. Temporary differences are differences between the tax bases of assets and liabilities and their reported amounts in the financial statements that will result in taxable or deductible amounts in future periods.

In June 2006, the FASB issued FASB Interpretation No. 48, *Accounting for Income Tax Uncertainties* (FIN 48). FIN 48 defines the threshold for recognizing tax return positions in the financial statements as those which are more-likely-than-not to be sustained upon examination by the taxing authority. FIN 48 also provides guidance on derecognition, measurement and classification of income tax uncertainties, along with any related interest and penalties, accounting for income tax uncertainties in interim periods and the level of disclosures associated with any recorded income tax uncertainties. FIN 48 is effective January 1, 2007 for the Company. The Company does not anticipate the effect of adopting the provisions of FIN 48 will be material to its financial position or results of operations.

Stock-Based Compensation

The Company has several types of stock-based compensation plans which are described in Note 7. In December 2004, the FASB issued SFAS No. 123 (revised 2004) (SFAS 123R), *Share-Based Payment.* This standard requires the recognition of compensation expense for the grant-date fair value of all share-based awards granted after the date the standard is adopted, and for the fair value of the unvested portion of awards issued prior to the date the standard is adopted. The Company adopted SFAS 123R using the modified prospective method of adoption in the fiscal quarter beginning January 1, 2006. Additional disclosures related to stock-based compensation are included in Note 7. For periods prior to 2006, the Company accounted for its stock-based compensation under APB No. 25, *Accounting for Stock Issued to Employees*, and related interpretations as permitted by SFAS No. 123, *Accounting for Stock-Based Compensation.* APB No. 25 required the recording of compensation expense for some stock-based compensation, including restricted stock, but did not require companies to record compensation expense on stock options where the exercise price was equal to the market value of the underlying stock on the date of grant. Accordingly, the Company did not record compensation expense for stock options in the Consolidated Statements of Income prior to January 1, 2006, as all stock options granted have an exercise price equal to the market value of the underlying common stock on the date of grant. Compensation expense for stock-based compensation previously expensed under APB No. 25 did not materially change under SFAS 123R.

The Company uses the Black-Scholes model to value its new stock option grants under SFAS 123R. SFAS 123R also requires the Company to estimate forfeitures in calculating the expense related to stock-based compensation. In addition, SFAS 123R requires the Company to reflect the benefits of tax deductions in excess of recognized compensation cost to be reported as both a financing cash inflow and an operating cash outflow upon adoption. The effect on operating and financing cash flows was approximately $2.6 million in 2006 related to these tax benefits. The Company adopted the transition method described in FSP FAS 123R-3, *Transition Election Related to Accounting for the Tax Effect of Share-Based Payment Awards.*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The Company recognizes compensation expense arising from share-based payment arrangements (stock options, restricted stock and restricted stock units) granted to employees in general and administrative expense in the 2006 Consolidated Statements of Income over the related awards vesting period. A portion of share-based payment expense is capitalized to projects under development in accordance with SFAS No. 67. Compensation expense related to the adoption of SFAS 123R is shown in the Stock Options Only column below. Information for the Company s share-based payment arrangements for the year ended December 31, 2006 are as follows ($ in thousands, except per share amounts):

	Stock Options Only 2006	All Share-Based Compensation 2006
Expensed	$ 3,550	$ 9,983
Amounts capitalized	(997)	(2,945)
Effect on provision for income taxes	(140)	(349)
Effect on income from continuing operations and net income	$ 2,413	$ 6,689
Effect on basic earnings per share	$ 0.05	$ 0.13
Effect on diluted earnings per share	$ 0.05	$ 0.13

If the Company had applied fair value recognition provisions to options granted under the Company s stock option plans prior to January 1, 2006, pro forma results would have been as follows for 2005 and 2004 ($ in thousands, except per share amounts):

	2005	2004
Net income available to common stockholders, as reported	$ 34,491	$ 399,742
Add: Stock-based employee compensation expense included in reported net income, net of related tax effect	2,496	1,609
Deduct: Total stock-based employee compensation expense determined under fair-value-based method for all awards, net of related tax effect	(4,907)	(4,006)
Pro forma net income available to common stockholders	$ 32,080	$ 397,345
Net income per common share:		
Basic as reported	$ 0.69	$ 8.16
Basic pro forma	$ 0.64	$ 8.11
Diluted as reported	$ 0.67	$ 7.84
Diluted pro forma	$ 0.62	$ 7.82

Earnings per Share (EPS)

Basic EPS represents net income available to common stockholders divided by the weighted average number of common shares outstanding during the period. Diluted EPS represents net income available to common stockholders divided by the diluted weighted average number of common shares outstanding during the period. Diluted weighted average number of common shares is calculated to reflect the potential dilution that would occur if stock options or other contracts to issue common stock were exercised and resulted in additional common stock

COUSINS PROPERTIES INCORPORATED AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

outstanding. The income amounts used in the Company s EPS calculations are reduced for the effect of preferred dividends and are the same for both basic and diluted EPS. Share data is as follows (in thousands):

	2006	2005	2004
Weighted-average shares-basic	**50,655**	49,989	49,005
Dilutive potential common shares:			
Stock options	**1,676**	1,630	1,911
Restricted stock	**182**	128	100
Weighted-average shares-diluted	**52,513**	51,747	51,016
Anti-dilutive options at period end not included	**952**	871	918

Cash and Cash Equivalents and Restricted Cash

Cash and cash equivalents include cash and highly liquid money market instruments. Highly liquid money market instruments include securities and repurchase agreements with original maturities of three months or less, money market mutual funds and United States Treasury Bills with maturities of 30 days or less. Restricted cash primarily represents amounts restricted under debt agreements for future capital expenditures or amounts restricted under purchase agreements to be expended only for prescribed use.

New Accounting Pronouncements

In addition to the new FASB pronouncement, FIN 48, previously discussed in the Income Tax section, the Securities and Exchange Commission issued SAB No. 108, *Considering the Effects of Prior Year Misstatements When Quantifying Misstatements in Current Year Financial Statements,* in September 2006. This statement requires that registrants analyze the effect of financial statement misstatements on both their balance sheet and their income statement and contains guidance on correcting errors under this approach. The Company adopted SAB 108 on December 31, 2006 and, in accordance with the initial application provisions of SAB 108, adjusted retained earnings as of January 1, 2006. All of these adjustments were considered to be immaterial individually and in the aggregate in prior years based on the Company s historical method of determining materiality. See Note 15 for further discussion.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the accompanying financial statements and notes. Actual results could differ from those estimates.

Reclassifications

In periods prior to 2006, the Company recorded reimbursements of salary and benefits of on-site employees pursuant to management agreements with third parties and unconsolidated joint ventures as reductions of general and administrative expenses. In 2006, the Company determined that these amounts should have been recorded as revenues in accordance with EITF No. 99-19 and, accordingly, began recording these reimbursements in Fee Income on the Consolidated Statements of Income. Prior period amounts have been revised to conform to the 2006 presentation. As a result, Fee Income and General and Administrative Expenses have increased by $15.1 million in 2005 and $13.2 million in 2004 when compared to amounts previously reported.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

3. NOTES AND OTHER RECEIVABLES

At December 31, 2006 and 2005, notes and other receivables included the following ($ in thousands):

	2006	2005
Notes receivable	**$ 4,114**	$ 2,831
Cumulative rental revenue recognized on a straight-line basis in excess of revenue accrued in accordance with lease terms (see Note 2)	**7,918**	9,080
Other receivables, net of allowance for doubtful accounts of $501 in 2006 and $781 in 2005 (see Note 2)	**20,106**	28,103
Total Notes and Other Receivables	**$ 32,138**	$ 40,014

Fair Value At December 31, 2006 and 2005, the estimated fair value of the Company s notes receivable was $4.0 million and $2.7 million, respectively, calculated by discounting future cash flows from the notes receivable at estimated rates at which similar loans would have been made at December 31, 2006 and 2005.
